1990 Family Food Expenditure Survey Public-Use Microdata File Version 1

Family Expenditure Surveys Section Household Surveys Division Statistics Canada

Ce document est disponible en frantais sur demande

April 20, 1993

INTRODUCTION

This public-use microdata tape is the latest available using Canadian Family Food Expenditure Survey data. The survey was carried out throughout 1990.

The Family Food Expenditure Survey of 1990 is the first since 1986. The 1990 survey was designed to provide information for persons living in private households in the 17 metropolitan areas of Canada. In contrast, the coverage of the 1986 survey included both urban and rural areas in the ten provinces of Canada, as well as Whitehorse and Yellowknife. For confidentiality reasons, data from Whitehorse and Yellowknive were excluded from the 1986 file. Users should note that data on full budget expenditure for 1990 were collected in a separate

survey. The Food Survey had the same coverage as the Survey of Family Expenditure of 1990. A public-use tape has also been produced of the Survey of Family Expenditure. Records from Charlottetown and Summerside have been excluded from both the 1990 files.

This documentation of the tape is intended to help users interpret food expenditure data correctly. Following the introduction is the section on the public-use microdata summary file which is split into three sub-sections. The first sub-section is the technical characteristics of the summary file which provides a physical description of the file. This is followed by the record layout. The record layout gives the basic content of the summary file with the names of the items, their field number and position on the file. The summary

file contains the household description, income, and summary expenditure information. There is one record for each weekly diary reported (a maximum of two per household). The section called "Variable Descriptions of the Summary File" gives the components of each item, the area in the questionnaire or diary from which the variable was derived, and clarifying notes if needed.

Following the information on the summary file is information on the detailed item file. This data set records the items purchased (expenditures and quantities). The technical characteristics and the record layout of this file are followed by the "Variable Descriptions of the Detailed Item File". The total of the

purchases of an item by a household in a week in a type of store constitute one record. If a household made no purchases of an item no record will be present for that item.

Appendix A shows summary family food expenditure information by region and household income. These tables show information before and after the reweighting and changes to some variables, which were done to safeguard the identity of respondents. Also, to illustrate the effect of the complex sample design, the standard errors for average expenditures are shown based on a technique which allows for the sample design.

Appendix B shows the 1990 Detailed Food Codes which were used in the detail item file and the units of measure for the items. Also in this table are the average expenditures and quantities calculated after reweighting.

Copies of the questionnaires used to collect the expenditure data are included with the package. There are two documents in each official language. The questionnaire or schedule (FE2) was used to list all members of the household along with some of their characteristics and to collect selected socio-economic characteristics (including income) of the household, as well as purchasing habits and food expenditures while away from home last month. The diary (FE3) was used to collect detailed quantity and expenditure information on the day-to-day purchases of food by the household.

It is recommended that, as well as reading this documentation, users read the copy of "Family Food Expenditure in Canada, Catalogue 62-554" which contains further information on the survey as well as tabulated results. A copy of the User's Guide for 1990 is included with each tape.

VARIABLE DESCRIPTIONS OF THE SUMMARY FILE

LOCATION

IDENTIFICATION NUMBER

This variable is a unique five-digit number which identifies each household on the file. The numbers begin at 00001 and end at 8,890. Duplicate record numbers will be on the file for all records with two completed diaries. The file is sorted by geographic code (field 5) and income before taxes (field 36) (i.e. income within geographic code). The geographic code were made equal to zero for 12 extreme records. These records will be numbered 00001 to 00012. The lowest income in the Atlantic provinces will have number 00013 and the highest income in British Columbia would have the largest identification number.

