CTS DATA DICTIONARY

Beyond 20/20 files: There are six different extracts.

1) PERSON file: The extract is called PERS.IVX.

2) PERSON-TRIP file: The extract is called PTRI.IVX

3) VISIT files: There are four VISIT files.
   - The extract representing the VISIT file at the province level is called VIPR.IVX.
   - The extract representing the VISIT file at the Census Metropolitan Area level is called VCMA.IVX.
   - The extract representing the VISIT file at the Census Division level is called VICD.IVX.
   - The extract representing the VISIT file at the tourism region level is called VITR.IVX.

Microdata files: There are seven different datasets.

Since there are 12 files representing each month for each dataset, all the files are identified as such. For example, the January PERSON file would be called PERS9701.DAT, the February file is called PERS9702.DAT, etc.

1) PERSON file: The microdata files are all called PERS97__.DAT.

2) TRIP file: The microdata files are all called TRIP97__.DAT.

3) PERSON-TRIP file: The microdata files are all called PTRI97__.DAT.

4) VISIT files: There are four different VISIT files for each month.
   The microdata files representing the VISIT file at the
   - province level are all called PROV97__.DAT.
   - Census Metropolitan Area level are all called CMA97__.DAT.
   - Census Division level are all called CDIV97__.DAT.
   - Tourism region level are all called TREG97__.DAT.

_HHTRWT
Long variable name: Household-trip weight
Description:
Household-trip weight. The household-trip weight can be associated with the trip characteristics as well as the expenditures information.   It *cannot* be associated with socio-demographic characteristics of the respondents. The household-trip weight is to be used to measure the number of household-trips taken and reported expenditures.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP file. This field is always set at 0 for child records.

_PERSWT
Long variable name: Person weight
Description:
Person weight. It can be associated with all the socio-demographic variables describing the respondent. Used with the person records, the user can get a socio-demographic profile of travellers and non-travellers or calculate travel incidences. The person weight *cannot* be used to measure the volume of person-trips.

Note: This variable is included on the Beyond 20/20 PERSON file.

_PTRIPWT
Long variable name: Person-trip weight
Description:
Person-trip weight. This weight can only be associated with those people who have taken a trip, that is the travellers. It can be associated with the socio-demographic characteristics of the travellers as well as the trip characteristics such as origin, destination or purpose. It *cannot* be associated with expenditures of trips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP file.

_PVISWT
Long variable name: Person-visit weight
Description:
Person-visit weight. This weight is to be used when compiling person-visit information from the visit files. It is used to measure the number of person-visits. It can be associated with all the socio-demographic and visit variables.

Note: This variable is included on the Beyond 20/20 VISIT files.

_REXPWT
Long variable name: Reallocated expenditures weight
Description:
Reallocated expenditures weight. This weight should be used to compile reallocated expenditures information using the visit file. It can be associated only with reallocated expenditures related variables.

Note: This variable is included on the Beyond 20/20 VISIT files. This field is always set at 0 for child records.

ACTIV1
Long variable name: Visiting friends or relatives
Description:
Specifies if the traveller visited friends or relatives while on the trip.

Codes:	0	no, not stated, refusal, don't know
	1	yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV2
Long variable name: Shopping
Description:
Specifies if the traveller went shopping for pleasure (including window shopping) and/or shopping for a specific item while on the trip.

Codes:	0	no, not stated, refusal, don't know
	1	yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV3
Long variable name: Sightseeing
Description:
Specifies if the traveller went on organized sightseeing tours, recreational automobile driving, motorcycling and/or walking, or saw natural sites such as glaciers, Niagara Falls, the Badlands, the Rocky Mountains, the Thousand Islands, etc. while on the trip.

Codes: 0   no, not stated, refusal, don't know
                    1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV4
Long variable name: Attended a festival, fair or exhibition
Description:
Specifies if the traveller attended a festival, a fair or an exhibition while on the trip. This includes any of the thousands of planned fairs and festivals which occur at a specific time each year. Examples are: St. John's Regatta (Newfoundland), Lobster Carnival and livestock exhibitions, Summerside (Prince-Edward Island), Shediac Lobster Festival (New Brunswick), Glengarry Highland Games, Maxville (Ontario), Shrimp Festival, Matane (Quebec), Winnipeg folk Festival (Manitoba), Comox Valley Renaissance Fair, Courtenay (British Columbia), Festival of Arts, Banff (Alberta), Saskatchewan Hand Craft Festival, Saskatoon (Saskatchewan), etc.

Codes: 0   no, not stated, refusal, don't know
                    1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV5
Long variable name: Attended a cultural event
Description:
Specifies if the traveller attended a cultural event, such as live theatre presentations or concerts, while on the trip.

Codes: 0   no, not stated, refusal, don't know
                    1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV6
Long variable name: Attended a native cultural event
Description:
Specifies if the traveller attended a native cultural event, including performances and exhibitions conducted by Native Bands, Inuits, etc. while on the trip.

Codes: 0   no, not stated, refusal, don't know
                  1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV7
Long variable name: Attended a sports event
Description:
Specifies if the traveller attended a professional or amateur sports event as a spectator, while on the trip.

Codes: 0   no, not stated, refusal, don't know
                  1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV8
Long variable name: Went to a museum or art gallery
Description:
Specifies if the traveller visited public or private museums and galleries while on the trip.

Codes: 0   no, not stated, refusal, don't know
                  1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV9
Long variable name: Visited a zoo or natural exhibit
Description:
Specifies if the traveller visited a zoo or a natural exhibit while on the trip. Natural exhibit means living things are not in their natural habitat but are placed together to form a display or presentation. Sometimes natural exhibits, such as the Biodome in Montreal or Muttart's conservatory in Edmonton, are set up to demonstrate various living plants and animals in different climates. Some examples involving animals are park safaris, aquariums and insectariums. Some examples involving plants are botanical gardens and various gardens and greenhouses set up as showpieces.

