INTRODUCTION

This microdata file on household income, the use of facilities and equipment, and expenditures on shelter has been created by linking data collected from the same households for five different surveys. These surveys are:

- Household Facilities and Equipment (HFE), May 1988
- Labour Force Survey (LFS), April 1988
- Survey of Consumer Finances (SCF), April 1988
- Rent Survey, April 1988
- Shelter Cost Survey (SCS), March 1988

There have been ten previous tapes combining the SCF, HFE, LFS, and the Rent Survey. The SCS was conducted for the first time in March of 1988(1). This survey, as well as the linkage to the HFE file, was funded by CMHC, the provincial governments, and Statistics Canada.

Part 1. Household Income, Facilities and Equipment

This part of the file on household income, facilities and equipment is intended for use in the study of types of facilities in households with relationship to the household's income. For research on income statistics, other microdata tapes are available or special requests for data can be made to Household Surveys Division on a cost recoverable basis. No microdata tapes purely on household facilities are planned at this time.

This is the eleventh selected year for which a microdata tape on household income, facilities and equipment is being released. Tapes are available biennially starting with 1972 and annually since 1982 except for 1984.

(1) A new annual survey conducted for the first time in March 1989 covered only the repair and renovation expenses made by homeowners. If there is sufficient demand, a microdata tape will be released from the survey.

INTRODUCTION (CONTINUED)

From 1987 to 1988 the following changes in tape content have occurred:

Added variables are:

Gas barbecue
Pay television
Camcorder
Turntable or record player
Cassette recorder or tape recorder
Compact disc player (CD Player)
Home computer
Reason for no phone
Does this household have a private line or a party line
Has this household been without telephone service for 2 months or more since February 1, 1988
Does anyone in this household own a vacation home
Is there telephone service in the vacation home
Is the vacation home in

Deleted Variables:

Number of adult-size bicycles	Truck camper
Number of motorcycles	Travel trailer
Number of snowmobiles	Tent trailer
Snowblower	Tent
Lawnmower	Other camping equipment
Downhill skis	Wall-to-wall carpeting
Cross country skis	Age of wall-to-wall carpeting: living/dining room
Canoe	Age of wall-to-wall carpeting: hallways
Rowboat, skiff, etc.	Age of wall-to-wall carpeting: bedrooms, den
Sailboat	Age of wall-to-wall carpeting: recreation/family room
Outboard motor boat	Market value of home
Other boat	

INTRODUCTION (CONTINUED)

Over the years, the basic content and concepts of the HIFE tapes have remained relatively stable. However, following each decennial census, the sample design of the Labour Force Survey is revised to incorporate recent developments in sampling methodology and to reflect population changes indicated by the most recent census data. The latest redesigned sample was implemented in January 1985 to replace the design in use since 1975. For information on the redesign of the Labour Force Survey sample, see the feature article published in **The Labour Force, January 1985**, Catalogue No.71-001. A general description only is given in the "Sample Design and Implications" section.

Part 2. Shelter Cost Survey

The Shelter Cost Survey was conducted for the first time in March 1988. The purpose of the survey was to provide detailed data on the expenditures made for utilities, mortgages, taxes, maintenance, and renovations by households on their homes. The sample consisted of the same sample as the HFE plus an additional rotation group. This file contains the common records.

The file contents of Part 2 follow the order of the questionnaire:

1. Renter expenses
2. Dwelling owned and occupied at the time of the survey:
 - a) Mortgage information
 - b) Taxes and utilities
 - c) Additions, renovations, maintenance, etc.
3. Other dwellings owned and occupied in 1987:
 - a) Additions, renovations, maintenance, etc.

