List of ASCII, SAS ® and SPSS ® Files

The following files can be accessed with your file manager.

ASCII File	Name	Size
Data File …….....……………….……….……….…………	HS.txt	181,076 KB

SAS ® Files	Name	Size
File Format…………………………….............………	HS_fmt.sas	29 KB
File Input……………………………….........………	HS_i.sas	66 KB
File Labels in English * ……………….................………	HS_lbe.sas	91 KB
File Labels in French * ……………….................………	HS_lbf.sas	91 KB
File Proc Format in English……………….............………….	HS_pfe.sas	166 KB
File Proc Format in French………………….........…………	HS_pff.sas	166 KB
Readme……………………………………………………	Readfile.sas	2 KB

SPSS ® Files	Name	Size
File Input ……………………………….........…………	HS_i.sps	28 KB
File Value Labels in English………….........…………………	HSvale.sps	756 KB
File Value Labels in French…………….........……………..	HSvalf.sps	756 KB
File Variable Labels in English * …………….........…………	HSvare.sps	86 KB
File Variable Labels in French * ………….........……………	HSvarf.sps	86 KB
File – missing values………………………………………..	Hsmiss.sps	86 KB
Readme……………………………………………..	Readfile.sps	2 KB

* SAS ® and SPSS ® label files are an electronic version of the variable name and the concept field from the data dictionary. The concept field in some variables has been shortened for use as a SAS or SPSS variable label.

The ASCII files contain decimal points coded in the data. The decimal symbol on your system MUST be the dot (variables with decimals would otherwise be converted to missing). Follow the appropriate steps for your Operating System to do so. An example is as follows:
Start
Settings _ Control Panel
Regional Settings
Number
Decimal Symbol

For more information concerning these files, please consult the User's Guide located under the Documentation Button.