Codes: 0 no, not stated, refusal, don't know
  1 yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV10
Long variable name: Visited a theme park
Description:
Specifies if the traveller visited a theme park, that is a leisure park in which either the entire park carries a single theme or the park itself is divided into zones which offer distinct themes, while on the trip. It is a more permanent exhibition, operating year round or seasonally.

Codes: 0 no, not stated, refusal, don't know
  1 yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV11
Long variable name: Visited a national or provincial park
Description:
Specifies if the traveller visited a national park (operated and maintained by the federal government) or a provincial park (operated and maintained by a provincial government) while on the trip.

Codes: 0 no, not stated, refusal, don't know
  1 yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV12
Long variable name: Visited a historic site
Description:
Specifies if the traveller visited a historic site operated and maintained by any level of
government while on the trip.

Codes: 0   no, not stated, refusal, don't know
                     1   yes

*Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the
TRIP and PERSON-TRIP microdata files.*

ACTIV13
Long variable name: Went to a bar or nightclub
Description:
Specifies if the traveller went to a bar or nightclub while on the trip. This category includes
activities such as going to a show (cabaret, etc.), dancing; going to a pub or nightclub.

Codes: 0   no, not stated, refusal, don't know
                     1   yes

*Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the
TRIP and PERSON-TRIP microdata files.*

ACTIV14
Long variable name: Went to a casino
Description:
Specifies if the traveller went to a casino while on the trip. This refers to legal casinos only. This
category excludes other forms of gambling such as bingo, lotteries, or horse races.

Codes: 0   no, not stated, refusal, don't know
                     1   yes

*Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the
TRIP and PERSON-TRIP microdata files.*

ACTIV15

Long variable name: Took a cruise or excursion

Description:

Specifies if the traveller took a cruise or a boat tour while on the trip. This activity records the use of "commercial" tours or cruises for leisure purposes rather than solely as a means of transportation.

Codes: 0   no, not stated, refusal, don't know
                    1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV16

Long variable name: Participated in sports or outdoor activities

Description:

Specifies if the traveller participated in any sports or outdoor activities while on the trip.

Codes: 0   no, not stated, refusal, don't know
                    1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV17

Long variable name: Swimming

Description:

Specifies if the traveller went swimming or simply wading while on the trip.

Codes: 0   no, not stated, refusal, don't know
                    1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV18
Long variable name: Other water sports
Description:
Specifies if the traveller participated in other water-based activites while on the trip. This category includes skin diving, scuba diving, sunbathing, water skiing, boating (motor, sail, canoe, kayak, rowing) and non-commercial boat rides and cruises.

Codes:	0	no, not stated, refusal, don't know
	1	yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV19
Long variable name: Golfing
Description:
Specifies if the traveller went golfing (including going to driving ranges) while on the trip.

Codes:	0	no, not stated, refusal, don't know
	1	yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV20
Long variable name: Hunting
Description:
Specifies if the traveller went hunting (including hunting for big and small game and for waterfowl) while on the trip.

Codes:	0	no, not stated, refusal, don't know
	1	yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV21
Long variable name: Fishing
Description:
Specifies if the traveller went fishing (including deep sea and ice fishing) while on the trip.

Codes: 0   no, not stated, refusal, don't know
                        1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV22
Long variable name: Bird or wildlife viewing
Description:
Specifies if the traveller participated in bird or wildlife viewing while on the trip.

Codes: 0   no, not stated, refusal, don't know
                        1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV23
Long variable name: Cross-country skiing
Description:
Specifies if the traveller went cross-country skiing while on the trip.

Codes: 0   no, not stated, refusal, don't know
                        1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV24
Long variable name: Downhill skiing
Description:
Specifies if the traveller went downhill skiing (including snow boarding) while on the trip.

Codes: 0   no, not stated, refusal, don't know
                        1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV25
Long variable name: Snowmobiling
Description:
Specifies if the traveller went snowmobiling while on the trip.

Codes:	0	no, not stated, refusal, don't know
	1	yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV26
Long variable name: Walking or hiking
Description:
Specifies if the traveller went walking or hiking (including mountain climbing and trekking on various terrains) while on the trip.

Codes:	0	no, not stated, refusal, don't know
	1	yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV27
Long variable name: Cycling
Description:
Specifies if the traveller went cycling (including trail-biking) while on the trip.

Codes:	0	no, not stated, refusal, don't know
	1	yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ACTIV28
Long variable name: Other sports or outdoor activities
Description:
Specifies if the traveller participated in any other sport or outdoor activities while on the trip.
This category includes recreational jogging, tennis, badminton, horseback riding, other equestrian
sports, ice skating, roller skating, car rallying, camping, picnicking, recreational flying, skydiving,
bungee jumping, gardening.

Codes: 0   no, not stated, refusal, don't know
                  1   yes
*Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the
TRIP and PERSON-TRIP microdata files.*

ADCH
Long variable name: Adult or child record
Description:
Specifies if the record is an adult record representing one or more adults or a child record
representing one or more children (under 15).

Codes: 0   adult
                  1   child

Note: This variable is included on the PERSON-TRIP and VISIT microdata files.

ADULTS
Long variable name: Number of adults on this trip
Description:
Number of adults (15 and over) from the same household who went on the trip.

Codes: 01   1 adult
                  02   2 adults
                  03   3 adults or more

*Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the
TRIP and PERSON-TRIP microdata files.*

AGE
Long variable name: Age
Description:
Age of respondent.

Note: This variable is not included on the Beyond 20/20 files or on the public microdata files but can be used in special requests. It is available on the PERSON and PERSON-TRIP internal microdata files.

AGEGRP
Long variable name: Age group
Description:
Age group of the respondent.

