		=====	=====
		25,876	24,260,326

Coverage: All respondents.

Source: General Social Survey household composition matrix.

Format: I1

Weight variable: WGHT_PER

Note: This variable was derived using the children listed on the household composition matrix only. In cases of multigenerational households where the respondent lived with a spouse or partner as well as a child and a grandchild, FAMTYPE was set to 1. In cases where the respondent had no children in the household and lived with only one parent, FAMTYPE was set to 5. An intact family refers to a now-married or common-law couple where all children (listed in the household composition matrix) have both biological parents in the household. A step family refers to a now-married or common-law couple in which at least one of the children (listed in the household composition matrix) is in a step relationship with one of the parents. The respondent might be a parent or a child aged 15 or older in the family.

Variable: **MULTIGEN** Position: 51 Length: 1

Three-generation family in respondent's household.

Note: An alternate formulation of the question is as follows: There are a number of ways to deal with an offence outside the normal police-court process. One way is a meeting between the victim and the offender to discuss an appropriate way the offender should be dealt with. Thinking about your experience, how interested would you be (have been) in participating in such a program if one was available in your community.

Note: An alternate formulation of the question is as follows: there are a number of ways to deal with an offence outside the normal police-court process. One way is a meeting between the victim and the offender to discuss an appropriate way the offender should be dealt with. Thinking about your experience, how interested would you have been (be) in participating in such a program if one was available in your community?

Variable: **M31_C01** Position: 728 Length: 1

At the time of the incident(s), how did this experience affect you? Afraid for children.