WEEK

- 1 Diary completed during the first week after the interview
- 2 Diary completed during the second week

OUARTER

Code Classification

- 1 Quarter 1 January February March
- 2 Quarter 2
 April
 May
 June
- 3 Quarter 3
 July
 August
 September
- 4 Quarter 4 October November December

FOOD SURVEY WEIGHT

In order to provide estimates applicable to the population in the 17 metropolitan areas, it is necessary to weight each record by a weighting factor. This weighting factor reflects the variation in sampling and response rates between geographic areas and household types. As compared with previously released results, records have been reweighted to mask location within region categories. reweighting process has attempted to minimize the differences between the averages and aggregates before and after reweighting. The revised weights were formed where necessary by averaging the weights between records within geographical areas. As was noted in the description of the identification number the geographic code of 12 records were suppressed. The weights of these records were also adjusted. Tabulations of average income and expenditure by various classifying variables before and after the reweighting of records are presented in Appendix A. The differences in the values are attributable to the reweighting of records.

GEOGRAPHIC CODE (Region)

- 0 Masked Record
- 1 Atlantic Provinces includes Newfoundland Prince Edward Island Nova Scotia New Brunswick
- 2 Quebec

- 3 Ontario
- 4 Manitoba and Saskatchewan
- 5 Alberta
- 6 British Columbia

HOUSING

LIVING QUARTERS OCCUPIED BY HOUSEHOLD

Code Classification 1 Single House 2 Semi-detached or Double House 3 Row House 4 Duplex 5 Apartment 6 Other

Source

FE2 (schedule) Section B. Characteristics of Dwelling Occupied by household, question 1.

CLASS OF TENURE

Code	Classification

- 1 Homeowner Without Mortgage
- 2 Homeowner With Mortgage
- 3 Tenants Regular
- 4 Tenants Roomers and Rent-free

Source

FE2 (schedule) Section B. Characteristics of Dwelling Occupied by household, question 2.

CHARACTERISTICS OF REFERENCE PERSON

Note:

Household reference person. The member of the household listed on the questionnaire as mainly responsible for its financial maintenance or where all persons share equally in financial maintenance, any member may be designated the reference person. The reference person had to have been a member of the household at December 31 of the reference year.

MARITAL STATUS

Code Classification

- Single (Never Married)
- 3 Other

Source:

FE2 (schedule) Section A. Household Composition, question (column) 6.

Note:

To be classified as married the spouse must be a member of the household. Even if the reference person was legally married the marital status would be "other" if there was no spouse present.

AGE

Code Classification

- 24 Age 24 years and under
- 25-75 Actual age
 - 76 Age 76 years and over

Source:

FE2 (schedule) Section A. Household Composition, question (column) 4.

OCCUPATION

Code Classification

- 1 Managerial and Administrative
- 2 Professional and Technical
- 3 Teaching
- 4 Clerical
- 5 Sales
- 6 Services
- 7 Farming, Fishing, Forestry and Logging Operations
- 8 Mining, Processing and Machining
- 9 Product Fabricating, Assembling and Repair
- 10 Construction
- 11 Other Occupations
- 12 Not Working, Including Retired
- 13 Not Stated

Source:

FE2 (schedule) Section A. Household Composition, question

(column) 7.

Note:

The code is determined by the occupation for the longest period during the 12 months preceding the interview. If the person was not working or retired for the longest period but not the full year then the classification would not be 12 but one of the other codes. The codes are determined as per the Standard Occupational Classification (S.O.C.) code:

see following page

EXPLANATION OF OCCUPATION GROUPS:

Code Classification

- Major Groups (codes and classifications from S.O.C.)
- 1 Managerial and Administrative
 - 11 Managerial, Administrative and Related Occupations
- 2 Professional and Technical
 - 21 Occupations in Natural Sciences, Engineering & Mathematics
 - 23 Occupations in Social Sciences and Related Fields
 - 25 Occupations in Religion
 - 31 Occupations in Medicine and Health
 - 33 Artistic, Literary, Recreational and Related Occupations
- 3 Teaching
 - 27 Teaching and Related Occupations
- 4 Clerical
 - 41 Clerical and Related Occupations
- 5 Sales

HOUSEHOLD DESCRIPTION

HOUSEHOLD COMPOSITION

Code Classification

- 1 One-person households
- 2 Married-couple households only
- 3 Married-couple households with single children only
- 4 Married-couple households with relatives only
- 5 Married-couple households with at least one non-relative
- 6 Lone-parent family only
- 7 Other households with relatives only
- 8 Other non-married-couple households

Source:

FE2 (schedule) Section A. Household Composition, question (column) 3, 4 and 6.