Codes:		
	0	under 15
	1	15 - 19 years
	2	20 - 24 years
	3	25 - 34 years
	4	35 - 44 years
	5	45 - 54 years
	6	55 - 64 years
	7	65 - 69 years
	8	70 years and over

Note: This variable is included on all the Beyond 20/20 files and on the PERSON and PERSON-TRIP microdata files. The first category (under 15) does not exist on the Beyond 20/20 PERSON file and on the PERSON microdata file.

ALTANT
Long variable name: Nights in Alberta
Description:
While on the trip, number of nights spent in Alberta.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

BANDBNT
Long variable name: Nights bed and breakfast
Description:
While on the trip, number of nights spent in a bed and breakfast, that is a converted private home operated under provincial licence (including Tourist Homes).

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

BCNT
Long variable name: Nights in British Columbia
Description:
While on the trip, number of nights spent in British Columbia.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

CAMPNT
Long variable name: Nights camping
Description:
While on the trip, number of nights spent in a camping or trailer park, that is an establishment which provides sites for tents, trailers, recreational vehicles (RVs) and/or campers. It is owned either privately or by the government.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

CANTOT
Long variable name: Nights in Canada
Description:
While on the trip, number of nights spent in Canada.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

CAROPS
Long variable name: Reported expenditures private or rented vehicle operation
Description:
While on the trip, amount of money spent on the operation of a private or rented vehicle namely for gasoline, repairs and parking costs. The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP file and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

CARRIER
Long variable name: Canadian air carrier
Description:
In cases where air was used as the main mode of transport to reach the destination, this specifies if the respondent used a Canadian air carrier. If a Canadian air carrier was used only part of the way, and a carrier of another national origin was used for another part, respondents answer according to the carrier which reached the farthest distance.

Codes:	0	not applicable, not stated, refusal, don't know
	1	yes, the repondant used a Canadian Air Carrier
	2	no

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

CCOTNT
Long variable name: Nights commercial cottage
Description:
While on the trip, number of nights spent in a commercial cottage or cabin. This category includes cottages or cabins owned by a commercial establishment. These include tourist courts, motor courts, housekeeping cottages, etc.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

CDIVREC
Long variable name: Number of CD records
Description:
Number of Census Division visit records attached to this trip.

Note: This variable is included on the PERSON-TRIP microdata file.

CHILDRN
Long variable name: Number of children on this trip
Description:
Number of children (under 15) from the same household as the respondent who went on the trip.

Codes: 01   1 child
                    02   2 children
                    03   3 children or more

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

CLASSWK
Long variable name: Class of worker
Description:
Category of employer-employee relationship or self-employment for the respondent's job or business. This variable comes from the Labour Force Survey (LFS).

Codes: 0   never worked before / permanently unable to work
                    1   paid worker, private sector
                    2   paid worker, public sector
                    4   unincorporated self-employed with employees
                    5   unincorporated self-employed without employees
                    6   unpaid family worker
                    7   child

Note: This variable is included on all the Beyond 20/20 files and on the PERSON and PERSON-TRIP microdata files. The last category (child) does not exist on the Beyond 20/20 PERSON file or on the PERSON microdata file.

CLOTHES
Long variable name: Reported expenditures clothing
Description:
While on the trip, amount of money spent on any clothing purchases whether they were gifts or for personal use. The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP file and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

CMAREC
Long variable name: Number of CMA records
Description:
Number of Census Metropolitan Area visit records attached to this trip.

Note: This variable is included on the PERSON-TRIP microdata file.

CONVENT
Long variable name: Attended a convention
Description:
In cases where the respondent went on a business trip, specifies if this traveller attended a business convention, that is an assembly or gathering, often periodic, for a common purpose by members or delegates of a professional or other business-related group.

Codes: 0   not applicable, not stated, refusal, don't know
                    1   yes
                    2   no

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

DECD
Long variable name: CD of destination
Description:
Census Division of destination. Census Divisions are areas established by provincial laws which are intermediate geographic areas between the municipality (Census Subdivision) and the province level. Census Divisions represent counties, regional districts, regional municipalities and other types of provincially legislated areas. It corresponds to the place reported by the respondent as the destination of the trip. If the respondent visited more than one place during a trip, the destination is the place furthest from their home. On the Beyond 20/20 files, the first two digits represent the province code and the last two digits correspond to the Census Division code. On the microdata files, one has to combine the DEPROV and DECD variables to get the four digit code.

Codes:

1000	Not stated, Newfoundland
1001	Division No. 1
1002	Division No. 2
1003	Division No. 3
1004	Division No. 4

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

DECMA
Long variable name: CMA of destination
Description:
Census Metropolitan Area (including Census Agglomerations) of destination. A CMA is a main labour market area of an urbanized core having 100,000 or more population. It corresponds to the place reported by the respondent as the destination of the trip. If the respondent visited more than one place during a trip, the destination is the place furthest from their home.

Codes:	000	Non-metropolitan area
	001	St. John's
	205	Halifax
	310	Saint John
	408	Chicoutimi-Jonquière
	421	Québec
	433	Sherbrooke

	935	Victoria

Note: Census Agglomerations are not included on the Beyond 20/20 files or on the public microdata files but can be used in special requests. The DECMA variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

DECSD
Long variable name: CSD of destination
Description:
Census Subdivision of destination. It corresponds to the place reported by the respondent as the destination of the trip. If the respondent visited more than one place during a trip, the destination is the place furthest from their home. To get the complete list of codes, see the 1991 Standard Geographical Classification.

Note: This variable is not included on the Beyond 20/20 files or on the public microdata files but can be used in special requests. It is included on the internal TRIP and PERSON-TRIP microdata files.

DEPROV

Long variable name: Province of destination

Description:

Province of destination and if the destination is outside Canada, continent of destination. It corresponds to the place reported by the respondent as the destination of the trip. If the respondent visited more than one place during a trip, the destination is the place furthest from their home. Only categories 10 to 61 are included on the Beyond 20/20 files.

