## Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner. To this end, the Agency has developed standards of service which its employees observe in serving its clients. To obtain a copy of these service standards, please contact Statistics Canada toll free at 1-800-263-1136. The service standards are also published on [www.statcan.ca](http://www.statcan.ca) under "About us" > "Providing services to Canadians."

#### Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

# 2010 GSS: Time Stress and Well-Being (Time Use) Public Use Microdata File

## 1. Introduction

This guide provides information for users of the Public Use Microdata file (PUMF) for the twenty fourth cycle of the General Social Survey (GSS), conducted from January to December 2010. It contains information on the objectives, methodology and estimation procedures used in the survey. It also describes how to use the microdata files.

### 1.1 General Social Survey, Cycle 24 – Concepts, Methodology and Data Quality Summary

The information in this section should be used to ensure a clear understanding of the basic concepts that define the data provided in the GSS Cycle 24 microdata file, of the underlying methodology of the survey and the key aspects of data quality. This information will provide you with a better understanding of the strengths and limitations of the data, and how they can be effectively used and analyzed. The information may be of particular importance to you when making comparisons with data from other surveys or sources of information, and in drawing conclusions regarding change over time, or differences between sub-groups of the target population.

#### 1.1.1 Data Sources and Methodology

Cycle 24 is the fifth cycle of the GSS to collect data on Time Use. Previous cycles were conducted in 1986, 1992, 1998 and 2005.

##### 1.1.1.1 General Methodology

The target population for Cycle 24 of the GSS main survey included all persons 15 years of age and older in Canada, excluding:

1. Residents of the Yukon, Northwest Territories, and Nunavut;
2. Full-time residents of institutions.

Computer assisted telephone interviewing (CATI) was used to collect data for GSS-24. Households were selected using a Random Digit Dialling (RDD) method, which randomly generates a list of phone numbers used to reach households. Once contact was made with the household, a respondent aged 15 or over was selected to participate in the survey. Respondents were interviewed in the official language of their choice and interviews by proxy were not permitted.

##### 1.1.1.2 Reference Period

Data for Cycle 24 of the GSS were collected in 6 waves, from January to December 2010. For more information on collection, please see Section 5.

### 1.1.1.3 Estimation

The estimation weights were adjusted using a post-stratification technique to match Census based population estimates for strata and for provincial age-sex groups.

### 1.1.2 Concepts and Variables Measured

The survey collected a large amount of data for each selected respondent as well as some information about each member of the respondent's household. The documentation includes an annotated list of all variables included in the files as well as the entire questionnaire. Section 3 of this document gives a summary of the questionnaire content. Here is a brief outline:

- Introduction: Control form
- Section A: Confirmation of Birth Date and Marital Status
- Section 1: General Time Use
- Section 2: Time Use Diary
- Section 3: Perception of Time
- Section 4: Unpaid Work Activities
- Section 5: Well-Being
- Section 6: Main Activity and Education of Respondent
- Section 7: Main Activity and Education of Respondent's Spouse/Partner
- Section 8: Education of Respondent's Parents
- Section 9: Cultural Activities and Sports Participation
- Section 10: Transportation
- Section 11: Housing Characteristics of Respondent
- Section 12: Other Characteristics

### 1.1.3 Data Accuracy

The methodology of this survey was designed to control errors and to reduce their potential effects. However, the results of the survey remain subject to error due to both sampling error (error due to the fact that a sample is observed and is not the whole population) and non-sampling error (the difference between the estimates and the true values not due to sampling).

#### 1.1.3.1 Sampling Error

As the data are based on a sample of persons, they are subject to sampling error. That is, estimates based on a sample will vary from sample to sample, and typically they will be different from the results that would have been obtained from a complete census. The potential range of this difference has been estimated for key data and used to produce tables that can be used to estimate the sampling variability of many estimates. These tables and instructions, as well as examples of their use, can be found in Appendix A and Section 8.

As an alternative to the use of the Approximate Variance Tables, a set of "bootstrap" weights and associated programs are included on the main data file so that users can calculate more precise individual variances to assess the quality of estimates. Please see Section 8 and Appendix B for more details.

### **1.1.3.2 Non-Sampling Error**

Even a census of the population of interest produces estimates subject to error. While these are called non-sampling errors, estimates from samples still contain errors of this type. Common sources of these errors include imperfect coverage, non-response, response errors, and processing errors.

Coverage of the GSS-24 targeted population by the RDD frame is estimated to be approximately 86% complete. These rates were high for virtually all socio-demographic groups, but lowest among those households with the lowest incomes. As a result, persons living in such households were slightly under-represented in the GSS-24 sample.

In addition, while every effort was made to avoid non-response, the overall non-response rate for GSS-24 was 45%; compared with 41% in GSS-19. Little or nothing is known about the non-responding cases, and so the results may be biased to the extent that the non-responding cases differ from those that provided responses.

## **2. Objectives of the General Social Survey**

The GSS program, established in 1985, conducts telephone surveys across the ten provinces. The GSS is recognized for its regular collection of cross-sectional data that allows for trend analysis, and its capacity to test and develop new concepts that address current or emerging issues.

The two primary objectives of the General Social Survey are:

- a) To gather data on social trends in order to monitor changes in the living conditions and well-being of Canadians over time; and
- b) To provide immediate information on specific social policy issues of current or emerging interest.

To meet the stated objectives, the data collected by the GSS are made up of two components: classification and core content. Classification content consists of variables which provide the means of delineating population groups for use in the analysis of core data. Examples of classification variables are age, sex, education, and income. Core content is designed to measure changes in society related to living conditions and well-being and to supply data to inform specific policy issues.

### **3. Content and Special Features of the GSS Cycle 24**

The content of the questionnaire is outlined below.

#### **Introduction: CONTROL FORM**

This preliminary section is administered for the purposes of introducing the survey and selecting a respondent. A Household Roster is created, which assembles key demographic information on each member of the household, including age, sex, marital status and relationships to other household members.

#### **Section A: CONFIRMATION OF BIRTH DATE AND MARITAL STATUS**

In order to confirm that all respondents who will be answering GSS Cycle 24 are 15 years or over, a question is asked to confirm the age of the respondent. The respondent's age is also important for the survey to determine if certain questions will be asked or not and is also used to validate responses where dates or age are involved. This section also confirms the marital status of the respondent and allows for any necessary corrections.

#### **Section 1: GENERAL TIME USE**

This section introduced respondents to the survey. Respondents were asked a few general questions about their time use relating in particular to whether they felt they had enough time to do what they wanted to do.

#### **Section 2: TIME USE DIARY**

In this section, information on what the respondent did in a 24-hour period was collected. A diary listing is an efficient way to obtain accurate information on how people use their time. For this survey, the diary listing started at 4:00 in the morning as most people are expected to be asleep at that time. The respondents were asked to report the nature of the primary (or main) activities and the related questions regarding the length, the location and who the respondent was with. Also, for the first time, the survey collected information on simultaneous activities, i.e. those that are performed at the same time as a primary activity. Respondents could report up to three simultaneous activities related to a primary activity and the time dedicated to each one. The question on simultaneous activities was not asked in the case of certain primary activities, such as personal care, education, paid work or religious observance.

#### **Section 3: PERCEPTION OF TIME**

In this section, respondents were asked a series of questions about their perception of time. For instance, the respondents were asked if they felt trapped in a daily routine, if they felt under stress when they do not have enough time or whether they were concerned about not spending enough time with family and friends.

#### **Section 4: UNPAID WORK ACTIVITIES**

There were two modules in this section:

- i. unpaid work activities
- ii. volunteering

In the unpaid work activities module, the respondents indicated how many hours they spent doing activities such as housework, yard work or household maintenance, caring for children or providing assistance to seniors in the previous week. In the volunteering module, the respondents indicated whether or not they volunteered for an organization over the last 12 months. For those who volunteered, the number of hours per month respondents volunteered was also collected.

**Section 5: WELL-BEING**

This section covered the respondent's life satisfaction, self-rated general health, health and activity limitations and main source of stress. All are important factors in assessing the well-being of Canadians.

**Section 6: MAIN ACTIVITY AND EDUCATION OF RESPONDENT**

This section focused on the main activity and education of the respondent. The module on main activity collects information about the respondent's main activity during the last week and the past 12 months. The second module of this section includes questions about respondent's highest level of education attained.

**Section 7: MAIN ACTIVITY AND EDUCATION OF RESPONDENT'S SPOUSE/PARTNER**

This section covers the main activity and education characteristics of the respondent's spouse/partner. The questions closely parallel those that are asked about the respondent's main activity and education.

**Section 8: EDUCATION OF RESPONDENT'S PARENTS**

This section focussed on highest level of education attained by the respondent's mother and father.

**Section 9: CULTURAL ACTIVITIES AND SPORTS PARTICIPATION**

This section was split into two sub-samples. About half of the respondents were asked on Cultural Activities module and the second half were interviewed on Sports Participation Activities, Sports Participation of Partner and Sports Participation of Household Children modules.

**Section 10: TRANSPORTATION**

This section includes questions about respondent's access to transportation and the mode of transportation used to commute to work/school.

**Section 11: HOUSING CHARACTERISTICS OF RESPONDENT**

This section covers the respondent's housing characteristics with emphasis on the type of current dwelling, kind of ownership, length of time lived in the home, as well as characteristics of the neighbourhood and local community. Specific questions were also asked about the respondent's use of the Internet.

**Section 12: OTHER CHARACTERISTICS**

This section provides a variety of socio-demographic measures—many of which are repeated each year in the General Social Survey—concerning respondents, their spouses/partners and parents in order to support the analysis of Canadian families and individuals. This cycle of the GSS includes place of birth, Aboriginal identity and visible minority status, religion, language, sexual orientation, and personal and household income.

## 4. Survey and sample design

### 4.1 Target population

The target population for Cycle 24 of the GSS included all persons 15 years of age and older in Canada, excluding:

1. Residents of the Yukon, Northwest Territories, and Nunavut;
2. Full-time residents of institutions.

### 4.2 Stratification

In order to carry out sampling, each of the ten provinces was divided into strata; i.e., geographic areas. Many of the Census Metropolitan Areas (CMAs) were each considered separate strata. This was the case for St. John's, Halifax, Saint John, Montreal, Quebec City, Toronto, Ottawa, Hamilton, Winnipeg, Regina, Saskatoon, Calgary, Edmonton and Vancouver.

CMAs not on this list are located in Quebec, Ontario and British Columbia. Three more strata were formed by grouping the remaining CMAs in each of these three provinces. Finally, the non-CMA areas of each of the ten provinces were also grouped to form ten more strata, for a total of 27 strata.

### 4.3 Sample size and allocation

The target sample for Cycle 24 was 22,000, while the final sample size (respondents) was 15,390. For each province, minimum sample sizes were determined that would ensure that certain estimates would have an acceptable low sampling variability at the stratum level. Once these stratum sample size targets had been met, the remaining sample was allocated to the strata in a way that balanced the need for precision of both national-level and stratum-level estimates.

### 4.4 Frame and sampling strategy

The RDD frame comprises all possible 10-digit phone numbers based on the area codes and 3-digit prefixes currently in use in Canada, from which non-working banks are removed. A bank consists of the 100 telephone numbers defined by the area code, the 3-digit prefix, and the first two of the remaining four digits – for example (416) 922-1100 to (416) 922-1199.

The Elimination of Non-Working Banks is a method in which an attempt is made to identify all working banks for an area – i.e. to identify all banks containing at least one number that belongs to a household according to our directory lists. Then, all non-working banks are eliminated from the sampling frame.

For each province, lists of telephone numbers in use were purchased from the telephone companies and lists of working banks were extracted. Each bank was assigned to a stratum within its province. In each stratum, a simple random sample without replacement of telephone numbers was selected by choosing a simple random sample with replacement of banks from the frame, and then randomly generating the last two digits for each bank to obtain the telephone number. The entire sample of telephone numbers was produced before the first day of interviewing for each wave of collection. Therefore, a prediction of the percentage of numbers dialed that would reach an eligible household had to be made.

In the GSS, all respondents in the ten provinces were interviewed by telephone. Households without telephones were therefore excluded. In 2010, the proportion of households without any phone service was estimated at 1.1% (Residential Telephone Services Survey (RTSS), 2010). As interviews were not conducted by cellular telephone, persons with only cellular telephone service were also excluded. The 2010 RTSS reported that 13% of households in Canada have cellular telephone service only.

Survey estimates were adjusted (weighted) to represent all persons in the target population, including those without telephones. The characteristics of the population without telephones were examined using data from the 2009 Survey of Household Spending. Telephone ownership was high among virtually all socio-economic groups, but was lowest among the households with the lowest household income (less than \$10,000). The telephone ownership rate was 94% for this population, while it was over 97% for all other income groups.

For GSS-24, 54% of the numbers dialled reached eligible households. An attempt was made to conduct a GSS interview with one randomly selected person from each household.

## **5. Collection**

Computer assisted telephone interviewing (CATI) was used to collect data for the GSS. Respondents were interviewed in the official language of their choice. Proxy interviews were not permitted.

All interviewing took place using centralized telephone facilities in four of Statistics Canada's regional offices, with calls being made from approximately 09:00 to 21:30 on Monday to Friday. Interviewing was also usually scheduled from 9:00 to 16:00 on Saturdays and on Sunday afternoons and evenings (13:30 to 21:00). The four regional offices were: Halifax, Sherbrooke, Winnipeg and Edmonton. Interviewers were trained by Statistics Canada staff in telephone interviewing techniques using CATI, survey concepts and procedures. The majority of interviewers had experience interviewing for previous GSS cycles.

Survey manuals are not included in this documentation package but can be made available by contacting Statistics Canada (see Section 9).

Data for Cycle 24 of the GSS were collected from January to December, 2010. The total sample was divided into six non-overlapping waves of collection, each lasting two months. At the beginning of a wave, the sample for that wave was sent to the regional offices. Collection was completed over the two month period and the process for the next wave would start at the beginning of the following month. This process was repeated six times.

The overall response rate during collection for Cycle 24 was 55.2%.

## **6. Processing**

### **6.1 Data capture**

Using CATI, responses to survey questions were entered directly into computers as the interview progressed. The CATI data capture program allowed a valid range of codes for each question and built-in edits, and automatically followed the flow of the questionnaire. The information output by the CATI system was transmitted electronically to Ottawa.

### **6.2 Coding**

Several questions allowed for write-in responses. These responses were coded into either existing categories (where a match was possible) or new categories. Where possible (e.g., occupation, industry, language, education, country of birth, religion), the coding followed the standard classification systems used in the Census of Population.

### 6.3 Edit and imputation

All survey records were subjected to computer edits throughout the course of the interview. The CATI system identified 'out-of-range' values as they were entered. As a result, the interviewer could immediately solve such problems with the respondent. If the interviewer was unable to correctly resolve the detected errors, it was possible for the interviewer to bypass the edit and forward the data to head office for resolution. Interviewer comments were reviewed and taken into account in head office editing.

Head office edits performed the same checks as the CATI system as well as more detailed edits. Due to the nature of the survey, imputation was not appropriate for most items. Records with missing or incorrect information were, in a small number of cases, completed or corrected deterministically from other information on the questionnaire. The flow editing carried out by head office followed a 'top down' strategy, in that whether or not a given question was considered 'on path' was based on the response codes to the previous questions. If the response codes to the previous questions indicated that the current question was 'on path', the responses, if any, to the current question were retained, though 'Don't Know' was recoded as 9 (99 or 999, etc.) and refusals were recoded as 'Not Stated', i.e. 8 (98 or 998, etc.); if, however, a response was missing to the current question, it was coded as 'Not Stated', i.e. 8 (98 or 998, etc.). If the response codes to the previous questions indicated that the current question was 'off path' because the respondent was clearly identified as belonging to a sub-population for which the current question was inappropriate or not of interest, the current question was coded as 'Not Asked', i.e. 7 (97 or 997, etc.).

Non-response was not permitted for those items required for weighting. Values were imputed in the rare cases where either of the following was missing: sex or number of residential telephone lines. The imputation was based on a detailed examination of the data and the consideration of any useful data such as the ages and sexes of other household members, and the interviewer's comments. The number of residential telephone lines was assumed to be one (1) when the respondent failed to provide the information.

### 6.4 Creation of combined and derived variables

A number of variables on the file were derived from information collected on the questionnaires. In some cases, the derived variables were straightforward and involved the collapsing of categories. In other cases, two or more variables were combined to create a new variable. The data dictionary identifies which variables were derived and the nature of their derivation.

## 7. Estimation

When a probability sample is used, as is the case for the GSS, the principle behind estimation is that each person selected in the sample represents (in addition to himself or herself) several other persons not in the sample. For example, in a simple random sample of 2% of a population size of 1000, each person in the sample represents 50 persons in the population. The number of persons represented by a given person in the sample is usually known as the weight or weighting factor of the sampled person.

GSS Cycle 24 estimates can be produced from two microdata files, the main file and the episode file. The main file contains questionnaire responses and associated information from 15,390 respondents and the episode file provides the detailed information on each activity episode reported by respondents.

Four weighting factors were placed on the main file. They are listed and explained below:

WGHT\_PER: This is the basic weighting factor for analysis at the person level, i.e. to calculate estimates of the number of persons (non-institutionalized and aged 15 or over) having one or several given characteristics. WGHT\_PER should be used for all person-level estimates. For example, to estimate the number of persons who say their health is excellent, the value of WGHT\_PER is summed over all records with this characteristic.

WGHT\_HSD: This weighting factor can be used to estimate the number of households with a given characteristic. For example, to estimate the number of households that are in low-rise apartments, WGHT\_HSD should be summed over all records with this characteristic.

In addition, respondents were split (randomly) into two approximately equal sub-samples for Section 9 of the questionnaire. Half of the respondents were asked the questions in the Cultural Activities module and the other half were asked the questions in the Sports Participation Activities, Sports Participation of Partner and Sports Participation of Household Children modules.

As a result of splitting the sample, the following sets of weights were created.

WGHT\_CSP: This is the weighting factor for analysis at the person level created using the sample of persons asked the questions in the Cultural Activities module. For example, to estimate the number of persons who went to a cultural or artistic festival in the last 12 months, WGHT\_CSP should be summed over all records with this characteristic. This weight is zero for respondents who completed the Sports Participation Activities modules.

WGHT\_SNT: This is the weighting factor for analysis at the person level created using the sample of persons asked the questions in Sports Participation Activities module. For example, to estimate the number of persons who regularly participate in any sports during the last 12 months, WGHT\_SNT should be summed over all records with this characteristic. This weight is zero for respondents who completed the Cultural Activities module.

The second microdata file is the episode file. The episode file consists of 283,287 records. Each record represents a single activity in a respondent's day, and all respondent's episodes must add up to twenty four hours (1440 minutes). The WGHT\_EPI indicates the number of time use episodes that a record on the episode file represents.

In addition to the estimation weights, bootstrap weights have been created for the purpose of design-based variance estimation.

## 7.1 Weighting of persons

We view each cycle of the General Social Survey as being composed of a number of independent surveys - one per wave of collection. Wherever possible, therefore, we weight each survey wave independently so that the data collected for each wave contributes to the estimates in proportion to the Canadian population at that time. When the sample size for a particular wave is not large enough, the records for two or more months are grouped together at certain stages of the weighting process.

A self-weighting sample design is one for which the weights of each unit in the sample are the same. The GSS sample for Cycle 24 was selected using the Elimination of Non-Working Banks (ENWB) sampling technique, which has such a design, with each telephone number within a stratum having an equal probability of selection.

This probability is equal to:

$$\frac{\text{Number of telephone numbers sampled in the stratum}}{\text{Total possible number of telephone numbers in the stratum}}$$

(The total number of possible telephone numbers for a stratum is equal to the number of working banks for a stratum times 100 minus the number of business telephone numbers in those banks).

### **1) Basic weight calculation**

Each working (in service) telephone number (responding and non-responding) in the RDD sample was assigned a weight equal to the inverse of its probability of selection. This weight was calculated independently for each stratum-wave group as follows:

$$\frac{\text{Number of possible telephone numbers in each stratum-wave group}}{\text{Number of sampled telephone numbers in each stratum-wave group}}$$

### **2) Two-stage adjustment**

Weights for responding telephone numbers were adjusted to represent non-responding telephone numbers. This was done independently within each stratum-wave group.

Non-responding telephone numbers were grouped into two types; those with some auxiliary information available (in particular, a complete roster of household members) and those with no auxiliary information.

This non-response adjustment was done in two stages. In the first stage, adjustment was made for complete non-response (i.e., households for which no auxiliary information was available). In the second stage, adjustment was made for partial non-response. These households had some auxiliary information which was used to model propensity to respond. The combination of these two adjustments is referred to as Factor 1.

Non-responding telephone numbers were then dropped.

### **3) Household weight calculation**

The weight from Step 2) was used as an initial household weight. For households with more than one residential telephone number (i.e. not used for business, fax or computer purposes only), this weight was adjusted downwards to account for the fact that such households had a higher probability of being selected. The weight for each household was divided by the number of residential telephone numbers that serviced the household.

$$\text{Factor 2} = \frac{1}{\text{Number of non-business telephone numbers}}$$

This produces a household weight = Basic Weight x Factor 1 x Factor 2.

### **4) Person weight calculation**

A person weight was then calculated for the respondent by multiplying the household weight by the number of persons in the household who were eligible to be selected for the survey (i.e. the number of persons 15 years of age or older).

This produces a person weight =

Basic Weight x Factor 1 x Factor 2 x Number of eligible household members.

### **5) Adjustment of person weights to external totals**

The person weights were adjusted several times using a raking ratio procedure. This procedure ensures that, based on the survey's total sample, estimates produced that should match certain external reference totals do indeed match them. Two sets of external references were used for this survey, both of them population totals: for stratum (geographic) by wave, and for age-sex groups by province.

It should be noted that persons living in households without telephone service are included in the external references even though such persons were not sampled.

#### **5a) Regional office (RO) - Stratum - Wave Adjustment**

An adjustment was made to the person weights on records within each stratum (geographic) per wave in order to make population estimates consistent with the corresponding projected population counts. This was done by multiplying the person weight for each record within the stratum by the following ratio:

$$\frac{\text{Projected population count for the RO-stratum-wave}}{\text{Sum of the person weights for the RO-stratum-wave}}$$

When sample sizes were small (< 15), data for adjacent waves in the same stratum were combined before this adjustment was made.

#### **5b) Province - age - sex adjustment**

The next weighting step was to adjust the weights to agree with projected province-age-sex population distributions. Projected population counts were obtained for males and females within the following sixteen age groups:

15-19	20-24	25-29	30-34
35-39	40-44	45-49	50-54
55-59	60-64	65-69	70-74
75-79	80-84	85-89	90 +

For each of the resulting classifications the person weights for records within the classification were adjusted by multiplying by the following ratio:

$$\frac{\text{Projected province-age-sex group population count}}{\text{Sum of the province-age-sex group person weights}}$$

When sample sizes were small, adjacent age group data for the same province and sex were combined before this adjustment was made.

#### **5c) Raking ratio adjustments**

As stated in 5) above, the weights of each respondent were adjusted several times using a raking ratio procedure to ensure that estimates produced for RO-Stratum-Wave and Province-Age-Sex totals agree with the external reference totals. This adjustment was made by repeating steps 5a) and 5b) of the weighting procedures until each repetition of the step made a minimal adjustment to the weights.

## 6) Final person weight

The weight produced at the end of step 5) is the final person weight (WGHT\_PER) placed on the main file.

## 7) Household weight

The person is considered to be the basic analysis unit. Measures have been put in place to ensure that the person weight matches the external totals, as can be seen from its derivation. However, it is sometimes necessary to estimate the number of households and, for this purpose, an approximate household weight was included in the Main file. This is simply the person weight divided by the number of household members eligible for the survey (i.e. those aged 15 or over). The latter variable is called DVELLIG.

$$\text{WGHT\_HSD} = \text{WGHT\_PER} / \text{DVELLIG}$$

Note that the adjustments performed on the person weight such as raking ratio make WGHT\_HSD preferable to the preliminary household weight mentioned in 3) above.

## 8) Person weight based on the split sample

To take into account the sample split for Section 9 of the questionnaire, two additional person weights WGHT\_CSP and WGHT\_SNT were created. These weights were both created using the same approach to derive WGHT\_PER.

WGHT\_CSP is zero for respondents who were not asked the questions in the Cultural Activities module and WGHT\_SNT is zero for respondents who were not asked the questions in the Sports Participation Activities modules.

## 7.3 Weighting policy

Users are cautioned against releasing unweighted tables or performing any analysis based on unweighted survey results. As was discussed in Section 7.1, there were several weight adjustments performed that depended on the province, stratum, age and sex of the respondent. Sampling rates as well as non-response rates varied significantly from province to province, and non-response rates varied with demographic characteristics. For example, non-respondents are often more likely to be males and more likely to be younger. In the responding sample, 2.6% were males between the ages of 15 and 19, while in the overall population, approximately 4% were males between 15 and 19. Therefore, it is clear that unweighted sample counts cannot be considered to be representative of the survey target population.

The total number of households in the survey's scope was estimated at 27,863. Among these resolved households, 15,390 usable responses were obtained, which gives a response rate of 55.2%. The distribution of the non-response and response categories is given in the table below:

Source	Number	%
1. Unresolved households	2,371	8.5
2. Household non-response	5,312	19.1
3. Refusal by selected person	1,635	5.9
4. Other non-response by person	3,155	11.3
5. Response	15,390	55.2
<b>Total Households</b>	<b>27,863</b>	<b>100.0</b>

In all, there were 10,102 non-response cases (lines 2, 3 and 4), which represented 36.3% of the household sample. Line 1 gives the number of unresolved households (those for which the composition of the household could not be determined) that were estimated to be within the survey's scope. Since the composition of the household could not be determined in those 2,371 cases, some of them may in fact not be within the survey's scope. Lines 3 and 4 show non-response occurring after the respondent was selected in households. In all, there were 1,635 cases of refusal by the selected person – i.e. 5.9% of the household's sample. The "other non-response" categories (lines 2 and 4) include cases where no response could be obtained because of language difficulties or other problems.

## 7.4 Types of estimates

### 7.4.1 Qualitative estimates

The target population for the GSS was non-institutionalized persons aged 15 and older, living in the ten provinces. Qualitative estimates are estimates of the number or proportion of this target population possessing certain characteristics. The number of people (4,631,034) who describe their state of health as excellent (SRH\_Q110 = 1) is an example of this kind of estimate. These estimates are readily obtained by summing the person weights (WGHT\_PER) of the records possessing the characteristic of interest. This estimate does not, however, adjust for non-response to the question in any way. If we make the assumption that those who either refused to answer the question or who responded 'Don't Know' have the same distribution as those who responded, then an adjusted estimate can be made. To do this, the proportion of the target population with this characteristic is estimated by excluding respondents with a 'Not Stated' or 'Don't Know' answer to question SRH\_Q110 and calculating the ratio of the total of the weights of those respondents who answered that their state of health was 'Excellent' (SRH\_Q110=1) to that of all respondents who answered the question (SRH\_Q110=1, 2, 3, 4, or 5). This proportion is then multiplied by the size of the target population to produce the final estimate (it should be noted that this adjustment does not have to be done, but it can be if needed):

$$4,701,753 = 28,075,610 \times \frac{4,631,034}{27,653,328}$$

28,075,610 is the estimated number of persons aged 15 and over in the population (target population). 27,653,328 is the sum of the weights of all respondents who answered question SRH\_Q110 (i.e. SRH\_Q110 = 1,2,3,4 or 5).

When the proportion of responses that are 'Don't Know' or 'Refused' are high the differences between the two estimates will be large.

### 7.4.2 Quantitative estimates

Some variables on the General Social Survey data files are quantitative in nature (e.g. age, number of weeks worked in the past 12 months). From these variables, it is possible to obtain such estimates as the average number of weeks worked in the past 12 months. These quantitative estimates are of the following ratio form:

$$\text{Estimate (average)} = X / Y$$

The numerator (X) is a quantitative estimate of the total of the variable of interest (for example, the number of weeks worked in the past 12 months) for a given sub-population (for example, males who worked in the past 12 months). In this example, X would be calculated by multiplying the person weight (WGHT\_PER) by the variable of interest (WKWE) when it is known,  $1 \leq WKWE \leq 52$ , (i.e. not equal to '96', '97' or '99'), and summing this product over all records for males who worked i.e.  $SEX=1$  and  $(1 \leq WKWE \leq 52)$ , which yields 463,124,466

The denominator (Y) is the qualitative estimate of the number of persons within that sub-population (males who worked in the past 12 months). In this example, Y would be calculated by summing the person weight (WGHT\_PER) over all male respondents with  $1 \leq WKWE \leq 52$ , yielding 10,539,366.

The two estimates X and Y are derived independently and then divided to provide the quantitative estimate. The average number of weeks is then calculated to be:

$$\frac{463,124,466}{10,539,366} = 43.9$$

## 7.5 Guidelines for analysis

As detailed in Section 4 of this document, the respondents from the GSS do not form a simple random sample of the target population. Instead, the survey had a complex design, with stratification and multiple stages of selection, and unequal probabilities of selection of respondents. Using data from such complex surveys presents analytical challenges because the survey design and the selection probabilities affect the estimation and variance calculation procedures that should be used.

The GSS used a stratified design, with significant differences in sampling fractions between strata. Thus, some areas were over-represented in the sample (relative to their populations) while some other areas were relatively under-represented; this means that the unweighted sample was not representative of the target population, even if there was no non-response. Non-response rates may vary by demographic group, making the unweighted sample even less representative.

The survey weights must be used when producing estimates or performing analyses in order to account as much as possible for the geographic over- and under-representation and for the under- or over-representation of age-sex groups or months of the year in the unweighted file. While many analysis procedures found in statistical packages allow weights to be used, the meaning or definition of the weight in these procedures often differs from that which is appropriate in a sample survey framework, with the result that while in many cases the estimates produced by the packages are correct, the variances that are calculated are almost meaningless.

For many analysis techniques (for example linear regression, logistic regression, estimation of rates and proportions, and analysis of variance), a method exists which can make the variances calculated by the standard packages more meaningful. If the weights on the data, or on the subset of the data that is of interest, are rescaled so that the average weight is one (1), then the variances produced by the standard packages will be more reasonable; they still will not take into account the stratification and clustering of the sample's design, but they will take into account the unequal probabilities of selection. This rescaling can be accomplished by dividing each weight by the overall average weight before the analysis is conducted.

Section 8 describes sampling variability and data reliability in more detail and Appendix A gives a series of tables that can be used to estimate the sampling variability of many qualitative estimates of totals and proportions.

## 7.6 Methods of estimation and interpretation of estimates

### 7.6.1 Estimating numbers of persons by using WGHT\_PER on the main file

As previously mentioned, a basic person weight has been assigned to each sampled individual and, as described in Section 7.1, these weights have been adjusted to reflect the age and sex composition of the various provincial populations as estimated by Statistics Canada for each month covered by Cycle 24.

$$\sum_{i=1}^{15,390} \text{WGHT\_PER} = 28,075,610^1$$

<sup>1</sup> Estimate of the number of persons aged 15 and over in the population

In general, when an estimate is based on the unit of observation being the person, the main file and WGHT\_PER should be used. Examples of this are the average number of weeks worked by persons aged 25 to 29 years old, the percentage of persons who considered themselves to be workaholic, and the number of people aged between 25 and 44 who volunteered in the past 12 months.

