

## **Feedback**

We would appreciate receiving your comments on the KLEMS data you accessed through the Data Liberation Initiative of Statistics Canada. Your comments will help us to improve the ability of the database to respond more adequately to the needs of the academic community.

We indicate, as reference, some subjects you may want to comment on:

- Inconsistencies in the data ;
- Data quality ;
- Ease of use ;
- Comprehensiveness of the data.

In the same spirit, we would like to get a copy of the research documents produced by the professors and researchers of your institution to understand how you have used the KLEMS data.

We suggest that you provide your comments to us by using the system established by the Data Liberation Initiative.

Thank you for your cooperation.
