Introduction

This report presents a series of tables from the first release of data from the 2001 Aboriginal Peoples Survey (APS). For a detailed analysis, please see "Well-Being of the non-reserve Aboriginal population: Initial findings of the 2001 Aboriginal Peoples Survey" (Catalogue no. 89-589-XIE)

Data in these tables are for the Aboriginal identity non-reserve population. With the exception of the Northwest Territories, those living on reserve are not included in these tables. Data for the Northwest Territories are for the total non-reserve and on-reserve population. See the Definitions Section for more details.

Questions or comments pertaining to this report should be addressed to:

Table 1.1

Self-rated health status by age group for the Aboriginal identity non-reserve population 15 years and over for Canada, Aboriginal Peoples Survey 2001^{1,2,3}

	Total self-rated health status ⁴		Excellent or very good		Good		Fair or poor		Invalid or not stated	
	Number	%	Number	%	Number	%	Number	%	Number	%
Total Aboriginal identity non-reserve population aged 15+	547,870	100.0	308,530	56.3	144,830	26.4	94,220	17.1	300^E	0.0^E
15-24	136,750	100.0	94,640	69.2	33,640	24.5	8,400	6.1	80 ^E	0.0 ^E
25-34	120,060	100.0	77,500	64.5	30,800	25.6	11,660	9.7	100 ^E	0.0 ^E
35-44	131,440	100.0	72,970	55.5	36,440	27.7	21,990	16.7	x	x
45-54	86,670	100.0	39,880	46.0	23,990	27.6	22,780	26.2	x	x
55 and over	72,940	100.0	23,540	32.2	19,960	27.3	29,390	40.2	x	x

¹ Excludes the population that did not answer the Health Section of the APS questionnaire and those with invalid or unstated ages.

² Aboriginal Identity population includes those people who reported on the APS at least one of the following: 1) Identification as North American Indian, Métis and/or Inuit; 2) Registered Indian status and/or; 3) Band membership.

³ Non-reserve population includes Aboriginal people that do not live on Indian reserves, with the exception of the Northwest Territories, in which case the total (on and non-reserve) Aboriginal population is included.

⁴ The sum of the values of each category may differ from the total due to rounding.

Source: Statistics Canada, Aboriginal Peoples Survey, 2001.

Table 1.2

Self-rated health status by age group for the Aboriginal identity non-reserve population 15 years and over for Atlantic provinces, Aboriginal Peoples Survey 2001^{1,2,3}

	Total self-rated health status ⁴		Excellent or very good		Good		Fair or poor		Invalid or not stated	
	Number	%	Number	%	Number	%	Number	%	Number	%
Total Aboriginal identity non-reserve population aged 15+⁵	32,430	100.0	19,150	59.0	7,720	23.8	5,560	17.1	x	x
15-24	7,610	100.0	5,420	71.2	1,320	17.3	870 ^E	11.4 ^E	x	x
25-34	6,910	100.0	4,600	66.5	1,490	21.5	820 ^E	11.8 ^E	x	x
35-44	7,550	100.0	4,270	56.5	2,260	29.9	1,030 ^E	13.6	x	x
45-54	5,610	100.0	2,930	52.2	1,470	26.2	1,210	21.5	x	x
55 and over	4,740	100.0	1,940	40.9	1,170 ^E	24.6	1,630	34.3	x	x

¹ Excludes the population that did not answer the Health Section of the APS questionnaire and those with invalid or unstated ages.

² Aboriginal Identity population includes those people who reported on the APS at least one of the following: 1) Identification as North American Indian, Métis and/or Inuit; 2) Registered Indian status and/or; 3) Band membership.

³ Non-reserve population includes Aboriginal people that do not live on Indian reserves.

⁴ The sum of the values of each category may differ from the total due to rounding.

⁵ Data from Newfoundland and Labrador, Prince Edward Island, Nova Scotia and New Brunswick are aggregated into the category "Atlantic Provinces".

Commonly reported chronic conditions⁴:		
Arthritis or rheumatism	590	15.0
High Blood Pressure	490	12.5
Asthma	370	9.4
Stomach problems or intestinal ulcers	460	11.7
Diabetes	210 ^E	5.3 ^E
Heart Problems	230	5.9

¹ Excludes the population that did not answer the Health Section of the APS questionnaire and those with invalid or unstated ages.

² North American Indian identity population includes those who reported identifying as North American Indian (either as a single response or in combination with Métis and/or Inuit).

³ Non-reserve population includes North American Indian people that do not live on Indian reserves.

⁴ Chronic conditions are health problems that have been diagnosed by a health professional and have lasted or are expected to last 6 months or more. Respondents may have reported more than one chronic condition.

Source: Statistics Canada, Aboriginal Peoples Survey, 2001.

Table 6.10

Commonly reported chronic conditions for the total North American Indian identity population 15 years and over for Northwest Territories, Aboriginal Peoples Survey 2001^{1,2}

	Number	%
Total North American Indian identity population 15+	7,650	100.0
Commonly reported chronic conditions³:		
Arthritis or rheumatism	830	10.8
High Blood Pressure	490	6.4
Asthma	380	5.0
Stomach problems or intestinal ulcers	590	7.7
Diabetes	240	3.1
Heart Problems	220	2.9

¹ Excludes the population that did not answer the Health Section of the APS questionnaire and those with invalid or unstated ages.

² North American Indian identity population includes those who reported identifying as North American Indian (either as a single response or in combination with Métis and/or Inuit).

³ Chronic conditions are health problems that have been diagnosed by a health professional and have lasted or are expected to last 6 months or more. Respondents may have reported more than one chronic condition.