The last example would be calculated as follows: WGHT\_PER would be summed up for all records on the main file with  $2 \leq \text{AGEGR10} \leq 3$  and  $\text{VCG\_Q300} = 1$ , giving an estimate of 3,422,193 persons aged 25 to 44 who volunteered in the past 12 months.

### **7.6.2 Estimating Numbers of Persons using WGHT\_CSP**

The weighting factor WGHT\_CSP should be used when estimating the number of people for questions in Cultural activities module. For example, to estimate the number of people who read a newspaper as a leisure activity in the last 12 months, WGHT\_CSP should be summed over the number of records with  $\text{LCA\_Q110} = 1$ . The number of people who read a newspaper as a leisure activity in the last 12 months is 10,175,772.

### **7.6.3 Estimating Numbers of Persons using WGHT\_SNT**

The weighting factor WGHT\_SNT should be used when estimating the number of people for questions in Sports participation section. For example, when estimating the number of people who regularly participate in sports during the last 12 months, WGHT\_SNT should be summed over all records with  $\text{SPA\_Q100} = 1$ , yielding an estimate of 7,230,075 people.

### **7.6.4 Estimating numbers of households by using WGHT\_HSD on the main file**

The weighting factor WGHT\_HSD should be used when estimating the number of households. For example, when estimating the number of households in Ontario, WGHT\_HSD would be summed over all records with  $\text{PRV}=35$ , yielding an estimate of 4,937,345 households.

## **8. Release guidelines and data reliability**

It is important for users to become familiar with the contents of this section before publishing or otherwise releasing any estimates derived from the General Social Survey data files.

This section of the documentation provides guidelines to be followed by users. With the aid of these guidelines, users of the data files should be able to produce figures consistent with those produced by Statistics Canada and in conformance with the established guidelines for rounding and release. The guidelines include four broad sections: Minimum Sample Sizes for Estimates; Sampling Variability Policy; Sampling Variability Estimation; and Rounding Policy.

### **8.1 Minimum sample size for estimates**

Users should determine the number of records on the data files which contribute to the calculation of a given estimate. This number should be at least 15 in the case of persons or households. When the number of contributors to the weighted estimate is less than 15, the weighted estimate should generally not be released regardless of the value of the Approximate Coefficient of Variation. If it is, it should be with great caution and the fact that there is insufficient number of contributors associated with the estimate should be prominently noted.

## 8.2 Sampling variability guidelines

The estimates derived from this survey are based on a sample of persons. Somewhat different figures might have been obtained if a complete census had been taken using the same questionnaire, interviewers, supervisors, processing methods, etc. as those actually used. The difference between the estimates obtained from the sample and the results from a complete count taken under similar conditions is called the sampling error of the estimate.

Errors which are not related to sampling may occur at almost every phase of a survey operation. Interviewers may misunderstand instructions, respondents may make errors in answering questions, the answers may be incorrectly entered into the CATI system, and errors may be introduced in the processing and tabulation of the data. These are all examples of non-sampling errors.

Over a large number of observations, randomly occurring errors will have little effect on estimates derived from the survey. However, errors occurring systematically will contribute to biases in the survey estimates. Considerable time and effort was made to reduce non-sampling errors in the survey. Quality assurance measures were used at each step of the data collection and processing cycle to monitor the quality of the data. These measures included the use of highly skilled interviewers, extensive training of interviewers with respect to the survey procedures and questionnaire, observation of interviewers to detect problems of questionnaire design or misunderstanding of instructions, and coding and edit quality checks to verify the processing logic.

### 8.2.1 Non-sampling errors

A major source of non-sampling errors in surveys is the effect of non-response on the survey results. The extent of non-response varies from partial non-response (failure to answer one or a few questions) to total non-response. Total non-response occurred because either the interviewer was unable to contact the respondent, no member of the household was able to provide the information (perhaps due to a language problem), or the respondent refused to participate in the survey. Total non-response was handled by adjusting the weight of households who responded to the survey to compensate for those who did not respond.

In most cases, partial non-response to the survey occurred when the respondent did not understand or misinterpreted a question, refused to answer a question, or could not recall the requested information.

### 8.2.2 Sampling errors

Since it is an unavoidable fact that estimates from a sample survey are subject to sampling error, sound statistical practice calls for researchers to provide users with some indication of the magnitude of this sampling error.

Although the exact sampling error of the estimate, as defined above, cannot be measured from sample results alone, it is possible to estimate a statistical measure of sampling error, the standard error, from the sample data. Using the standard error, confidence intervals for estimates (ignoring the effects of non-sampling error) may be obtained under the assumption that the estimates are normally distributed about the true population value. The chances are about 68 out of 100 that the difference between a sample estimate and the true population value would be less than one standard error, about 95 out of 100 that the difference would be less than two standard errors, and virtually certain that the differences would be less than three standard errors.

Since the absolute size of the sampling error of an estimate is often less important than its relative size (relative to the estimate itself) the standard error is not always the best measure of sampling error. For example, a standard error of 10 for an estimate of 20 would generally be taken as indicating that the estimate is a poor one, while the same standard error for an estimate of 1,000 would generally indicate a good estimate. For this reason the size of the sampling error is often expressed relative to the size of the estimate, as the coefficient of variation (c.v.). The coefficient of variation of an estimate is obtained by dividing the standard error of the estimate by the estimate itself, and the resulting fraction is usually expressed as a percentage. In the above example, the first estimate has a c.v. of 50% (10/20), while the second has a c.v. of 1% (10/1,000).

In order to provide a means of assessing the quality of many estimates, Statistics Canada has produced a set of Approximate Sampling Variability Tables for GSS. These tables can be used to obtain approximate coefficients of variation for categorical-type estimates and proportions. More precise estimates of the sampling variability of estimates can be produced with the bootstrap method using bootstrap weights that have been created for this survey. See Section 8.3 for more details.

### 8.2.3 Guidelines for release of estimates

When considering releasing *and/or* publishing an estimate from the data files, users should consult the table below and follow the guideline that matches the coefficient of variation of the estimate.

<b>Type of Estimate</b>	<b>Coefficient of Variation</b>	<b>Policy Statement</b>
1. With Moderate Sampling Variability	0.0% to 16.5%	Estimates can be considered for general unrestricted release. No special notation is required.
2. With High Sampling Variability	16.6% to 33.3%	Estimates can be considered for general unrestricted release but should be accompanied by a warning cautioning users of the high sampling variability associated with the estimates.
3. With Very High Sampling Variability	33.4% or over	Estimates should generally not be released, but when they are it should be with great caution and the very high sampling variability associated with the estimate should be prominently noted.

### 8.3 Estimates of variance

Variance estimation is described separately for qualitative and quantitative estimates.

### 8.3.1 Sampling variability for qualitative estimates

Derivation of the sampling variability of each of the qualitative estimates which could be generated from the survey would be an extremely costly procedure, and for most users, an unnecessary one. Consequently, approximate measures of sampling variability, in the form of tables, have been developed for use and are included in Appendix A ("Approximate Variance Tables"). These tables were produced using the coefficient of variation formula based on a simple random sample. Since the design of Cycle 24 of the General Social Survey was not a simple random sample, a factor called the Design Effect has been introduced into the variance formula. This factor was calculated for each of the data files available.

The Design Effect for an estimate is the actual variance for the estimate (taking into account the design that was used) divided by the variance that would have resulted if the estimate had been derived from a simple random sample. The Design Effect used to produce the Approximate Variance Tables has been determined by first calculating Design Effects for a wide range of characteristics and then choosing among these a conservative value which will not give a false impression of high precision. These Design Effects are specified in the following table:

<u>Geographic sector</u>	<u>Design Effect</u>
Canada	1.70
Newfoundland and Labrador	1.52
Prince Edward Island	1.29
Nova Scotia	1.29
New Brunswick	1.52
Quebec	1.28
Ontario	1.40
Manitoba	1.44
Saskatchewan	1.30
Alberta	1.45
British Columbia	1.75
Atlantic Region	1.63
Prairie Region	1.77

Approximate variance tables for estimates using WGHT\_PER are provided at the Canada and provincial levels as well as for the Atlantic and Prairie Regions for the main file.

It should be noted that all coefficients of variation in these tables are approximate and therefore unofficial. However, more precise estimates of the sampling coefficients of variation for specific variables may be obtained using "bootstrap" weights and associated programs. The types of estimates supported include 'aggregates' or 'totals', proportions, ratios, differences between 'aggregates' or 'totals', as well as more sophisticated types of analyses such as estimates of coefficients from linear regressions and logistic regressions, among others.

The use of variable-specific variance calculation instead of the table-based approximations may allow users to feel more certain of the quality of their estimates, especially those with coefficients of variation estimated from the tables in the "Very High Sampling Variability" range (see the guidelines regarding the release of the survey estimates on preceding pages).

### 8.3.2 Sampling variability for quantitative estimates

Approximate variances for quantitative variables cannot be as conveniently summarized. As a general rule, however, the coefficient of variation of a quantitative total will be larger than the coefficient of variation of the corresponding qualitative estimate. If the corresponding qualitative estimate has high sampling variability, then the quantitative total will, in general, have high sampling variability as well.

### 8.3.3 Bootstrap method for variance estimation

In order to determine the quality of the estimate and to calculate the CV, the standard deviation must be calculated. Confidence intervals also require the standard deviation of the estimate. GSS uses a multi-stage survey design and calibration, which means that there is no simple formula that can be used to calculate variance estimates. Therefore, an approximate method is needed. The bootstrap method is used because the sample design and calibration needs to be taken into account when calculating variance estimates. The bootstrap method does this, and with the use of the Bootvar program, discussed in the next subsection, is a method that is fairly easy for users.

GSS uses the mean bootstrap method described by W. Yung (Variance estimation for public use microdata files; Symposium 97, New Directions in Surveys and Censuses: Proceedings, p. 91-95. Statistics Canada (1997)).

Independently, in each stratum, a simple random sample of  $(n-1)$  of the  $n$  units in the sample is selected with replacement. Note that since the selection is with replacement, a unit may be chosen more than once. This step is repeated  $R$  times to form  $R$  bootstrap samples. An average initial bootstrap weight based on the  $R$  samples is calculated for each sample unit in the stratum. The entire process (selecting simple random samples, recalculating weights for each stratum) is repeated  $B$  times, where  $B$  is large, yielding  $B$  different initial bootstrap weights. The GSS typically uses  $R=25$  and  $B=500$ , to produce 500 bootstrap weights.

These weights are then adjusted according to the same weighting process as the regular weights: non response adjustment, calibration and so on. The end result is 500 final bootstrap weights for each unit in the sample. The variation among the 500 possible estimates based on the 500 bootstrap weights are related to the variance of the estimator based on the regular weights and can be used to estimate it.

There are a number of reasons why a user may need to calculate the coefficient of variation of estimates with the bootstrap method. A few are given below.

First, if a user desires estimates at a geographic level smaller than the province (for example, at the urban or rural level), then the Approximate Variance tables provided are not adequate. Coefficients of variation of these estimates may be obtained using "domain" estimation techniques through the Bootstrap variance program. Second, should a user require more sophisticated analyses such as estimates of coefficients from linear regressions or logistic regressions, the Approximate Variance tables will not provide correct associated coefficients of variation. Although some standard statistical packages allow sampling weights to be incorporated in the analyses, the variances that are produced often do not properly take into account the design *and/or* calibration of the weights, whereas the Bootstrap variance program does so. Third, for estimates of quantitative variables, separate tables are required to determine their sampling error. Since most of the variables for the General Social Survey are categorical in nature, this has not been done. Thus, users wishing to obtain coefficients of variation for quantitative variables must do so through the Bootstrap variance program.

### 8.3.4 Bootvar program for variance estimation

Statistics Canada has developed a program that can perform Bootstrap variance estimation: the Bootvar program.

The Bootvar program is available in SAS as well as SPSS format. It is made up of macros that compute variances for totals, ratios, differences between ratios and for linear and logistic regression.

Tips for using the GSS mean bootstrap weights in some commercial analytic software can be found in Appendix B.

Bootvar may be downloaded from Statistics Canada's Research Data Centre (RDC) website. Users must accept the Click-Wrap licence before they can read the files. There is a document on the site explaining how to adapt the system to meet users' needs.

SAS: [http://www.statcan.ca/english/rdc/bootvar\\_sas.htm](http://www.statcan.ca/english/rdc/bootvar_sas.htm)

SPSS: [http://www.statcan.ca/english/rdc/bootvar\\_spss.htm](http://www.statcan.ca/english/rdc/bootvar_spss.htm)

## 8.4 Rounding

In order that estimates produced from the General Social Survey microdata files correspond to those produced by Statistics Canada, users are urged to adhere to the following guidelines regarding the rounding of such estimates. It may be misleading to release unrounded estimates, as they imply greater precision than actually exists.

### 8.4.1 Rounding guidelines

- 1) Estimates of totals in the main body of a statistical table should be rounded to the nearest thousand using the normal rounding technique (see definition in Section 8.4.2).
- 2) Marginal sub-totals and totals in statistical tables are to be derived from their corresponding unrounded components and then are to be rounded themselves to the nearest thousand units using normal rounding.
- 3) Averages, proportions, rates and percentages are to be computed from unrounded components and then are to be rounded themselves to one decimal using normal rounding.
- 4) Sums and differences of aggregates and ratios are to be derived from corresponding unrounded components and then rounded to the nearest thousand units or the nearest one decimal using normal rounding.
- 5) In instances where, due to technical or other limitations, a different rounding technique is used, resulting in estimates different from Statistics Canada estimates, users are encouraged to note the reason for such differences in the released document.

### 8.4.2 Normal rounding

In normal rounding, if the first or only digit to be dropped is 0 to 4, the last digit to be retained is not changed. If the first or only digit to be dropped is 5 to 9, the last digit to be retained is raised by one. For example, the number 8499 rounded to thousands would be 8000 and the number 8500 rounded to thousands would be 9000.

## 9. Additional information

Additional information about this survey can be obtained from the individuals listed below. Data from the survey is available through published reports, special request tabulations, and the microdata file. The microdata file will be available from the Social and Aboriginal Statistics Division of Statistics Canada. Tabulations can be obtained at a cost that will reflect the resources required to produce the tabulation.

## Appendix A

### Approximate Variance Tables

By using the Approximate Variance Tables and the following rules, users should be able to determine approximate coefficients of variation for qualitative\* estimates or combinations of such estimates such as percentages, ratios, differences between totals and differences between ratios. Note that these tables are not appropriate for determining variances for quantitative\* estimates.

There are tables for each geographic area.

These tables are for the general adult population (aged 15 years and over) and any sub-population thereof.

The geographic areas are Canada, the ten provinces and the Atlantic and Prairie Regions.

As noted in 8.2, estimates having cv's of more than 33.3% are not releasable. In addition, as mentioned in 8.1, each estimate should be derived from at least 15 respondents in order to be released, regardless of the approximate coefficient of variation.

The approximate variance tables in this appendix include:

- 1) Canada, provincial and regional level tables for estimates of numbers of persons calculated using WGHT\_PER.
- 2) Canada, provincial and regional level tables for estimates of numbers of persons calculated using WGHT\_CSP (tables identified by 'split sample 1').
- 3) Canada, provincial and regional level tables for estimates of numbers of persons calculated using WGHT\_SNT (tables identified by 'split sample 2').

Users must ensure that they have chosen the appropriate table for their particular estimate. Note that provincial and regional level tables for household level estimates are available upon request.

---

\* With the term 'qualitative estimates', we are referring to estimated population counts of persons possessing a characteristic measured by the survey. These estimated population counts are the estimated totals for an implicit indicator variable for the quality or characteristic of interest. For each person, this implicit variable is either 1 (when the person has the characteristic) or 0 (when the person does not have the characteristic). When the variable associated with the estimate can take on values other than 0 or 1 for each person, i.e. there is a count or quantity for each person, we refer to the estimate as "quantitative", e.g. average personal income or average size of household (number of members).

## Rules for Obtaining Approximate Variances

The following rules should enable the user to determine the approximate coefficients of variation from the Approximate Variance Tables for estimates of the number, proportion or percentage of the surveyed population possessing a certain characteristic and for ratios and differences between estimates.

As noted in Section 8.1, each estimate should be derived from at least 15 respondents in order to be released, regardless of the Approximate Coefficient of Variation.

### **Rule 1: Estimates of Numbers Possessing a Characteristic (Aggregates)**

The coefficient of variation (cv) depends only on the size of the estimated aggregate itself. On the Approximate Variance Table, locate the estimated aggregate in the left-most column of the table (headed "Numerator of Percentage") and follow the asterisks across to the first figure encountered. This figure is the estimated coefficient of variation.

#### **Example 1:**

*A user estimates that in Canada 465,088 females aged 15 years and over describe their state of health as poor (question SRH\_Q110=5). How does the user determine the approximate coefficient of variation for this estimate?*

*Refer to the approximate variance table for Canada level estimates (page A-9). The estimated aggregate does not appear in the left-most column (the 'Numerator of Percentage' column), so it is necessary to use the closest figure, namely 450,000. The coefficient of variation for an estimated aggregate is found by referring to the first non-asterisk entry for that row, in this case 8.2%. This cv falls within the range of cv's for 'Unqualified' estimates (i.e. 0.0% - 16.5%) allowing the estimate to be released without restriction.*

**Rule 2: Estimates of Percentages or Proportions Possessing a Characteristic**

The coefficient of variation of an estimated percentage or proportion depends on both the size of the percentage or proportion and the size of the total upon which the percentage is based. Estimated percentages or proportions are relatively more reliable than the corresponding estimates of the numerators of the percentages, particularly if the percentages are 50 percent or more. (Note that in the tables the cv's decline in value reading from left to right).

When the percentage or proportion is based upon the total population of the geographic area covered by the table, the cv of the percentage or proportion is the same as the cv of the numerator of the percentage. In this case, Rule 1 can be used.

When the percentage or proportion is based upon a subset of the total population (e.g. those in a particular age-sex group), reference should be made to the percentage (across the top of the table) and to the numerator of the percentage or proportion (down the left side of the table). The intersection of the appropriate row and column gives the coefficient of variation.

**Example 2:**

*A user estimates that in Canada 3.27% of females aged 15 years and over describe their state of health as poor (SRH\_Q110=5). This is the expression of the estimate obtained in Example 1 as a percentage of all females aged 15 years and over in Canada. How does the user determine the approximate coefficient of variation for this estimate?*

*Refer to the approximate variance table for Canada level estimates. Because the estimate is a percentage which is based on a subset of the population covered by the table, it is necessary to use both the percentage (3.27%) and the numerator portion of the percentage (465,088) to determine the approximate coefficient of variation. Since the numerator does not appear in the left-most column (the 'Numerator of Percentage' column), it is necessary to use the figure closest to it, namely 450,000. Similarly, the percentage estimate does not appear among the column headings, so it is necessary to use the figure closest to it, namely 2.0%. The figure at the intersection of the row and column selected, namely 8.2%, is the coefficient of variation. This cv falls within the range of cv's for 'Unqualified' estimates (i.e. 0.0% - 16.5%, pg. A-9) allowing the estimate to be released without restriction.*

**Rule 3: Ratios**

In the case where the numerator is a subset of the denominator, the ratio should be converted to a percentage and Rule 2 applied. This would apply, for example, to the case where the denominator is the number of males and the numerator is the number of males who read a newspaper during the past week.

In the case where the numerator is not a subset of the denominator, the coefficient of variation of the ratio of two estimates is approximately equal to the square root of the sum of squares of each coefficient of variation considered separately. That is, the standard deviation of a ratio

$$R = X / Y \quad \text{is} \quad \text{sd}(R) = R * (\text{cv}(X)^2 + \text{cv}(Y)^2)^{1/2}$$

The coefficient of variation of R is approximately:

$$\begin{aligned} \text{cv}(R) &= \text{sd}(R) / R \\ &= (\text{cv}(X)^2 + \text{cv}(Y)^2)^{1/2} \end{aligned}$$

This formula will tend to overstate the error if X and Y are positively correlated and understate the error if X and Y are negatively correlated.

**Example 3:**

*A user estimates that in Canada among females aged 15 years and over, 465,088 describe their state of health as poor (question SRH\_Q110=5) and 2,217,751 describe their state of health as excellent as (question SRH\_Q110=1). The user is interested in the ratio of females describing their health as excellent versus those describing their health as poor. How does the user determine the approximate coefficient of variation for this ratio estimate?*

*The numerator of the ratio estimate is 2,217,751 (X). Using Rule 1 (refer to Example 1), the coefficient of variation for this estimate is determined to be 3.7% cv(X). The denominator of the ratio estimate is 465,088 (Y). Again using Rule 1, the coefficient of variation is determined to be 8.2% cv(Y). Using Rule 3, the coefficient of variation of the ratio estimate is*

$$\begin{aligned} \text{cv} &= (0.037^2 + 0.082^2)^{1/2} \\ &= 0.09 \end{aligned}$$

*Therefore at the Canada level, the ratio of females who describe their health as excellent versus females who describe their health as poor is 2,217,751/465,088 or 4.8 to 1. The coefficient of variation of this estimate is 9%, and so the estimate can be released without restriction.*

**Rule 4: Differences Between Totals or Percentages**

The standard deviation of a difference between two estimates is approximately equal to the square root of the sum of squares of each standard deviation considered separately. That is, the standard deviation of a difference:

$$d = X - Y$$

is

$$sd(d) = ( (X * cv(X))^2 + (Y * cv(Y))^2 )^{1/2}$$

The coefficient of variation of d is approximately:

$$cv(d) = sd(d) / d$$

This formula is accurate for the difference between separate and uncorrelated characteristics but is only approximate otherwise.

**Example 4:**

*A user estimates that in Canada, among those 15 years and over, 3.27% (X) of females describe their state of health as poor and 2.77% (Y - an estimated 383,901) of males describe their state of health as poor. The user is interested in the difference between these two estimates. How does the user determine the approximate coefficient of variation for the estimate of the difference?*

*From Example 2, the coefficient of variation for the female estimate is 8.2%. The coefficient of variation for the male estimate is 8.7%.*

*The difference between the estimates is 0.5%. Using Rule 4, standard deviation of the difference between the estimates is*

$$sd = ((0.0327 \times 0.082)^2 + (0.0277 \times 0.087)^2)^{1/2}$$

$$= 0.0036$$

*and the coefficient of variation is*

$$cv = \frac{0.0036}{0.005}$$

$$= 0.72$$

*Therefore the coefficient of the difference between the estimates is 72% and the estimate should not be released.*

**Rule 5: Difference of Ratios**

In this case, Rules 3 and 4 are combined. The cv's of the two ratios are first determined using Rule 3, and the cv of their difference is found using Rule 4.

**Confidence Limits**

Although coefficients of variation are widely used, a more intuitively meaningful measure of sampling error is the confidence interval of an estimate. A confidence interval constitutes a statement on the level of confidence that the true value for the population lies within a specified range of values. For example a 95% confidence interval can be described as follows:

If sampling of the population is repeated indefinitely, each sample leading to a new confidence interval for an estimate, then in 95% of the samples the interval will cover the true population value.

Using the standard error of an estimate, confidence intervals for estimates may be obtained under the assumption that under repeated sampling of the population, the various estimates obtained for a population characteristic are normally distributed about the true population value. Under this assumption, the chances are about 68 out of 100 that the difference between a sample estimate and the true population value would be less than one standard error, about 95 out of 100 that the difference would be less than two standard errors, and about 99 out of 100 that the differences would be less than three standard errors. These different degrees of confidence are referred to as the confidence levels.

Confidence intervals for an estimate,  $\bar{X}$ , are generally expressed as two numbers, one below the estimate and one above the estimate, as  $(\bar{X}-k, \bar{X}+k)$  where  $k$  is determined depending upon the level of confidence desired and the sampling error of the estimate.

Confidence intervals for an estimate can be calculated directly from the Sampling Variability Tables by first determining from the appropriate table the coefficient of variation of the estimate, and then using the following formula to convert to a confidence interval CI:

$$CI_x = \{\bar{X} - (t)(\bar{X})(\alpha\bar{X}), \bar{X} + (t)(\bar{X})(\alpha\bar{X})\}$$

where  $\alpha\bar{X}$  is the determined coefficient of variation of  $\bar{X}$

- t = 1 if a 68% confidence interval is desired;
- t = 1.6 if a 90% confidence interval is desired;
- t = 2 if a 95% confidence interval is desired;
- t = 3 if a 99% confidence interval is desired.

**Example 5(a):**

*A user estimates that in Canada 465,088 females aged 15 years and over describe their state of health as poor (question SRH\_Q110=5). This estimate has an approximate coefficient of variation of 8.2%. The 95% confidence interval for this estimate is thus:*

$$\begin{aligned} CI &= \{465,088 - (2)(465,088)(0.082), 465,088 + (2)(465,088)(0.082)\} \\ &= \{465,088 - 76,274, 465,088 + 76,274\} \\ &= \{388,814, 541,362\} \end{aligned}$$

**Example 5(b):**

An estimated 3.27% of females aged 15 years and over in Canada described their state of health as poor or .0327 expressed as a proportion. From Example 2 this estimate has an approximate coefficient of variation of 8.2%. A 95% confidence interval for this estimate (expressed as a proportion) is

$$\begin{aligned} CI &= \{0.0327 - (2)(0.0327)(0.082), 0.0327 + (2)(0.0327)(0.082)\} \\ &= \{0.0327 - 0.0054, 0.0327 + 0.0054\} \\ &= \{0.0273, 0.0381\} \end{aligned}$$

With 95% confidence it can be said that between 2.73% and 3.81% of females aged 15 years and over in Canada, describe their state of health as poor.

**Note:** Release guidelines which apply to the estimate also apply to the confidence interval. For example, if the estimate is not releasable, then the confidence interval is not releasable either.

**T-test**

Standard errors may also be used to perform hypothesis testing, a procedure for distinguishing between population parameters using sample estimates. The sample estimates can be numbers, averages, percentages, ratios, etc. Tests may be performed at various levels of significance, where a level of significance is the probability of concluding that the characteristics are different when, in fact, they are identical.

Let  $X_1$  and  $X_2$  be sample estimates for 2 characteristics of interest. Let the standard error of the difference  $X_1 - X_2$  be  $\sigma_d$

If  $t = (X_1 - X_2) / \sigma_d$  is between -2 and 2, then no conclusion about the difference between the characteristics is justified at the 5% level of significance. If however, this ratio is smaller than -2 or larger than +2, the observed difference is significant at the 5% level.

**Example 6:**

A user wishes to test at the 5% level of significance the hypothesis that at the Canada level there is no difference between percentage estimates of males and females who describe their state of health as poor. From Example 4, the estimate of the standard deviation of the difference between the estimates is 0.0036.

$$\text{Hence } t = \frac{0.0327 - 0.0277}{0.0036}$$

$$= 1.39$$

Since  $t = 1.39$ , there is no evidence to reject the hypothesis at the 5% significance level

### Tips for using GSS mean bootstrap weights in some commercial analytic software

A survey weight variable with a corresponding set of 500 mean bootstrap weight variables are provided with many GSS data files in order that a full design-based approach may be taken for doing analysis with the data.

A design-based approach to analysis first involves using the survey weight variable for obtaining weighted estimates of the quantities of interest. Then, additional information about the survey design is used in order to make estimates of the variances<sup>1</sup> (and covariances) of these estimated quantities. In the case of many GSS PUMF's, this additional information is in the form of 500 mean survey bootstrap weight variables, where each mean bootstrap weight is derived from 25 independent survey bootstrap samples<sup>2</sup>. The design-based estimates and variance estimates can then be used for making the inferences required in the analysis.

The form of a mean bootstrap variance estimate can be described briefly as follows:

Let  $\hat{\beta}$  be the weighted estimate of quantity of interest,  $\beta$ , computed using the survey weight variable  $w$ , and let  $\hat{\beta}^{(b)}$  be an estimate obtained in exactly the same manner, except for substituting the  $b$  the mean bootstrap weight variable  $w^{(b)}$  for the survey weight variable  $w$ ,  $b=1,2,\dots,500$ . This yields (mean) bootstrap estimates  $\hat{\beta}^{(1)}, \dots, \hat{\beta}^{(500)}$  of  $\beta$ . Then the usual mean bootstrap estimate of the variance of  $\hat{\beta}$  is

$$\hat{V}_B(\hat{\beta}) = \frac{25}{500} \sum_{b=1}^{500} (\hat{\beta}^{(b)} - \hat{\beta})^2. \quad (1)$$

If  $\hat{\beta}$  is a vector instead of a single value, such as if  $\hat{\beta}$  is the set of coefficients of a model, then the matrix of estimates of the variances and covariances of the elements of  $\hat{\beta}$  is

$$\hat{V}_B(\hat{\beta}) = \frac{25}{500} \sum_{b=1}^{500} (\hat{\beta}^{(b)} - \hat{\beta})(\hat{\beta}^{(b)} - \hat{\beta})'.$$

(The value "25" in the formula is due to the fact that each GSS mean bootstrap weight is created from 25 bootstrap samples. The value "500" in the formula is due to the fact that we have 500 different mean bootstrap weights. If either the number of bootstrap samples used to create each mean bootstrap weight variable, or the number of mean bootstrap weight variables, should change from 25 and 500 respectively, then the values in formula (1) would need to change.)

---

1. The variance that is estimated in a design-based approach is the variability in an estimate due to re-sampling by exactly the same design from the same finite population.  
 2. More details about how these mean bootstrap weight variables are created can be obtained in the survey documentation.

Survey bootstrapping is just one replication approach that may be used in order to obtain design-based variance estimates with survey data. While several commercial software packages for design-based analysis offer replication approaches for variance estimation, they usually do not specify mean bootstrapping as one of these approaches. However, due to the similarity in the form of the variance estimate for the mean bootstrap and for the particular replication method called BRR with a Fay adjustment, programs that can carry out variance estimation by this latter approach with user-supplied replication weights can be used to obtain mean bootstrap variance estimates<sup>3</sup>. In particular, in these software, the 500 mean bootstrap weights provided in the GSS PUMF need to be designated as 500 BRR weights and the Fay adjustment factor must be given the value of  $1 - \sqrt{1/25} = .8$ .

In the sections below, instructions will be given for implementing mean bootstrap variance estimation with GSS PUMF data, using 3 different commercial software packages that can carry out some design-based analysis for BRR with a Fay adjustment: Stata 9 or 10, SUDAAN and WesVar. In all GSS cycles where mean bootstrap weights are provided, the names given to these bootstrap variables in the user documentation are wtbs\_001 to wtbs\_500. The name of the survey weight variable is usually wght\_per.

### Stata 9 or 10

Beginning with Version 9, the commercial software package Stata added some replication approaches for carrying out design-based variance estimation in its survey analysis commands. One replication approach offered is the BRR approach with a Fay adjustment, and it is this approach that would be specified when analyzing GSS data. In order to specify this approach, the following is recommended:

1. Before using any of the survey analysis commands, use a “svyset” statement to declare the data to be survey data, to designate the variables that contain information about the survey design and to specify the method for variance estimation. Settings made by “svyset” are saved with a dataset when (or if) a dataset is saved. The form of the svyset statement to be used with a GSS analysis dataset would have the following form:

**svyset [pweight=wght\_per], vce(brr) fay(.8) brrweight(wtbs\_001-wtbs\_500) mse**

Declaring **pweight=wght\_per** tells Stata that the survey weight (which is often called the probability weight) is the variable wght\_per.

