

10. LABOUR FORCE SURVEY QUESTIONNAIRE

The LFS application consists of several questionnaire components, each of which is summarized below. For simplicity (i.e., as a result of the complexity of the logic within the application), not all possible questions and flows are presented. This is especially the case within the Contact Component where the scope of possible questions and flows is somewhat greater than that summarized below.

Selected dwellings are in the survey for six consecutive months. A birth interview corresponds to the first interview for a new household, and is usually conducted in person. Some birth interviews are now also conducted by telephone from centralized CATI work sites. Subsequent interviews are conducted in the following months, and are usually done by telephone.