Codes:		
	10	Newfoundland
	11	Prince Edward Island
	12	Nova Scotia
	13	New Brunswick
	24	Quebec
	35	Ontario
	46	Manitoba

	99	United States

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

DETOUR

Long variable name: Tourism region of destination

Description:

Tourism region of destination. It corresponds to the place reported by the respondent as the destination of the trip. If the respondent visited more than one place during a trip, the destination is the place furthest from their home. From a touristic point of view, tourism regions are homogeneous regions defined by each province.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

DISTANC
Long variable name: Distance (one-way)
Description:
One-way distance between the trip origin and its destination expressed in kilometres.

Allowed minimum: 0000   Allowed maximum: 5000 (includes 5000 km and over)

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

EDUCATN
Long variable name: Educational attainment
Description:
Highest level of schooling completed by the respondent. This variable comes from the Labour Force Survey (LFS).

Codes:	0	child
	1	0 - 8 years
	2	some secondary education
	3	graduate from high school
	4	some post secondary
	5	post secondary certificate/diploma
	6	university degree

Note: This variable is included on all the Beyond 20/20 files and on the PERSON and PERSON-TRIP microdata files. The first category (child) does not exist on the Beyond 20/20 PERSON file or on the PERSON microdata file. On the PERSON-TRIP microdata file, this field is always blank for child records.

EXTRANT
Long variable name:　　　　　Nights unknown lodging
Description:
While on the trip, number of nights spent in an unknown type of lodging.

Allowed minimum: 000　　　　Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

FILLERA, FILLERB, FILLERC, ...
Long variable name:　　　　　Filler
Description:
Filler character. Do not use in calculations.

Note: These variables are included in some microdata files.

FOODBEV
Long variable name:　　　　　Reported expenditures food or beverages at restaurants or bars
Description:
While on the trip, amount of money spent on meals and drinks purchased from restaurants, bars, cafeterias, fast food take-out counters and mini-bars located in some hotel/motel rooms, regardless where they were consumed. The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

FOODDUR
Long variable name:　　　　　Reported expenditures food or beverages in stores during trip
Description:
While on the trip, amount of money spent at local stores on food and beverages, regardless of where they were consumed. Groceries purchased to bring home or to eat during the trip are included in this category. The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

FOODPRE
Long variable name: Reported expenditures food before trip
Description:
Amount of money spent at local stores on food and beverages prior to leaving home for use on the trip. The amount reported includes all taxes and tips.

Note: This variable is not used in the calculation of total expenditures anywhere. It is not included on the Beyond 20/20 or on the public microdata files. It is available on the internal TRIP and PERSON-TRIP microdata files.

FRELNT
Long variable name: Nights home friends or relatives
Description:
While on the trip, number of nights spent at the permanent residence of friends or relatives.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

HADULTS
Long variable name: Number of adults in the household
Description:
Number of adults (15 years and over) in the household. This variable comes from the Labour Force Survey (LFS).

Codes: 01   one adult
                    02   two adults
                    03   three adults or more

Note: This variable is included on all the Beyond 20/20 files and on the PERSON and PERSON-TRIP microdata files.

HCHILD

Long variable name: Number of children in the household

Description:

Number of children (under 15 years) in the household. This variable comes from the Labour Force Survey (LFS).

Codes: 01   one child
                      02   two children
                      03   three children or more

Note: This variable is included on all the Beyond 20/20 files and on the PERSON and PERSON-TRIP microdata files.

HHTRIPWT

Long variable name: Household-trip weight

Description:

Household-trip weight. It can be associated with the trip characteristics as well as the characteristics of the respondents. The household-trip weight is used to measure the number of household-trips taken and both reported expenditures (on the person-trip file) and reallocated expenditures (on the person-visit and reallocated expenditures files).

Note: This variable is included on the PERSON-TRIP and VISIT microdata files. This field is always set at 0 for child records.

HINCOME

Long variable name: Household income

Description:

Total household income, before taxes and deductions, including income from wages, salaries, tips, commissions, pensions, interest, rents, etc. for all household members, for the year preceding the reference year.

Codes: 0   child, not stated, refusal, don't know
                      1   less than $20,000
                      2        $20,000 - $39,999
                      3        $40,000 - $59,999
                      4        $60,000 - $79,999
                      5        $80,000 and over

Note: This variable is included on all the Beyond 20/20 files and on the PERSON and PERSON-TRIP microdata files. On the Beyond 20/20 PERSON file and on the PERSON microdata file, the first category never means child. On the PERSON-TRIP microdata file, this field is always empty for child records.

HOTELNT
Long variable name: Nights hotel
Description:
While on the trip, number of nights spent in a hotel, that is a commercial establishment in which all rooms/suites are accessible from the interior.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

IDENTTR
Long variable name: Number identical trips
Description:
Number of identical trips. *Identical* means that all information provided for the trip just described applies to the identical trip also. The following information must be the same: the number of household members taking the trip, the length of stay, the activities, and the expenditures. A respondent must give details for a separate trip if any of the above information is different.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files. This field is always set at 0 for child records.

INDUST
Long variable name: Industry
Description:
General nature of the business carried out by the employer for whom the respondent works. The industry code is associated with the respondent's main job (1980 Standard Industrial Classification). This variable comes from the Labour Force Survey (LFS).

Codes:	01	agricultural and related service industries
	02	fishing and trapping, logging and forestry, mining (including milling), quarrying and oil well industries
	03	manufacturing industries
	04	construction industries
	05	transportation and storage industries
	06	communication industries
	07	other utility industries (electricity, gas, water, etc.)
	08	wholesale and retail trade industries
	09	finance and insurance industries, real estate operator industries and insurance and real estate agent industries (except developers)
	10	educational service, health and social service, amusement and recreational service industries and religious organizations
	11	business service, accommodation, food and beverage service and personal and household service industries
	12	membership organization (except religious organizations) and other service industries
	13	federal, provincial and territorial, local and international and other extra-territorial government service industries
	14	child / never worked before / last worked more than one year ago / permanently unable to work

Note: This variable is not included on the Beyond 20/20 files or on the public microdata files but can be used in special requests. It is available on the internal PERSON and PERSON-TRIP microdata files.