The option **vce(brr)** states that the variance estimation approach to use is BRR.

The option **fay(.8)** states that the BRR variance estimation approach is to use a Fay’s adjustment of .8.

The option **brrweight(wtbs\_001-wtbs\_500)** states that the names of the BRR weight variables are **wtbs\_001**, **wtbs\_002**, ..., **wtbs\_500**. This option can also be designated as **brrweight(wtbs\_\*)** provided there are no variables other than the bootstrap weight variables whose names begin with “wtbs\_”.

Finally, the **mse** option tells Stata to calculate the variance using squared differences between bootstrap estimates and the full-sample estimate of the quantities of interest, as shown in equation (1). If this option is not included, Stata uses squared differences between each bootstrap estimate and the mean of all the bootstrap estimates. Both approaches should yield approximately the same result.

3. For a more detailed description see Phillips (2004)

2. There is an extensive list of survey analysis commands in Stata, which take a design-based approach in their computations. These commands, described in the Stata documentation, are implemented through the use of the “svy” prefix along with the names of other estimators. For example, **svy: mean** is the command for estimating population and subpopulation means and estimates of variability taking a design-based approach. When the **svyset** statement precedes all survey commands, the survey commands do not have to contain any information about the design-based approach to be taken. It should be noted that, even though most of the commands that allow the “svy” prefix are also the names of commands for non-survey data, what is estimated, what options are available and what can be done through post-estimation change when the “svy” prefix is added.

## SUDAAN

SUDAAN is a commercial software package developed by the Research Triangle Institute specifically for analysis of data from complex sample surveys and other observational and experimental studies involving cluster-correlated data. The SAS-callable version of the software is particularly useful to people familiar with SAS. In Release 9.0 and later, all procedures in SUDAAN can take the BRR approach with a Fay adjustment to estimate variances and covariances.

Specification of the variance estimation approach to be used by SUDAAN is done in the procedure statement for a particular procedure. Additional sample design statements provide further information required by the program. In particular, to carry out mean bootstrapping with GSS data, the following is required:

- Specify **DESIGN=BRR** in the procedure statement.
- Include the following **WEIGHT** statement to identify the survey weight variable:
  - **WEIGHT wght\_per**
- Include the **REPWGT** statement to indicate the names of the mean bootstrap variables on your data file and to give the number of bootstrap samples used to produce each mean bootstrap variable (which is used to calculate the Fay adjustment). In particular, for GSS PUMFs, this **REPWGT** statement would have the form:
  - **REPWGT wtbs\_001-wtbs\_500 / ADJFAY=25**

## WesVar

WesVar is a software package produced by Westat which carries out various analyses of survey data using exclusively replication methods for variance estimation. One of the methods offered is BRR with a Fay adjustment. Quoting heavily from Phillips (2004), in WesVar, the variance estimation method is specified when creating a new WesVar data file. The resulting file is then used to define workbooks where table and regression requests are carried out. To define a WesVar data file with mean bootstrap weights:

- Move the replicate weight variables (i.e., wtbs-001 to wtbs\_500) to the *Replicates* box.
- Move the survey weight variable (i.e., wght\_per) to the *Full sample* box.
- For the mean bootstrap, specify the *Method* as Fay and specify *Fay\_K*=.8.
- Move analysis variables to the *Variables* box, a unique identifier to the ID box (optional), and save the file.

Phillips (2004) illustrates these instructions with an example using data from GSS 14.

		=====	=====
		15,390	28,075,610

*Coverage:* All respondents.

Source: General Social Survey, 2010, household composition matrix.

Format: I1

Weight variable: WGHT\_PER

*Note:* This variable was derived using the children listed on the household composition matrix only. In cases of multigenerational households where the respondent lived with a spouse or partner as well as a child and a grandchild, FAMTYPE was set to 1. In cases where the respondent had no children in the household and lived with only one parent, FAMTYPE was set to 5. An intact family refers to a now-married or common-law couple where all children (listed in the household composition matrix) have both biological or adoptive parents in the household. A step family refers to a now-married or common-law couple in which at least one of the children (listed in the household composition matrix) is in a step relationship with one of the parents. The respondent might be a parent or a child aged 15 or older in the family.

**Appendix E**  
**Main File - List of Variable**

Variable Name	Description
RECID	Record identification.
WGHT_PER	Person weight.
WGHT_HSD	Household weight.
WGHT_CSP	Cultural activities sample weight.
WGHT_SNT	Sport participation sample weight.
AGEGR5	Age group of the respondent (groups of 5).
AGEGR10	Age group of the respondent (groups of 10).
SEX	Sex of respondent.
MARSTAT	Marital status of the respondent.
AGEPRGRDIF	Age difference between respondent and spouse/partner.
SEXPR	Sex of the respondent's spouse/partner within the household.
PRTYPEC	Type of partner the respondent has within the household.
AGECHRYC	Age of respondent's youngest single child living in the household.
AGEHSDYC	Age of youngest household member living in the respondent's household.
CHRFLAG	Single child(ren) of the respondent living in the household.
CHRINHSDC	Number of respondent's children living in the household (any age or marital status).
CHR0014C	Number of respondent's single (never married) children 0 to 14 years of age living in the household.
CHRTIME6	Number of respondent's single child(ren) living in the household.
CHH0512C	Number of children aged from 5 to 12 years living in the respondent's household.
CHH0014C	Number of children aged from 0 to 14 years living in the respondent's household.
PARHSDC	Type of parents the respondent has within the household.
LIVARR08	Living arrangement of respondent's household.
LIVARR12	Living arrangement of respondent's household.
HSDSIZEC	Household size of respondent.
HSDELIGC	Number of members in respondent's household 15 years of age or older.
FAMTYPE	Respondent's type of family structure.
MULTIGEN	Three generations or more family in respondent's household.
PRV	Province of residence of the respondent.
REGION	Region of residence of the respondent.
LUC_RST	Population centres indicator.
GTU_Q110	How often do you feel rushed? Would you say it is:
GTU_Q130	How often do you feel you have time on your hands that you don't know what to do with? Would you say it is:
DVTDAY	Type of day of the designated day of interview.
DUR0020	Total duration (in minutes) for refused information.
DUR0110	Total duration (in minutes) for work for pay at main job.
DUR0120	Total duration (in minutes) for work for pay at other job(s).
DUR0210	Total duration (in minutes) for overtime work.

EPI1811	Occurrences of household management (organizing/planning activities, etc.).
EPI1812	Occurrences of searching Internet for recipes.
EPI1813	Occurrences of financial administration for the household.
EPI1820	Occurrences of stacking and cutting firewood.
EPI1830	Occurrences of other domestic/household work.
EPI1840	Occurrences of unpacking groceries.
EPI1850	Occurrences of packing and unpacking luggage and/or car.
EPI1860	Occurrences of packing and unpacking for a move of the household.
EPI1900	Occurrences of travel to/from unpaid domestic work (going to/from the laundromat, to/from the dump, etc.).
EPI2001	Occurrences of child care for household infant (0 to 4 years old).
EPI2002	Occurrences of food preparation for household infant (0 to 4 years old).
EPI2003	Occurrences of feeding of household infant (0 to 4 years old).
EPI2110	Occurrences of putting the children to bed.
EPI2120	Occurrences of getting children ready for school.
EPI2130	Occurrences of personal care for children of the household.
EPI2200	Occurrences of helping, teaching, reprimanding.
EPI2301	Occurrences of reading with children.
EPI2302	Occurrences of talking/conversation with children.
EPI2400	Occurrences of playing with children.
EPI2501	Occurrences of medical care of household children.
EPI2502	Occurrences of emotional care of household children.
EPI2600	Occurrences of unpaid babysitting of household children.
EPI2711	Occurrences of personal care of household adults.
EPI2712	Occurrences of education related help for household adult.
EPI2713	Occurrences of looking after household adult as primary activity.
EPI2721	Occurrences of medical care of household adults.
EPI2722	Occurrences of emotional care of household adults.
EPI2811	Occurrences of visiting child care/school establishments.
EPI2812	Occurrences of associated communication related to child care/school activities.
EPI2818	Occurrences of other educational help for household children.
EPI2819	Occurrences of other non-educational help for household children.
EPI2821	Occurrences of visiting school establishments for household adults.
EPI2822	Occurrences of associated communication related to school activities of household adults.
EPI2829	Occurrences of other help for household adults.
EPI2910	Occurrences of travel to/from care for household children.
EPI2920	Occurrences of travel to/from care for household adults.
EPI3010	Occurrences of grocery store, market, convenience store.
EPI3021	Occurrences of shopping for gas.
EPI3022	Occurrences of reading/research for purchasing everyday goods.
EPI3023	Occurrences of purchasing everyday goods and services on the Internet.

EPI3024	Occurrences of shopping for plants/flowers for home landscaping.
EPI3029	Occurrences of shopping for other everyday goods.
EPI3030	Occurrences of take out food.
EPI3040	Occurrences of renting a video.
EPI3101	Occurrences of shopping for durable household goods.
EPI3102	Occurrences of reading/research for purchasing durable household goods.
EPI3103	Occurrences of purchasing durable household goods on Internet.
EPI3200	Occurrences of personal care services (barbers, beauticians).
EPI3310	Occurrences of financial services (banking, insurance, loans, taxes, financial consulting).
EPI3321	Occurrences of government services (post office, police, driver's license, EI, welfare).
EPI3322	Occurrences of visiting the library.
EPI3401	Occurrences of adult medical and dental care, including having prescriptions filled.
EPI3402	Occurrences of adult medical care (inside home).
EPI3501	Occurrences of professional service (lawyer, veterinarian).
EPI3502	Occurrences of dwelling renovation (e.g., contractors, plumbers, architect).
EPI3503	Occurrences of private mail service (e.g., Fed-Ex).
EPI3509	Occurrences of other professional service, n.e.c.
EPI3610	Occurrences of automobile maintenance and repair (car wash, oil change, tire rotation).
EPI3620	Occurrences of other repair and cleaning services (dry cleaner, T.V. Repair, furnace cleaning).
EPI3700	Occurrences of waiting for purchases or services.
EPI3801	Occurrences of shopping at garage sale, yard sale, flea market, auction.
EPI3802	Occurrences of checking into and out of hotel, motel or B&B.
EPI3803	Occurrences of shopping for hobby equipment or supplies.
EPI3804	Occurrences of security procedures related to shopping activities.
EPI3809	Occurrences of other shopping and services.
EPI3900	Occurrences of travel to/from shopping or obtaining services.
EPI4000	Occurrences of washing, dressing, getting ready.
EPI4101	Occurrences of personal medical care (at home) - by self.
EPI4102	Occurrences of personal medical care (at home) - administered by household member.
EPI4103	Occurrences of personal medical care (at home) - administered by non-household member(unpaid).
EPI4110	Occurrences of private prayer, meditation and other informal spiritual activities.
EPI4300	Occurrences of meals/snacks/coffee at home (include take-out eaten at home).
EPI4310	Occurrences of other meals/snacks/coffee (e.g. At cottage, park, picnic, hotel).
EPI4400	Occurrences of meals at restaurant.
EPI4500	Occurrences of night sleep/essential sleep.
EPI4600	Occurrences of naps/lying down.
EPI4700	Occurrences of relaxing, thinking, resting, smoking.

EPI4800	Occurrences of other personal care or private activities (e.g. Washroom activities, sex).
EPI4910	Occurrences of travel to/from restaurant.
EPI4920	Occurrences of travel to/from personal care activities.
EPI5000	Occurrences of full-time classes.
EPI5110	Occurrences of other classes (part-time).
EPI5120	Occurrences of credit courses on television.
EPI5200	Occurrences of special lectures (occasional, outside regular work or school).
EPI5301	Occurrences of homework (course, career, self-development).
EPI5302	Occurrences of using the Internet for research/homework.
EPI5400	Occurrences of meals/snacks/coffee at school.
EPI5500	Occurrences of breaks/waiting for class.
EPI5601	Occurrences of leisure and special interest classes.
EPI5602	Occurrences of self-development (e.g., parenting, Lamaze, self-defense).
EPI5801	Occurrences of security procedures related to educational activities.
EPI5809	Occurrences of other education related activities (e.g. School assembly).
EPI5900	Occurrences of travel to/from school education activities.
EPI6000	Occurrences of professional, union, general meetings.
EPI6100	Occurrences of political, civic activity (e.g. Voting, jury duty, city council, donating blood).
EPI6200	Occurrences of child, youth, family organizations (e.g. Scout leader, school volunteer).
EPI6300	Occurrences of religious meetings, organizations (e.g. Choir practice, church socials).
EPI6400	Occurrences of religious services/prayer/bible reading.
EPI6420	Occurrences of meals/snacks/coffee at religious services.
EPI6510	Occurrences of fraternal and social organizations (e.g. Lions' Club).
EPI6520	Occurrences of support groups (e.g. Al-Alon, AA, Weight Watchers).
EPI6601	Occurrences of volunteer work (Organizations) - Organizing and planning.
EPI6602	Occurrences of volunteer work (Organizations) - Fundraising.
EPI6603	Occurrences of volunteer work (Organizations) - Collecting and delivery of goods.
EPI6604	Occurrences of volunteer work (Organizations) - Building structures, indoor/outdoor maintenance and repair.
EPI6605	Occurrences of volunteer work (Organizations) - Food presentation, preparation and clean-up.
EPI6609	Occurrences of volunteer work (Organizations) - Other volunteer work.
EPI6610	Occurrences of meals/snacks/coffee at place of volunteer work.
EPI6711	Occurrences of housework or cooking assistance.
EPI6712	Occurrences of animal and pet care including care for non-household pets.
EPI6720	Occurrences of house maintenance or repair assistance.
EPI6731	Occurrences of personal care provided to non-household children.
EPI6732	Occurrences of medical care provided to non-household children.
EPI6733	Occurrences of education related help to non-household children.
EPI6734	Occurrences of looking after non-household children as primary activity.
EPI6735	Occurrences of reading/talking with non-household children.

EPI6739	Occurrences of other unpaid help provided to non-household children.
EPI6740	Occurrences of transporting assistance to someone other than a household member.
EPI6751	Occurrences of personal care provided to non-household adult.
EPI6752	Occurrences of medical care provided to non-household adult.
EPI6753	Occurrences of education related help to non-household adult.
EPI6754	Occurrences of looking after non-household adult as primary activity.
EPI6759	Occurrences of other unpaid help provided to non-household adult.
EPI6760	Occurrences of correspondence assistance (letters, bills, forms).
EPI6770	Occurrences of unpaid help for a family business or farm.
EPI6780	Occurrences of other unpaid work/help.
EPI6801	Occurrences of other organizational and voluntary activity.
EPI6802	Occurrences of other religious activity.
EPI6910	Occurrences of travel to/from civic or voluntary activities.
EPI6920	Occurrences of travel to/from religious services.
EPI7010	Occurrences of professional sports events.
EPI7020	Occurrences of amateur sports events.
EPI7110	Occurrences of pop music concerts.
EPI7120	Occurrences of fairs, circuses, parades, amusement parks, ice follies.
EPI7130	Occurrences of zoos, botanical gardens, planetariums, observatories.
EPI7200	Occurrences of movies/films at a theatre/cinema, art films, drive-in movies.
EPI7300	Occurrences of classical music concerts, opera, ballet, theatre.
EPI7410	Occurrences of museums (excluding art museums).
EPI7420	Occurrences of art galleries (art exhibition).
EPI7430	Occurrences of heritage, archaeological sites.
EPI7510	Occurrences of socializing at a private residence (no meal).
EPI7520	Occurrences of socializing at a private residence (with meal).
EPI7530	Occurrences of other socializing (e.g. At malls).
EPI7540	Occurrences of meals/snacks/coffee at an institutional residence (excluding restaurants).
EPI7600	Occurrences of socializing at bars, clubs.
EPI7700	Occurrences of casino, bingo, arcades.
EPI7801	Occurrences of sporting and entertainment events.
EPI7802	Occurrences of other non-sporting and non-entertainment events.
EPI7910	Occurrences of travel to/from attending sports, movies or other entertainment events or visit sites.
EPI7920	Occurrences of travel to/from socializing at private residences.
EPI7930	Occurrences of travel to/from other socializing (to bars, hospitals, weddings).
EPI8000	Occurrences of coaching sports competitively or leisurely (unpaid).
EPI8011	Occurrences of football.
EPI8012	Occurrences of field hockey.
EPI8013	Occurrences of baseball or softball.
EPI8014	Occurrences of soccer.
EPI8015	Occurrences of volleyball.

EPI8016	Occurrences of hockey.
EPI8017	Occurrences of basketball.
EPI8021	Occurrences of tennis.
EPI8022	Occurrences of squash, racquetball, paddleball.
EPI8031	Occurrences of golf.
EPI8032	Occurrences of miniature golf.
EPI8041	Occurrences of swimming.
EPI8042	Occurrences of waterskiing.
EPI8051	Occurrences of ice skating.
EPI8052	Occurrences of downhill skiing or snowboarding.
EPI8053	Occurrences of other skiing, sledding, curling.
EPI8061	Occurrences of bowling.
EPI8062	Occurrences of pool, ping-pong, pinball.
EPI8071	Occurrences of home exercises.
EPI8072	Occurrences of weight-training.
EPI8073	Occurrences of exercise class or aerobics.
EPI8074	Occurrences of yoga.
EPI8080	Occurrences of judo, boxing, wrestling, fencing.
EPI8090	Occurrences of rowing, canoeing, kayaking, wind surfing, sailing.
EPI8101	Occurrences of in-line skating or rollerblading.
EPI8109	Occurrences of other sports (Frisbee, catch, track & field, skateboarding).
EPI8110	Occurrences of hunting (as a sport).
EPI8120	Occurrences of fishing (as a sport).
EPI8130	Occurrences of boating (motorboats or rowboats).
EPI8140	Occurrences of camping.
EPI8150	Occurrences of horseback riding, rodeo, jumping, dressage.
EPI8160	Occurrences of other outdoor activities/excursions (picnic, car rally, bird watching).
EPI8211	Occurrences of walking.
EPI8212	Occurrences of jogging, running.
EPI8213	Occurrences of hiking.
EPI8220	Occurrences of bicycling.
EPI8310	Occurrences of hobbies done mainly for pleasure (painting, sketching, photography).
EPI8320	Occurrences of hobbies done for sale or exchange.
EPI8410	Occurrences of home crafts done mainly for pleasure (sewing, needlework).
EPI8420	Occurrences of domestic home crafts done for sale or exchange.
EPI8501	Occurrences of singing or playing music, theatre.
EPI8502	Occurrences of popular or social dance.
EPI8610	Occurrences of games, cards, puzzles.
EPI8621	Occurrences of playing video games/computer games.
EPI8622	Occurrences of video games/exercise based games (e.g. Wii, Exertris, Dance Dance Revolution).
EPI8630	Occurrences of general computer use (excluding games and surfing the Net).

EPI8640	Occurrences of surfing the Net (as a leisure activity).
EPI8650	Occurrences of using e-mail (writing and reading e-mail).
EPI8660	Occurrences of participating in chat groups.
EPI8671	Occurrences of participating in social network sites (Facebook, MySpace).
EPI8679	Occurrences of participating in other Internet communication.
EPI8710	Occurrences of pleasure drives (as the driver).
EPI8720	Occurrences of pleasure drives (as a passenger in the car).
EPI8730	Occurrences of other pleasure drives (e.g. On a tour bus).
EPI8800	Occurrences of other leisure activities.
EPI8910	Occurrences of travel to/from participating in active sport/outdoor activities.
EPI8920	Occurrences of travel to/from coaching activities.
EPI8930	Occurrences of travel to/from hobbies or for the sale of crafts.
EPI8940	Occurrences of travel to/from other leisure activities.
EPI9001	Occurrences of listening to radio on-line.
EPI9002	Occurrences of other radio listening.
EPI9110	Occurrences of watching scheduled T.V. programming.
EPI9120	Occurrences of watching T.V. recorded programming/time-shifted viewing.
EPI9130	Occurrences of watching rented, purchased or downloaded movies.
EPI9141	Occurrences of watching television on-line (including podcasts).
EPI9149	Occurrences of other television viewing (video recorded home movies).
EPI9200	Occurrences of listening to CD's, tapes, records.
EPI9310	Occurrences of reading books.
EPI9321	Occurrences of reading magazines, pamphlets, bulletins, newsletters.
EPI9322	Occurrences of reading on-line magazines, pamphlets, bulletins, newsletters.
EPI9401	Occurrences of reading newspapers (actual paper copy).
EPI9402	Occurrences of reading newspapers (on-line).
EPI9500	Occurrences of talking, conversation with household member only (face to face).
EPI9511	Occurrences of talking on the phone (excluding work).
EPI9512	Occurrences of text messaging using a cell-phone – sending a text message.
EPI9513	Occurrences of text messaging using a cell-phone – receiving a text message.
EPI9610	Occurrences of reading personal mail (including flyers and advertisements).
EPI9620	Occurrences of writing/typing letters, sending greeting cards (not including use of e-mail).
EPI9801	Occurrences of downloading and/or ripping music and/or movies to computer for media use.
EPI9809	Occurrences of other media or communication activities.
EPI9900	Occurrences of travel to/from media and communication activities (e.g. Picking up a CD at a friend's).
SLEEP1S	Start of sleep episode the first night.
SLEEP1D	Sleep duration (in minutes) the first night.
SLEEP2E	Wakeup time the second night.
SLEEP2D	Sleep duration (in minutes) the second night.
TCS_Q110	Do you plan to slow down in the coming year?
TCS_Q120	Do you consider yourself a workaholic?

TCS_Q130	When you need more time, do you tend to cut back on your sleep?
TCS_Q140	At the end of the day, do you often feel that you have not accomplished what you had set out to do?
TCS_Q150	Do you worry that you don't spend enough time with your family or friends?
TCS_Q160	Do you feel that you're constantly under stress trying to accomplish more than you can handle?
TCS_Q170	Do you feel trapped in a daily routine?
TCS_Q180	Do you feel that you just don't have time for fun any more?
TCS_Q190	Do you often feel under stress when you don't have enough time?
TCS_Q200	Would you like to spend more time alone?
TIMECR	Time crunch variable.
TIMENS	Number of NOT STATED answers for questions TCS_Q110 to TCS_Q200.
UWA_Q110	Last week, how many hours did you spend looking after: @/... One or more of the children in your household, without pay?
UWA_Q120	Last week, how many hours did you spend looking after :@/... One or more children outside your household, without pay?
UWA_Q130	Last week, how many hours did you spend doing:@/... Unpaid housework, yard work or home maintenance for your household?
UWA_Q140	Last week, how many hours did you spend doing:@/... Unpaid housework, yard work or home maintenance for persons who live outside your household?

UWA_Q160	Last week, how many hours did you spend:@/... Providing unpaid care or assistance to one or more seniors living outside your household?
VCG_Q300	In the past 12 months, did you do unpaid volunteer work for any organization?
VCG_Q310	On average, about how many hours per month did you volunteer?
LSR_Q100	Using a scale of 1 to 10 where 1 means 'Very dissatisfied' and 10 means "Very satisfied", how do you feel about your life as a whole right now?
LSR_Q130	On how many days last week did your physical activities add up to at least 30 minutes?
SRH_Q110	In general, would you say your health is:
SRH_Q115	In general, would you say your mental health is:
HAL_Q310	Do you have constant or recurring difficulty: ... hearing, even while using a hearing aid?
HAL_Q320	Do you have constant or recurring difficulty: ... seeing, even when wearing glasses?
HAL_Q330	Do you have constant or recurring difficulty: ... walking or climbing stairs?
HAL_Q340	Do you have constant or recurring difficulty: ... reaching or grasping an object or bending down?
HAL_Q350	Do you have constant or recurring difficulty: ... communicating in your own language?
HAL_Q360	Do you have constant or recurring difficulty: ... due to any psychological or emotional condition?
HAL_Q410	Are your daily activities at home, work, school or any other area limited by: ... a physical condition?

HAL_Q420	Are your daily activities at home, work, school or any other area limited by: ... a psychological, emotional or mental health condition?
HAL_Q430	Are your daily activities at home, work, school or any other area limited by: ... learning difficulties?
HAL_Q440	Are your daily activities at home, work, school or any other area limited by: ... any other health condition?
HALDV	Summary variable derived from health and activity limitation variables HAL_Q310 to HAL_Q440.
HAL_Q450	Do you regularly have trouble falling asleep or staying asleep?
MSS_Q110	Thinking about the amount of stress in your life, would you say that most days are:
MSS_Q130	What is your main source of stress?
MAR_Q100	Last week, was your main activity working at a paid job or business, looking for paid work, going to school, caring for children, household work, retired or something else?
ACT7DAYS	Main activity of the respondent in the last 7 days.
MAR_Q105	Were you studying full-time or part-time?
MAR_Q133	Did you have a job or were you self-employed at any time last week?
WKLTWE	Respondent worked at a job or business last week.
MAR_Q134	In the last four weeks, did you look for a job?
MAR_Q135	Did you have a job or were you self-employed at any time during the past 12 months?
MAR_Q136	Have you ever worked at a job or business?
AGE_LSTPDWK_C	Age of respondent when last did paid work.
WKWE	Number of weeks during the past 12 months the respondent was employed.
MAR_Q171	How many days of paid vacation did you take during the past 12 months?
MAR_Q172	Were you mainly?
MAR_Q174_C	How many paid employees did you have working for you?
MAR_Q175	Was your business incorporated?
MAR_Q190	Some people do all or some of their paid work at home. Excluding overtime, do/did you usually work any of your scheduled hours at home?
WKWEHOHR_C	Number of paid hours per week the respondent usually works at home.
MAR_Q193	What is the main reason you do/did some of your work at home?
NAICS2007_C16	North American Industrial Classification System of the respondent - last 12 months - 16 categories.
NOCS2006_C10	National Occupational Classification (2006) of the respondent - last 12 months - 10 categories.
MAR_Q315	Are you still working for this employer or at this business?
NAICS2007_LWK_C16	North American Industrial Classification System of the respondent - last week - 16 categories.
NOCS2006_LWK_C10	National Occupational Classification (2006) of the respondent - last week - 10 categories.
MAR_Q350	Which of the following best describes your terms of employment in this job? Are/Were you a:
MAR_Q364	Are/Were you a union member or covered by a union contract or collective agreement in this job?

MAR_Q370_C	Distance in kilometres from the respondent's residence to his/her place of work (for his/her main job).
MAR_Q381	Did you have more than one paid job last week?
LFGSS	Labour Force Status of the respondent.
LFSHSD12	Labour Force Status of the household - 12 groups.
WKWEHR_C	Number of hours usually worked at all jobs in a week.
MAR_Q388_C01	Why do/did you usually work less than 30 hours a week? Own illness or disability.
MAR_Q388_C02	Why do/did you usually work less than 30 hours a week? Child care responsibilities.
MAR_Q388_C03	Why do/did you usually work less than 30 hours a week? Elder care responsibilities.
MAR_Q388_C04	Why do/did you usually work less than 30 hours a week? Other personal or family responsibilities.
MAR_Q388_C05	Why do/did you usually work less than 30 hours a week? Going to school.
MAR_Q388_C06	Why do/did you usually work less than 30 hours a week? Could only find part-time work.
MAR_Q388_C07	Why do/did you usually work less than 30 hours a week? Did not want full-time work.
MAR_Q388_C08	Why do/did you usually work less than 30 hours a week? Requirement of the work.
MAR_Q388_C09	Why do/did you usually work less than 30 hours a week? Full-time work under 30 hours per week.
MAR_Q388_C10	Why do/did you usually work less than 30 hours a week? Other.
MAR_Q390	How many days a week did/do you usually work (including all jobs)?
MAR_Q410	Which of the following best describes your usual work schedule at your main job/job? Is/Was it:
MAR_Q420	Do(Did) you have a flexible schedule that allows(allowed) you to choose the time you begin(began) and end(ended) your work day?
MAR_Q510	How satisfied are/were you with the balance between your job and home life? Are/Were you:
MAR_Q520_C01	Why are/were you dissatisfied? Not enough time for family (include spouse/partner and children).
MAR_Q520_C02	Why are/were you dissatisfied? Spends too much time on job/main activity.
MAR_Q520_C03	Why are/were you dissatisfied? Not enough time for other activities (exclude work or family related activities).
MAR_Q520_C04	Why are/were you dissatisfied? Cannot find suitable employment.
MAR_Q520_C05	Why are/were you dissatisfied? Employment related reason(s) (exclude spending too much time on job).
MAR_Q520_C06	Why are/were you dissatisfied? Health reasons (include sleep disorders).
MAR_Q520_C07	Why are/were you dissatisfied? Family related reason(s) (exclude not enough time for family).
MAR_Q520_C08	Why are/were you dissatisfied? Other.
MAR_Q522	In the past 12 months how often has it been difficult to fulfill family responsibilities because of the amount of time you spent on your job (please include responsibilities concerning your spouse and child(ren) if it applies, as well as your own parents,

MAR_Q523	In the past 12 months how often has it been difficult to concentrate or fulfill your work responsibilities because of your family responsibilities (please include responsibilities concerning your spouse and child(ren) if it applies, as well as your own pa
MAR_Q530_C01	For which activities does your household regularly hire paid help (for example: child care, house cleaning, outdoor work)? None.
MAR_Q530_C02	For which activities does your household regularly hire paid help (for example: child care, house cleaning, outdoor work)? Child care.
MAR_Q530_C03	For which activities does your household regularly hire paid help (for example: child care, house cleaning, outdoor work)? House cleaning.
MAR_Q530_C04	For which activities does your household regularly hire paid help (for example: child care, house cleaning, outdoor work)? Outdoor work (including snow removal, lawncare).
MAR_Q530_C05	For which activities does your household regularly hire paid help (for example: child care, house cleaning, outdoor work)? Not applicable.
MAR_Q530_C06	For which activities does your household regularly hire paid help (for example: child care, house cleaning, outdoor work)? - Other.
ACMYR	Main activity of the respondent in the last 12 months.
MAR_Q550	Were you studying full-time or part-time?
EDUYR	Number of years of elementary and high school education successfully completed by the respondent.
EOR_Q110	Have you graduated from high school?
EOR_Q150	Have you had any further schooling beyond elementary or high school?
EDU5	Highest level of education obtained by the respondent - 5 groups.
EDU10	Highest level of education obtained by the respondent - 10 groups.
EOR_Q210	Did you attain your highest level of education in Canada or outside Canada?
EOR_Q320	In what year did you complete your studies?
MAP_Q100	Last week, was your spouse's/partner's main activity working at a paid job or business, looking for paid work, going to school, caring for children, household work, retired or something else?
ACT7DAYS_PR	Main activity of the respondent's spouse/partner in the last 7 days.
MAP_Q120	Was he/she studying full-time or part-time?
WKWEPR	Respondent's spouse/partner had a job or was self-employed at any time last week.
MAP_Q130	Was he/she mainly:
WKWEHRPR_C	Number of hours the respondent's spouse/partner worked last week.
MAP_Q155	Which of the following best describes your spouse/partner's work schedule last week at their job ? Is it:
MAP_Q160	Did he/she work on DiaryDay?
MAP_Q180	What hours did he/she work? - Start time.
MAP_Q181	What hours did he/she work? - Finish time.
MAP_Q180_Q181_HRS	Time spent by the respondent's spouse/partner working on diary day - first work period.
MAP_Q190	What hours did he/she work? - 2nd Start time.
MAP_Q191	What hours did he/she work? - 2nd Finish time.

