Introduction

1. CCHS content is comprised of three components:
 - a. **Core content** is asked of all respondents, annual core content remains relatively stable over time while other common modules are asked for one or two years and alternate from year to year;
 - b. **Optional content** is chosen by health regions and is usually coordinated at the provincial level.
 - c. **Rapid Response** modules are cost-recovery projects asked of all respondents living in the ten provinces usually for one collection period (2 months).
2. Question text in **bold** font is read to the respondent. Text in normal font is not read to the respondent. Interviewer instructions are prefaced by the word "INTERVIEWER", and are not read aloud.
3. Question text in **bold** font enclosed by brackets () is read to the respondent at the discretion of the interviewer.
4. The options "Don't Know" (DK) and "Refusal" (RF) are allowed on every question unless otherwise stated. However, the response categories are not read aloud.
5. External variable names are displayed in the questionnaire. Those names, highlighted in grey, are used in the microdata files.

Health utility index (HUI)

HUI_BEG Theme content

The Health Utility Index (HUI) is formed of 8 attributes. In CCHS, these attributes are found in two different modules. The module Pain and discomfort (HUP) is comprised of 3 questions related to the pain and discomfort attribute and is part of the core content which is asked to all survey respondents. The 7 other attributes are found in the module Health Utility Index (HUI). In 2009-2010, this module is also asked to all respondents as part of the theme content.

HUI_C1 If (do HUI block = 2), go to HUI_END.
Otherwise, go to HUI_R1.

HUI_R1 **The next set of questions asks about ^YOUR2 day-to-day health. The questions are not about illnesses like colds that affect people for short periods of time. They are concerned with a person's usual abilities.**

You may feel that some of these questions do not apply to ^YOU2, but it is important that we ask the same questions of everyone.