LFSSTAT
Long variable name: Labour force status
Description:
Status of the respondent in the labour market at the time of the interview. This variable comes from the Labour Force Survey (LFS).

Codes: 1   employed
      2   unemployed
      3   not in the labour force
      4   child

Note: This variable is included on all the Beyond 20/20 files and on the PERSON and PERSON-TRIP microdata files. The last category (child) does not exist on the Beyond 20/20 PERSON file and on the PERSON microdata file.

LOCALTR
Long variable name: Reported expenditures local transportation
Description:
While on the trip, amount spent on transportation within a city or metropolitan area, that is, intracity. This category includes the cost of taxis, city bus fares, subway fares and such things as bus tours in the place of visit and/or destination. The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP file and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

LODGING
Long variable name: Reported expenditures accommodation
Description:
While on the trip, amount of money spent on accommodation. This category includes the total amount of expenditures for nights spent in hotels, motels, resorts, cabins, cottages, campgrounds, etc. This primarily includes rental fees. However, in the case of trips to private cottages or the home of friends or relatives, it could also include any money given to owners for the use of their accommodation. The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP file and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

MANNT
Long variable name: Nights in Manitoba
Description:
While on the trip, number of nights spent in Manitoba.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

MODE
Long variable name: Mode of transportation
Description:
Mode of transportation used to travel the greatest distance during a trip. If two modes of transportation were used to travel *equal* distances, the mode used to reach the destination is recorded.

Codes:	0	not stated, refusal, don't know
	1	auto (including motor homes, jeeps, trucks, van & campers, etc.)
	2	air
	3	bus
	4	rail
	5	boat
	6	other (including motorcycles, bicycles, etc.)

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

MONTH

Long variable name: Reference month

Description:

Reference month.

Codes:	01	January
	02	February
	03	March
	04	April
	05	May
	06	June
	07	July
	08	August
	09	September
	10	October
	11	November
	12	December

Note: This variable is included on all the Beyond 20/20 and all the microdata files.

MOTELNT

Long variable name: Nights motel

Description:

While on the trip, number of nights spent in a motel, that is a commercial establishment in which, usually, all units are accessible only from the exterior.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

MSTATUS

Long variable name: Marital status

Description:

Marital status of the respondent. This variable comes from the Labour Force Survey (LFS).

Codes:	1	married or common law
	2	single, never married (including children)
	3	widowed / separated or divorced

Note: This variable is included on all the Beyond 20/20 files and on the PERSON and PERSON-TRIP microdata files.

NBNT
Long variable name: Nights in New Brunswick
Description:
While on the trip, number of nights spent in New Brunswick.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

NFLDNT
Long variable name: Nights in Newfoundland
Description:
While on the trip, number of nights spent in Newfoundland.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

NIGHTS
Long variable name: Total number of nights
Description:
While on the trip, total number of nights spent away from home.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

NSNT
Long variable name: Nights in Nova Scotia
Description:
While on the trip, number of nights spent in Nova Scotia.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

NWTNT
Long variable name: Nights in Northwest Territories
Description:
While on the trip, number of nights spent in the Northwest Territories.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

OCCUP
Long variable name: Occupation
Description:
Kind of work the respondent was doing during the LFS reference week, as determined by the kind of work reported and the description of the respondent's most important duties. The occupation code is associated with the respondent's main job. This variable comes from the Labour Force Survey (LFS). It is based on the 1980 Standard Occupational Classification.

Codes: 01   managerial, administrative and related occupations
                    02   occupations in natural sciences, engineering and mathematics
                    03   occupations in social sciences and related fields
                    04   occupations in religion
                    05   teaching and related occupations
                    06   occupations in medicine and health
                    07   artistic, literary, recreational and related occupations
                    08   clerical and related occupations
                    09   sales occupations
                    10   service occupations
                    11   farming, horticultural and animal husbandry occupations
                    12   fishing, trapping and related occupations
                    13   forestry and logging occupations
                    14   mining and quarrying including oil and gas field occupations
                    15   processing occupations
                    16   machining and related occupations
                    17   product fabricating, assembling and repairing occupations
                    18   construction trades occupations
                    19   transport equipment operating occupations
                    20   material handling and related occupations, n.e.c.
                    21   other crafts and equipment operating occupations
                    22   child / never worked before / last worked more than one year ago
                                / permanently unable to work

Note: This variable is not included on the Beyond 20/20 files or on the public microdata files but can be used in special requests. It is available on the internal PERSON and PERSON-TRIP microdata files.

ONTNT

Long variable name: Nights in Ontario

Description:

While on the trip, number of nights spent in Ontario.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ONTRIP

Long variable name: Number of overnight trips

Description:

Total number of overnight trips taken during the reference month, regardless of distance or destination.

Note: This variable is included on the PERSON microdata file.

ORCD

Long variable name: CD of origin

Description:

Census Division of origin of the trip. Census Divisions are areas established by provincial laws which are intermediate geographic areas between the municipality (Census Subdivision) and the province level. Census Divisions represent counties, regional districts, regional municipalities and other types of provincially legislated areas. It corresponds to the traveller's place of residence at the time the trip was taken. On the Beyond 20/20 files, the first two digits represent the province code and the last two digits correspond to the Census Division code. On the microdata files, one has to combine the DEPROV and DECD variables to get the four digit code. To get a complete list of codes, see DECD.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ORCMA

Long variable name: CMA of origin

Description:

Census Metropolitan Area of origin of the trip (including Census Agglomerations). A CMA is a main labour market area of an urbanized core having 100,000 or more population. It corresponds to the traveller's place of residence at the time the trip was taken. To get a complete list of codes, see DECMA.