MAP_Q190_Q191_HRS	Time spent by the respondent's spouse/partner working on diary day - 2nd work period.
MAP_Q180_Q191_TOTHR	Time spent by the respondent's spouse/partner working on diary day - total first and 2nd work periods.
MAP_Q210	Last week, how many hours did he/she spend doing housework including cooking, cleaning, grocery shopping and laundry for your household, without pay?
MAP_Q220	Last week, how many hours did he/she spend doing unpaid work to maintain or improve your house, yard or automobile?
MAP_Q235	Last week, how many hours did he/she spend looking after one or more children living in your household, without pay?
MAP_Q245	Last week, how many hours did he/she spend providing unpaid care or assistance to one or more seniors?
MAP_Q250	Last week, how many hours did he/she volunteer his/her time on behalf of a group or organization, without pay?
EDUPR5	Highest level of education obtained by the respondent's spouse/partner - 5 groups.
EDUPR10	Highest level of education obtained by the respondent's spouse/partner - 10 groups.
EOP_Q210	How many years of elementary school has your spouse/partner completed?
EDUM5	Highest level of education obtained by the respondent's mother - 5 groups.
EDUM10	Highest level of education obtained by the respondent's mother - 10 groups.
EOM_Q210	How many years of elementary school has your mother completed?
EDUF5	Highest level of education obtained by the respondent's father - 5 groups.
EDUF10	Highest level of education obtained by the respondent's father - 10 groups.
EOF_Q210	How many years of elementary school has your father completed?
LCA_Q110	During the past 12 months, as a leisure activity (not for paid work or studies) how often did you read a newspaper?
LCA_Q120	During the past 12 months, as a leisure activity (not for paid work or studies) how often did you read a magazine?
LCA_Q130	During the past 12 months, as a leisure activity (not for paid work or studies) how many books did you read on average?
LCA_Q210	During the past 12 months, how often did you: @/... go to a movie or drive-in?
LCA_Q220	During the past 12 months, how often did you: @/... watch a video, rented or purchased, VHS or DVD?
LCA_Q230	During the past 12 months, how often did you: @/... listen to downloaded music on your computer, MP3 player, etc.?
LCA_Q240	During the past 12 months, how often did you: @/... listen to music on CD's, cassette tapes, DVD audio discs, records, etc.?
LCA_Q310	During the past 12 months how often did you: @/... attend a theatrical performance such as a drama, musical theatre, dinner theatre, comedy?
LCA_Q320	During the past 12 months how often did you: @/... attend a popular musical performance such as pop, rock, jazz, blues, folk, country and western?
LCA_Q330	During the past 12 months how often did you: @/... attend a symphonic or classical music performance?

LCA_Q340	During the past 12 months how often did you: @/... go to a cultural or artistic festival (such as film, fringe, dance, jazz, folk, rock, buskers or comedy)?
LCA_Q350	During the past 12 months how often did you: @/... go to a performance of cultural or heritage music, theatre or dance (e.g. Aboriginal Peoples, Chinese, Ukrainian)?
LCA_Q360	During the past 12 months how often did you: @/... attend any other kind or type of cultural performance?
LCA_Q410	During the past 12 months how often did you: @/... go to a public art gallery or art museum (including attendance at special art exhibits)?
LCA_Q420	During the past 12 months how often did you: @/... visit museums other than public art galleries or art museums?
LCA_Q430	During the past 12 months how often did you: @/... go to an historic site?
LCA_Q440	During the past 12 months how often did you: @/... go to a zoo, aquarium, botanical garden, planetarium or observatory?
LCA_Q450	During the past 12 months how often did you: @/... go to a conservation area or nature park?
SPA_Q100	Did you regularly participate in any sports during the past 12 months?
SPA_SP02_C	Participation in badminton.
SFR_SP02	Frequency of participation in badminton.
SPA_SP03	Participation in baseball.
SFR_SP03	Frequency of participation in baseball.
SCO_SP03_C01	Participation in baseball - Level of competition - Local.
SCO_SP03_C02	Participation in baseball - Level of competition - Regional.
SCO_SP03_C0304	Participation in baseball - Level of competition - National / Provincial.
SCO_SP03_C05	Participation in baseball - Level of competition - Other.
SPA_SP04	Participation in basketball.
SFR_SP04	Frequency of participation in basketball.
SCO_SP04_C01	Participation in basketball - Level of competition - Local.
SCO_SP04_C02	Participation in basketball - Level of competition - Regional.
SCO_SP04_C0304	Participation in basketball - Level of competition - National/Provincial.
SCO_SP04_C05	Participation in basketball - Level of competition - Other.
SPA_SP07_C	Participation in boxing
SFR_SP07	Frequency of participation in boxing.
SPA_SP08_C	Participation in canoeing/kayaking
SFR_SP08	Frequency of participation in canoeing/kayaking.
SPA_SP10_C	Participation in cycling
SFR_SP10	Frequency of participation in cycling.
SPA_SP12_C	Participation in equestrian
SFR_SP12	Frequency of participation in equestrian.
SCO_SP12_C01	Participation in equestrian - Level of competition - Local.
SCO_SP12_C02	Participation in equestrian - Level of competition - Regional.
SCO_SP12_C0304	Participation in equestrian - Level of competition - National/Provincial.
SCO_SP12_C05	Participation in equestrian - Level of competition - Other.
SPA_SP14	Participation in football, tackle, flag, touch.

SFR_SP14	Frequency of participation in football, tackle, flag, touch.
SCO_SP14_C01	Participation in football, tackle, flag, touch - Level of competition - Local.
SCO_SP14_C02	Participation in football, tackle, flag, touch - Level of competition - Regional.
SCO_SP14_C03	Participation in football, tackle, flag, touch - Level of competition - Provincial.
SCO_SP14_C04	Participation in football, tackle, flag, touch - Level of competition - National.
SCO_SP14_C05	Participation in football, tackle, flag, touch - Level of competition - Other.
SPA_SP15	Participation in golf.
SFR_SP15	Frequency of participation in golf.
SCO_SP15_C01	Participation in golf - Level of competition - Local.
SCO_SP15_C02	Participation in golf - Level of competition - Regional.
SCO_SP15_C0304	Participation in golf - Level of competition - National/Provincial.
SCO_SP15_C05	Participation in golf - Level of competition - Other.
SPA_SP20	Participation in hockey (ice).
SFR_SP20	Frequency of participation in hockey (ice).
SCO_SP20_C01	Participation in hockey (ice) - Level of competition - Local.
SCO_SP20_C02	Participation in hockey (ice) - Level of competition - Regional.
SCO_SP20_C0304	Participation in hockey (ice) - Level of competition - National/Provincial.
SCO_SP20_C05	Participation in hockey (ice) - Level of competition - Other.
SPA_SP25_C	Participation in rowing
SFR_SP25	Frequency of participation in rowing.
SPA_SP29_C	Participation in rugby
SFR_SP29	Frequency of participation in rugby.
SCO_SP29_C01	Participation in rugby - Level of competition - Local.
SCO_SP29_C02	Participation in rugby - Level of competition - Regional.
SCO_SP29_C0304	Participation in rugby - Level of competition - National/Provincial.
SCO_SP29_C05	Participation in rugby - Level of competition - Other.
SPA_SP31_C	Participation in figure skating
SFR_SP31	Frequency of participation in figure skating.
SPA_SP34	Participation in soccer.
SFR_SP34	Frequency of participation in soccer.
SCO_SP34_C01	Participation in soccer - Level of competition - Local.
SCO_SP34_C02	Participation in soccer - Level of competition - Regional.
SCO_SP34_C0304	Participation in soccer - Level of competition - National/Provincial.
SCO_SP34_C05	Participation in soccer - Level of competition - Other.
SPA_SP35	Participation in softball.
SFR_SP35	Frequency of participation in softball.
SCO_SP35_C01	Participation in softball - Level of competition - Local.
SCO_SP35_C02	Participation in softball - Level of competition - Regional.
SCO_SP35_C0304	Participation in softball - Level of competition - National/Provincial.
SCO_SP35_C05	Participation in softball - Level of competition - Other.
SPA_SP36_C	Participation in squash
SFR_SP36	Frequency of participation in squash.
SPA_SP37_C	Participation in swimming

SFR_SP37	Frequency of participation in swimming.
SPA_SP39_C	Participation in tennis
SFR_SP39	Frequency of participation in tennis.
SPA_SP42	Participation in volleyball.
SFR_SP42	Frequency of participation in volleyball.
SCO_SP42_C01	Participation in volleyball - Level of competition - Local.
SCO_SP42_C02	Participation in volleyball - Level of competition - Regional.
SCO_SP42_C0304	Participation in volleyball - Level of competition - National/Provincial.
SCO_SP42_C05	Participation in volleyball - Level of competition - Other.
SPA_SP44	Participation in weightlifting (competitive).
SFR_SP44	Frequency of participation in weightlifting (competitive).
SPA_SP46_C	Participation in sailing/yachting
SFR_SP46	Frequency of participation in sailing/yachting.
SPA_SP47_C	Participation in skiing downhill
SFR_SP47	Frequency of participation in skiing downhill/alpine.
SPA_SP48	Participation in skiing, cross country/nordic.
SFR_SP48	Frequency of participation in skiing, cross country/nordic.
SPA_SP52	Participation in curling.
SFR_SP52	Frequency of participation in curling.
SCO_SP52_C01	Participation in curling - Level of competition - Local.
SCO_SP52_C02	Participation in curling - Level of competition - Regional.
SCO_SP52_C0304	Participation in curling - Level of competition - National/Provincial.
SCO_SP52_C05	Participation in curling - Level of competition - Other.
SPA_SP55_C	Participation in bowling - five pin
SFR_SP55	Frequency of participation in bowling, five pin.
SPA_SP57	Participation in bowling, ten pin.
SFR_SP57	Frequency of participation in bowling, ten pin.
SCO_SP57_C01	Participation in bowling, ten pin - Level of competition - Local.
SCO_SP57_C02	Participation in bowling, ten pin - Level of competition - Regional.
SCO_SP57_C03	Participation in bowling, ten pin - Level of competition - Provincial.
SCO_SP57_C0304	Participation in bowling, ten pin - Level of competition - National/Provincial.
SCO_SP57_C04	Participation in bowling, ten pin - Level of competition - National.
SCO_SP57_C05	Participation in bowling, ten pin - Level of competition - Other.
SPA_SP62_C	Participation in triathlon
SFR_SP62	Frequency of participation in triathlon.
SPA_SP65	Participation in other sport(s).
SFR_SP65	Frequency of participation in other sport(s).
SCO_SP65_C01	Participation in other sport(s) - Level of competition - Local.
SCO_SP65_C02	Participation in other sport(s) - Level of competition - Regional.
SCO_SP65_C0304	Participation in other sport(s) - Level of competition - National/Provincial.
SCO_SP65_C05	Participation in other sport(s) - Level of competition - Other.
SPA_SP71_C	Participation in ball hockey
SFR_SP71	Frequency of participation in ball hockey.

SPA_SP73_C	Participation in in-line hockey
SFR_SP73	Frequency of participation in in-line hockey.
SPA_SP77_C	Participation in snowboarding
SFR_SP77	Frequency of participation in snowboarding.
SPA_SP80_C	Participation in adventure racing
SFR_SP80	Frequency of participation in adventure racing.
SPA_SP84_C	Participation in martial arts
SFR_SP84	Frequency of participation in martial arts.
SPA_SP85_C	Participation in mountain boarding
SFR_SP85	Frequency of participation in mountain-boarding.
SPA_SPOTH_C1	Participation in other snow/ice sports.
SPA_SPOTH_C2	Participation in other combat sports.
SPA_SPOTH_C3	Participation in other water sports.
SPA_SPOTH_C4	Participation in other alternative/extreme sports.
SPA_SPOTH_C5	Participation in other skill sports.
SPA_SPOTH_C6	Participation in other racquet/hand sports.
SPA_SPOTH_C7	Participation in all other coded sports.
SP00_91	Number of sport(s) the respondent regularly participated in during the past 12 months, codes 01 to 98.
SP01_91	Number of sport(s) the respondent regularly participated in during the past 12 months, codes 65 and 98 excluded.
SPA_Q200	Did you participate in any competitions or tournaments in the past 12 months?
SPA_Q210_TOT	Number of sport(s) with participation in a tournament.
SPA_Q270	Do you have a coach?
SPA_Q310	Is sport very important, somewhat important or not important in providing you with:@/... physical health and fitness?
SPA_Q320	Is sport very important, somewhat important or not important in providing you with:@/... family activity?
SPA_Q330	Is sport very important, somewhat important or not important in providing you with:@/... new friends and acquaintances?
SPA_Q340	Is sport very important, somewhat important or not important in providing you with:@/... fun, recreation and relaxation?
SPA_Q350	Is sport very important, somewhat important or not important in providing you with:@/... a sense of achievement and skill development?
SPA_Q410_C01	Are there any particular reasons why you did not regularly participate in any sports? No particular reason.
SPA_Q410_C02	Are there any particular reasons why you did not regularly participate in any sports? Not interested.
SPA_Q410_C03	Are there any particular reasons why you did not regularly participate in any sports? Programs not available in the community.
SPA_Q410_C04	Are there any particular reasons why you did not regularly participate in any sports? Do not have the time.

SPA_Q410_C05	Are there any particular reasons why you did not regularly participate in any sports? Do not want to be committed to regular schedule.
SPA_Q410_C06	Are there any particular reasons why you did not regularly participate in any sports? Facilities not available.
SPA_Q410_C07	Are there any particular reasons why you did not regularly participate in any sports? Too expensive.
SPA_Q410_C08	Are there any particular reasons why you did not regularly participate in any sports? Health/injury.
SPA_Q410_C09	Are there any particular reasons why you did not regularly participate in any sports? Age.
SPA_Q410_C10	Are there any particular reasons why you did not regularly participate in any sports? Disability.
SPA_Q410_C11	Are there any particular reasons why you did not regularly participate in any sports? Participated casually only for leisure.
SPA_Q410_C12	Are there any particular reasons why you did not regularly participate in any sports? Other.
SPA_Q420	During the past 12 months, have you been involved in amateur sport as a:@/... coach?
SPA_Q430	During the past 12 months, have you been involved in amateur sport as a:@/... referee/ official/ umpire?
SPA_Q440	During the past 12 months, have you been involved in amateur sport as a:@/... administrator or helper?
SPA_Q450	During the past 12 months, have you been involved in amateur sport as a:@/... spectator at amateur sports competitions?
SPP_Q110	During the past 12 months has your spouse/partner been involved in amateur sport as a participant, coach, referee/umpire, administrator/helper or spectator?
HMS_Q105_TOT_C	Number of household child(children) who regularly participate in sports.
HMS_Q105_REL_A	Relationship of household child A who regularly participates in sports, to respondent.
HMS_Q105_AGEGR5_A	Age group of household child A who regularly participates in sports (groups of 5).
HMS_Q105_COMMONA	Number of common sports with child A (excluding sports 00 & 65).
HMS_Q105_REL_B	Relationship of household child B who regularly participates in sports, to respondent.
HMS_Q105_AGEGR5_B	Age group of household child B who regularly participates in sports (groups of 5).
HMS_Q105_COMMONB	Number of common sports with child B (excluding sports 00 & 65).
HMS_Q105_REL_C	Relationship of household child C who regularly participates in sports, to respondent.
HMS_Q105_AGEGR5_C	Age group of household child C who regularly participates in sports (groups of 5).
HMS_Q105_COMMONC	Number of common sports with child C (excluding sports 00 & 65).
HMS_Q105_REL_D	Relationship of household child D who regularly participates in sports, to respondent.
HMS_Q105_AGEGR5_D	Age group of household child D who regularly participates in sports (groups of 5).

HMS_Q105_COMMOND	Number of common sports with child D (excluding sports 00 & 65).
SPC_SP02	Participation in badminton by at least 1 child in the household.
SPC_SP03	Participation in baseball by at least 1 child in the household.
SPC_SP04	Participation in basket-ball by at least 1 child in the household.
SPC_SP12	Participation in equestrian by at least 1 child in the household.
SPC_SP14	Participation in football, tackle, flag, touch by at least 1 child in the household.
SPC_SP15	Participation in golf by at least 1 child in the household.
SPC_SP16	Participation in gymnastics by at least 1 child in the household.
SPC_SP20	Participation in hockey (Ice) by at least 1 child in the household.
SPC_SP23	Participation in karate by at least 1 child in the household.
SPC_SP31	Participation in figure skating by at least 1 child in the household.
SPC_SP32	Participation in speed skating by at least 1 child in the household.
SPC_SP34	Participation in soccer by at least 1 child in the household.
SPC_SP35	Participation in softball by at least 1 child in the household.
SPC_SP37	Participation in swimming by at least 1 child in the household.
SPC_SP39	Participation in tennis by at least 1 child in the household.
SPC_SP41	Participation in track and field - athletics by at least 1 child in the household.
SPC_SP42	Participation in volleyball by at least 1 child in the household.
SPC_SP47	Participation in skiing downhill by at least 1 child in the household.
SPC_SP52	Participation in curling by at least 1 child in the household.
SPC_SP64	Participation in tae kwon do by at least 1 child in the household.
SPC_SP65	Participation in other sport(s) by at least 1 child in the household.
SPC_SP71	Participation in ball hockey by at least 1 child in the household.
SPC_SP73	Participation in in-line hockey by at least 1 child in the household.
SPC_SP80	Participation in adventure racing by at least 1 child in the household.
SPC_SP81	Participation in cheerleading by at least 1 child in the household.
SPC_SP84	Participation in martial arts by at least 1 child in the household.
SPC_SPOTH_C1	Participation in other snow/ice sports by at least 1 child in the household.
SPC_SPOTH_C2	Participation in other combat sports by at least 1 child in the household.
SPC_SPOTH_C3	Participation in other water sports by at least 1 child in the household.
SPC_SPOTH_C4	Participation in other alternative/extreme sports by at least 1 child in the household.
SPC_SPOTH_C5	Participation in other skill sports by at least 1 child in the household.
SPC_SPOTH_C6	Participation in other racquet/hand sports by at least 1 child in the household.
SPC_SPOTH_C7	Participation in all other coded sports by at least 1 child in the household.
ATT_Q120	How often do you have a vehicle at your disposal?
ATT_Q130	How often do you need assistance from someone to drive you somewhere (appointments, errands, etc)?
ATT_Q131	How often can someone drive you when you need it?
ATT_Q140	Thinking of a typical week, what kind of transportation do you use the most? (For example: car, walk, bus).
ATT_Q150	Is public transit within walking distance of your home? (For example, bus, streetcar, subway, light-rail transit commuter train or ferry).
ATT_Q160	In the past 12 months, how often have you used public transportation?

ATT_Q170_C01	What are the reasons you did not use public transportation? No Need - has car.
ATT_Q170_C02	What are the reasons you did not use public transportation? No Need - close enough to walk/bike.
ATT_Q170_C03	What are the reasons you did not use public transportation? No Need - other reasons.
ATT_Q170_C04	What are the reasons you did not use public transportation? Public transportation not available.
ATT_Q170_C05	What are the reasons you did not use public transportation? Stops are too far away.
ATT_Q170_C06	What are the reasons you did not use public transportation? Schedule is too inconvenient.
ATT_Q170_C07	What are the reasons you did not use public transportation? Routes do not go where you want to go.
ATT_Q170_C08	What are the reasons you did not use public transportation? Disabilities prevent use.
ATT_Q170_C09	What are the reasons you did not use public transportation? Costs too much.
ATT_Q170_C10	What are the reasons you did not use public transportation? Has access to parking at work.
ATT_Q170_C11	What are the reasons you did not use public transportation? Concern for personal safety.
ATT_Q170_C12	What are the reasons you did not use public transportation? Other.
ATT_Q180	Do you have a valid driver's license?
CTW_Q140_C01	Last week, how did you get to work/school? Car, truck or van - as driver.
CTW_Q140_C02	Last week, how did you get to work/school? Car, truck or van - as passenger.
CTW_Q140_C03	Last week, how did you get to work/school? Public transit (e.g., bus, streetcar, subway, light-rail transit, commuter train, ferry).
CTW_Q140_C04	Last week, how did you get to work/school? Walked to work.
CTW_Q140_C05	Last week, how did you get to work/school? Bicycle.
CTW_Q140_C06	Last week, how did you get to work/school? Motorcycle.
CTW_Q140_C07	Last week, how did you get to work/school? Taxicab.
CTW_Q140_C08	Last week, how did you get to work/school? Works or attends school at home.
CTW_Q140_C09	Last week, how did you get to work/school? Other.
CTW_Q150	On a usual day last week, how many minutes did it take you to go one way from home to work/school?
CTW_Q160	Have you ever used public transit to travel to your current work/school?
CTW_Q170	In general how would you rate the level of convenience of traveling to work/school by public transit?
CTW_Q180	How convenient do you think it would be to travel to work/school by public transit?
CTW_Q190	Last week, how often did you experience traffic congestion during your commute to work/school?
CTW_Q210	Overall, how satisfied are you with the amount of time it took you to get to work/school last week?
CTW_Q215	Overall, how serious a problem is traffic congestion for you?
IUR_Q100	In the past month, did you use the Internet?
IUR_Q135	(In the past month), how often did you use the Internet to purchase goods or services? Was it:

IUR_Q140	In the past 12 months, did you use the Internet?
IUR_Q155	In the past 12 months, how often did you use the Internet to access information on government programs or services in Canada? Was it:
DWELC	Dwelling type of the respondent.
DWELLOWN	Dwelling owned by a member of the household.
LIVE_DWELLING	Length of time respondent has lived in current dwelling.
LIVE_NEIGH	Length of time respondent has lived in current neighbourhood.
LIVE_LOCAL	Length of time respondent has lived in current city or local community.
DOR_Q222	Now I would like to ask you a few questions about your more immediate neighbourhood. Would you say that you know most, many, a few or none of the people in your neighbourhood?
DOR_Q227	Would you say this neighbourhood is a place where neighbours help each other?
DOR_Q228	In the past month, have you done a favour for a neighbour?
DOR_Q229	In the past month, have any of your neighbours done a favour for you?
BRTHCAN	Country of birth of the respondent.
BRTHPRVC	Province of birth of respondent.
BRTHREGC	Country or region of birth of the respondent.
YRARRI	Range of years when the respondent first came to Canada.
AGEARRIGRC	Age groups of the respondent when first came to Canada.
BPR_Q50	Are you now, or have you ever been, a landed immigrant in Canada?
YRLNDIMM	In what year did you get your landed immigrant status?
AGELNDIMMGRC	Age groups of the respondent when received landed immigrant status.
BRTHPCAN	In what country was your spouse/partner born?
BRTHPPRVC	Province of birth of respondent's spouse/partner.
BRTHPREGC	Country or region of birth of the respondent's spouse/partner.
BRTHMCAN	Country of birth of the respondent's mother.
BRTHMPRVC	Province of birth of respondent's mother.
BRTHMREGC	Country or region of birth of the respondent's mother.
BRTHFCAN	Country of birth of the respondent's father.
BRTHFPRVC	Province of birth of respondent's father.
BRTHFREGC	Country or region of birth of the respondent's father.
AIR_Q110	Are you an Aboriginal person, (for this survey an Aboriginal person refers to, First Nations (North American Indian), Métis or Inuk (Inuit))?
AIP_Q110	Is your spouse/partner an Aboriginal person, (for this survey an Aboriginal person refers to, First Nations (North American Indian), Métis or Inuk (Inuit))?
VISMIN	Visible minority status of the respondent.
VISMINPR	Visible minority status of the respondent's spouse/partner.
RELIGATT	Religious attendance of the respondent.
RLR_Q110	How important are your religious or spiritual beliefs to the way you live your life?@/Would you say they are:
RLR_Q120	In the past 12 months, how often did you practice religious or spiritual activities on your own? This may include prayer, meditation and other forms of worship taking place at home or in any other location.
RELIG6	Religion of respondent - 6 categories.

LANCH	First childhood language of the respondent.
LANCHSUE	Respondent still understands first childhood language - English.
LANCHSUF	Respondent still understands first childhood language - French.
LANCHSUO	Respondent still understands first childhood language - Other.
LANHSDC	Respondent's household language.
INR_Q025	What was your main source of income during the year ending December 31, 2009?
INCM	Annual personal income of the respondent.
INCMMEMC	Not including the respondent, number of household members receiving income from any source during the year ending December 31, 2009.
INCMHSD	Total household income.
WTBS_001	Bootstrap weight # 1 for personal weight.
WTCBS_001	Bootstrap weight # 1 for cultural activities sample weight.
WTSBS_001	Bootstrap weight # 1 for sport participation sample weight.

## Appendix H

### Episode File – List of Variables

<b>Variable Name</b>	<b>Description</b>
RECID	Record identification.
EPINO	Sequential episode number.
WGHT_EPI	Episode weight.
DDAY	Designated day of interview.
TOTEPISO	Total number of episodes during the reference day.
ACTCODE	Activity code of the episode.
STARTIME	Start time of the episode.
ENDTIME	End time of the episode.
STARTMIN	Start time of the episode in minutes.
ENDMIN	End time of the episode in minutes.
DURATION	Duration (in minutes) of the episode.
PLACE	Location of the episode.
ALONE	Social contacts - alone?
SPOUSE	Social contacts - with spouse/partner?
CHLDHSD	Social contacts - with children of the household less than 15 years of age?
PARHSD	Social contacts - with parent(s) or parent(s) in-law living in the household?
MEMBHSD	Social contacts - with other member(s) of the household (including children of 15 and older)?
NHSDCL15	Social contacts - with child(ren) of the respondent living outside the household, less than 15 years of age?
NHSDC15P	Social contacts - with child(ren) of the respondent living outside the household, 15 years of age and older?
NHSDPAR	Social contacts - with parent(s) or parent(s) in-law living outside the household?
OTHFAM	Social contacts - with other family member(s) living outside the household?
FRIENDS	Social contacts - with friends living outside the household?
OTHERS	Social contacts - with others living outside the household?
SACT1	First Simultaneous Activity code.
SACT2	Second Simultaneous Activity code.
SACT3	Third Simultaneous Activity code.
SACT1DUR	Duration (in minutes) of the first simultaneous activity.
SACT2DUR	Duration (in minutes) of the second simultaneous activity.
SACT3DUR	Duration (in minutes) of the third simultaneous activity.
WTBS_EPI_001	Bootstrap weight # 1 at the episode level.

## 011.0 Work for pay at main job

This category captures time spent working at the respondent's main job. It captures normal work, activities at the main job including work brought home and travel which is main part of the job. It also captures work activities for pay done in the home when home is the main workplace and a part-time job for student. When a respondent reports travel as his/her work, such as a taxi or truck driver, it should be coded as work as this is the way in which the respondent makes his/her living and not coded as a travel episode. This activity should be coded to a non-transit location. For respondents whose main job is within the area of transportation (e.g., bus driver, airline pilot, truck driver), the activity should be coded to 'work place'.

### Classification

7.2.1

4.1

### Examples

Delivering mail on postal route  
 Supervising school children  
 Attending a lunch meeting until two  
 Making up his work schedule  
 Negotiating a contract in office  
 Prepare for school day (teacher)  
 Bought groceries for client  
 Supervising student activities  
 To purchase a cattle dog for the farm  
 She is a house keeper/done some ironing  
 Making telephone calls related to work  
 Working at home in the kitchen  
 Loading up work truck to return home  
 Did the banking for work  
 Teacher - correcting homework  
 Having a coffee with a client in a restaurant for work  
 I corrected students' homework all night  
 I made some phone calls after arriving home to join clients  
 Warmed up truck, checked tires and brakes - (truck driver)  
 Research for computer hardware for work - part of his work  
 Did flight plan - called weather service (pilot)  
 Repaired plumbing of tenant (superintendent)  
 Packed vehicle with food to take to her cooking class she teaches  
 Did the banking for work  
 Made rounds, visited patients

### Unusual Cases

Playing golf with clients (part of job)  
 Talking with clients at social event (part of job)  
 Attending social event with co-workers (part of job)  
 Paid babysitting performed by a teenager  
 Babysitting or house cleaning for pay (as respondent's main job)  
 On-the-job travelling for bus, taxi and truck drivers  
 Work activities that are related to attending conference or convention away from regular place of work

**Exceptions**

1.1 Sleeping at motel while on work trip is coded as: Personal Care/Night sleep/essential sleep. (450.0)

4.5 Working overtime is coded as: Paid work activities/Overtime work (021.0)

4.3 Waiting at work for a shift to start is coded as: Paid work activities/Idle time before/after work hours (060.0)

**012.0 Work for pay at other job(s)**

This category captures time that the respondent is working for pay at other job(s), not at his/her main job. Normal work; activities at other job(s) including work brought home, travel which is main part of the job; "working", "at work". This activity should be coded to a non-transit location. For respondents whose other job is within the area of transportation (e.g., taxi driver, pizza delivery driver), the activity should be coded to

**Classification**

7.2.2

4.2

**Examples**

Working for pay on neighbour's farm

**021.0 Overtime work**

Overtime specifically differentiated from normal work by respondent.

**Classification**

7.2.3

4.5

**022.0 Looking for work**

Job search, looking for work, including visits to employment agencies, phone calls to prospective employers, answering want ads.

**Classification**

7.2.4

4.7

**Examples**

At job fair  
Researching details about a job/employer  
Preparing for interview  
Waiting to go into an interview  
Attend job fair at school  
Asking former employers to provide references  
Interview with prospective employer  
Making phone calls to prospective employer  
Working on resume  
Distributing resumes  
Picked up job applications

**Exceptions**

11.2.5 If a respondent reports applying for or collecting unemployment insurance benefits or welfare is coded as: Shopping activities/Shopping for services/Government services (post office, police, driver's license, EI, welfare) (332.1)

**023.0 Unpaid work in a family business or farm**

Work done for a family business or farm for which a salary or wage was not paid.

**Classification**

7.2.5

4.6

**Examples**

Maintaining/renovating rental property (owned by family)  
Feeding hens and other barn work  
Hobby farming.  
Checking cattle  
Did brother's paper route

**Exceptions**

10.2.6 Feeding livestock for neighbour is coded as: Civic, religious, and unpaid work activities done for non-household member(s) and organizations/Other unpaid work activities for other household(s)/Unpaid help for a family business or farm (677.0)

**030.0 Travel during work**

Travel during work that is specifically differentiated from normal work yet part of the work.

**Classification**

12.2  
4.15

**Examples**

Traveling to airport for work purposes  
Contractor was traveling between job sites  
Delivered forms to hospital offices

**Unusual Cases**

Drove around looking for parts to repair farm equipment  
Walked to park with children who respondent was babysitting  
Travelling to conference

**Exceptions**

4.16 Trips to or from work are coded as: Paid work activities/Travel to/from paid work (090.0)  
4.1 Travel within the workplace is coded as: Paid work activities/Work for pay at main job (011.0)

**040.0 Waiting/delays at work**

Waiting time or interruption during work that is specifically differentiated from normal work; e.g. machine breakdown, supply shortage.