Note:

- $\mbox{-}$ to be a married-couple household, the reference person and the spouse must have been members at the time of interview;
- to be a lone-parent family (Code 6) there must have been only one parent a member at the time of interview;
- codes 3 and 6 consist only of parent(s) and never-married sons and daughters.

TOTAL HOUSEHOLD SIZE

This includes...

Total Adults 65 Years and Over

Total Adults 16 to 64 Years

Total Children 5 to 15 Years

Total Children under 5

Source:

FE2 (schedule) Section A. Household Composition, question (column) 4.

Note:

- includes all persons who were members of the household at the time of the interview, even though they may not be present during the interview. The age is as of the day of the interview.

NUMBER OF PERSONS AT HOME

Source:

FE2 (schedule) Section A. Household Composition, question (column) 4.

FE3 (diary) page 23, question 2.

Note:

- the number of persons in the household adjusted for the number of nights any members spent away from home overnight or longer during the survey week.
- this field has two implied decimals.

NUMBER OF FULL-TIME EARNERS

Code Classification

- 0-2 Actual number of full-time earners
 - 3 3 or more full-time earners

Source:

FE2 (schedule) Section E. Personal Income in the past 12 months, question 1.

Note:

- a full-time earner is one who has worked more than 48 weeks, of which at least 25 weeks must be full-time employment.

NUMBER OF PART-TIME EARNERS

Code Classification

- 0-2 Actual number of part-time earners
 - 3 3 or more part-time earners

Source:

 ${\tt FE2}$ (schedule) Section E. Personal Income in the past 12 months, question 1.

Note:

A part-time earner is one who has worked between 1 and 48 weeks, or less than 25 weeks as a full-time earner if he works more than 48 weeks.

NUMBER OF ECONOMIC FAMILY

Code Classification

- 1-2 Actual number of economic families (EF) in the household
 - 3 3 or more economic families (EF) in the household

An economic family unit is one where there is at least one person in the household who is related to the reference person by blood, marriage or adoption;

NUMBER OF U.I. RECIPIENTS

Code Classification

- 0-1 Actual number of members of the household who received U.I.C. benefits
 - 2 or more members of the household received U.I.C benefits

Source:

FE2 (schedule) Section E. Personal Income in the past 12 months, question 12.

SOCIAL ASSISTANCE INDICATOR

Code Classification

- No member of the household received social assistance benefits
- 1 At least one member of the household received social assistance benefits

Source:

FE2 (schedule) Section E. Personal Income in the past 12 months, question 13.

INCOME BEFORE TAXES

This includes income from the following sources

Wages and salaries
Income from self-employment
Investment income
Government transfer payments
Miscellaneous income

Source:

 ${\tt FE2}$ (schedule) Section E. Personal Income in the past 12 months, questions 2 to 17.

Note:

- includes incomes of all members of the household;
- this does not refer to calendar year 1990 income: The income from the Food Survey refers to varying income periods ranging approximately from the previous calendar year for the January sample to the 1990 calendar year for the December sample. The inability of some respondents to provide good estimates of income from some of the sources over a non-standard period appears to further bias the
- there are some differences between the Survey of Consumer Finances (SCF) and this survey (FOOD):

- In both surveys respondents report gross income from roomers and boarders. In SCF only one third is included in net receipts while FOOD includes all of the gross receipts;
- In the treatment of interest income FOOD explicitly requires interest received, whereas for SCF the requirement is not explicit;
- SCF excludes households whose major source of income is military pay and allowances whereas for FOOD only military personnel living in barracks are excluded;
- wages and salaries includes employment income including military pay and allowances and salary paid to owner of incorporated business. Income from self-employment includes net profit to proprietor or partner of unincorporated business or farm and gross income from roomers and boarders. Investment income includes interest and dividends, net rents on owned property, trust and estate income. Government transfer income includes family allowances, unemployment insurance, old age security, guaranteed income supplement, Canada or Quebec Pension Plan, social assistance and child tax credits. Miscellaneous income includes pensions arising out of previous employment, individually purchased annuities and other money income.
- This field may be negative.