Note: Census Agglomerations are suppressed from the Beyond 20/20 files and from the public microdata files. The ORCMA variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ORCSD

Long variable name: CSD of origin

Description:

Census Subdivision of origin of the trip. It corresponds to the traveller's place of residence at the time the trip was taken. To get the complete list of codes, see the 1991 Standard Geographical Classification.

Note: This variable is not included on the Beyond 20/20 files or on the public microdata files but can be used in special requests. It is available on the internal PERSON and PERSON-TRIP microdata files.

ORPROV

Long variable name: Province of origin

Description:

Province of origin of the trip. It corresponds to the traveller's place of residence at the time the trip was taken.

Codes:	10	Newfoundland
	11	Prince Edward Island
	12	Nova Scotia
	13	New Brunswick
	24	Quebec
	35	Ontario
	46	Manitoba
	47	Saskatchewan
	48	Alberta
	59	British Columbia

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

ORTOUR

Long variable name: Tourism region of origin

Description:

Tourism region of origin of the trip. It corresponds to the traveller's place of residence at the time the trip was taken. From a touristic point of view, tourism regions are homogeneous regions defined by each province. To get a complete list of codes, see DETOUR.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

OTHCOST

Long variable name: Other reported expenditures

Description:

While on the trip, money spent on other items. This category includes any souvenirs, shoes, belts, jewellery, handbags and household items, registration fees for courses or conferences, customs duties, postcards and stamps, insurance fees, medication, books, craft supplies, film and developing, costs for child care, telephone charges, etc. The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP file and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

OTHERNT

Long variable name: Nights other type of accommodation

Description:

While on the trip, number of nights spent in other types of accommodation. This category includes nights spent in universities, colleges, or other educational establishments which provide accommodation during vacations or conferences; nights spent in hostels, non-profit private or government establishments which provide accommodation at little or no cost (e.g., Salvation Army hostels, youth hostels, youth centres, space (i.e. billet) in a private home where the persons are not friends or relatives); nights spent in ship or train's cabin, in a moving car or bus, etc.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

OVSNT

Long variable name: Nights in other countries outside Canada and USA

Description:

While on the trip, number of nights spent in countries other than Canada or the United States.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PAIDBYB

Long variable name: Percentage paid by private entreprise

Description:

Percentage of the expenditures paid by a private sector business or organisation including a business, a professional or personal association such as a religious or hobby association, and institutions that are funded by private donations such as churches, etc. This category also includes crown corporations such as hydro companies, Canada Post and Canadian National Railway.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 files, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

PAIDBYG

Long variable name: Percentage paid by government

Description:

Percentage of the expenditures paid by any level of government (i.e. federal, provincial, regional or municipal). This category also includes government-funded institutions such as school boards, hospitals, police departments, but not crown corporations.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 files, this field is always set at 0 for child records and on the microdata files, it is always blank for child records..

PAIDBYH

Long variable name: Percentage paid by individual

Description:

Percentage of the expenditures paid by the traveller or other individuals like relatives, roommates and friends. They can be a member of the household or any individual outside the household members.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 files, this field is always set at 0 for child records and on the microdata files, it is always blank for child records..

PARTY
Long variable name: Party size
Description:
Number of travellers living in the same household who went on the entire trip.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PCOTNT
Long variable name: Nights private cottage
Description:
While on the trip, number of nights spent in a private cottage or vacation home. This category includes nights the traveller spent in his/her own secondary residence (i.e. cottage, cabin, vacation home, condominium, or time-shared condominium) or in a residence that the traveller visited, borrowed, or rented from an individual.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PEINT
Long variable name: Nights in Prince Edward Island
Description:
While on the trip, number of nights spent in Prince Edward Island.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PERSONWT
Long variable name: Person weight
Description:
Person weight. It can be associated with all the socio-demographic variables describing the respondent. Used with the person records, the user can get a socio-demographic profile of travellers and non-travellers or calculate travel incidences. The person weight cannot be used to measure the volume of person-trips.

Note: This variable in included on the PERSON microdata file.

PKGDEAL
Long variable name: Total cost of packages
Description:
Total cost of the package(s) (in Canadian dollars) purchased for all or any part of the trip. The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

PPACCOM
Long variable name: Package including accommodation
Description:
Specifies if the package included accommodation.

Codes: 0   no, not applicable, not stated, refusal, don't know
                  1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PPCAR
Long variable name: Package including vehicle rental
Description:
Specifies if the package included vehicle rental (automobile, truck, motorcycle, bicycle, boat, motor home and snowmobile).

Codes: 0   no, not applicable, not stated, refusal, don't know
                  1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PPMEALS
Long variable name: Package including food and beverages
Description:
Indicates if the package included food and beverages.

Codes: 0   no, not applicable, not stated, refusal, don't know
                  1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PPNT

Long variable name: Nights included in package

Description:

Number of nights included in the package.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PPNUM

Long variable name: Number of packages

Description:

Number of packages purchased for the trip or part of the trip. Package deals cover the expenses of two or more components of a trip but in most cases the costs are not identified separately. These items may be a combination of transportation and accommodation or accommodation with food and beverages, etc. A package deal is usually purchased from a travel agency or social organization.

Allowed minimum: 0   Allowed maximum: 9

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PPOTHER

Long variable name: Package including other items

Description:

Specifies if the package included other items such as complimentary goods like luggage, t-shirts, hats, as well as insurance, spa treatments, and child care.

Codes: 0   no, not applicable, not stated, refusal, don't know
                 1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PPREC

Long variable name: Package including recreation and entertainment
Description:
Specifies if the package included recreation and entertainment.

Codes: 0   no, not applicable, not stated, refusal, don't know
                1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PPTRANS

Long variable name: Package including commercial transportation
Description:
Specifies if the package included air, boat, train or bus transportation.