**Classification**

4.4

**Examples**

Waiting at print shop for Xerox copying to be done  
Reading while waiting for a plane on a business trip

**Exceptions**

4.10 Coffee breaks are coded as: Paid work activities/Coffee other breaks. (070.0)

**050.0 Meals/snacks at work**

This category captures all meals or snacks consumed at the place of work (in the company cafeteria or outside on the grounds).

**Classification**

4.9

2.3

**Exceptions**

2.2 Eating lunch at a restaurant, but this is non-work related is coded as: Meals/Meals at restaurant. (440.0)

2.9 Eating lunch in the park across the street from the office is coded as: Meals/Other meals/snacks/coffee (e.g. at cottage, park, picnic, hotel). (431.0)

**060.0 Idle time before/after work**

Non-working time spent at respondent's workplace before starting or after finishing normal work, e.g., changing clothes, talk with fellow employees (usually activities occurring in the time period between trip to or from

**Classification**

4.3

**Examples**

Have coffee while waiting to start work  
Unlocked office, made coffee  
Went to desk, had coffee, read paper

**Exceptions**

8.4 Having a drink with co-workers at bar after work is coded as: Socializing/Socializing at bars, clubs. (760.0)

2.2 Having breakfast at restaurant before going to work is coded as: Meals/Meals at restaurant. (440.0)

**070.0 Coffee/other breaks at work**

This category captures all prescribed (arranged) non-working breaks or periods, e.g., coffee break, smoke break.

**Classification**

4.10

2.4

**Examples**

A factory worker reports being relieved for his/her scheduled afternoon break

**080.1 Selling goods and services on the Internet (e.g. eBay)**

Activities related to selling goods and services on the Internet.

**Classification**

7.3.1

4.13

**Examples**

Selling goods on eBay

**080.2 Other income-generating activities**

Activities related to other income-generating activities such as holding a yard or garage sale.

**Classification**

4.17

7.2.13

**Examples**

Spent the morning having a yard sale

Hobby selling at a flea market

Man came to see mirror for sale

**Unusual Cases**

Showing house to prospective buyer or tenant

**Exceptions**

4.1 Respondent's who regularly hold yard or garage sales for a primary income should be coded as (011.0)

4.12 Respondent's who sell home crafts should be coded as (842.0)

4.2 Respondent's who regularly hold yard or garage sales for a secondary income should be coded as (012.0)

4.11 Respondent's who sell products produced from hobbies should be coded as (832.0)

**080.3 Security procedures related to paid work activities**

Security procedures related to paid work activities.

**Classification**

4.18

**Examples**

Went through metal detector before entering/leaving work

**080.9 Other work activities**

Other activities related to work not described in above categories.

**Classification**

4.14

**Examples**

Picking up pay cheque

Research for computer hardware for work - outside his regular work (unpaid work)

**090.0 Travel to/from paid work**

This category captures times when the respondent is traveling to and from the workplace including time spent waiting for transportation. Also include travel (including waiting time related to travel) for job search.

**Classification**

12.1

4.16

**Examples**

Traveling to job fair

A respondent warms up the car - to go to work

A respondent took the bus to go for a job interview

## 101.0 Meal preparation

This category captures time spent preparing meals or snacks, as well as packing lunches for the next day.

### Classification

9.1.1

### Examples

Passing out drinks	Starting the BBQ
Serving hors d'oeuvres	Mixing drinks
Putting out condiments	Reheating dinner in the microwave
Boiling water	Starting dinner and setting the table
Putting roast in oven	Making a cup of coffee

### Exceptions

9.1.8 A respondent reports putting the groceries away (other household work) is coded as: Unpaid work activities for respondent's household/Unpaid work activities for inside the household/Unpacking groceries (184.0)

9.1.11 A respondent reports planned the meal menu for the week (household management) is coded as: Unpaid work activities for respondent's household/Unpaid work activities for inside the household/Household management (organizing/planning activities, etc.) (181.1)

9.1.2 Baking a cake for a birthday party is coded as: Unpaid work activities for respondent's household/Unpaid work activities for inside the household/Baking, preserving food, home brewing, etc. (102.0)

## 102.0 Baking, preserving food, home brewing, etc.

Include all activities associated with non-meal preparation such as baking, preserving (canning or freezing) and the home brewing of beer or wine.

### Classification

9.1.2

### Examples

Making donuts  
 Making gingerbread house  
 Dehydrating food  
 Smoking fish  
 Making jam  
 Putting icing on cake  
 Sterilize equipment for the wine  
 Cutting fish & freezing/separated and froze meat  
 Bottle the wine - home wining

**110.0 Food (or meal) cleanup**

Cleaning up after meals, baking or preserving.

**Classification**

9.1.4

**Examples**

Clean barbecue after meal	Putting away food (leftovers)
Unloaded dishwasher	Wiping table
Straightening up the kitchen	Doing dishes
Washing pots and pans	

**Exceptions**

9.2.1 Thorough cleaning of barbecue (part of spring cleaning) is coded as: Unpaid work activities for respondent's household/Unpaid outside work activities for the household/Outdoor cleaning (garbage, snow removal, garage) (130.0)

9.1.8 Cleaned kitchen (unrelated to specific meals) is coded as: Unpaid work activities for respondent's household/Indoor cleaning (120.0)

**120.0 Indoor cleaning**

Indoor (routine) cleaning; dusting, making beds, picking up, washing windows, vacuuming, fall/spring cleaning, work around the house, etc.

**Classification**

9.1.8

**Examples**

Washing the floor	Sorted through magazines for garbage
Shampooing the carpet	Tidied up the living room
Changing sheets	Clean the bathroom
Cleaned out clothes closet	Reorganized the kitchen cupboards
Cleaning the oven	Making beds
Putting away children's toys	Cleaning out refrigerator

**130.0 Outdoor cleaning (garbage, snow removal, garage)**

Outdoor cleaning; sidewalks, garbage, garbage removal, snow shovelling, storm windows, cleaning garage, etc.

**Classification**

9.2.1

**Examples**

Sweeping deck/patio/porch	Cleaning gutters
Removing ice from sidewalks	Swept/washed out garage
Garbage taken out	Getting household recycling ready for collection
Washing outside windows	Cleaned and stored camping equipment
Shovelled the snow	

**Unusual Cases**

Sprayed wasp nest

**Exceptions**

9.2.10 Took garbage to dump is coded as: Unpaid work activities for respondent's household/Unpaid outside work activities for the household/Travel to/from unpaid household work (190.0)

9.2.3 Mowing the lawn is coded as: Unpaid work activities for respondent's household/Unpaid outside work activities for the household/Grounds maintenance (171.2)

**140.0 Laundry, ironing, folding**

Laundry and ironing, includes hand washing delicate items, putting items in the dryer and hanging clothes on the line.

**Classification**

9.1.5

**Examples**

Sorting laundry  
Folding clean laundry  
Hanging clothes out  
Treating stains  
Washing clothes

**151.0 Mending clothes, shoe care**

Mending and upkeep of clothes, especially maintenance activities such as replacing a lost button or shining shoes.

**Classification**

9.1.6

**Examples**

Sewing on buttons  
I patched household child's pants  
Wax his shoes – shoe care  
Repairing curtains

**152.0 Dressmaking and sewing (for self or household member)****Classification**

9.1.7

**Examples**

I sewed a dress for household child for Christmas  
Cut out the pattern for an outfit  
Hemmed a dress

**Exceptions**

6.7.4 Sewing a dress when done as a hobby (for sale or exchange) is coded as: Leisure activities (active and passive)/Hobbies, crafts, games or other leisure activity/Crafts done for sale or exchange of items (842.0)

6.7.3 Sewing a dress when done as a hobby (not for sale or exchange) is coded as: Leisure activities (active and passive)/Hobbies, crafts, games or other leisure activity/Home crafts done mainly for pleasure (sewing, needlework) (841.0)

**161.0 Interior maintenance and repair**

Include all home repairs and home operations done inside the residence.

**Classification**

9.1.14

**Examples**

Fixed leak in waterbed	Changing locks
Programming the DVD system	Changing light bulbs
Plastering the basement wall	Trying to start the oil furnace
Assembled furniture from IKEA	Setting mouse traps in the house
Tinkering around the house	Refinishing some old furniture for personal use
Repairing home computer	Changing batteries in appliances/smoke detectors
Installed fire alarm in kitchen	Getting cottage winterized
Hanging pictures	Setting/winding clocks
Setting up new CD player	Installing a printer/scanner/modem
Hanging curtains	Installing/maintaining smoke detectors
Painting a bedroom	We put on wall-paper in the living-room
Stripping wallpaper	

**Exceptions**

9.3 Putting up or taking down inside Christmas lights is coded as: Unpaid work activities for respondent's household/Other domestic/household work (183.0)

**162.0 Exterior maintenance and repair of home**

Include all outside maintenance and repairs done for the household residence.

**Classification**

9.2.4

**Examples**

Put BBQ together	Took down winter storm windows
Set up a patio table	Fixing the roof
Setting up garden furniture	Replacing screens
Putting the sealer on the drive-way	Painting the trim on the house
Fixing mailbox	Fixing a broken window
Repairing the driveway (patching)	Painting the house

**Exceptions**

9.3 Putting up or taking down outside Christmas lights is coded as: Unpaid work activities for respondent's household/Other domestic/household work (183.0)

**163.0 Vehicle maintenance**

Car, truck, motorcycle and bicycle maintenance; necessary repairs and routine care to cars. Performed on personally owned/leased vehicles only.

**Classification**

9.2.6

**Examples**

Cleaned camper/RV

Fuel up skidoo

Helped husband change oil

Put skidoos away and cleanup

Put a new chain on bicycle

Washed/waxed car in driveway

Worked on motorcycle

Hooking up trailer to car/truck

Cleaning out car

Checked to make sure the car was locked

Doing the car brakes

Scraping ice/snow off vehicle

Putting on registration stickers

Rebuilding engine

Changed the spark plugs

## **164.0 Other home improvements**

Home improvements: additions to and remodeling done to the house, garage

### **Classification**

9.2.5

9.1.15

### **Examples**

Installing a new gate or fence

Building a deck. Screening in a porch

Renovating the basement

I constructed my shed in my back yard

Refinishing woodwork in dining room

Put a new roof on the house

Screening in a porch

### **Unusual Cases**

A respondent has purchased a building lot and is building his own home

### **Exceptions**

11.2.10 Contractor building a deck is coded as: Shopping activities/Shopping for services/Dwelling renovation (e.g., contractors, plumbers, architect). (350.2)

6.5.6 Landscaping of backyard is coded as: Leisure activities (active and passive)/Other outdoor activities/Gardening. (171.1)

### 171.1 Gardening

Gardening; flower or vegetable gardening; spading, weeding, composting, picking.

#### Classification

9.2.2

6.5.6

#### Examples

Watering garden  
Weeding gardens  
Pruning shrubs/flowers  
Planting tomato plants  
Picked vegetables from my garden  
Sowing flower and vegetable seeds  
Covered plants to prevent from getting frost  
Fertilizing garden  
Putter around garden  
Planting fruit tree  
I planted tulip bulbs

#### Exceptions

11.1.1 Picked berries at a berry farm (not at household) is coded as: Shopping activities/  
Shopping for goods/Grocery store, market, convenience store (301.0)

### 171.2 Grounds maintenance

Activities related to the care of the grounds: raking and bagging leaves, cutting and watering the grass. Pool maintenance should be also coded here.

#### Classification

9.2.3

#### Examples

Worked on grass in yard at cottage  
Testing ph level of water (pool/hot tub)  
Adding chemicals to pool/hot tub  
Draining the pool  
Putter around yard  
Spreading fertilizer on the lawn  
Watering lawn  
I raked the leaves with the kids  
Picking up branches and twigs  
I cleaned the swimming pool and stop the filter for the winter  
Mowing the lawn  
Cleaned pool filter  
Went outside and turned on sprinklers  
Flooded outdoor household rink  
Cleaned pool

#### Exceptions

9.1.15 Installed a pool and deck is coded as: Unpaid work activities for respondent's household/  
Unpaid work activities for inside the household/Other home improvements (164.0)

**172.0 Pet care (walking, grooming, feeding)**

Include all activities associated with pet care: feeding pets, cleaning cages, walking the dog. Also include all medical care activities done by the respondent for pets

**Classification**

9.2.7

**Examples**

Brushing the dog  
Clipping dog's nails  
Gave heartworm pills to dog  
Cleaned the cat litter  
Feeding/watering pets  
Walked the dog  
Cleaning up after pets  
Played Frisbee with the dog  
Playing with pets  
Drained the aquarium

**Exceptions**

11.2.9 Visiting the veterinarian is coded as: Shopping activities/Shopping for services/Professional service (lawyer, veterinarian) (350.1)

**173.0 Care of house plants**

Include watering and replanting of plants that are usually found indoors.

**Classification**

9.1.10

**181.1 Household management (organizing/planning activities, etc.)**

Include activities for household administration, other than financial administration or paperwork.

**Classification**

9.1.11

7.1.9

**Examples**

Planning and coordinating family activities  
Leaving the kids notes on chores to do  
Making photocopies (at home)  
Planning household trip  
Assigning chores  
Planned my supper  
Prepared shopping list  
Went through recipe book

**181.2 Searching Internet for recipe**

Include activities related to searching the Internet for recipes

**Classification**

9.1.12

7.3.2

**Examples**

Using Google I found a recipe on the "Food Channel" website.

**181.3 Financial administration for the household**

Include activities related to the financial administration for the household.

**Classification**

7.1.13

9.1.17

**Examples**

Getting things together for income tax purposes

Wrote out cheques to pay bills

Checking/trading stocks

Balancing check book

Researching investments

Making budget

Preparing income tax

## 182.0 Stacking and cutting firewood

Include cutting, splitting and stacking of firewood for use in fireplace or wood stove of residence (for personal consumption only). Also include starting fires and cleaning and maintaining of fireplace or wood stove.

### Classification

9.2.8

### Examples

I started a fire to warm up the basement  
Put sawdust in burner  
Lit fire in wood burning stove  
Chopping wood  
Stacked firewood  
Getting fire going in wood stove  
Cut wood with chain saw  
Stoke fire  
Brought in wood to put in fire

### Exceptions

11.2.10 Contractor installing wood burning stove is coded as: Shopping activities/Shopping for services/Dwelling renovation (e.g., contractors, plumbers, architect) (350.2)

9.1.15 Respondent installing wood burning stove is coded as: Unpaid work activities for respondent's household/Unpaid work activities for inside the household/Other home improvements (164.0)

## 183.0 Other domestic/household work

### Classification

9.3

### Examples

Boxing things up for storage  
Getting neighbours dog out of yard  
Picking up boat from cottage  
Rearranging the living room  
Lock the windows and doors before bed  
Getting front bedroom ready for visitors  
Turned off lights and fan, got ready to leave the house

Put them down for a nap  
Bathing household children  
Telling household child to brush teeth  
Wake up household child

Cutting household child's hair  
Get household child dressed  
Helping household child change into winter clothes  
Helping household children getting clothes ready for swimming

## 220.0 Helping/teaching/reprimanding

Helping/teaching household children learn, fix, make things. Help with art projects, homework, supervising homework.

### Classification

5.1.7

### Examples

Home schooling a household child  
Quizzing household child before a test  
Lecturing household child  
Preparing a lesson for household child whom has problem with his speech  
Helping household child with arts and crafts  
I revised household child homework with her  
Building model planes with household child

Checked school work for a household child  
Making holiday decorations with household child  
Coaching the kids in the park for soccer (informally/non-organizational)  
Organizing stamp collection with household child  
Teaching household child how to swing the baseball bat

**Exceptions**

10.4.1 Coaching little league baseball team is coded as: Civic, religious, and unpaid work activities done for non-household member(s) and organizations/Volunteer work (organizations)/Coaching (competitively or leisurely (unpaid) (800.0)

**230.1 Reading with children****Classification**

5.1.8

**Examples**

Teaching/helping household child to read  
Listening to household child read  
Reading with household child  
Read to household child

**230.2 Talking/conversation with children****Classification**

5.1.9

**Examples**

Hearing about household child's day  
Talking to household child

**240.0 Play with children**

Indoor and outdoor play with household children.

**Classification**

5.1.10

**Examples**

Playing basketball with household child  
Went biking with household children  
Entertaining household child  
Played games with household children  
Playing with household child  
Played Nintendo with household children

## **250.1 Medical care of household children**

Providing medical care to children of the household.

### **Classification**

5.1.11

### **Examples**

Household child development person came  
Talking with household child's doctor/nurse  
Bandaging household child's cuts/burns  
Taking household child's temperature  
Gave household child medication

## **250.2 Emotional care of household children**

Providing emotional care to children of the household.

### **Classification**

5.1.12

### **Examples**

Waiting while doctor examines household child  
Visiting household child in hospital  
Admitted household child to hospital and waited  
Was at household child's psychiatrist's office  
Calming autistic household child talking

## **260.0 Unpaid babysitting of household children**

Unpaid babysitting or childcare provided to children of the respondent's household. Include all childcare provided by household members other than the parent or guardian that has not been coded elsewhere.

### **Classification**

5.1.13

## Unusual Cases

Supervised household children at play

## Exceptions

10.1.6 Playing with non-household children is coded as: Civic, religious, and unpaid work activities done for non-household member(s) and organizations/Unpaid care activities for non-household member(s)/Other unpaid help provided to non-household children (673.9)

10.1.5 Reading book with non-household children is coded as: Civic, religious, and unpaid work activities done for non-household member(s) and organizations/Unpaid care activities for non-household member(s)/Reading/talking with non-household children (673.5)

10.1.4 Looking after non-household children as primary activity is coded as: Civic, religious, and unpaid work activities done for non-household member(s) and organizations/Unpaid care activities for non-household member(s)/Looking after non-household children as primary activity (673.4)

4.1 Paid babysitting (as a job or performed by a teenager) is coded as: Paid work activities/Work for pay at main job (011.0)

## **271.1 Personal care of household adults**

Personal care given to adults aged 15 years and older living in the household. Routine non-medical care to adults in household.

### **Classification**

5.2.1

### **Examples**

Waking household adult  
Dressing/helping to dress household adult  
Feeding household adult  
Washed disabled household adult's hair  
Bathing household adult  
Ran a bath for household adult  
Cut household adult's hair  
Got household adult up

## **271.2 Education related help for household adult**

Education related help to adults aged 15 years and older living in the household.

### **Classification**

5.2.2

### **Examples**

Quizzed household adult before their exam  
Helped household adult with homework

### **271.3 Looking after household adult as primary activity**

Supervisory care provided to adults aged 15 years and older living in the household.

#### **Classification**

5.2.3

#### **Examples**

Monitoring household adult  
Supervising household adult

### **272.1 Medical care of household adults**

Medical care given to adults aged 15 years and older living in the household. Include assisting in emergencies.

#### **Classification**

1.7

#### **Examples**

Giving household adult medicine  
Took care of household adult who was ill  
Bandaging household adult  
Making diabetic schedule for household adult  
Talking to household adult's doctor/nurse

### **272.2 Emotional care of household adults**

Emotional care given to adults aged 15 years and older living in the household.

#### **Classification**

5.2.9

#### **Examples**

Caring for wife in hospital  
Waited at doctor's office for spouse to receive medical care  
Visiting household adult in hospital  
Waiting while doctor examines household adult  
Accompanying household adult to medical appointment

### **281.1 Visiting child care/school establishments**

Activities related to visiting child care and/or schools for children of the household who are less than 15 years old, other than communications.

#### **Classification**

5.1.14

#### **Examples**

School field trip with household child  
Signing the school agenda and I wrote a special note to household child's teacher  
Attending school open house  
Observing household child's class

## **281.2 Associated communication related to child care/school activities**

Associated communication related to child care and/or schools activities for children of the household who are less than 15 years old.

### **Classification**

5.1.15

### **Examples**

Meeting with household child's tutor  
 Meeting with teacher at household child's school  
 Attending household child's parent teacher interview  
 Meeting with teacher at my son's high school, where the son is less than 15 years of age  
 Talking with child care worker before or after picking up household child  
 Meeting with school psychologist of household child

## **281.8 Other educational help for household children**

Other educational help or activities, not classified above, for children of the household who are less than 15 years old.

### **Classification**

5.1.16

### **Examples**

Reviewing household child's school report card  
 Picking up household child's books/assignments  
 Signing household child's homework log

## **281.9 Other non-educational help for household children**

Other non-educational help or activities, not classified above, for children of the household who are less than 15 years old.

### **Classification**

5.1.17

### **Examples**

Planning play dates for household child  
 Helping with parties for household child  
 Organizing activities for household child  
 Helping household child to choose their Halloween costume in the pattern book  
 Worked on household child's Halloween costumes  
 At household child's football practice

## 282.1 Visiting school establishments for household adults

Activities related to visiting schools for adults aged 15 years and older living in the household, other than communications.

### Classification

5.2.5

## 282.2 Associated communication related to school activities

Associated communication related to school activities for adults aged 15 years and older living in the household

### Classification

5.2.6

### Examples

Talked with the educator of disabled household adult  
Talking to/with adult care provider  
Talking to/with adult daycare provider

## 282.9 Other help for household adults

Other care given, not classified above, for adults aged 15 years and older living in the household. Unpaid correspondence assistance to write letters, solve problems, find information or fill out forms given to adults aged 15 years and older living in the household.

### Classification

5.2.7

### Examples

Read letter to household adult whom is visually disabled  
Helped household with their income tax form  
Planning parties for household adult  
Helping household adult with taxes/bills  
Took dinner out to household adult in the field working

## 332.2 Visiting the library

Government public library services - municipal, local, provincial or federal

### Classification

11.2.6  
6.6.12  
6.2.13  
3.12

### Examples

Borrowing movies from the library  
I borrowed books from the public library in order to study  
At the library

### Exceptions

3.13 Checking out books at the school library is coded as: Education activities/Other education related activities (e.g. school assembly) (580.9)

## 340.1 Adult medical and dental care (outside home), including having prescriptions filled

Medical and dental care outside the home, including making appointments and going to the Chiropractor and Podiatrist for the respondent

### Classification

11.2.7

### Examples

Having dentist work done  
I picked up household child's eyeglass prescription  
I bought antibiotics for household child  
Talking with doctor/nurse  
Talking with a pharmacist  
Talking with a physical therapist  
Having outpatient treatment  
Having an eye exam

Had blood work done  
Had an ultrasound (respondent is pregnant)  
Doctor came and released her from hospital  
At physiotherapist  
Physiotherapy appointment

### Unusual Cases

Attending group therapy under a licensed medical practitioner  
Shopping for medicines or filling prescriptions.

**Exceptions**

5.2.4 Respondent helped household adult with medications is coded as: Care to household children and adults/Care to household adults/Medical care - household adults (272.1)

5.1.11 Respondent gave insulin shot to household child is coded as: Care to household children and adults/Care to household children/Medical care - household children (250.1)

1.7 Grandson came over and helped respondent with his medications is coded as: Personal care/Personal medical care (at home) - administered by non- household member (unpaid) (410.3)

1.6 Household adult gave respondent an insulin shot is coded as: Personal care/Personal medical care (at home) - administered by household member (410.2)

1.5 Gave insulin shot to myself is coded as: Personal care/Personal medical care (at home) - by self (410.1)

5.2.4 Medical care at home for other household adults is coded as: Care to household children and adults/Care to household adults/Medical care - household adults (272.1)

11.1.6 Shopping for shampoo, deodorant at a drugstore is coded as: Shopping activities/Shopping for goods and services/Shopping for other everyday goods (302.9)

**340.2 Adult medical care (inside home)**

Paid medical and dental care services that are provided to the respondent inside their home.

**Classification**

11.2.8

**Examples**

Medical attendant came to house to draw blood for tests  
 Doctor came and provided treatment in the respondent's home  
 Received home care from VON

**Exceptions**

5.2.4 Respondent helped partner with medications is coded as: Care to household children and adults/Care to household adults/Medical care - household adults (272.1)

5.1.11 Respondent gave insulin shot to household child is coded as: Care to household children and adults/Care to household children/Medical care - household children (250.1)

1.7 Grandson came over and helped respondent with his medications is coded as: Personal care/Personal medical care (at home) - administered by non-household member (unpaid). (410.3)

1.6 Wife gave respondent an insulin shot is coded as: Personal care/Personal medical care (at home) - administered by household member. (410.2)

1.5 Gave insulin shot to myself is coded as: Personal care/Personal medical care (at home) - by self. (410.1)

### **350.1 Professional service (lawyer, veterinarian)**

Lawyer and veterinarian services.

#### **Classification**

11.2.9

#### **Examples**

Talking to vet  
Talking to lawyer/paralegal  
Took dogs to vet for shots  
Meeting with lawyer to discuss divorce proceedings

### **350.2 Dwelling renovation (e.g., contractors, plumbers, architect)**

Home designer or decorator, landscape architect, alarm system specialists, and other services used to maintain/renovate the respondent's household.

#### **Classification**

11.2.10

#### **Examples**

Hiring someone to shovel snows  
Hiring someone to cut the grass  
Hiring a landscaper  
Meeting with contractor  
Hiring/talking with a contractor  
Hiring/talking with an electrician or plumber

### **350.3 Private mail service (e.g., Fed-Ex)**

Activities related to using private mail services

#### **Classification**

11.2.11

#### **Examples**

Purolator dropped off parcel  
At UPS store to check mailbox  
At Fed-ex to drop off parcels

### **350.9 Other professional service, n.e.c.**

Travel agency, counselling, photographer and other professional services not listed in 350.1, 350.2 and 350.3.

#### **Classification**

11.2.12

#### **Examples**

Hiring a pet trainer  
Picking up/dropping off dog at kennel  
Hiring a pet sitter/walker  
Paying a caterer  
Meeting with a caterer  
Sitting for photos at a portrait studio

Dropping off clothes at dry cleaners  
Hiring a cleaning service  
Discussed the repair work to be done with the carpenter

## **370.0 Waiting for purchases or services**

Waiting (longer than 5 minutes) for purchases of goods and services; waiting at the doctor's office, waiting at the garage for the car to be fixed.

### **Classification**

11.2.13

11.1.12

### **Examples**

Waiting for vet  
Waiting in line to buy gas  
Waiting for lab results  
Waiting at airport for flight home from vacation  
Waiting for day surgery  
Stood in line at grocery store

### **380.1 Shopping at garage sale, yard sale, flea market, auction**

Attending a garage or yard sale, flea market or auction, and related shopping activities.

#### **Classification**

11.1.13

#### **Examples**

Attended auction  
Walked around a yard sale

#### **Exceptions**

11.1.1 Shopping at farmer's market for fresh produce is coded as: Shopping activities/Shopping for goods/Grocery store, market, convenience store (301.0)

### **380.2 Checking into and out of hotel, motel or B &B**

Activities associated with checking into and out of hotels, motels and bed and breakfasts.

#### **Classification**

11.2.14

#### **Examples**

Booked hotel on the Internet  
Paid bill at motel  
Arrived at hotel and checked into our room

### **380.3 Shopping for hobby equipment or supplies**

Activities associated with purchasing hobby equipment and supplies,

#### **Classification**

11.1.14

#### **Examples**

Purchasing a bucket of balls  
Shopping at Lee Valley for wood-working tools  
Picked up wool at Wal-mart

### **380.4 Security procedures related to shopping activities**

Security procedures related to consumer purchases and services.

#### **Classification**

11.1.16

11.2.16

#### **Examples**

Went through metal detector before entering/leaving shopping facilities  
Security procedures related to consumer purchases

### **380.9 Other shopping and services**

Other services not described above; door-to-door salesperson or solicitor;. Running errand or borrowing goods

#### **Classification**

11.3

#### **Examples**

Went to psychic  
Checking out halls for their wedding  
Registered and paid for a course in Spanish

### **390.0 Travel to/from shopping or obtaining services**

This category captures travel (including waiting time related to travel) for shopping and services.

#### **Classification**

12.7

11.2.15

11.1.15

#### **Examples**

I went to the drugstore to get some antibiotics for household child  
Went to employment insurance office to apply for benefits  
Going to the grocery store, post office, etc  
Went to hospital for x-ray  
Waiting at bus stop to come home from mall, include both the wait time reported and travel  
Driving to health clinic  
Went to doctor's office

**PERSONAL CARE**

## 400.0 Washing, dressing

This category captures personal washing and dressing including getting up or getting ready for bed, changing clothes, shaving, setting hair.

### Classification

1.4

### Examples

Running a bath  
Shaving  
Blow-drying hair  
Brushing/flossing teeth  
Washing hair, getting dressed, or getting ready for work

### Exceptions

4.3 Changing clothes or cleaning up at work is coded as: Paid work activities/Idle time before/after work hours (060.0)

## 410.1 Personal medical care (at home) - by self

This category captures personal medical care at home or private residence for self only; home medical treatment by respondent or taking medicine.

### Classification

1.5

#### Examples

Resting because of illness  
Exercising or therapy for medical reasons  
Taking vitamins  
Doing childbirth exercises  
Taking cough drops  
Being sick in bathroom  
Putting ice on injury  
Tested blood and gave an insulin shot

## 410.2 Personal medical care (at home) - administered by household member

This category captures personal medical care at home or private residence for self only when administered by household member.

### Classification

1.6

### Examples

Household adult tested my blood and drew up an insulin shot (respondent is nearly blind)  
Household adult gave me my pills before breakfast

### **410.3 Personal medical care (at home) - administered by non-household member (unpaid)**

This category captures personal medical care at home or private residence for self only administered by a non-household member (unpaid)

#### **Classification**

1.7

#### **Examples**

Granddaughter came over to change my dressing

### **411.0 Private prayer, meditation and other informal spiritual activities**

This category captures religious practices carried out as an individual. Includes prayers done at home, meditation and other spiritual activities done alone.

#### **Classification**

1.8

#### **Exceptions**

6.3.8 Yoga is coded to: Leisure activities (active and passive)/walking, bicycling , or physical exercise/yoga (807.4)

### **430.0 Meals/snacks/coffee at home (include take-out eaten at home)**

This category captures meals, snacks and/or coffee which are eaten at home or on the household grounds. The respondent can be either alone or with other household members only.

#### **Classification**

2.1

#### **Examples**

Having a few beers or sitting around and having a couple cups of coffee

Eating a family meal

#### **Unusual Cases**

Ate restaurant food at home

#### **Exceptions**

8.3 Eating meal with family from outside the household at Uncle Ralphs home is coded as:

Socializing/socializing at a private residence (with meal) (752.0)

2.6 Eating a meal at school is coded as: Meals/meals/snacks at school (540.0)

2.3 Eating a meal at work is coded as: Employed work and paid work activities/Meals/snacks at work. (050.0)

## 431.0 Other meals/snacks/coffee (e.g. at cottage, park, picnic, hotel)

This category captures all meals and snacks that were eaten at another private residence, other than one which is owned by the respondent (i.e. cottage or vacation home), or in a public place (i.e. park).

### Classification

## 500.0 Full-time classes

This category captures respondents who attend class as a full-time student.