INCOME FROM WAGES AND SALARIES

This includes income from the following sources

Wages and salaries Military pay and allowances

Source

FE2 (schedule) Section E. Personal Income in the past 12 months, questions 2 and 3.

Note:

- includes incomes of all members of the household;
- wages and salaries includes employment income including military pay and allowances and salary paid to owner of incorporated business.

INCOME FROM SELF-EMPLOYMENT

This includes income from the following sources

Net income from non-farm self-employment Net income from farm self-employment Gross income from roomers and boarders

Source:

 ${\tt FE2}$ (schedule) Section E. Personal Income in the past 12 months, questions 4 and 5.

Note:

- includes incomes of all members of the household;
- income from self-employment includes net profit to proprietor or partner of unincorporated business or farm and gross income from roomers and boarders;
- this field may be negative.

INCOME FROM INVESTMENT

This includes income from the following sources

Interest on bonds, deposits, etc.
Dividends
Other income from investments

Source:

FE2 (schedule) Section E. Personal Income in the past 12 months, questions 6 to 8.

Note:

- includes incomes of all members of the household;
- investment income includes interest and dividends, net rent on owned property, trust and estate income;
- this field may be negative.

INCOME FROM GOVERNMENT TRANSFER PAYMENTS

This includes income from the following sources

Family Allowances including Federal Child Tax Credit Old Age Security, Guaranteed Income Supplement Canada/Quebec Pension Plan benefits Unemployment Insurance Social assistance and provincial income supplements Other income from government sources

Source:

FE2 (schedule) Section E. Personal Income in the past 12 months, questions 9 to 14 and 17.

VARIABLE DESCRIPTIONS OF THE DETAILED ITEM FILE

IDENTIFICATION NUMBER

See definition in "Variable Descriptions of the Summary File". Every expenditure made $\,$

by a given household will have the same identification number.

WEEK

Code Classification

- Diary completed during first week after interview
- 2 Diary completed during second week

CODE

Each food item has a unique code. For a complete list of the codes and their

respective items, see Appendix B.

TYPE OF STORE

Code Classification

- 1 Food specialty store
- 2 Convenience store
- 3 Supermarket
- 4 Other store

Source:

FE3 (diary). Food and Beverages Purchased from Stores.

Note:

- food specialty stores are retail stores which offer a wide variety of a limited number of items. Included in this group are butcher shops, fresh produce stores, bakery shops, fish markets, candy and nut stores, delicatessens, health food stores, and soft drink outlets. Outdoor farmers' markets or stands are also included in this group, as are frozen food provisioners.
- convenience stores are retail stores which offer a limited variety of a general line of groceries (food and non-food items). These stores normally have extended hours.
- supermarkets are retail stores which offer a wide variety of most grocery items (food and non-food). Retail co-operatives are included in this group.
- other stores are any other type of retail outlet involved in selling food items.

OUANTITY

Net weight or volume. May be in litres, kilograms or number of units. There are

three (3) implied decimals in this field.

Source:

FE3 (diary). Food and Beverages Purchased from Stores.

EXPENDITURE

Total amount spent on this item in the given week at the type of store. Amount $% \left(1\right) =\left(1\right) +\left(

measured in cents (U).

Source:

FE3 (diary). Food and Beverages Purchased from Stores.

WEIGHT

See definition in "Variable Descriptions of the Summary File".