Codes: 0   no, not applicable, not stated, refusal, don't know
                1   yes

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

PROVREC

Long variable name: Number of province records
Description:
Number of province visit records attached to the trip.

Note: This variable is included on the PERSON-TRIP microdata file.

PTRIPWT

Long variable name: Person-trip weight
Description:
Person-trip weight. This weight can only be associated with those people who have taken a trip, that is the travellers. It can be associated with the socio-demographic characteristics of the travellers as well as the trip characteristics such as origin, destination or purpose. It *cannot* be associated with expenditures of trips. It is also used to calculate the number of person-visits when using the visit files.

Note: This variable is included in the PERSON-TRIP microdata file.

PURPOSE
Long variable name: Main purpose of trip
Description:
Main reason the respondent to the survey went on a trip, regardless of the reason anyone else from the household had for taking the same trip.

Codes:	0	not stated, refusal, don't know
	1	visiting friends and relatives
	2	pleasure
	3	personal
	4	business
	5	non-business convention

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

QUARTER
Long variable name: Quarter
Description:
Quarter.

Codes:	1	first quarter (January-March)
	2	second quarter (April-June)
	3	third quarter (July-September)
	4	fourth quarter (October-December)

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT file and on the TRIP and VISIT microdata files.

QUENT
Long variable name: Nights in Quebec
Description:
While on the trip, number of nights spent in Quebec.

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

RCAROPS

Long variable name: Reallocated expenditures private or rented vehicle operation
Description:
Reallocated expenditures at the provincial or subprovincial level for money spent on the operation of a private or rented vehicle namely for gasoline, repairs and parking costs. This amount includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 VISIT files and on the VISIT microdata files. This field is always set at 0 for child records.

RCLOTHES

Long variable name: Reallocated expenditures clothing
Description:
Reallocated expenditures at the provincial or subprovincial level for money spent on any clothing purchases whether they were gifts or for personal use. This amount includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 VISIT files and on the VISIT microdata files. This field is always set at 0 for child records.

REALTYPE

Long variable name: CD, CMA or tourism region code
Description:
Depending on the file used, the code in this field could be the Census Division, the Census Metropolitan Area or the Tourism region code.

Note: This variable is included on the VISIT microdata files. On the VISIT microdata file at the provincial level, this field is always blank. On the Beyond 20/20 VISIT files, the variable names have changed for VISCMA, VISCD or VISTOUR, depending on the file used.

RECREAT

Long variable name: Reported expenditures recreation and entertainment
Description:
While on the trip, money spent on recreation and entertainment. This category includes cost of admission to theatres, sports events, art galleries, nightclubs, etc. It also includes gambling expenses, sporting activity costs, such as daily ski lift passes, green fees, rental of sports equipment, entrance fees to a cultural or leisure activity, boat or bus tours, but excludes recreation and entertainment purchased for the season (e.g., season ski passes). The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP file and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

RELHEAD

Long variable name: Relation to family reference person

Description:

Relationship of the respondent to the person who has been identified as the family reference person (who is normally an adult with responsibility for the care or support of the family). This variable comes from the Labour Force Survey (LFS).

Codes:		
	0	child
	1	reference person
	2	spouse
	3	son or daughter
	4	parent/parent-in-law
	5	son or daughter-in-law
	6	foster child/granchild/brother or sister

Note: This variable is included on all the Beyond 20/20 files and on the PERSON and PERSON-TRIP microdata files. The first category (child) does not exist on the Beyond 20/20 PERSON file or on the PERSON microdata file. On the PERSON-TRIP microdata file, this field is always blank for child records.

RENTCAR

Long variable name: Reported expenditures vehicle rental

Description:

While on the trip, amount of money spent on all operation, rental or users' fees encountered for the use of any vehicle such as an automobile, a truck, a motorcycle, a bicycle, a boat, a motor home, a snowmobile, etc. (including insurance). The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP file and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

REPCOST

Long variable name: Total reported trip expenditures

Description:

Total reported trip expenditures. The amount reported includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 PERSON-TRIP file and on the TRIP and PERSON-TRIP microdata files. On the Beyond 20/20 file, this field is always set at 0 for child records and on the microdata files, it is always blank for child records.

RESCD
Long variable name: CD of interview
Description:
Census Division of interview. Census Divisions are areas established by provincial laws which are intermediate geographic areas between the municipality (Census Subdivision) and the province level. Census Divisions represent counties, regional districts, regional municipalities and other types of provincially legislated areas. The CD of interview does not correspond to the CD of residence in cases where the respondent moved in a different CD between the reference month and the collection period. On the Beyond 20/20 files, the first two digits represent the province code and the last two digits correspond to the Census Division code. On the microdata files, one has to combine the RESPROV and RESCD variables to get the four digit code.   To get the complete list of codes, see DECD.

Note: This variable is included on the Beyond 20/20 PERSON file and on the PERSON microdata file.

RESCMA
Long variable name: CMA of interview
Description:
Census Metropolitan Area of interview (including Census Agglomerations). A CMA is a main labour market area of an urbanized core having 100,000 or more population. The CMA of interview does not correspond to the CMA of residence in cases where the respondent moved in a different CMA between the reference month and the collection period. To get the complete list of codes, see DECMA.

Note: Census Agglomerations are suppressed from the Beyond 20/20 files and from the public microdata files but can be used in special requests. The RESCMA variable is included on the Beyond 20/20 PERSON file and on the PERSON microdata file.

RESCSD
Long variable name: CSD of interview
Description:
Census subdivision of interview. The CD of interview does not correspond to the CD of residence in cases where the respondent moved in a different CD between the reference month and the collection period. To get the complete list of CSD codes, see the 1991 Standard Geographical Classification.

Note: This variable is not included on the Beyond 20/20 files or on the public microdata files but can be used in special requests. It is available on the internal PERSON microdata file.

