Coverage: RESPONDENTS WHO HAD NO JOB OR BUSINESS TO WORK AT LAST WEEK

Note: NEGATIVE VALUES MEAN THAT THE START OF WORK WAS BEFORE THE END OF
         STUDIES. DERIVED FROM FJAGMOS. NOTE THAT THE RESPONSES MAY NOT BE
         RELIABLE; IT APPEARS SOME RESPONDENTS UNDERSTOOD QUESTION C06 OR C42
         AS MEANING "THE FIRST JOB STARTED AFTER COMPLETING STUDIES", WHEREAS
         THE QUESTION WAS SUPPOSED TO MEAN "THE FIRST JOB HELD AFTER COMPLETING
         STUDIES" MEANING THAT IT COULD HAVE STARTED BEFORE COMPLETION OF
         STUDIES.

	======	==========
	30,816	223,008

Coverage: Respondents with one job or respondents with more than one job but
          their main job was with the confirmed employer. These respondents
          have changed their activities or duties since June 1992 or their
          occupation was incorrect.

Note: The range of values is from A011.0011 to J319.9619. For an expanded
          list of codes, please refer to the Follow-up of 1990 Graduates Survey
          Documentation or for major groups, please refer to B15NOCR. In cases
          where descriptions were incomplete but could be coded to a major group
          level, partial codes will be present. The partial code will contain an
          X in the unit and/or minor group level where complete codes could not
          be assigned.

This variable is suppressed on the public use microdata file.

Harmonization Code 1 for minor groups harmonizes university field of study
codes (USIS) and community college and trade-vocational field of study codes
(CCSIS) to Census field of study codes. Census field of study codes are
applicable for all graduates. These codes facilitate comparison of NGS
findings with those of other Statistics Canada surveys and the Census of
Population. For a complete list of codes please refer to B21ACD1 or Appendix B
in the Follow-up of 1990 Graduates documentation.

Harmonization Code 2 for major groups harmonizes university field of study codes (USIS) and community college and trade-vocational field of study codes (CCSIS) to Census field of study codes. Census field of study codes are applicable for all graduates. These codes facilitate comparison of NGS findings with those of other Statistics Canada surveys and the Census of Population. For a complete list of codes please refer to B21ACD1 or Appendix B in the Follow-up of 1990 Graduates documentation.

Derived variable: **PATH**   *Position:* 2401   *Length:* 002

The Path variable signifies what general path the respondent followed within
the FOG90 questionnaire in completing the interview. For example, if a
respondent answered "significant" questions in only sections A, E, G, H and I
of the questionnaire, a specific code would indicate that. Other codes would
indicate that other paths had been followed. It should be noted that all
respondents answer sections H and I, so these sections are not included in the
paths identified. Even though ultimately some paths are the same with respect
to the sections travelled through, they may have been reached in different
ways. It has been decided that in these cases, distinct codes will be assigned
to reflect this.

Note: The path "D1" indicates that the respondent had only 1 job for which
         they answered questions in section D and "D2" indicates 2 jobs.
         Similarly, "E1" is for 1 job in section E, "E2" for 2 jobs in section
         E and "E3" is for 3 jobs in section E.
         Questionnaire content sections are as follows: A-Last week (labour
         force activity); B-Details of continuous job (same as in 1992);
         C-Details of current main job (last week job not the same as in 1992);
         D-Other job information for people who are currently employed; E-Other
         job information for people who are not currently employed; F-Currently
         working with more than 2 previous jobs or not currently working with
         more than 3 previous jobs; G-Activities in 1994; H-Education;
         I-General

Harmonization Code 1 for minor groups harmonizes university field of study
codes (USIS) and community college and trade-vocational field of study codes
(CCSIS) to Census field of study codes. Census field of study codes are
applicable for all graduates. These codes facilitate comparison of NGS
findings with those of other Statistics Canada surveys and the Census of
Population. For major groups, please refer to B21ACD2.