### Classification

7.2.7

3.1

### Examples

Writing exam

Unpaid training for career development

Attending a conference for his course

Worked as a student nurse in a hospital as part of the course work

Consulting with teacher about a term paper

Audit a university course (respondent is a full-time student)

### Unusual Cases

Student teaching (unpaid)

Talking with instructor

### Exceptions

3.4 Attending a special lecture on an interest topic that was unrelated to school or work is coded as: Education activities/Special lectures (occasional outside regular work or school) (520.0)

3.2 Taking a night school course part-time is coded as: Education activities/Other classes (part-time). (511.0)

## 511.0 Other classes (part-time)

Attending classes or training courses as less than a full-time student. Other classes, courses, lectures, academic or professional; respondent not a full-time student.

### Classification

7.2.8

3.2

### Examples

Courses taken to prepare for university/college

Audit a university course (respondent is a part-time student)

### Unusual Cases

Student teaching (unpaid)

Talking with instructor

### Exceptions

4.1 Employer sponsored language training is coded as: Paid work activities/work for pay at main job (011.0)

**512.0 Credit courses on television**

Viewed an educational program on TV for a credit course (e.g. ITV, university television).

**Classification**

7.2.9

3.3

**520.0 Special lectures (occasional outside regular work or school)**

Attending special lectures outside regular work or school, e.g., guest speakers

**Classification**

7.2.10

3.4

**Examples**

Listened to a discussion on AIDS

### 530.1 Homework (course, career, self development)

Homework, studying, research, reading, related to self-development, not including current job. Sponsored or unsponsored (full or partial) homework for career-development.

#### Classification

7.2.11  
3.5

#### Examples

Non-paid research at the library  
Attending study group  
Being tutored by someone in math  
Organizing notes  
I studied all morning at the library for this morning exam

Studying  
Went to bed and studied  
At school library  
Started my homework  
Research for essay  
Practiced trumpet for school course

#### Exceptions

6.7.7 Attending band practice (as extracurricular activity) is coded as: Leisure activities (active and passive)/Hobbies, crafts, games or other leisure activity/Singing or playing music, theatre (850.1)

6.7.7 Attending choir practice (as extracurricular activity) is coded as: Leisure activities (active and passive)/Hobbies, crafts, games or other leisure activity/Singing or playing music, theatre (850.1)

6.7.7 Attending band practice (as extracurricular activity) is coded as: Leisure activities (active and passive)/Hobbies, crafts, games or other leisure activity/Singing or playing music, theatre (850.1)

## 560.2 Self-development (e.g. parenting, Lamaze, self-defence)

Self-development courses and classes usually not associated with academia, e.g., karate, pre-natal classes

### Classification

3.8

### Examples

Taking a parenting class  
 Attended self-defence class with girlfriends  
 Taking CPR, first aid  
 Husband and I went to Lamaze

## 580.1 Security procedures related to educational activities

### Classification

3.14

### Examples

Opening bags at security checkpoint (taking classes)  
 Went through metal detector before entering/leaving school

## **580.9 Other education related activities (e.g. school assembly)**

Other education not covered above, e.g., discussions, or time at school not spent in any of the activities coded above. Work-related classes not taken during working hours.

### **Classification**

3.13

### **Examples**

Checking out books at a school library  
Paying fees for special interest classes  
Enrolling in/registering for classes  
Completing registration forms and finalizing school schedule  
Paying tuition  
Having a detention

### **Exceptions**

3.12 Checking out books at the public library is coded as: Shopping activities/Shopping for services/Visiting the library (332.2)

## **590.0 Travel to/from school education activities**

Travel time (including waiting time related to travel) for education.

### **Classification**

12.10  
3.11

### **Examples**

Drove to music studio for music lessons  
Walked to other school building  
Waiting at bus stop to transfer  
Went to school library

### **Exceptions**

12.4 Driving household child to school is coded as: Travel related activities/Travel to/from activities related to child care (appointment, event, school) (291.0)

**ORGANIZATIONAL, VOLUNTARY AND RELIGIOUS ACTIVITY**

Helped a non-household adult get his computer going  
Worked on non-household adult's car  
Over to ex-wife's place to help with a project for her house

### Unusual Cases

Fixing a friend's boat

## **673.1 Personal care provided to non-household children**

Unpaid personal care provided to friends, neighbours or relatives, 14 years of age or less, who do not live in the respondent's household.

### **Classification**

10.1.1  
10.1.13

### **Examples**

Helping non-household child to get dressed/bathed  
Putting non-household child to bed  
Feeding non-household child  
Dressing non-household child  
Bathing non-household child

## **673.2 Medical care provided to non-household children**

Unpaid medical care provided to friends, neighbours or relatives, 14 years of age or less, who do not live in the respondent's household.

### **Classification**

10.1.2

### **Examples**

Visiting non-household child in the hospital  
Talking with non-household child's doctor/nurse  
Bandaging non-household child's scraps/cuts  
Sitting with sick non-household child  
Taking a non-household child's temperature

### **673.3 Education related help to non-household children**

Unpaid educational help provided to friends, neighbours or relatives, 14 years of age or less, who do not live in the respondent's household.

#### **Classification**

10.1.3

#### **Examples**

Home schooling a non-household child (unpaid)  
Quizzing non-household child before a test  
Reviewing non-household child's homework  
Helping non-household child with homework  
Helping non-household child make arts and crafts  
Making holiday decorations with non-household child  
Organizing coin collection with non-household child

## **673.4 Looking after non-household children as primary activity**

Unpaid babysitting provided to friends, neighbours or relatives, 14 years of age or less, who do not live in the respondent's household.

### **Classification**

10.1.4

### **Examples**

Supervising non-household child swimming  
Accompanying non-household child trick-or-treating  
Monitoring non-household child  
Keeping tabs on non-household child  
Supervising non-household child

## **673.5 Reading/talking with non-household children**

Reading and/or talking (unpaid) to friends, neighbours or relatives, 14 years of age or less, who do not live in the respondent's household.

### **Classification**

10.1.5

### **Examples**

Singing to non-household child  
Hearing about non-household child's day  
Talking with non-household child  
Teaching non-household child to read  
Reading with non-household child  
Listening to a non-household child read  
Reading to non-household child

## **673.9 Other unpaid help provided to non-household children**

Other unpaid child care (n.e.c.) provided to friends, neighbours or relatives, 14 years of age or less, who do not live in the respondent's household.

### **Classification**

10.1.6

### **Examples**

Waiting for school bus with non-household child  
Waiting to pick up non-household child  
Helping with party for non-household child  
Organizing activities for non-household child  
Walking with non-household child  
Riding bikes with non-household child  
Playing with non-household child

## **674.0 Transportation assistance to someone other than a household member**

Unpaid help with transportation for shopping purposes or getting around outdoors given to friends, neighbours or relatives who do not live in the respondent's household.

### **Classification**

12.6  
10.2.5  
10.1.12

### **Examples**

Drove grandson to hockey practice  
Gave cousin a ride home  
Dropping non-household adult off at senior center  
Drove non-household adult to the doctor for her appointment  
Dropping off non-household child at friend's home

## **675.1 Personal care provided to non-household adult**

Unpaid personal care given to care for a disabled or ill friend, neighbour or relative, 15 years of age or older, who does not live in the respondent's household.

### **Classification**

10.1.7

### **Examples**

Waking non-household adult  
Bathing non-household adult  
Putting non-household adult to bed  
Helped dress non-household adult in personal care home

## **675.2 Medical care provided to non-household adult**

Unpaid medical care given to a disabled or ill friend, neighbour or relative, 15 years of age or older, who does not live in the respondent's household.

### **Classification**

10.1.8

### **Examples**

Talking with non-household adult's doctor/nurse  
Bandaging non-household adult  
Giving non-household adult medicine

## **675.3 Education related help to non-household adult**

Unpaid educational related help given to a disabled or ill friend, neighbour or relative, 15 years of age or older, who does not live in the respondent's household.

### **Classification**

10.1.9

### **Examples**

Gave non-household adult a driving lesson  
Helped non-household adult with their homework

## **675.4 Looking after non-household adult as primary activity**

Supervisory care provided to a disabled or ill friend, neighbour or relative, 15 years of age or older, who does not live in the respondent's household.

### **Classification**

10.1.10

### **Examples**

Checking non-household adult  
Monitoring non-household adult  
Supervising non-household adult

## **675.9 Other unpaid help provided to non-household adult**

Other unpaid help (n.e.c.) given to care for a disabled or ill friend, neighbour or relative, 15 years of age or older, who does not live in the respondent's household.

### **Classification**

10.1.11

### **Examples**

Took newspaper to neighbour  
Picking up clothes from friend's house - for somebody from another household

## **676.0 Correspondence assistance (letters, bills, forms)**

Unpaid help to write letters, solve problems, find information or fill out forms given to friends, neighbours or relatives who do not live in the respondent's household.

### **Classification**

10.2.4

### **Examples**

Doing paperwork for non-household adult  
Helping non-household adult with taxes/bills

## **677.0 Unpaid help for a family business or farm**

Unpaid help running a business or farm given to friends, neighbours or relatives who do not live in the respondent's household.

### **Classification**

10.2.6

### **Examples**

Helping to sort and price items at a friend's shop (unpaid)  
Fed neighbour's horses

## **678.0 Other unpaid work/help**

Other unpaid help that was given to friends, neighbours or relatives who do not live in the respondent's household. This would include any activities not covered above.

### **Classification**

10.5  
10.2.7

### **Examples**

Helped decorate hall for baby shower

### **Exceptions**

10.2.1 Unpacked non-household adult's groceries is coded as: Organizational, voluntary and religious activity/Volunteer work, helping/Housework or cooking assistance (671.1)

## **680.1 Other organizational and voluntary activity**

Other organizational or volunteer activity not covered above.

### **Classification**

10.4.9  
10.3.9

### **Examples**

Wrote cheque for the Kidney Foundation  
Giving food items for donation

## 680.2 Other religious activity

Other religious activity not covered above.

### Classification

10.3.10

### Examples

Meeting with minister to discuss wedding or baptism  
At the funeral parlour

### Unusual Cases

At funeral parlour but not for a funeral service

## 691.0 Travel to/from civic and voluntary activity

Travel (including waiting time related to travel) for organizations, e.g. driving related to volunteer work.

### Classification

12.11  
10.4.10  
10.3.12

8.2

### **Examples**

The niece arrived; Socializing without a meal  
Neighbour came over to visit  
Picked up date  
Watched friends play video game  
Outside at friend's house (patio area)  
Spending time with friends  
Had a few beers with a friend  
Greeting friends  
Went to a party  
Chilling with roommate  
Talking to boyfriend

### **Exceptions**

8.1 Went to restaurant for meal is coded as: Personal care/Meals at restaurant (440.0)

## 752.0 Socializing at a private residence (with meal)

Entertaining or visiting friends, socializing with people other than the respondent's own household members either at the respondent's home or another home talking/chatting in the context of receiving a visit or paying a visit. Includes dinner or some other meal.

### Classification

8.3

### Examples

At the neighbours for a BBQ  
The niece arrived; Socializing with a meal  
Friends came over to visit and stayed for dinner

### Exceptions

8.8 Attending a cocktail party/wine and cheese party is coded as: Entertainment (attending)/Other social gatherings/Other non- sporting and non-entertainment events, n.e.c. (780.2)

8.1 Going to restaurant for meal is coded as: Personal care/Meals at restaurant (440.0)

## 753.0 Other socializing (e.g. at malls)

Visiting friends, socializing with people other than the respondent's own household members at a non-private residence (e.g. mall, work place, park).

### Classification

8.7

### Examples

Coffee at bowling alley  
I introduced my baby to my co-workers  
With friends at the campground  
Meeting with friends at the mall

## **754.0 Meals/snacks/coffee at an institutional residence (excluding restaurants)**

Visiting friends, socializing with people other than the respondent's own household members at an institutional residence (e.g. hospital, long term care facility). This category may include meals that were eaten at an institutional residence (excluding restaurants).

### **Classification**

8.6  
2.8

### **Examples**

Visit uncle in jail

## **760.0 Socializing at bars, clubs**

Socializing and/or dancing at bar where no meal was eaten; cocktail lounge, nightclub

### **Classification**

8.4

### **Examples**

Attending jazz bar  
Socializing at bar in curling rink

## **770.0 Casino, bingo, arcade**

### **Classification**

8.5  
6.6.11

### **Examples**

Scratching lottery tickets  
I played cards at the Casino all afternoon  
Betting on the horses  
Spent the evening at the bingo hall  
At the racetrack playing slots  
Spent 3 hours at the casino  
Playing craps at the casino

### **Exceptions**

8.8 Other social gatherings are coded as: Entertainment (attending)/Other social gatherings/Other non- sporting and non-entertainment events, n.e.c. (780.2)  
6.7.5 Played bingo at home with the children is coded as: Sports and hobbies (participating)/Games, cards, arcade/Games, cards, puzzles board games (861.0)

## 780.1 Sporting and entertainment events, n.e.c.

Attending sporting and entertainment events not classifiable above. Include security procedures related to attending entertainment and sporting events.

### Classification

6.6.13

## 780.2 Other non-sporting and non-entertainment events, n.e.c.

Other social life and social gatherings not classifiable above.

### Classification

8.8

### Examples

Private banquet in hotel

I opened my birthday gifts

Attended a wake

Exchange of Christmas presents

Cocktail party/wine and cheese party

Security procedures related to attending social life and social gatherings

Standing in line to see wedding party

After the golf tournament

Built fire at beach with friends

At a pig roast

Attended a wedding ceremony (not specified at church)

Dinner after the golf tournament

Attended a birthday party

### Exceptions

6.1.5 Watching home movies or slides of vacations with friends is coded as: Media and communication/Television, rented movies/Other television viewing (video recorded home movies) (914.9)

## 791.0 Travel to/from attending sports and movies or other entertainment events or visit sites

Travel (including waiting time related to travel) for sports and entertainment activities.

### Classification

12.15

6.6.14

### Examples

Walked to the movie theatre

Drove to baseball game

### Exceptions

12.19 Pleasure driving as a passenger is coded as: Sports and hobbies (participating)/Pleasure drives, sightseeing/Pleasure drives (as a passenger in a car) (872.0)

## **792.0 Travel to/from socializing at private residences**

Travel (including waiting time related to travel) for social entertainment activities

### **Classification**

12.13

8.10

### **Examples**

Walked over to friend's house

Drove over to boss's house for staff party (non-work; socializing only)

### **Exceptions**

4.16 Drove over to boss's house for client party is coded as: Paid work activities/Travel to/from paid work (090.0)

## **793.0 Travel to/from other socializing (to bars, hospitals, weddings)**

Travel (including waiting time related to travel) for other non-resident social entertainment.

### **Classification**

12.14

8.11

### **Examples**

Went to the bar of the ski centre

Drove to banquet hall for wedding reception

## **800.0 Coaching sports competitively or leisurely (unpaid)**

Coaching sports competitively or leisurely. Includes football, tennis, golf, swimming, skating, bowling, frisbee, yoga, horseback riding.

### **Classification**

10.4.1

6.4.1

## **801.1 Football**

Include all activities (other than transportation to and from the activity) associated with actively participating in football activities.

### **Classification**

6.4.2

### **Examples**

Playing touch football  
Warmed up and stretched my muscles before playing football  
Playing flag football  
Put on my football equipment

## **801.2 Field hockey**

Include all activities (other than transportation to and from the activity) associated with actively participating in field hockey activities.

### **Classification**

6.4.3

### **Examples**

Talking to field hockey coach  
Warmed up and stretched my muscles before playing Field Hockey

## **801.3 Baseball or softball**

Include all activities (other than transportation to and from the activity) associated with actively participating in baseball or softball activities.

### **Classification**

6.4.4

### **Examples**

Warmed up and stretched my muscles before playing baseball  
Talking to baseball coach

## **801.4 Soccer**

Include all activities (other than transportation to and from the activity) associated with actively participating in soccer activities.

### **Classification**

6.4.5

### **Examples**

Warmed up and stretched my muscles before playing soccer

## **801.5 Volleyball**

Include all activities (other than transportation to and from the activity) associated with actively participating in volleyball activities.

### **Classification**

6.4.6

### **Examples**

Warmed up and stretched my muscles before playing volleyball  
Set up net for Volleyball

## **801.6 Hockey**

Include all activities (other than transportation to and from the activity) associated with actively participating in ice hockey activities.

### **Classification**

6.4.7

### **Examples**

Warmed up and stretched my muscles before playing hockey  
Put on my hockey equipment

## **801.7 Basketball**

Include all activities (other than transportation to and from the activity) associated with actively participating in basketball activities.

### **Classification**

6.4.8

### **Examples**

Warmed up and stretched my muscles before playing basketball

## 802.1 Tennis

Include all activities (other than transportation to and from the activity) associated with actively participating in tennis activities.

### Classification

6.4.9

### Examples

Talking with tennis coach  
Playing tennis

## 802.2 Squash, racquetball, paddleball

Include all activities (other than transportation to and from the activity) associated with actively participating in squash, racquetball and or paddleball activities.

### Classification

6.4.10

### Examples

Playing badminton  
Playing handball  
Playing squash

## 803.1 Golf

Include all activities (other than transportation to and from the activity) associated with actively participating in golf activities.

### Classification

6.4.11

### Examples

Used the putting green before playing our golf game  
Hit a bucket of balls

### Exceptions

11.1.14 Purchasing a bucket of balls to hit is coded as: Shopping activities/Shopping for goods/Shopping for hobby equipment or supplies. (380.3)

### **803.2 Miniature golf**

Include all activities (other than transportation to and from the activity) associated with actively participating in miniature golf activities.

#### **Classification**

6.4.12

### **804.1 Swimming**

Include all activities (other than transportation to and from the activity) associated with actively participating in swimming activities.

#### **Classification**

6.4.13

#### **Examples**

Scuba diving  
Snorkelling  
Diving  
Playing water polo

### **804.2 Waterskiing**

Include all activities (other than transportation to and from the activity) associated with actively participating in waterskiing activities.

#### **Classification**

6.4.14

#### **Examples**

Surfing

### **805.1 Ice skating**

Include all activities (other than transportation to and from the activity) associated with actively participating in ice skating activities.

#### **Classification**

6.4.15

## 805.2 Downhill skiing or snowboarding

Include all activities (other than transportation to and from the activity) associated with actively participating in downhill skiing or snowboarding activities.

### Classification

6.4.16

## 805.3 Other skiing, sledding, curling

Include all activities (other than transportation to and from the activity) associated with actively participating in other skiing, sledding and or curling activities.

### Classification

6.4.17

### Examples

Snow tubing  
Cross-country skiing

## 806.1 Bowling

Include all activities (other than transportation to and from the activity) associated with actively participating in bowling activities.

### Classification

6.4.18

### Exceptions

6.7.12 Bowling using a video/computer game (e.g., Nintendo Wii) is coded as: Sports and hobbies (participating)/Games, cards, arcade/Playing video games/Video games/computer games/Video games/exercise based games (e.g. Wii, Exertris, Dance Dance Revolution). (862.2)

## 806.2 Pool, ping-pong, pinball

Include all activities (other than transportation to and from the activity) associated with actively participating in pool, ping-pong and/or pinball activities.

### Classification

6.4.19

## 807.1 Home exercises

Include all activities (other than transportation to and from the activity) associated with actively participating in home exercise activities

### Classification

6.3.5

### Examples

Stretching  
Workout at gym  
Using treadmill  
Rode exercise bike  
Using Stairmaster  
Did exercises

## 807.2 Weight-training

Include all activities (other than transportation to and from the activity) associated with actively participating in weight training activities

### Classification

6.3.6

## 807.3 Exercise class or aerobics

Include all activities (other than transportation to and from the activity) associated with actively participating in exercise class or aerobics activities

### Classification

6.3.7

### Examples

Water aerobics  
Talking with aerobics instructor  
Doing high-impact aerobics  
Doing step aerobics

## 807.4 Yoga

Include all activities (other than transportation to and from the activity) associated with actively participating in yoga activities

### Classification

6.3.8

### Examples

Pilates

## **808.0 Judo, boxing, wrestling, fencing**

Include all activities (other than transportation to and from the activity) associated with actively participating in these types of activities.

### **Classification**

6.4.20

### **Examples**

Greco-Roman wrestling  
Doing kickboxing  
Talking with martial arts instructor  
Doing karate

## **809.0 Rowing, canoeing, kayaking, wind surfing and sailing**

Include all activities (other than transportation to and from the activity) associated with actively participating in these types of activities.

### **Classification**

6.4.21

## **810.1 In-line skating or rollerblading**

Include all activities (other than transportation to and from the activity) associated with actively participating in in-line skating and/or rollerblading activities.

### **Classification**

6.4.22

### **Examples**

Went roller skating

## **810.9 Other sports (frisbee, catch, track & field, skateboarding)**

Include all activities (other than transportation to and from the activity) associated with actively participating in these types of activities, not classifiable above.

### **Classification**

6.4.23

### **Examples**

Skateboarding  
Catch  
Doing gymnastics (tumbling, using the balance beam)  
Frisbee  
Mountain climbing  
Track and field  
Rock climbing  
I went snow shoeing for two hours

## **811.0 Hunting (as a sport)**

Include all activities (other than transportation to and from the activity) associated with actively participating in hunting activities.

### **Classification**

6.5.1

### **Examples**

Talking to hunting guide  
Duck hunting  
Hunting game  
Cleaned my guns the day after hunting  
Checking on snares  
At a trap line for pleasure not business

## **812.0 Fishing (as a sport)**

Include all activities (other than transportation to and from the activity) associated with actively participating in fishing activities.

### **Classification**

6.5.2

### **Examples**

Clam digging  
Fly fishing  
Deep sea fishing  
Sorting out fishing tackle  
Checking fishing gear  
Got on the boat and went fishing

## **813.0 Boating (motorboats or rowboats)**

Include all activities (other than transportation to and from the activity) associated with actively participating in boating activities.

### **Classification**

6.5.3

### **Examples**

Getting boat ready for a trip  
Cleaned up the boat  
Loading boat into lake

## **814.0 Camping**

Include all activities (other than transportation to and from the activity) associated with actively participating in camping activities.

### **Classification**

6.5.4

### **Examples**

Starting fire for campsite  
Pitching tent  
Cleaned up campsite

## **815.0 Horseback riding, rodeo, jumping, dressage**

Include all activities (other than transportation to and from the activity) associated with actively participating in these types of activities.

### **Classification**

6.5.5

### **Examples**

Participating in rodeo competitions (calf roping, barrel riding)  
Steeple chase  
Brushed my horse before riding

## **816.0 Other outdoor activities/excursions (picnic, car rally, bird watching)**

Include all activities (other than transportation to and from the activity) associated with actively participating in other types of outdoor activities and excursions

### **Classification**

6.5.7

### **Examples**

Cricket  
Skydiving  
Ballooning  
Going to the sugar bush  
Hang gliding  
Camp fire with household members only  
River tubing

Participating in a car rally  
Stock car racing  
Snowmobiling for pleasure (not as a form of transit)  
Go-karting  
Going to the beach  
ATV/4-wheeling  
Bird watching

## 821.1 Walking

Include all activities (other than transportation to and from the activity) associated with actively participating in walking activities. Exclude walking for any purpose other than leisure.

### Classification

6.3.1

### Examples

Walked around neighbourhood

### Exceptions

12.1 Walked to work is coded as: Travel related activities/Travel to/from paid work (090.0)

## 821.2 Jogging, running

Include all activities (other than transportation to and from the activity) associated with actively participating in jogging and/or running activities. Exclude jogging or running for any purpose other than leisure.

### Classification

6.3.2

### Examples

Going running during lunch

Running cross-country

Talking to race officials

Running a marathon

## 821.3 Hiking

Include all activities (other than transportation to and from the activity) associated with actively participating in hiking activities.

### Classification

6.3.3

### Examples

Hiked in the country

## 822.0 Bicycling

Exclude any bicycling for any purpose other than leisure (e.g. travel to and from work).

### Classification

6.3.4

### Examples

Registered for bike race

## 831.0 Hobbies done mainly for pleasure (painting, sketching, photography)

Hobbies that are done mainly for the respondent's pleasure, including cleaning and repairing hobby equipment. Activities associated with the operation of a respondent's hobby farm. Includes artistic hobbies such as painting, sculpting, potting, drawing, creative writing.

### Classification

6.7.1

### Examples

Reframing a picture

Collecting/organizing stamps

Did some lumber work in a sawmill as a hobby

Scrap booking

Worked at home on the statistics for a hockey pool

Writing poetry

Built chair

Working in home wood working shop

Worked on photography

Writing short stories

Drawing and sketching

### Unusual Cases

Making a home movie

Ham radio

### Exceptions

6.7.3 Sewing, knitting, etc. for pleasure is coded as: Sports and hobbies (participating)/Domestic home crafts/Home crafts done mainly for pleasure (sewing, needlework) (841.0)

## **832.0 Hobbies done for sale or exchange**

Same type of hobbies as found in 'Hobbies Done Mainly for Pleasure' but undertaken for the main purpose of selling or exchanging/bartering.

### **Classification**

6.7.2  
4.11

### **Examples**

Making baskets for sale  
Making furniture for sale  
Preparing food or drink for sale

## **841.0 Home crafts done mainly for pleasure (sewing, needlework)**

Home crafts such as sewing and dressmaking that are done mainly for the respondent's pleasure. Also knitting, needlework, weaving, crocheting, crewel, embroidery, quilting, macramé.

### **Classification**

6.7.3

### **Examples**

Worked on crafts

### **Exceptions**

3.7 Classes for home crafts are coded as: Education activities/Leisure and special interest classes (560.1)

9.1.6 Mending necessary as part of housework is coded as: Household work and related activities/Mending/Mending clothes, shoe care (151.0)

## **842.0 Domestic home crafts done for sale or exchange**

Domestic home crafts undertaken for the main purpose of selling or exchanging/bartering.

### **Classification**

6.7.4  
4.12

## **850.1 Singing or playing music, theatre**

Singing or playing a musical instrument, choir practice (non-religious), acting (rehearsal for play), etc.

### **Classification**

6.7.7

### **Examples**

Christmas carolling  
Tuning musical instruments  
Composing music  
Sang karaoke  
Practiced playing piano

### **Exceptions**

3.7 Music lessons are coded as: Education activities/Leisure and special interest classes (560.1)

## **850.2 Popular or social dance**

Dancing (ballet, modern dance, square dance), jazz exercise, ballroom dancing, etc.

### **Classification**

6.7.8

### **Examples**

Participating in a square dancing competition

### **Exceptions**

8.4 Dancing at a nightclub is coded as: Entertainment (attending)/Socializing at bars, clubs (760.0)

3.7 Dance lessons are coded as: Education activities/Leisure and special interest classes (560.1)

## **861.0 Games, cards, puzzles, board games**

### **Classification**

6.7.5

### **Examples**

Hitting a piñata

I played bridge at my bridge club all afternoon

Sudoku

Played Scrabble

Played bridge

Did crossword puzzle

Darts

Played solitaire

### **Exceptions**

8.3 Games as part of a visit is coded as: Entertainment (attending)/Visits, entertaining friends/relatives/Socializing at a private residence (with meal) (752.0)

8.2 Games as part of a visit is coded as: Entertainment (attending)/Visits, entertaining friends/relatives/Socializing at a private residence (no meal) (751.0)

3.7 Bridge lesson is coded as: Education activities/Leisure and special interest classes (560.1)

## **862.1 Playing video games/computer games**

Using either a non-computer device such as PlayStation or X-Box to play electronic games as a leisure activity or a computer to play electronic games as a leisure activity.

### **Classification**

7.1.1

6.7.6

## **862.2 Video games/exercise based games (e.g. Wii, Exertris, Dance Dance Revolution)**

Using a non-computer device such as Wii to play exercise based video games as a leisure activity.

### **Classification**

6.7.12

7.1.12

### **Examples**

Bowling using the Wii

## **863.0 Computer – general use (excluding games and surfing the Net)**

### **Classification**

7.1.11

#### **Examples**

Loading software  
Learning a new software package

#### **Exceptions**

7.2.11 Doing an assignment for school on a computer is coded as: School and education/Homework (course, career, self-development) (530.1)

4.5 Doing some overtime work on the computer is coded as: Paid work activities/Overtime work (021.0)

## **864.0 Surfing the Net (as a leisure activity)**

Using the Internet for information search and retrieval or electronic mail service (as a leisure activity).

### **Classification**

7.1.2

#### **Exceptions**

7.2.12 Looking up information for my term paper is coded as: School and education/Using the Internet for research/homework (530.2)

7.3.2 Looked for cookie recipes on the Net is coded as: Household work and related activities/Other housework/Household administration/Searching Internet for recipe (181.2)

4.13 Selling goods on eBay is coded as: Employed work/Other work activities/Selling goods and services on the Internet (e.g., eBay). (080.1)

4.1 Used Internet to contact some clients for main job is coded as: Employed work/Work for pay/Work for pay at main job (011.0)

## **865.0 Using e-mail (writing and reading e-mail)**

Includes the writing and reading of e-mail, as well as, the sending and receiving of e-mail.

### **Classification**

7.1.3

### **Examples**

Checking e-mail  
Cleaning out e-mail inbox  
Reading e-mail

### **Exceptions**

4.1 Used e-mail to arrange work meetings or send and receive work related e-mails is coded as: Employed work/Work for pay/Work for pay at main job (011.0)

## **866.0 Participating in chat groups**

Includes the time spent in Internet chat groups

### **Classification**

7.1.4

## **867.1 Participating in social network sites (Facebook, MySpace)**

Includes the time spent in social network sites such as Facebook or MySpace.

### **Classification**

7.1.5

### **Examples**

Posted pictures to my Facebook page  
Checked out my nephew's Facebook page

## **867.9 Participating in other Internet communication**

Includes the time spent in other Internet communication systems (does not include e-mail use) such as MSN, ICQ or AOL-AIM.

### **Classification**

7.1.6

### **Examples**

Used MSN to communicate with a friend

## **871.0 Pleasure drives (as the driver)**

Driving in the car, as a driver

### **Classification**

12.18

6.5.8

### **Examples**

Took wife for a drive

## **872.0 Pleasure drives (as a passenger in the car)**

Driving for leisure, as a passenger.

### **Classification**

12.19

6.5.9

### **Examples**

Looking at decorated houses

## **873.0 Other pleasure drives (e.g. on a tour bus)**

Group tours, site seeing

### **Classification**

12.20

6.5.10

### **Examples**

Bus tour

## **880.0 Other leisure activity**

Other active leisure surrounding active or sport leisure

### **Classification**

6.7.9

### **Examples**

Going trick-or-treating

Watched the thunderstorm

Fireworks with friends and family at home after barbecue

Maintaining and cleaning ice rink for skating

Going to cut down a Christmas tree (outdoors)

Sunbathing

Hot tubing

## **891.0 Travel to/from participating in active sport/outdoor activities**

Travel (including waiting time related to travel) for active sports and outdoor activities.

### **Classification**

12.17

6.5.11

6.4.25

6.3.9

### **Examples**

Went to the lake for canoeing

Going to play baseball

### **Exceptions**

6.5.10 Sightseeing (e.g. on a tour bus) is coded as: Sports and hobbies (participating)/Pleasure drives, sightseeing/Other pleasure drives (e.g. on a tour bus) (873.0)

6.5.8 Pleasure driving as a driver is coded as: is coded as: Sports and hobbies (participating)/Pleasure drives, sightseeing/Pleasure drives (as a driver) (871.0)

12.19 Pleasure driving as a passenger is coded as: Sports and hobbies (participating)/Pleasure drives, sightseeing/Pleasure drives (as a passenger in a car) (872.0)

## **892.0 Travel to/from coaching activities**

Travel (including waiting time related to travel) for coaching activities.

### **Classification**

12.16

10.4.11

6.4.24

## **893.0 Travel to/from hobbies or for the sale of crafts**

Travel (including waiting time related to travel) for hobbies and domestic crafts for sale or exchange.

### **Classification**

12.21

6.7.10

## **894.0 Travel to/from other leisure activities**

Travel (including waiting time related to travel) for other active leisure not specified in 891.0, 892.0 or 893.0.

### **Classification**

12.22

6.7.11

### **Examples**

Drove to tavern to pick-up tables for hockey pool

**MEDIA AND COMMUNICATION**

Activity	Activity codes for Cycle				
	2	7	12	19	24

## **900.1 Listening to radio on-line**

Listening to the radio; music, news, commentaries, etc. on-line

### **Classification**

6.1.6

## **900.2 Other radio listening**

Listening to the radio; music, news, commentaries, etc. on radio (airwaves, cable or satellite)

### **Classification**

6.1.7

## **911.0 Watching scheduled T.V. programming**

This category captures the respondent watching T.V. as the program airs.

### **Classification**

6.1.1

### **Examples**

The respondent watched his/her soap, or program

## **912.0 Watching T.V. recorded programming/time-shifted viewing**

Watching any programming recorded from television for later viewing (differed programming using a VCR).

### **Classification**

6.1.2

## **913.0 Watching rented, purchased or downloaded movies**

Watching commercial tapes or DVD's rented from a video store or privately owned. This includes movies, taped concerts, and motivational videos.

### **Classification**

6.1.3

### **Exceptions**

3.13 Watching a video on how to build a sun deck is coded as:, Education activities/Other education related activities (e.g. school assembly) (580.9)

### **914.1 Watching television on-line (including podcasts)**

Watching any on-line programming (including podcasts) from television for later viewing (differed programming using a VCR).

#### **Classification**

6.1.4

### **914.9 Other television viewing (video recorded home movies)**

Watching home tapes recorded using a video camera or camcorder.

#### **Classification**

6.1.5

#### **Examples**

Watching home movies or slide of vacations with friends  
Watching home-recorded video tape of a wedding

#### **Unusual Cases**

Watched home slides on projector

### **920.0 Listening to CD's, cassette tapes, records**

Listening to CD's, records or tapes. Listening to others playing musical instruments (not a concert). Recording music.

#### **Classification**

6.1.8

### **931.0 Reading books**

Reading books; technical, political, novels, poetry, etc.

#### **Classification**

6.2.7

#### **Unusual Cases**

Books on tape for the blind

#### **Exceptions**

10.3.5 Reading the Bible (if done as a religious activity) is coded as: Organizational, voluntary and religious activity/Religious services/prayer/Bible reading (640.0)

7.2.11 Reading for homework is coded as: School and education/Homework (course, career, self-development) (530.1)

5.1.8 Reading to household children is coded as: Care giving for Household members/Reading, talking, conversation with child/Reading with children (230.1)

## **932.1 Reading magazines, pamphlets, bulletins, newsletters**

Reading magazines, pamphlets, bulletins, newsletters, etc.

### **Classification**

6.2.8

### **Exceptions**

7.2.11 Reading for homework is coded as: School and education/Homework (course, career, self-development) (530.1)

5.1.8 Reading to household children is coded as: Care giving for Household members/Reading, talking, conversation with child/Reading with children (230.1)

## **932.2 Reading on-line: magazines, pamphlets, bulletins, newsletters**

Reading magazines, pamphlets, bulletins, newsletters, etc. on-line

### **Classification**

6.2.9

## **940.1 Reading newspapers (actual paper copy)**

Reading newspapers (actual paper copy).

### **Classification**

6.2.5

## **940.2 Reading newspapers (on-line)**

Reading electronic newspapers. Using a computer to read newspapers on-line.

### **Classification**

7.1.10

6.2.6

## **950.0 Talking, conversation with household member only (face-to-face)**

Include all types of conversations conducted face-to-face.

### **Classification**

6.2.1

### **Examples**

Sitting around talking

Argued with spouse face-to-face

## **951.1 Talking on the phone (excluding work)**

Include all types of conversations conducted on the telephone.

### **Classification**

6.2.2

### **Examples**

Argued with spouse on the phone  
Talked on the phone

## **951.2 Text messaging using a cell-phone – sending a text message**

Include all types of text messaging – sending a text message

### **Classification**

6.2.3

## **951.3 Text messaging using a cell-phone – receiving a text message**

Include all types of text messaging - receiving a text message.

### **Classification**

6.2.4

## **961.0 Reading personal mail (including flyers and advertisements)**

Reading letters, mail or cards (excludes e-mail)

### **Classification**

7.1.7

6.2.11

### **Examples**

Sorting mail  
Throwing away junk mail  
Read a letter  
Checking to see if mail came in  
Checked the mail

### **Exceptions**

7.1.6 Using MSN is coded as: Sports and hobbies (participating)/Computer use – other Internet communication/Participating in other Internet communication (867.9)

7.1.4 Chat groups and other Internet communication is coded as: Sports and hobbies (participating)/Participating in chat groups (866.0)

7.1.3 Using e-mail (writing and reading e-mail) is coded as: Sports and hobbies (participating)/Using e-mail (writing and reading e-mail) (865.0)

## **962.0 Writing/typing letters, sending greeting cards (not including use of e-mail)**

Writing, sending letters, greeting cards, etc. (excludes e-mail)

### **Classification**

7.1.8

6.2.12

### **Examples**

Addressing holiday cards

Writing in journal

Writing letters

Wrote thank you cards

I wrote, sent Christmas cards

Wrote a personal diary

Typed a letter to my friend

### **Exceptions**

7.1.4 Chat groups are coded as: Sports and hobbies (participating)/Participating in chat groups (866.0)

7.1.3 Using E-mail (writing and reading e-mail) is coded as: Sports and hobbies (participating)/Using e-mail (writing and reading e-mail) (865.0)

6.7.2 Creative writing (for sale or trade) is coded as: Sports and hobbies (participating)/Hobbies done for sale or exchange of items (832.0)

6.7.1 Creative writing (for pleasure) is coded as: Sports and hobbies (participating)/Hobbies done mainly for pleasure (painting, sketching, photography) (831.0)

7.1.13 Writing and mailing bills is coded as: Household work and related activities/Household administration/Financial administration for the household (181.3)

## **980.1 Downloading and/or ripping music and/or movies to computer for media use**

Activities including downloading and/or ripping music and/or movies to computer for media use.

### **Classification**

6.2.14

### **Examples**

Download music

## 980.9 Other media or communication

Media and communication activity not covered above.

### Classification

6.2.15

### Examples

Setting VCR for movie  
 Checking the telephone answering machine for messages  
 Looking for DVD to watch  
 Programming a satellite dish

## 990.0 Travel to/from media or communication activities

Travel (including waiting time related to travel) for passive leisure activities.

### Classification

12.23

6.2.16

### Examples

Walked to mail box to pick up mail  
 Rushed home to watch final game of Stanley Cup  
 Picked up a CD at a friend's home  
 Went home to watch T.V

### Unusual Cases

Walked down to the end of the driveway to get the mail

## RESIDUAL CODES

Activity	Activity codes for Cycle				
	2	7	12	19	24
Missing gap in time		001	001	001	001.0
Refused information		002	002	002	002.0

Episode activities that cannot be coded during collection of the dairy. These episode activities were coded up where possible. For those cases where coding up was not possible then the cases were coded to 001.0 – Missing gap in time or coded to 002.0 – Refused information.

### Classification

7.4

## **Appendix J**

### **2010 Twenty-Four Code Activity System**

The following table shows the definitions of the Major and Minor activity groupings derived from the 264 activity codes used in the 2010 General Social Survey (GSS). This is similar to the grouping of activities used since the 1992 survey.

**TWENTY-FOUR CODE ACTIVITY SYSTEM****A. PAID WORK AND RELATED ACTIVITIES****1. Paid Work (WORKPAID)**

- 011.0 Work for pay at main job
- 012.0 Work for pay at other job(s)
- 021.0 Overtime work
- 023.0 Unpaid work in a family business or farm
- 030.0 Travel during work
- 040.0 Waiting/delays at work during work hours
- 070.0 Coffee/other breaks at work
- 080.1 Selling goods and services on the Internet (e.g., eBay)
- 080.2 Other income-generating activities
- 080.3 Security procedures related to paid work activities
- 080.9 Other work activities
- 832.0 Hobbies done for sale or exchange
- 842.0 Domestic home crafts done for sale or exchange

**2. Activities Related to Paid Work (OTHRPAID)**

- 022.0 Looking for work
- 060.0 Idle time before/after work hours
- 893.0 Travel to/from hobbies or for the sale of crafts

**3. Commuting (DUR0900)**

- 090.0 Travel to/from paid work

**B. HOUSEHOLD WORK AND RELATED ACTIVITIES****4. Cooking/Washing Up (COOKDOMS)**

- 101.0 Meal preparation
- 102.0 Baking, preserving food, home brewing, etc.
- 110.0 Food (or meal) cleanup

**5. Housekeeping (HSKPDOMS)**

- 120.0 Indoor cleaning
- 130.0 Outdoor cleaning (garbage, snow removal, garage)
- 140.0 Laundry, ironing, folding
- 151.0 Mending clothes, shoe care
- 152.0 Dressmaking, sewing (for self or household member)

**6. Maintenance and Repair (MAINDOMS)**

- 161.0 Interior maintenance and repair
- 162.0 Exterior maintenance and repair of home
- 163.0 Vehicle maintenance
- 164.0 Other home improvements

**7. Other Household Work (OTHRDOMS)**

- 171.1 Gardening
- 171.2 Grounds maintenance
- 172.0 Pet care (walking, grooming, feeding)
- 173.0 Care of house plants
- 181.1 Household management (organizing/planning activities, etc.)
- 181.2 Searching Internet for recipe
- 181.3 Financial administration for the household
- 182.0 Stacking and cutting firewood
- 183.0 Other domestic/household work
- 184.0 Unpacking groceries
- 185.0 Packing and unpacking luggage and/or car
- 186.0 Packing and unpacking for a move of the household
- 190.0 Travel to/from unpaid domestic work

**8. Shopping for Goods and Services (SHOPDOMS)**

- 301.0 Grocery store, market, convenience store
- 302.1 Shopping for gas
- 302.2 Reading/research for purchasing everyday goods
- 302.3 Purchasing everyday goods and services on the Internet
- 302.4 Shopping for plants/flowers for home landscaping
- 302.9 Shopping for other everyday goods
- 303.0 Take-out food
- 304.0 Renting a video
- 310.1 Shopping for durable household goods
- 310.2 Reading/research for purchasing durable household goods
- 310.3 Purchasing durable household goods on Internet
- 320.0 Personal care services (barbers, beauticians)
- 331.0 Financial services (banking, insurance, loans, taxes, financial consulting)
- 332.1 Government services (post office, police, driver's license, EI, welfare)
- 332.2 Visiting the library
- 340.1 Adult medical and dental care (outside home), including having prescriptions filled
- 340.2 Adult medical care (inside home)
- 350.1 Professional service (lawyer, veterinarian)
- 350.2 Dwelling renovation (e.g., contractors, plumbers, architect)
- 350.3 Private mail service (e.g., Fed-Ex)
- 350.9 Other professional service, n.e.c.
- 361.0 Automobile maintenance and repair services (car wash, oil change, tire rotation)
- 362.0 Other repair and cleaning services (dry cleaner, T.V. repair, furnace)
- 370.0 Waiting for purchases or services
- 380.1 Shopping at garage sale, yard sale, flea market, auction
- 380.2 Checking into and out of hotel, motel or B&B
- 380.3 Shopping for hobby equipment or supplies
- 380.4 Security procedures related to shopping activities
- 380.9 Other shopping and services
- 390.0 Travel to/from shopping or obtaining services

**9. Child Care (CHLDDOMS)**

- 200.1 Child care (infant to 4 years old)
- 200.2 Food preparation for child under 5 years of age
- 200.3 Feeding the child (infant to 4 years old)
- 211.0 Putting the children to bed
- 212.0 Getting children ready for school
- 213.0 Personal care for children of the household
- 220.0 Helping/teaching/reprimanding
- 230.1 Reading with children
- 230.2 Talking/conversation with children
- 240.0 Play with children
- 250.1 Medical care of household children
- 250.2 Emotional care of household children
- 260.0 Unpaid babysitting of household children
- 281.1 Visiting child care/school establishments
- 281.2 Associated communication related to child care/school activities
- 281.8 Other educational help for household children
- 281.9 Other non-educational help for household children
- 291.0 Travel to/from personal care activities for household children

**C. SOCIAL SUPPORT, CIVIC AND VOLUNTARY ACTIVITY****10. Civic and Voluntary Activity (VLNTORGN)**

- 271.1 Personal care of household adults
- 271.2 Education related help for household adult
- 271.3 Looking after household adult as primary activity
- 272.1 Medical care of household adults
- 272.2 Emotional care of household adults
- 282.1 Visiting school establishments for household adults
- 282.2 Associated communication related to school activities
- 282.9 Other help for household adults
- 600.0 Professional, union, general meetings
- 610.0 Political, civic activity (e.g. voting, jury duty, city council, donating blood)
- 620.0 Child, youth, family organizations (e.g. scout leader, school volunteer)
- 630.0 Religious meetings, organizations (e.g. choir practice, church socials)
- 651.0 Fraternal and social organizations (e.g. Lions' Club)
- 652.0 Support groups (e.g. Al-Alon, AA, Weight Watchers)
- 660.1 Volunteer work (organizations) - organizing and planning
- 660.2 Volunteer work (organizations) - fundraising
- 660.3 Volunteer work (organizations) - collecting and delivery of goods
- 660.4 Volunteer work (organizations) - building structures, indoor/outdoor maintenance and repair
- 660.5 Volunteer work (organizations) - food presentation, preparation and clean-up
- 660.9 Volunteer work (organizations) - other volunteer work
- 671.1 Housework and cooking assistance
- 671.2 Animal and pet care for non-household pets
- 672.0 House maintenance or repair assistance
- 673.1 Personal care provided to non-household children
- 673.2 Medical care provided to non-household children
- 673.3 Education related help to non-household children
- 673.4 Looking after non-household children as primary activity
- 673.5 Reading/talking with non-household children
- 673.9 Other unpaid help provided to non-household children
- 674.0 Transporting assistance to someone other than a household member
- 675.1 Personal care provided to non-household adult
- 675.2 Medical care provided to non-household adult
- 675.3 Education related help to non-household adult
- 675.4 Looking after non-household adult as primary activity
- 675.9 Other unpaid help provided to non-household adult
- 676.0 Correspondence assistance (letters, bills, forms)
- 677.0 Unpaid help for a family business or farm
- 678.0 Other unpaid work/help
- 680.1 Other organizational and voluntary activity
- 680.2 Other religious activity
- 800.0 Coaching sports competitively or leisurely (unpaid)
- 691.0 Travel to/from civic or voluntary activity
- 892.0 Travel to/from coaching activities
- 292.0 Travel to/from personal care activities for household adults

**D. EDUCATION AND RELATED ACTIVITES****11. Education and Related Activities (SCHLEDUC)**

- 500.0 Full-time classes
- 511.0 Other classes (part-time)
- 512.0 Credit courses on television
- 520.0 Special lectures (occasional outside regular work or school)
- 530.1 Homework (course, career, self-development)
- 530.2 Using the Internet for research/homework
- 550.0 Breaks/waiting for class
- 560.1 Leisure and special interest classes
- 560.2 Self-development (e.g. parenting, Lamaze, self-defence)
- 580.1 Security procedures related to educational activities
- 580.9 Other education related activities (e.g. school assembly)
- 590.0 Travel to/from school education activities

**E. SLEEP, MEALS AND OTHER RELATED ACTIVITES****12. Night Sleep (DUR4500)**

- 450.0 Night sleep/essential sleep

**13. Meals (excl. Restaurant Meals) (MEALPERS)**

- 050.0 Meals/snacks at work
- 430.0 Meals/snacks/coffee at home (include take-out eaten at home)
- 431.0 Other meals/snacks/coffee (e.g. at cottage, park, picnic, hotel)
- 540.0 Meals/snacks/coffee at school
- 642.0 Meals/snacks/coffee at religious services
- 661.0 Meals/snacks/coffee at place of volunteer work

**14. Other Personal Activities (OTHRPERS)**

- 400.0 Washing, dressing
- 410.1 Personal medical care (at home) - by self
- 410.2 Personal medical care (at home) - administered by household member
- 410.3 Personal medical care (at home) - administered by non-household member (unpaid)
- 411.0 Private prayer, meditation and other informal spiritual activities
- 460.0 Naps/laying down
- 470.0 Relaxing, thinking, resting, smoking
- 480.0 Other personal care or private activities (e.g. washroom activities, sex)
- 492.0 Travel to/from other personal care activities
- 640.0 Religious services/prayer/Bible reading
- 692.0 Travel to/from religious services

**F. SOCIALIZING****15. Restaurant Meals (RESTSOCL)**

- 440.0 Meals at restaurant
- 491.0 Travel to/from restaurant meals

**16. Socializing (In Homes) (HOMESOCL)**

- 751.0 Socializing at a private residence (no meal)
- 752.0 Socializing at a private residence (with meal)
- 950.0 Talking, conversation with household member only (face to face)
- 951.1 Talking on the phone (excluding work)
- 951.2 Text messaging using a cell-phone – sending a text message
- 951.3 Text messaging using a cell-phone – receiving a text message
- 792.0 Travel to/from socializing at private residences

**17. Other Socializing (OTHRSOCL)**

- 753.0 Other socializing (e.g. at malls)
- 754.0 Meals/snacks/coffee at an institutional residence (excluding restaurants)
- 760.0 Socializing at bars, clubs
- 770.0 Casino, bingo, arcade
- 780.1 Sporting and entertainment events, n.e.c.
- 780.2 Other non-sporting and non-entertainment events, n.e.c.
- 793.0 Travel to/from other socializing (to bars, hospitals, weddings)

**G. TELEVISION, READING AND OTHER PASSIVE LEISURE****18. Watching Television (TELEMDIA)**

- 911.0 Watching scheduled T.V. programming
- 912.0 Watching T.V. recorded programming/time-shifted viewing
- 913.0 Watching rented, purchased or downloaded movies
- 914.1 Watching television on-line (including podcasts)
- 914.9 Other television viewing (video recorded home movies)

**19. Reading Books, Magazines, Newspapers (READMDIA)**

- 931.0 Reading books
- 932.1 Reading magazines, pamphlets, bulletins, newsletters
- 932.2 Reading on-line: magazines, pamphlets, bulletins, newsletters
- 940.1 Reading newspapers (actual paper copy)
- 940.2 Reading newspapers (on-line)

**20. Other Passive Leisure (OTHRMDIA)**

- 900.1 Listening to radio on-line
- 900.2 Other radio listening
- 920.0 Listening to CD's, tapes, records
- 961.0 Reading personal mail (including flyers and advertisements)
- 962.0 Writing/typing letters, sending greeting cards (not including use of e-mail)
- 980.1 Downloading and/or ripping music and/or movies to computer for media use
- 980.9 Other media or communication
- 990.0 Travel to/from media and communication activities

**H. SPORTS, MOVIES AND OTHER ENTERTAINMENT EVENTS****21. Sports, Movies and Other Entertainment Events (ENTREVNT)**

- 701.0 Professional sports events
- 702.0 Amateur sports events
- 711.0 Pop music concerts
- 712.0 Fairs, circuses, parades, amusement park, ice follies

- 743.0 Heritage sites (archaeological sites)
- 791.0 Travel to/from attending sports, movies or other entertainment events or visit sites

**I. ACTIVE LEISURE****22. Active Sports (SPRTACTV)**

- 801.1 Football
- 801.2 Field hockey
- 801.3 Baseball or softball
- 801.4 Soccer
- 801.5 Volleyball
- 801.6 Hockey
- 801.7 Basketball
- 802.1 Tennis
- 802.2 Squash, racquetball, paddleball
- 803.1 Golf
- 803.2 Miniature golf
- 804.1 Swimming
- 804.2 Waterskiing
- 805.1 Ice skating
- 805.2 Downhill skiing or snowboarding
- 805.3 Other skiing, sledding, curling
- 806.1 Bowling
- 806.2 Pool, ping-pong, pinball
- 807.1 Home exercises
- 807.2 Weight-training
- 807.3 Exercise class or aerobics
- 807.4 Yoga
- 808.0 Judo, boxing, wrestling, fencing
- 809.0 Rowing, canoeing, kayaking, wind surfing, sailing
- 810.1 In-line skating or rollerblading
- 810.9 Other sports (frisbee, catch, track & field, skateboarding)
- 811.0 Hunting (as a sport)
- 812.0 Fishing (as a sport)
- 813.0 Boating (motorboats or rowboats)
- 814.0 Camping
- 815.0 Horseback riding, rodeo, jumping, dressage
- 816.0 Other outdoor activities/excursions (picnic, car rally, bird watching)
- 821.1 Walking
- 821.2 Jogging, running
- 821.3 Hiking
- 822.0 Bicycling
- 891.0 Travel to/from participating in active sport/outdoor activities

**23. Other Active Leisure (OTHRACTV)**

- 831.0 Hobbies done mainly for pleasure (painting, sketching, photography)
- 841.0 Home crafts done mainly for pleasure (sewing, needlework)
- 850.1 Singing or playing music, theatre
- 850.2 Popular or social dance
- 861.0 Games, cards, puzzles, board games
- 862.1 Playing video games/computer games
- 862.2 Video games/exercise based games (e.g. Wii, Exertris, Dance Dance Revolution)
- 863.0 General computer use (excluding games and surfing the Net)
- 864.0 Surfing the net (as a leisure activity)
  - 865.0 Using e-mail (writing and reading e-mail)
  - 866.0 Participating in chat groups
  - 867.1 Participating in social network sites (Facebook, MySpace)
  - 867.9 Participating in other Internet communication
- 871.0 Pleasure drives (as the driver)
- 872.0 Pleasure drives (as a passenger in the car)
- 873.0 Other pleasure drives (e.g. on a tour bus)
- 880.0 Other leisure activity
- 894.0 Travel to/from other leisure activities

**J. RESIDUAL****24. Residual Time (DVRESID)**

- 001.0 Missing gap in time
- 002.0 Refused information

## Appendix K

### Comparison of Cycle 24 with previous time use cycles

GSS 24			GSS 19		GSS 12	
Section	Question	Topic	Comparison	Question	Comparison	Question
<b>General Time Use</b>						
	GTU_Q110	How often do you feel rushed?	same	GTU_Q110	same	A2
	GTU_Q130	How often do you feel you have time on your hands that you don't know what to do with?	same	GTU_Q130	same	A4
<b>Time Use Diary</b>						
	EPI_Q100	On ^ piDiaryDay, at 4:00 AM, what were you doing? And then, what did you do?	same	EPI_Q100	same	B3a
	EPI_Q339	How long did you spend on this activity?	same	EPI_Q339		
	EPI_Q340E	When did this end?	same	EPI_Q340E		B3c
	EPI_Q340H	How long did you spend on this activity?	same	EPI_Q340H		
	EPI_Q340M	How long did you spend on this activity?	same	EPI_Q340M		
	EPI_E340	So, this activity ended at ^EPI_D340?	same	EPI_E340		B3cx
	EPI_Q350	Were you doing anything else at the same time? (For example looking after or supervising children, texting, emailing or having coffee. Include all activities regardless of duration.)				
	EPI_Q351	What were you doing (at the same time)?				
	EPI_Q352	How long did this activity last (i.e., ^EPI_D352)?				
	EPI_Q353	How long did this activity last (i.e., ^EPI_D353)?				
	EPI_Q354	How long did this activity last (i.e., ^EPI_D354)?				
	EPI_Q370L	Where were you? / Were you still:				
	EPI_Q370T	Where were you? / Were you still:				
	EPI_Q400	Who was with you? / Were you still:				
	TUT_Q970	Was the %DiaryDay% you described very different from most %DiaryDay%'s? (for example illness, holiday or religious festival)				
	DAS_Q110	You stated that on ^piDiaryDay at 4:00 AM you were sleeping. What time did you fall asleep ^(\ piDiaryDay – 1) night?	same	DAS_Q110	same	D2a
<b>Perceptions of Time</b>						
	TCS_Q110	Do you plan to slow down in the coming year?	same	TCS_Q110	same	D2g
	TCS_Q120	Do you consider yourself a workaholic?	same	TCS_Q120	same	D2g
	TCS_Q130	When you need more time, do you tend to cut back on your sleep?	same	TCS_Q130	same	D2h
	TCS_Q140	At the end of the day, do you often feel that you have not accomplished what you had set out to do?	same	TCS_Q140	same	D2i
	TCS_Q150	Do you worry that you don't spend enough time with your family and friends?	same	TCS_Q150	same	D2j
	TCS_Q160	Do you feel that you're constantly under stress trying to accomplish more than you can handle?	same	TCS_Q160		
	TCS_Q170	Do you feel trapped in a daily routine?	same	TCS_Q170		
	TCS_Q180	Do you feel that you just don't have time for fun anymore?	same	TCS_Q180		
	TCS_Q190	Do you often feel under stress when you don't have enough time?	same	TCS_Q190		
	TCS_Q200	Would you like to spend more time alone?	same	TCS_Q200		

Unpaid Work Activities						
	UWA_Q110	Last week, how many hours did you spend looking after: ...one or more of the children living in your household, without pay?	slightly different wording	UWA_Q110	same	E2
	UWA_Q120	Last week, how many hours did you spend looking after: ...one or more children living outside you household, without pay?	slightly different wording	UWA_Q120	same	E3
	UWA_Q130	Last week, how many hours did you spend doing: ...unpaid housework, yard work or home maintenance for your household?	slightly different wording	UWA_Q130	same	E4
	UWA_Q140	Last week, how many hours did you spend doing: ...unpaid housework, yard work or home maintenance for persons who live outside your household?	slightly different wording	UWA_Q140		
	UWA_Q150	Last week, how many hours did you spend doing: ...providing unpaid care or assistance to one or more seniors who live in your household?	slightly different wording	UWA_Q150		
	UWA_Q160	Last week, how many hours did you spend doing: ...providing unpaid care or assistance to one or more seniors living outside your household?	slightly different wording	UWA_Q160		
Volunteering and charitable giving						
	VCG_Q300	In the past 12 months, did you do unpaid volunteer work for any organization?	same	VCG_Q300	X	E9-E23
	VCG_Q310	On average, about how many hours per month did you volunteer?	same	VCG_Q310	*	E24
Well-being						
Life satisfaction	LSR_Q100	Using a scale of 1 to 10 where 1 means "Very dissatisfied" and 10 means "Very satisfied", how do you feel about your life as a whole right now?	slightly different wording	LS_Q210	X	D7
	LSR_Q130	On how many days last week did your physical activities add up to at least 30 minutes?				
Self-Rated Health	SHR_Q110	In general, would you say your health is:	same	HAL_Q110	*	L22
	SHR_Q115	In general, would you say your mental health is:				
	HAL_Q310	Do you have constant or recurring difficulty: ...hearing, even while using a hearing aid?	slightly different wording	HAL_Q120	*	L22
	HAL_Q320	Do you have constant or recurring difficulty: ...seeing, even when wearing glasses?	slightly different wording	HAL_Q120	*	L22
	HAL_Q330	Do you have constant or recurring difficulty: ...walking or climbing stairs?	slightly different wording	HAL_Q120	*	L22
	HAL_Q340	Do you have constant or recurring difficulty: ...reaching or grasping an object or bending down?	slightly different wording	HAL_Q120	*	L22
	HAL_Q350	Do you have constant or recurring difficulty: ...communicating in your own language?	slightly different wording	HAL_Q120	*	L22
	HAL_Q360	Do you experience constant or recurring difficulty: ...due to any psychological or emotional condition?				
	HAL_Q410	Are your daily activities at home, work, school or any other area limited by: ...a physical condition?	slightly different wording	HAL_Q150	X	L23
	HAL_Q420	Are your daily activities at home, work, school or any other area limited by: ...a psychological, emotional or mental health condition?	slightly different wording	HAL_Q160	X	L23
	HAL_Q430	Are your daily activities at home, work, school or any other area limited by: ...learning difficulties?				
	HAL_Q440	Are your daily activities at home, work, school or any other area limited by: ...any other health condition?	slightly different wording	HAL_Q170	X	L23
	HAL_Q450	Do you regularly have trouble falling asleep or	same	HAL_Q210	same	L25

		staying asleep?				
<b>Main Source of Stress</b>						
	MSS_Q110	Thinking about the amount of stress in your life, would you say that most days are:	same	MSS_Q110	X	D3
	MSS_Q130	What is your main source of stress?				
<b>Main Activity of Respondent</b>						
	MAR_Q100	Last week, was your main activity working at a paid job or business, looking for paid work, going to school, caring for children, household work, retired or something else?	same	MAR_Q100	same	F1
	MAR_Q105	Were you studying full-time or part-time?	same	MAR_Q120	same	F2
	MAR_Q133	Did you have a job or were you self-employed at any time last week?	same	MAR_Q133	same	F3
	MAR_Q134	In the last four weeks, did you look for a job?	same	MAR_Q134	same	F5
	MAR_Q135	Did you have a job or were you self-employed at any time during the past 12 months?	same	MAR_Q135	same	F4
	MAR_Q136	Have you ever worked at a job or business?	same	MAR_Q136	same	F6
	MAR_Q137	In what year did you last do any paid work?	same	MAR_Q137	same	F7
	MAR_Q138	How old were you when you last did any paid work?				
	MAR_Q170	For how many weeks during the past 12 months were you employed?	same	MAR_Q170	same	F8
	MAR_Q171	How many days of paid vacation did you take during the past 12 months?	same	MAR_Q171	same	F13b
	MAR_Q172	Were you mainly: ...a paid worker? ...self-employed? ...an unpaid family worker?	same	MAR_Q172	same	F14
	MAR_Q174	About how many employees did you have?	slightly different wording	MAR_Q174	same	F17
	MAR_Q175	Was your business incorporated?	slightly different wording			
	MAR_Q190	Some people do all or some of their paid work at home. Excluding overtime, do you usually work any of your scheduled hours at home?	same	MAR_Q190		F31
	MAR_Q191	How many paid hours per week do you usually work at home?	same	MAR_Q191		F33
	MAR_Q193	What is the main reason you do some of your work at home?	same	MAR_Q193		F32
	MAR_Q300	For whom did you work the longest time during the past 12 months?	slightly different wording	MAR_Q310		F9
	MAR_Q311	What kind of business, industry or service was this?	slightly different wording	MAR_Q311		
	MAR_Q312	What kind of work were you doing?	same	MAR_Q312		
	MAR_Q313	In that work, what were your most important activities or duties?	same	MAR_Q313		
	MAR_Q315	Are you still working %for this employer/at this business%?				
	MAR_Q320	For whom did you work last week?	same	MAR_Q360		F18
	MAR_Q321	What kind of business, industry or service was this?	same	MAR_Q361	same	F19
	MAR_Q322	What kind of work were you doing?	same	MAR_Q362	same	F20
	MAR_Q323	What were your most important activities or duties?				
	MAR_Q350	Which of the following best describes your terms of employment in this job? %Are/Were% you a:				
	MAR_Q364	%Are/Were% you a union member or covered by a union contract or collective agreement in this job?	same	MAR_Q364	same	F22
	MAR_Q370	Approximately, how many kilometres %is/was% your place of work from your residence?	slightly different wording	MAR_Q370		
	MAR_Q381	Did you have more than one paid job last week?	same	MAR_Q381	same	F23