RESORTNT
Long variable name: Nights resort
Description:
While on the trip, number of nights spent in a resort or lodge, that is, a commercial accommodation catering to a specific or recreational outdoor activity or theme (i.e. swimming, sailing, hiking, skiing, snowmobiling, fishing, hunting).

Allowed minimum: 000   Allowed maximum: 365

Note: This variable is included on the Beyond 20/20 PERSON-TRIP and VISIT files and on the TRIP and PERSON-TRIP microdata files.

RESPROV
Long variable name: Province of interview
Description:
Province of interview. The province of interview does not correspond to the province of residence in cases where the respondent moved in a different province between the reference month and the collection period.

Codes:	10	Newfoundland
	11	Prince Edward Island
	12	Nova Scotia
	13	New Brunswick
	24	Quebec
	35	Ontario
	46	Manitoba
	47	Saskatchewan
	48	Alberta
	59	British Columbia

Note: This variable is included on the Beyond 20/20 PERSON file and on the PERSON microdata file.

RESTOUR
Long variable name: Tourism region of interview
Description:
Tourism region of interview. The tourism region of interview does not correspond to the tourism region of residence in cases where the respondent moved in a different tourism region between the reference month and the collection period. From a touristic point of view, tourism regions are homogeneous regions defined by each province. To get the complete list of codes, see DETOUR.

Note: This variable is included on the Beyond 20/20 PERSON file and on the PERSON microdata file.

REXPROV
Long variable name: Province where money was spent
Description:
Province visited where money was spent.

Codes:	10	Newfoundland
	11	Prince Edward Island
	12	Nova Scotia
	13	New Brunswick
	24	Quebec
	35	Ontario
	46	Manitoba
	47	Saskatchewan
	48	Alberta
	59	British Columbia
	60	Yukon
	61	Northwest Territories
	90	Country other than Canada or the United States
	99	United States

Note: This variable is included on the Beyond 20/20 VISIT files and on the VISIT microdata files.

RFOODBEV
Long variable name: Reallocated expenditures food or beverages at restaurants or bars
Description:
Reallocated expenditures at the provincial or subprovincial level for money spent on meals and drinks purchased from restaurants, bars, cafeterias, fast food take-out counters and mini-bars located in some hotel/motel rooms, regardless where they were consumed. This amount includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 VISIT files and on the VISIT microdata files. This field is always set at 0 for child records.

RFOODDUR

Long variable name: Reallocated expenditures food or beverages in stores during trip

Description:

Reallocated expenditures at the provincial or subprovincial level for money spent at local stores on food and beverages, regardless of where they were consumed. Groceries purchased to bring home or to eat during the trip are included in this category. This amount includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 VISIT files and on the VISIT microdata files. This field is always set at 0 for child records.

RFOODPRE

Long variable name: Reallocated expenditures food before trip

Description:

Reallocated expenditures at the provincial or subprovincial level for of money spent at local stores on food and beverages prior to leaving home for use on the trip. The amount reported includes all taxes and tips.

Note: This variable is not used in the calculation of total expenditures anywhere. It is not included on the Beyond 20/20 or on the public microdata files. It is available on the internal VISIT microdata files.

RLOCALTR

Long variable name: Reallocated expenditures local transportation

Description:

Reallocated expenditures at the provincial or subprovincial level for money spent on transportation within a city or metropolitan area, that is, intracity. This category includes the cost of taxis, city bus fares, subway fares and such things as bus tours in the place of visit and/or destination. This amount includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 VISIT files and on the VISIT microdata files. This field is always set at 0 for child records.

RLODGING

Long variable name: Reallocated expenditures accommodation

Description:

Reallocated expenditures at the provincial or subprovincial level for money spent on accommodation. This category includes the total amount of expenditures for nights spent in hotels, motels, resorts, cabins, cottages, campgrounds, etc. This primarily includes rental fees. However, in cases of trips to private cottages or the home of friends or relatives, it could also include any money given to owners for the use of their accommodation. This amount includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 VISIT files and on the VISIT microdata files. This field is always set at 0 for child records.

ROTHCOST

Long variable name: Other reallocated expenditures

Description:

Reallocated expenditures at the provincial or subprovincial level for money spent on other items. This category includes any souvenirs, shoes, belts, jewellery, handbags and household items, registration fees for courses or conferences, customs duties, postcards and stamps, insurance fees, medication, books, craft supplies, film and developing, costs for child care, telephone charges, etc. This amount includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 VISIT files and on the VISIT microdata files. This field is always set at 0 for child records.

RRECREAT

Long variable name: Reallocated expenditures recreation and entertainment

Description:

Reallocated expenditures at the provincial or subprovincial level for money spent on recreation and entertainment. This category includes cost of admission to theatres, sports events, art galleries, nightclubs, etc. It also includes gambling expenses, sporting activity costs, such as daily ski lift passes, green fees, rental of sports equipment, entrance fees to a cultural or leisure activity, boat or bus tours, but excludes recreation and entertainment purchased for the season (e.g., season ski passes). This amount includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 VISIT files and on the VISIT microdata files. This field is always set at 0 for child records.

RRENTCAR

Long variable name: Reallocated expenditures vehicle rental

Description:

Reallocated expenditures at the provincial or subprovincial level for money spent on all operation, rental or users' fees encountered for the use of any vehicle such as an automobile, a truck, a motorcycle, a bicycle, a boat, a motor home, a snowmobile, etc. (including insurance). This amount includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 VISIT files and on the VISIT microdata files. This field is always set at 0 for child records.

RREPCOST

Long variable name: Total reallocated visit expenditures

Description:

Total reallocated visit expenditures at the provincial or subprovincial level. This amount includes all taxes and tips.

Note: This variable is included on the Beyond 20/20 VISIT et on the VISIT microdata files. This field is always set at 0 for child records.

RTRANSPO

Long variable name: Reallocated expenditures intercity transportation

Description:
