

**TABLE OF CONTENTS**

Date of birth of Respondent (BDR) ..... 61

Confirmation of marital status of the respondent (CMR) ..... 63

Number of children (NLC) ..... 63

Main activity of respondent (MAR) ..... 64

Respondent ever worked (REW) ..... 65

Care receiving by respondent (CAR) ..... 67

Main health condition for which respondent received help (PRA)..... 68

Activities for which respondent received help (ARE)..... 69

Hours of help received by respondent (HAR) ..... 74

Number of people helping respondent (NPA) ..... 74

Relationship of people helping respondent (RPA) ..... 74

Types of people helping respondent (TPA)..... 75

Age of people helping respondent (APA)..... 77

Receiving emotional support by respondent (RES) ..... 79

Professional help received by activity (PAA)..... 79

Number of hours of professional help provided to the respondent (DPA) ..... 83

Care needed and received by respondent (CNR) ..... 83

Prefer help from professional (PHP) ..... 84

Prefer help from family (PHF) ..... 84

Balance of help from family and professionals (BFP) ..... 85

Need for help (NFA)..... 86

The primary caregiver (PGN) ..... 88

Relationship between the respondent and the primary caregiver (PGG) ..... 90

Work information of primary caregiver (PGW) ..... 91

Year when respondent started to receive help from primary caregiver (PGS) .... 92

Still receiving help from primary caregiver (SRE)..... 93

Month and year when receiving help ended (PGE)..... 94

Difficulty finding help - If respondent had not received help (DFA) ..... 95

Distance between the respondent's and the caregiver's dwelling (PGD) ..... 95

Usual dwelling of respondent (care receiver) (PGU) ..... 96

Frequency of contact with primary caregiver (PGH) ..... 97

Transportation (AGT) ..... 98

Meal preparation (AGI) ..... 100

House maintenance (AGO)..... 102

Personal care (AGP)..... 104

Medical treatments (AGM) ..... 106

Scheduling (AGS) ..... 108

Banking (AGB)..... 110

Visiting (AGV) ..... 112

Emotional help (AGX) ..... 112

Caregiving by respondent (ICG) ..... 113

Types of help provided by respondent (APR) ..... 114

**GSS 2012 - Cycle 26 – Caregiving and Care Receiving Analytical File**

---

Number of hours of help provided by respondent (HAP) .....	117
Number of people helped by respondent (PAR) .....	118
Relationship of respondent to people receiving help (RRA).....	118
Demographics of people receiving help from respondent (DPR) .....	119
Age of people receiving help from respondent (APX) .....	121
Respondent providing emotional support (RPE).....	122
The primary care receiver (PRN) .....	123
Gender and relationship (PRG).....	124
Health condition which requires help (PRP).....	126
Work information of primary care receiver (PRW).....	127
Year when respondent started to provide help (PRS).....	128
Still providing help to primary care receiver (SPR).....	129
Month and year when providing help ended (PRE).....	130
Distance between the respondent's and the care receiver's dwellings (PRD) ..	131
Usual dwelling of primary care receiver (PRU) .....	131
Frequency of contact with primary care receiver (PRH).....	132
Transportation (ART) .....	133
Meal preparation (ARI).....	135
House maintenance (ARO) .....	137
Personal care (ARP) .....	139
Medical treatments (ARM) .....	141
Scheduling (ARS) .....	143
Banking (ARB) .....	145
Visiting (ARV).....	147
Emotional help (ARX) .....	148
Care receiver considers respondent their primary caregiver (CCP).....	149
Number of other people who help primary care receiver (CGN) .....	150
Relationship of other caregivers to primary care receiver (RNA) .....	150
Demographics of other caregivers helping the primary care receiver (DNA) ....	151
Relationship of the other person providing help to primary care receiver (ROA)	
.....	154
Demographics of other person providing help to primary care receiver (DOA) .	154
Help provided to primary care receiver of respondent from paid workers, government agencies or voluntary organizations (HPO).....	155
Hours of received help (for primary care receiver of respondent) from paid workers or government or non-government organizations (HRA) .....	156
Accommodate caregiving duties (ACD) .....	156
Other type of support to accommodate caregiving duties (OAC).....	159
Caregiving history (CGH).....	162
Caregiving incident detail (CGI) .....	163
End-of-life care (CGE) .....	182
Currently providing end-of-life care (CPE) .....	183
Preferred to provide end-of-life care at home (PEH).....	183
Conditions needed to provide end-of-life care at home (CEH).....	184
Compassionate care leave (CCL) .....	186
Family life (ICL).....	187

## GSS 2012 - Cycle 26 – Caregiving and Care Receiving Analytical File

Healthy behaviour (ICB).....	191
Physical health (ICP) .....	194
Emotional health/Stress (ICS).....	198
Caregiving responsibilities and the respondent's health (CRH) .....	202
Coping methods to help the respondent deal with caregiving responsibilities (CMC) .....	206
Finances (ICF) .....	209
Best estimate of expenses (BEE) .....	214
Education and employment of respondent (EOR).....	219
Education (ICE).....	222
Work activities - Employment type (WET).....	223
Work activities - Last year employer information (WLY) .....	224

## GSS 2012 - Cycle 26 – Caregiving and Care Receiving Analytical File

Variable Name: **FAMTYPE** Position: 108 Length: 1

Respondent's type of family structure.

		FREQ	WTD
1	Couple only	0	0
2	Intact family	0	0
3	Step-family with common child	0	0
4	Step-family without a common child	0	0
5	Lone parent family	0	0
6	No spouse/partner or children in household	0	0
		=====	=====
		0	0

Coverage: All respondents.

Source: General Social Survey, 2012, household composition matrix.

Format: I1

Weight variable: WGHT\_PER

Note: This variable was derived using the children listed on the household composition matrix only. In cases of multigenerational households where the respondent lived with a spouse or partner as well as a child and a grandchild, FAMTYPE was set to 1. In cases where the respondent had no children in the household and lived with only one parent, FAMTYPE was set to 5. An intact family refers to a now-married or common-law couple where all children (listed in the household composition matrix) have both biological or adoptive parents in the household. A step family refers to a now-married or common-law couple in which at least one of the children (listed in the household composition matrix) is in a step relationship with one of the parents. The respondent might be a parent or a child aged 15 or older in the family.

**GSS 2012 - Cycle 26 – Caregiving and Care Receiving Analytical File**

		=====	=====
		0	0

*Coverage:* All respondents.  
 Source: General Social Survey, 2012.  
 Format: F8.6  
 Weight variable: WGHT\_PER

*Note:* This variable must be used with variable CEGEOIND in order to know whether the variable is derived at the census tract or the census subdivision level. The value 7 means no census variable is available. This is either because the census variable is not reliable (population less than 300) or because there was no clear match between the postal code in the GSS record and a Census Tract or Census Subdivision. Census community variables are assigned by matching the postal code to a CT or CSD, but this is not possible when there are multiple matches and too much variation among the possible matches to establish a typical value.

---

*Variable Name:*           **CENEWIMM**                           *Position:*   233                   *Length:*    8.6