Table 7.1

Residential school attendance by age group for the North American Indian identity non-reserve population 15 years and over for Canada, Aboriginal Peoples Survey 2001^{1,2,3,4,5}

	Total Population ⁶		Attended residential school		Did not attend residential school		Not stated / refused	
	Number	%	Number	%	Number	%	Number	%
Total Aboriginal identity non-reserve population aged 15+	294,720	100.0	24,870	8.4	263,080	89.2	6,760	2.2
15-34	138,100	100.0	4,750	3.4	130,400	94.4	2,960	2.1
35-44	73,360	100.0	6,160	8.3	65,170	88.8	2,030 ^E	2.7 ^E
45-54	46,730	100.0	6,680	14.2	39,150	83.7	890 ^E	1.9 ^E
55 and over	36,530	100.0	7,280	19.9	28,360	77.6	880 ^E	2.4 ^E

¹ The national total includes North American Indian people living in all provinces and territories.

² Excludes the population that did not answer the Education Section of the APS questionnaire, those with invalid or unstated ages, and those who never attended school.

³ Data are for the non-reserve population only. Among those not included here are those that live on-reserve, in institutions, outside of Canada along with others.

⁴ Non-reserve population includes North American Indian people that do not live on Indian reserves, with the exception of the Northwest Territories, in which case the total (on and non-reserve) North American Indian population is included.

⁵ North American Indian Identity population includes those people who reported identifying as North American Indian (either as a single response or in combination with Métis and/or Inuit)

⁶ The sum of the values of each category may differ from the total due to rounding.

Note: Estimates at the territorial level for Nunavut are not available.

Arthritis or rheumatism	46,110	19.5
High Blood Pressure	30,060	12.7
Asthma	27,580	11.7
Stomach problems or intestinal ulcers	24,770	10.5
Diabetes	14,040	5.9
Heart Problems	16,170	6.8

¹ The national total includes Métis people living in all provinces and territories.

² Excludes the population that did not answer the Health Section of the APS questionnaire.

³ The Métis identity population includes those who reported identifying as Métis (either as a single response or in combination with North American Indian and/or Inuit).

⁴ Non-reserve population includes Métis people that do not live on Indian reserves, with the exception of the Northwest Territories, in which case the total (on and non-reserve) Métis population is included.

⁵ Chronic conditions are health problems that have been diagnosed by a health professional and have lasted or are expected to last 6 months or more. Respondents may have reported more than one chronic condition.

Note: Estimates at the territorial level for the Yukon and Nunavut are not available.

Diabetes	240 ^E	1.8 ^E
Heart Problems	670	5.0

¹ Excludes the population that did not answer the Health Section of the APS questionnaire.

² The Inuit identity population includes those who reported identifying as Inuit (either as a single response or in combination with North American Indian and/or Métis).

³ Chronic conditions are health problems that have been diagnosed by a health professional and have lasted or are expected to last 6 months or more. Respondents may have reported more than one chronic condition.

45-54	3,160	100.0	1,380	43.7	1,660	52.5	120 ^E	3.8 ^E
55 and over	1,580	100.0	470	29.7	1,030	65.2	x	x

¹ The national total includes Inuit living in all provinces and territories.

² Excludes the population that did not answer the Education Section of the APS questionnaire, those with invalid or unstated ages, and those who did not attend school.

³ Data are for the non-reserve population only. Among those not included here are those that live on-reserve, in institutions, outside of Canada along with others.

⁴ Non-reserve population includes Inuit that do not live on Indian reserves, with the exception of the Northwest Territories, in which case the total (on and non-reserve) Inuit population is included.

⁵ The Inuit identity population includes those people who reported identifying as Inuit (either as a single response or in combination with North American Indian and/or Métis).

⁶ The sum of the values of each category may differ from the total due to rounding.

Note: Estimates at the provincial/ territorial level for Newfoundland and Labrador, Québec, Northwest Territories and Nunavut only.

Methods

The 2001 Aboriginal Peoples Survey was conducted in the fall of 2001 through the spring of 2002 by Statistics Canada in partnership with national Aboriginal organizations. The primary objective of the 2001 APS was to provide data on the social and economic conditions of Aboriginal people in Canada. More specifically, its purpose was to identify the needs of Aboriginal people and focus on issues such as health, language, employment, income, schooling, housing, and mobility.

APS covers residents of private dwellings in the 10 provinces and three territories. All residents of collective dwellings¹ are excluded from the survey.

APS is a post-censal survey, meaning that respondents were selected based upon their responses to the 2001 Census. The APS Aboriginal population included those who said they identified as an Aboriginal person, and/or had Aboriginal ancestry, and/or First Nations membership and/or registration under the Indian Act.

The overall response rate for the survey was 84% with a sample size of approximately 117,000 people, including adults and children.

Data Limitations

Sampling Errors

The estimates that can be derived from this survey are based on a sample of individuals. In order to provide estimates of sampling error for statistics produced in APS, the bootstrap method was used.

Definitions

Aboriginal identity population

The Aboriginal identity population refers to those people who reported on the APS having: 1) North American Indian, Métis and/or Inuit identity and/or 2) registered Indian status as defined by the *Indian Act* and/or 3) Band membership.

Non-reserve population

The non-reserve population includes Aboriginal people that do not live on Indian reserves. For the purposes of these tables, the total Aboriginal identity population of the Northwest Territories is also included.

Self-rated health status

This information is based on the following question: "In general, would you say your health is...excellent, very good, good, fair or poor?".

Chronic Condition

A chronic condition is a health condition that had been diagnosed by a health-care professional and had lasted, or was expected to last, at least six months.

¹ Collective dwellings include lodging or rooming houses, hotels, motels, tourist homes, nursing homes, hospitals, staff residences, communal quarters (military camps), work camps, jails, missions, group homes and so on.