	MAR_Q382	How many hours a week %did/do% you usually work at your job?	slightly different wording	MAR_Q382	same	F24
	MAR_Q383	How many hours a week do usually work at your main job?	same	MAR_Q383	same	F25a
	MAR_Q384	How many hours a week do you usually work at your other jobs?	same	MAR_Q384	same	F25b
	MAR_Q388	Why %do/did% you usually work less than 30 hours a week?	slightly different wording	MAR_Q385	same	F26
	MAR_Q390	How many days a week %did/do% you usually work (including all jobs)?				
	MAR_Q410	Which of the following best describes your usual work schedule at your %main job/ job%? %Is/Was% it:	slightly different wording	MAR_Q410	*	F27
	MAR_Q420	%Do you have a flexible schedule that allows you to choose the time you begin and end your work day/Did you have a flexible schedule that allowed you to choose the time you began and ended your work day%?	slightly different wording	MAR_Q420	same	F30
	MAR_Q510	How satisfied %are/were% you with the balance between your job and home life? %Are/Were% you:	slightly different wording	MAR_Q510		
	MAR_Q520	Why %are/were% you dissatisfied?	slightly different wording	MAR_Q520		
	MAR_Q522	In the past 12 months how often has it been difficult to fulfill family responsibilities because of the amount of time you spent on your job (please include responsibilities concerning your spouse and child(ren) if it applies, as well as your own parents, siblings and other related persons). Was it:				
	MAR_Q523	In the past 12 months how often has it been difficult to concentrate or fulfill your work responsibilities because of your family responsibilities (please include responsibilities concerning your spouse and child(ren) if it applies, as well as your own parents, siblings and other related persons). Was it:				
	MAR_Q530	For which activities does your household regularly hire paid help (for example: child care, house cleaning, outdoor work)?				
	MAR_Q540	During the past 12 months, was your main activity working at a paid job or business, looking for paid work, going to school, caring for children, household work, retired or something else?				
	MAR_Q550	Were you studying full-time or part-time?				
<b>Education of Respondent</b>						
	EOR_Q100	Excluding kindergarten, how many years of elementary and high school education have you successfully completed?	same	EOR_Q100	same	F43
	EOR_Q110	Have you graduated from high school?	same	EOR_Q110	same	F44
	EOR_Q150	Have you had any further schooling beyond elementary or high school?	same	EOR_Q150	same	F45
	EOR_Q200	What is the highest level of education that you have attained?	same	EOR_Q200	*	F46
	EOR_Q210	Did you attain your highest level of education in Canada or outside Canada?				
	EOR_Q220	In what country (did you attain your highest level of education)?				
	EOR_Q320	In what year did you complete your studies?	same	EOR_Q220	*	G13

<b>Main Activity and Education of Respondent's Spouse/Partner</b>						
	MAP_Q100	Last week, was your %spouse's/partner's% main activity working at a paid job or business, looking for paid work, going to school, caring for children, household work, retired or something else?	slightly different wording	MAP_Q100	*	G2
	MAP_Q120	Was %he/she% studying full-time or part-time?	same	MAP_Q120	same	G3
	MAP_Q129	Did %he/she% have a job or was %he/she% self-employed at any time last week?	slightly different wording	MAP_Q129	same	G4
	MAP_Q130	Was %he/she% mainly				
	MAP_Q150	Last week, how many hours did %he/she% work?	same	MAP_Q150	same	G5
	MAP_Q155	Which of the following best describes your %spouse / partner%'s work schedule last week at their job? Is it:				
	MAP_Q160	Did %he/she% work on ^piDiaryDay?	slightly different wording	MAP_Q160	same	G6
	MAP_Q170	Did %he/she% work a splitshift on ^piDiaryDay?				
	MAP_Q180	What hours did %he/she% work?	same	MAP_Q180	same	G8a
	MAP_Q190	What hours did %he/she% work?	same	MAP_Q190	same	G9a
	MAP_Q191	What hours did he/she work? (second end time)	same	G9b	same	G9b
	MAP_Q210	Last week, how many hours did %he/she% spend doing housework including cooking, cleaning, grocery shopping and laundry for your household, without pay?	same	MAP_Q210/15	same	G10
	MAP_Q220	Last week, how many hours did %he/she% spend doing unpaid work to maintain or improve your house, yard or automobile?	same	MAP_Q220/15	same	G11
	MAP_Q235	Last week, how many hours did %he/she% spend looking after one or more children living in your household, without pay?	same	MAP_Q235	same	G12
	MAP_Q245	Last week, how many hours did %he/she% spend providing unpaid care or assistance to one or more seniors?				
	MAP_Q250	Last week, how many hours did %he/she% volunteer his/her time on behalf of a group or organization, without pay?				
<b>Education of Respondent's Spouse/partner</b>						
	EOP_Q200	What is the highest level of education that %he/she% has attained?	same	EOP_Q200	*	G13
	EOP_Q210	How many years of elementary school has your %spouse/partner% completed?				
<b>Education of Respondent's Parents</b>						
	EOM_Q200	What was the highest level of education your mother has attained?	same	EOM_Q200		
	EOM_Q210	How many years of elementary school has she completed?	slightly different wording	EOM_Q210		
	EOF_Q200	What was the highest level of education your mother has attained?	same	EOF_Q200		
	EOF_Q210	How many years of elementary school has she completed?	slightly different wording	EOF_Q210		

Culture Activities Participation						
	LCA_Q110	During the past 12 months, as a leisure activity (not for paid work or studies) how often did you read a newspaper?	slightly different wording	LCA_Q110/15	same	H1
	LCA_Q120	During the past 12 months, as a leisure activity (not for paid work or studies) how often did you read a magazine?	slightly different wording	LCA_Q120/25	same	H2
	LCA_Q130	During the past 12 months, as a leisure activity (not for paid work or studies) how many books did you read on average?	slightly different wording	LCA_Q130/35	same	H3
	LCA_Q210	During the past 12 months, how often did you:	slightly different wording			
		... go to a movie or drive-in?	same	LCA_Q210/15	same	H6
	LCA_Q220	... watch a video, rented or purchased, VHS or DVD?	same	LCA_Q220/25	*	H7
	LCA_Q230	... listen to music on CD's, cassette tapes, DVD audio discs, records, etc.?	same	LCA_Q230/35		
	LCA_Q240	... listen to downloaded music on your computer, MP3 player, ect.?	same	LCA_Q240/45	*	H8
	LCA_Q310	During the past 12 months, how often did you:	slightly different wording			
		... attend a theatrical performance such as a drama, musical theatre, dinner theatre, comedy?	same	LCA_Q310/15	same	H14
	LCA_Q320	... attend a popular musical performance such as pop/rock, jazz, blues, folk, country and western?	same	LCA_Q320/25	same	H18
	LCA_Q330	... attend a symphonic or classical music performance?	same	LCA_Q330/35	same	H19
	LCA_Q340	... attend a cultural or artistic festival (such as film, fringe, dance, jazz, folk, rock, buskers or comedy)?	same	LCA_Q340/45	same	H24
	LCA_Q350	... go to a performance of cultural/heritage music, theatre or dance (e.g. Aboriginal Peoples, Chinese, Ukrainian)?	same	LCA_Q350/55	same	H25
	LCA_Q360	... attend any other kind/type of cultural performance?	same	LCA_Q360/65		
	LCA_Q410	... go to a public art gallery or art museum (including attendance at a special art exhibits)?	same	LCA_Q410/15	*	H28, H29
	LCA_Q420	... visit museums other than public art galleries or art museums?	same	LCA_Q420/25	*	H27
	LCA_Q430	... go to an historic site?	same	LCA_Q430/35	same	H32
	LCA-Q440	... go to a zoo, aquarium, botanical garden, planetarium or observatory?	same	LCA-Q440/45	same	H33
	LCA_Q450	... go to a conservation area or nature park?	same	LCA_Q450/55	same	H34
Sports Participation Activities of Respondent						
	SPA_Q100	Did you regularly participate in any sports during the past 12 months?	same	SPA_Q100	same	J1
	SPA_Q110/120/130	Which sports did you participate in?	same	SPA_Q110/120/130	same	J2s#
	SPA_Q115/125/135 - SPD_Q110	How often, in season, did you participate in %SPD_D110%?	slightly different wording	SPA_Q115/125/135 - SPD_Q110	same	J2a
	SPA_Q115 - 125 - 135 (SPD_Q130)	Did you participate in this sport primarily for competition or recreation?	same	SPA_Q115 - 125 - 135 (SPD_Q130)		
	SPA_Q200	Did you participate in any competitions or tournaments in the last 12 months?	same	SPA_Q200	same	J3
	SPA_Q210 - 220 - 230	For which sports?	same	SPA_Q210 - 220 - 230	same	J4s#
	SPA_Q215 - 225 - 235 (SCD_Q110)	Was it at the local, regional, provincial or national level?	same	SPA_Q215 - 225 - 235 (SCD_Q110)	same	J4a#
	SPA_Q270	Do you have a coach?				

	SPA_Q310	Is sport very important, somewhat important or not important in providing you with:	slightly different wording			
		... physical health and fitness?	same	SPA_Q310	same	J5a
	SPA_Q320	... family activity?	same	SPA_Q320	same	J5b
	SPA_Q330	... new friends and acquaintances?	same	SPA_Q330	same	J5c
	SPA_Q340	... fun, recreation and relaxation?	*	SPA_Q340	*	J5d
	SPA_Q350	... sense of achievement and skill development?	*	SPA_Q350	*	J5e
	SPA_Q410	Are there any particular reasons why you did not regularly participate in any sports?	same	SPA_Q410	same	J6
	SPA_Q420	During the past 12 months, have you been involved in amateur sport as a:				
		... coach?				
	SPA_Q430	... referee/official/umpire?				
	SPA_Q440	... administrator or helper?				
	SPA_Q450	... spectator at amateur sports competitions?				
<b>Sports Participation Activities of Respondent's Spouse/Partner</b>						
	SPP_Q110	During the past 12 months has your % spouse/partner% been involved in amateur sport as a participant, coach, referee/umpire, administrator/helper or spectator?				
<b>Sports Participation Activities of Household children</b>						
	SPC_Q120[J].H MS_Q100	Are you responsible for raising ^piChildName?				
	SPC_Q120[J].H MS_Q105	Did ^piChildName regularly participate in sport during the past 12 months?				
	SPC_Q120[J].H MS_Q110	In which sports did ^piChildName participate?				
	SPC_Q120[J].H MS_Q120	For which sports did ^piChildName participate?				
	SPC_Q120[J].H MS_N130	Did ^piChildName participate in another sport?				
<b>Transportation: Access to Transportation</b>						
	ATT_Q120	How often do you have a vehicle at your disposal?	slightly different wording	ACV_Q110		
	ATT_Q130	How often do you need assistance from someone to drive you somewhere (appointments, errands, etc)?				
	ATT_Q131	How often can someone drive you when you need it?				
	ATT_Q140	Thinking of a typical week, what kind of transportation do you use the most? (For example: car, walk, bus)				
	ATT_Q150	Is public transit, within walking distance of your home? (For example, bus, streetcar, subway, light-rail transit commuter train or ferry).	slightly different wording	PTR_Q110		
	ATT_Q160	In the past 12 months, how often have you used public transportation?	slightly different wording	PTR_Q120		
	ATT_Q170	What are the reasons you did not use public transportation?	slightly different wording	PTR_Q300		
	ATT_Q180	Do you have a valid driver's license?	same	DLR_Q110		

Transportation: Commute to Work						
	CTW_Q140	Last week, how did you get to %work/school%?				
	CTW_Q150	On a usual day last week, how many minutes did it take you to go one way from home to %work/school %?				
	CTW_Q160	Have you ever used public transit to travel to your current %workplace/school%?				
	CTW_Q170	In general how would you rate the level of convenience of traveling to %work/school% by public transit?				
	CTW_Q180	How convenient do you think it would be to travel to %work/school% by public transit?				
	CTW_Q190	Last week, how often did you experience traffic congestion during your commute to %work/school%?				
	CTW_Q210	Overall, how satisfied are you with the amount of time it took you to get to %work/school% last week?				
	CTW_Q215	How serious a problem is traffic congestion for you?				
Housing Characteristics of Respondent – Internet Use						
	IUR_Q100	In the past month, did you use the Internet?				
	IUR_Q135	(In the past month), how often did you use the Internet to purchase goods or services? Was it:

Car racing	Motorcycling
Dancing	Snowmobiling
Fishing	Walking (non-competitive)

**Appendix M**  
**A Guide to Using the Time Use Data Files**

### **A Guide to Using the Time Use Data Files**

The time use portion of the GSS Cycle 24 collected data on the daily activities of Canadians. Information was collected by asking respondents to report their daily activities during the course of a 24 hour reference day starting at 4:00 in the morning.

For each main activity respondents were asked the start and end time of the activity, where the activity took place and who the respondent was with at the time. The latter was not asked for sleep and most other personal care activities (codes 400.0, 450.0, 460.0 and 480.0). Also, for the first time in 2010, the survey provided the respondents with the opportunity to report on simultaneous activities (Question: What you doing anything else at the same time?). The respondents were allowed to report up to three simultaneous activities per main activity and the time devoted to each one.

The main activities reported by respondents were coded into 264 individual groups and these groups were then categorized into 10 major activity groups and 24 minor groups (see Appendix J).

Two separate data files were created from the results of the 2010 Time Stress and Well-Being Survey: the main file and the time use episode file. The following is a guide to their use.

**Three main measures of time use**

The analysis done using the file will usually make use of one or more of the following measures.

## 1. Participation Rate

A participant in an activity is a person who has reported at least one occurrence of the activity on their diary day. The participation rate is the percentage of the population having reported the activity. It is calculated by dividing the estimated number of persons participating in the activity on diary day by the total number of persons in the population.

This is the proportion of the population who reported a particular activity. This is calculated as:

$$P^a = \frac{\sum_i W_i X_i^a}{\sum_i W_i}$$

where  $P^a$  = participation rate for activity a  
 $X_i^a$  = 1 if respondent reported activity a, = 0 otherwise  
 $W_i$  = weight for person i

Note that the indicator of participation is a non-zero number of episodes for that activity.

## 2. Average time for participants

Average time obtained when the estimated total daily time spent per day on the activity is divided by the estimated total number of persons who reported at least one occurrence of that activity on their diary.

The average time spent on an activity by all participants in that activity is calculated as:

$$TP^a = \frac{\sum_i W_i t_i^a}{\sum_i W_i X_i^a}$$

where  $TP^a$  = average time for all participants in activity a  
 $X_i^a$  = 0 or 1, indication of participation in activity a  
 $t_i^a$  = time on activity a for person i (=0 if no participation)  
 $W_i$  = weight for person i

## 3. Average time for total population

Average time obtained when the estimated total daily time spent per day on the activity is divided by the estimated total number of persons in a given population

The average time spent on an activity by the total population (including both participants and non participants) is calculated as:

$$T^a = \frac{\sum_i W_i t_i^a}{\sum_i W_i}$$

where  $T^a$  = average time for total population in activity a  
 $t_i^a$  = time on activity a for person i (=0 if no participation)  
 $W_i$  = weight for person i

This time will always be less than the average time for participants and is equal to the time for participants if the participation rate is 100%.

**The following are a number of comments that are intended to help in using the time use files:**

1. The participation rates and the average times can be calculated for any subgroup of the population by including only the individuals in the subgroup.
2. The average time spent either for the participants or the entire population represent an average over a full seven day week unless a selection is done for a particular day of the week using variable DDAY.
3. Activities are averaged for a 24-hour day, over a 7-day week. For activities like paid work which are normally considered over a 5-day period, a simple conversion will reconstruct activities to a 5-day average. Multiply the daily average by 7 for a weekly average and divide by 5. For example, a paid workday of 5.7 hours (averaged over 7 days) will convert to an 8.0 hour day (averaged over 5 days).
4. The average time for the total population summed across all activities is equal to 1440 minutes (24 hours).
5. Average time for the total population can be added to obtain average time for a grouping of activities.
6. The participation rate can be calculated by dividing the average time for the population by the average time for the participants. Similarly, the average for participants can be approximated by dividing the average time for the population by the participation rate.
7. Adding durations for social contacts (i.e. variables DURSOC01 to DURSOC11) will likely exceed 24 hours in most situations since time spent for a given activity with more than one type of social contact is counted each time. For example, watching television for an episode of 45 minutes with spouse and children will account for 45 minutes in DURSOC02 (spouse) as well as 45 minutes in DURSOC03 (children of the household).
8. Code 002.0 represents time spent on activities the respondent refused to report, while code 001.0 represents gaps in time when the respondent described his/her reference day. Respondents included in the results will not have more than 4 hours missing or refused in total.
9. Variables on the Main File can be linked to variables on the Episode File using the variable RECID as a matching key.

10. In order to include more content in this survey while maintaining the respondent burden at its minimum, it was decided to split the sample for questions included in Section 9 of the questionnaire. Half of the respondents were asked questions about Cultural Activities module and the remaining half were asked questions on Sports Participation module. The respondents were randomly assigned to one of the sub-samples. Information extracted from these two sub-samples cannot be analyzed together as no respondent was asked the questions from both portions of the questionnaire. Four weighting factors were placed on the Main File.

WGHT\_PER: This is the basic weighting factor for analysis at the person level, i.e. to calculate estimates of the number of persons (non-institutionalized and aged 15 or over) having one or several given characteristics. WGHT\_PER should be used for all person-level estimates that do not involve the Cultural Activities or Sports Participation modules from Section 9 of the questionnaire.

WGHT\_HSD: This is the usual GSS household weight, to be used only for estimate of household characteristics. For example, to estimate the number of households that live in low-rise apartments, WGHT\_HSD should be summed over all records with this characteristic.

As a result of the splitting the sample for Section 9 in the questionnaire (refer to the Instrument Design section above), the following two weights were created.

WGHT\_CSP: This is the weight that must be used for estimates that involve questions on Cultural Activities module of the questionnaire. This weight is zero for respondents who completed the Sports Participation module.

WGHT\_SNT: This is the weight that must be used for estimates that involve questions on Sports Participation module. This weight is zero for respondents who completed the Cultural Activities module.

In addition to the estimation weights, bootstrap weights have been created for the purpose of design-based variance estimation.

**Main File**

In addition containing the bulk of the questionnaire responses and derived variables, the Main File provides summary time use activity information for each respondent on:

- i) the total time spent on each activity;
- ii) the total time spent at various locations;
- iii) the total time spent with various persons.

Note that the main file summarizes the data for each respondent along each of these three dimensions of activities. It does not, however, provide the details on individual activity episodes. For example, the Main file provides the total time spent on an activity such as T.V. watching, although the total time may have been reported on more than one episode of T.V. watching during the day. The Main file indicates the number of episodes of each activity but does not indicate when during the day they occurred.

Similarly the information for location (Question: Where were you?) and "who with" (Question : Who was with you?) is the total for the day. The "who with" duration do not add to 24 hours as a respondent could be with more than one person or groups of persons at a time. The variable DURMEIN provides an unduplicated measure of time spent with the household members. There is no information on this file which links an activity with a location or who the person was with at the time. This information is provided on the detailed episode file described below.

Further summarization of the diary information produced variables for 10 major groups of activities and the 24 subcategories found in Appendix J. Other derived variables are:

- Total duration of time in transit
- Total duration of time spent with household members
- Number of activities
- Number of episodes

**Examples using the Main file**

## a) Activity tables

When weighted estimates for the duration of time spent at an activity, for example, employed work, by the population are required, use the variables

- WGHT\_PER (weight)
- DVPAID (employed work).

When weighted estimates for the duration of time spent at an activity for participants only are required, exclude the respondents who did not report that activity, e.g., employed work,

i.e., Select respondents for whom DVPAID > 0.

The participation rate of a given activity is the percentage of the total population that reported the activity and can be derived using the formula provided.

When weighted estimates are required for a sub-group of the population, select the provided code for the desired sub-group, for example, time spent at employed work (DVPAID) for males and employed males. The variables used would be

WGHT\_PER (weight)  
 DVPAID (employed work)  
 ACT7DAYS (main activity in the past 7 days)  
 SEX (sex of respondent)

The selected subgroup would be defined as those where SEX = 1 and ACT7DAYS = 1.

<b>DVPAID</b>	Total Population	Total Participants	Participation Rate (%)
Males	13,854,955	6,841,827	49
Employed Males	8,126,652	5,874,753	72

**b) Location of activity or in transit**

When weighted estimates for the duration of time spent at various locations or in various means of transit by the population are required use the following variables:

WGHT\_PER (weight)  
 DURLOC01 (respondent's home)  
 DURLOC02 (work place)  
 DURLOC03 (someone else's home)  
 DURLOC04 (restaurant/bar)  
 DURLOC05 (place of worship)  
 DURLOC06 (grocery store)  
 DURLOC07 (other store/mall)  
 DURLOC08 (school)  
 DURLOC09 (outdoors away from home)  
 DURLOC10 (library)  
 DURLOC11 (other place)  
 DURLOC12 (car as the driver)  
 DURLOC13 (car as a passenger)  
 DURLOC14 (walking)  
 DURLOC15 (bus (includes street cars or other public transit))  
 DURLOC16 (subway/train (includes commuter trains))  
 DURLOC17 (bicycle)  
 DURLOC18 (boat/ferry)  
 DURLOC19 (taxi/limousine service)  
 DURLOC20 (airplane)  
 DURLOC21 (other forms of transit)  
 DURLOC97 (refused information)  
 DURLOC98 (location not stated)  
 DURLOC99 (location unknown)

When weighted estimates for duration of time spent at various locations or in transit by participants only are required, exclude the respondents who did not report any time at that location or in transit,

i.e., Select respondents for whom DURLOC## > 0.

The participation rate of activity at a given location or given means of transit, is the percentage of the total population that reported activity at the location or in transit and can be derived using the formula provided.

<b>DURLOC02 Location (Work)</b>	Total Population	Participation Participants	Rate (%)
Employed Males	8,126,652	5,068,967	62

DURLOC01 to DURLOC99 provides an estimate of the duration of time spent at various locations or in various means of transit. These categories are mutually exclusive, therefore the time will add to 24 hours for any given population.

c) Social contacts

When weighted estimates for the duration of time spent with various social contacts for the population are required, use the following variables:

WGHT_PER	(weight)
DURSOC01	(alone)
DURSOC02	(spouse/partner)
DURSOC03	(with household child(ren) less than 15 years of age)
DURSOC04	(with parent(s) or parent(s)-in-law who is living in the household)
DURSOC05	(with other member of the household)
DURSOC06	(with respondent's non-household child(ren) less than 15 years of age)
DURSOC07	(with respondent's non-household child(ren) 15 years of age or older)
DURSOC08	(with parent(s) or parent(s)-in-law who is not living in the household)
DURSOC09	(with other family member(s) who is not living in the household)
DURSOC10	(with friend(s) who is not living in the household)
DURSOC11	(with another person(s) who is not living in the household)
DURSOC97	(refused or missed activities)
DURSOC98	(personal activities <sup>7</sup> )
DURSOC99	(don't know or not stated)

When weighted estimates for the duration of time spent with social contacts for participants only are required, exclude the respondents who did not report the required social contact,

i.e., Select respondents for whom DURSOC## > 0

7. Respondents were not asked for social contacts during personal care activity codes 400.0 450.0 460.0 and 480.0.

The participation rate of activity with a given social contact is the percentage of the total population that reported some activity with the contact and can be derived using the formula provided.

<b>Social Contact (Spouse)</b>	Total Population	Total Participants	Participation Rate (%)
Employed Males	8,126,652	5,255,079	65

DURSOC01 to DURSOC11 provides estimates of the duration of time spent alone or with others. The duration of time with social contacts will not necessarily add to 24 hours because a respondent can spend time in the company of more than one person at a time.

Social contacts are further summarized in two derived variables:

DURMEIN includes total time with any household member (any of DURSOC02 to DURSOC05 is greater than zero) but with no persons outside the household.

DURMOUT includes the total time with any non-household person (any of DURSOC06 to DURSOC11 is greater than zero) but with no household member.

Although these are mutually exclusive, they do not add to 24 hours since time spent with both household and non-household members is not included.

## **Episode File**

The episode file provides the detailed information on each activity episode reported by respondents. For each episode there is information on the start and end time of the activity, the duration of episode (derived from start and end time), the location of the episode, information on simultaneous activities and a set of variables that reflect who the respondent was with during the episode. Since there could be multiple contacts for an episode, the contact data is provided in the form of a set of variables, one for each type of contact.

The episode file consists of 283,287 records. The unit record for this file is the episode and not the respondent. Each record represents a single activity<sup>8</sup> in a respondent's day, and all respondent's episodes must add up to twenty four hours (1440 minutes). For example, a respondent who has reported 26 different episodes for his/her reference day has generated 26 records on the Episode file. There is no information on the characteristics of the respondent. However each episode can be linked to the respondent using the RECID and characteristics can be obtained from the Main File. In addition, each episode includes information on the diary day and the total number of episodes for a respondent.

Each episode has a weight, WGHT\_EPI. This is the weight to use when using the Episode File to make estimates based on episodes. When the episode file is used to derive a respondent characteristic, the person weight, WGHT\_PER, should be used with the derived characteristic. To make this easier, WGHT\_PER has been added to the Episode File on last episode for each respondent.

## **Examples using the Episode file**

The episode file can be used for a number of different types of analysis. One use of the file is to consider a given activity (e.g. T.V. watching) and to analyze the distribution of episodes across time (time of day and/or day of week). The file can also be used to look at where various activities take place (e.g. paid work at home) or the social contacts for various activities. The file can also be used to look at the distribution of activities at any point in time (e.g. what is the population doing at 8:00 a.m., 11:00 p.m., 3:00 a.m., etc). More complicated analysis can be done by linking episodes for an individual and looking at the sequencing of different activities. The episode sequence number EPINO will facilitate this. Similarly by linking the episodes back to the characteristics of respondents, one can look at who in the population engages in various activities at different times during the day.

In cases where an analysis focuses on an activity, e.g. television viewing, that could have more than one episode in a day, the analyst must decide which weight to use. If, in the analysis, each episode should contribute separately to the estimate, then the episode weight, WGHT\_EPI, should be used. If, on the other hand, each respondent should contribute at most once to the estimate then the person weight, WGHT\_PER, should be used with a derived person level variable.

For instance, the average length of an episode of watching television is an episode based statistic, while the average amount of time a person spends watching television in a typical day is a person based statistic. The first would be estimated as the (weighted) average over all episodes of watching television of the length of the episode. The second would be estimated by taking the weighted average over all respondents of the total length for each respondent of all episodes of watching television.

---

8. It is not uncommon to find a string of two or more episodes with the same activity codes. These would have been reported as separate episodes when the location of the activity changed or when there was a change in the social contacts present.

Here are some examples of the logic and algorithms that should be used when working with the Time Use Episode File. The file should for most purposes be sorted by RECID (the respondent identifier) and EPINO (the identifier of separate episodes for the respondent).

a) A person based statistic

When weighted estimates for the average amount of time spent daily at an activity, e.g., work for pay at main job, at a given location, e.g., at home, are required, the estimate is a person based one, the average time a person spends each day at an activity.

Use the variables: ACTCODE  
DURATION  
PLACE  
WGHT\_PER  
Select ACTCODE = 011.0 (Working for pay at main job)  
PLACE = 01 (Home).

Calculate the average time by summing across all records as follows:

$$\frac{\sum_k \text{WGHT\_PER}_k (\sum_i \text{DURATION}_i, \text{ where ACTCODE}=011.0 \text{ and PLACE}=01)}{\sum_k \text{WGHT\_PER}_k}$$

where  $\text{DURATION}_i$  = episode time for episode  $i$  (of respondent  $k$ ).  
 $\text{WGHT\_PER}_k$  = respondent weight for respondent  $k$ .

This could be done by using the episode file to create a new file with one record for each respondent and these variables: WGHT\_PER, DURINT, where DURINT is the 'duration of interest' for the respondent, the total duration of all episodes for the respondent with ACTCODE=011.0 and PLACE=01. The procedure would be to set DURINT to zero, then look through the episode records for the first respondent, and whenever ACTCODE=011.0 and PLACE=01, add DURATION to DURINT. After examining the last episode for the first respondent, save WGHT\_PER and DURINT to the new file, reset DURINT to zero and continue with the second respondent. Continue in this way until a record has been added to the new file for each respondent. Then the equation above become:

$$\frac{\sum_k \text{WGHT\_PER}_k \text{DURINT}_k}{\sum_k \text{WGHT\_PER}_k} = \frac{513,290,389}{28,075,610} = 18.3 \text{ minutes}$$

Interpretation: On an average day, Canadians spend 18.3 minutes working at their main job while they are at home.

Calculate the participation rate as follows:

$$\frac{\sum_k \text{WGHT\_PER}_k (\text{for those with } \sum \text{DURATION}_i, \text{ where ACTCODE}=011.0 \text{ and PLACE}=01 \text{ not equal to zero, (i.e. DURINT not equal to zero)})}{\sum_k \text{WGHT\_PER}_k} = \frac{1,985,724}{28,075,610} = 7.1 \%$$

Interpretation: On an average day, 7.1 % of Canadians do some work at their main job while they are at home.

And so the average time spent per participant is:

$$\frac{513,290,389}{1,985,724} = 258.5 \text{ minutes}$$

Interpretation: On an average day when they do some work at home, Canadians spend 258.5 minutes working at their main job while they are at home.

b) An episode based statistic

When weighted estimates for the average duration of a single episode of a certain activity, e.g., watching television, the estimate is an episode based one, the average length of an episode of watching t.v.

Use the variables:     ACTCODE  
                          DURATION  
                          WGHT\_EPI

Select           ACTCODE       = 911.0, 912.0, 913.0, or 914.0 (Watching t.v.)

Calculate the average time by summing across all episode records as follows:

$$\frac{\sum_j \text{WGHT\_EPI}_j \text{ DURATION}_j, \text{ where ACTCODE}=911.0, 912.0, 913.0, \text{ or } 914.0}{\sum_j \text{WGHT\_EPI}_j, \text{ where ACTCODE}=911.0, 912.0, 913.0, \text{ or } 914.0}$$

where   DURATION<sub>j</sub> = episode time for episode j.  
          WGHT\_EPI<sub>j</sub> = episode weight for episode j.

This yields an estimate of:

$$= \frac{3,519,587,540}{33,056,922} = 106.5 \text{ minutes}$$

Statistical analysis software packages and database management software packages are currently used for exploiting these types of data files. For example, SAS and SPSS are widely used for statistical analysis of this data. While these types of packages can be used to merge information from the Main and the Episode files, intensive users of the Episode file may also want to consider bringing these files together in a relational database. Most database management system software packages provide a mechanism for easily linking and retrieving data from the two files with a one-to-many relation. This is usually based on Standard Query Language (SQL).