INTRODUCTION (CONTINUED)

Users of this tape should be aware of the following points:

1. All distributions, estimated numbers and amounts, averages, etc. must be produced using weighted values and not sample counts. For a description of the weighting factor (in position 10-14 of each record) and its use see the item description "Final Universal Weight" and "Sample Design and Implications" in this documentation.
2. Any estimates or percentage distributions to be published or analysed from this data set should be based on a sample of at least 100 records. This is the policy followed in our publications and is based on the fact that data produced from smaller samples is unlikely to be reliable. The purchaser of this tape is invited to submit his final manuscript(s) to the manuscript review service offered by the Division. For further information on this procedure see "Procedures for Manuscript Review" of this documentation. In the text of such manuscripts the source should be described as follows: "The analysis done for this report is based on the Statistics Canada microdata tape "Household Income (1987), Facilities and Equipment, 1988, Shelter Cost (1987)" which contains data collected with the 1988 Survey of Household Facilities and Equipment, the 1988 Survey of Consumer Finances and the 1987 Shelter Cost Survey. All computations on this data base were done by (name of user organization)". If this is the only source of data in the report, it is not necessary to source each table as well. However, if there are other sources, the tables should be individually sourced. In accordance with the development of standard referencing for machine-readable data file¹, we recommend the following wording be used in bibliographies:

Statistics Canada. Household Income (1987), Facilities and Equipment, 1988, Shelter Cost (1987) [machine-readable data file]. 1989 Edition. Ottawa, Ontario: Household Surveys Division [producer and distributor]. One data file (33,070 logical records) and accompanying documentation.

INTRODUCTION (CONCLUDED)

3. Determination of who is the household head is based on relationships only. The head is not necessarily the major earner or income recipient and may, in fact, have no income at all.
4. The term "reference year" refers to 1987 wherever it appears in this documentation.
5. The term "survey year" refers to 1988 wherever it appears in this documentation.
6. The term "reference week" refers to the week of April 10 to 16, 1988, the week immediately preceding the two-week period when the Survey of Consumer Finances was conducted.

NOTES FOR USERS OF HISTORICAL SERIES OF HIFE TAPES

The majority of SCF/HFE concepts have remained unchanged since the 1971 household income file (1972 facilities and equipment). However, in addition to the changes described in Section B the following points summarize some changes in concepts which may help to explain certain statistical results.

1. From a methodological point of view, 2 important changes occurred beginning with the 1987 income file (1988 facilities and equipment)

(i) The weighting factor is a 100% weight. On previous files, a 10% weight was used. The factor length increased to five bytes from three bytes. In addition, a new integrated weighting procedure is used for the first time on the 1987 income file (1988 facilities and equipment). This single weighting procedure replaces the previous procedure of separate weighting programs for economic families, census families, individuals and households. The result is that the same weight is given to all individuals and family units within a household. Previously, individuals and families within sample households could have different weights.

(ii) The estimated numbers of household units used to derive weights for the 1987 income file (1988 facilities and equipment) have been re-based to 1986 Census counts corresponding to the Labour Force Survey coverage. This affects to some degree the comparability of estimates produced from earlier tapes. For further details see the section on "Weighting" in catalogue 13-207, "Income Distributions by Size in Canada, 1987".

2. Beginning with the 1987 income file (1988 facilities and equipment), the income concept has been expanded to include the federal Sales Tax Credit claimed at income tax time. This change has a slight effect on other variables such as Total Income and Income After Tax.

NOTES FOR USERS OF HISTORICAL SERIES OF HIFE TAPES (CONTINUED)

3. Beginning with the 1987 income file (1988 facilities and equipment), the size of area variable (position 8) was based on 1986 Census population counts within 1981 boundaries. Previously, it was based on 1961 populations (1971 and 1973 income, 1972 and 1974 facilities and equipment files), 1971 populations (1975-79 income, 1976-80 facilities and equipment files), 1976 populations within 1971 boundaries (1981 and 1982 income, 1982 and 1983 facilities and equipment files) and 1981 Census population within 1981 boundaries (1984 to 1986 income, 1985 to 1987 facilities and equipment files). The procedure of recoding unique centres was somewhat revised beginning with the 1984 income, 1985 facilities and equipment file, to provide less distortion in size of area groupings (see "Area").
4. For the 1987 income file (1988 facilities and equipment), households in an augmented sample in Newfoundland and Prince Edward Island were included along with the regular four rotation sample of the Labour Force Survey.
5. Beginning with the 1987 income file (1988 facilities and equipment), following revision of the low income cut-offs on the basis of 1986 Family Expenditure data, the 1986 based low income code for the economic family is provided on the tape.
6. Beginning with the 1986 income file (1987 facilities and equipment), all variables concerning number of household/family persons (e.g. number of earners, number of children, etc.) contain actual number of persons. On the 1984 and 1985 income files (1985 and 1986 facilities and equipment) these variables were given upper limits.
7. Beginning with the 1985 income file (1986 facilities and equipment), dollar fields were increased from 7 to 8 bytes.
8. Beginning with the 1984 income file (1985 facilities and equipment), the Classification of Occupations based on the 1980 Standard Occupational Classification was used for the first time.

NOTES FOR USERS OF HISTORICAL SERIES OF HIFE TAPES (CONTINUED)

9. On microdata files prior to the 1984 income file (1985 facilities and equipment), family units with exceptionally high incomes, large income losses from self-employment or unusual characteristics were excluded from the file. Beginning with the 1984 income file, records with these conditions have had selected characteristics zeroed-out rather than removing these records from the file. Variables which have been masked have been indicated on the record layout as "Special Family Units". Control counts given in "Estimates Obtained from Microdata File" include these records.
10. Beginning with the 1981 income file (1982 facilities and equipment), the income concept has been expanded to include the federal Child Tax Credit and refundable provincial tax credits claimed at income tax time. This change has affected several variables other than Total Income and Income After Tax.
11. Beginning with the 1981 income file (1982 facilities and equipment), following revision of the low income cut-offs on the basis of 1978 Family Expenditure data, the 1978 based low income code for the economic family is provided on the tape.
12. Beginning with the 1981 income file (1982 facilities and equipment), the cut-off for "full-time worker" has been changed to 49 weeks from 50, to conform with Census practices.
13. Beginning with the 1979 income file (1980 facilities and equipment), Class of Worker coding was modified, so that certain types of LFS self-employed persons are classified as paid workers for SCF purposes.
14. Beginning with 1977 income file (1978 facilities and equipment), Total Net Income from Self-Employment and Total Earnings include Net Income from Roomers and Boarders. The Number of Earners variable has always included Room and Board Income recipients. The effect of this change is minimal.

NOTES FOR USERS OF HISTORICAL SERIES OF HIFE TAPES (CONCLUDED)

15. Beginning with the 1975 income file (1976 facilities and equipment), Family and Youth Allowances have been reported by the person who claimed a personal tax exemption for the children for when the allowance was paid. Prior to 1975, the male parent or guardian reported the allowances.
16. Beginning with the 1975 income file (1976 facilities and equipment), the classification system for education level of the head and wife changed. For the 1971 and 1973 income files (1972 and 1974 facilities and equipment) the codes specifically separated "high school completed" from "high school not completed" and divided post-secondary into university and non-university. For the 1975 income file (1976 facilities and equipment), and later years it is not possible to obtain a category "completed high school" as 11-13 years includes some completed and some not. Also post-secondary only indicates university level if a degree was received.
17. Beginning with the 1975 income file (1976 facilities and equipment), the Labour Force Status coding definitions changed when the Revised Labour Force Survey went into effect.

NOTES FOR PART 2, SHELTER COST

INCONSISTENCIES BETWEEN THE HFE AND THE SCS

Although the five surveys used for this tape were administered to members of the same dwelling, there are inconsistencies in some of the records.

Some of these inconsistencies are valid. For example, if the household that was interviewed in March was not the same as the one in the dwelling in May, differences in tenure could easily arise. In other situations the tenure of the same household could have changed.

However, the main cause of the inconsistencies is the result of response error. The response error is due to the interviewers' and the respondents' misinterpretation of questions, or the respondents' faulty reporting. For example, the responding member of the household in March may have been different than the one in May. One respondent could have thought that there was a mortgage on the dwelling while the other thought not.

Processing error likely had little effect. Many questionnaires of captured records having inconsistencies were examined. Less than 1% of these showed that there were errors in data capture to the computer files.

The table below show the inconsistencies on the file.

SCS/HFE Inconsistency	Number
Main source of heating electricity on HFE and expenditure for gas or oil on SCS	563
SCS "owned with mortgage" and HFE "owned without mortgage"	1290
SCS "owned without mortgage" and HFE "owned with mortgage"	1058
HFE "Facilities included in rent" inconsistent with SCS expenditures	938

NOTES FOR PART 2, SHELTER COST (CONCLUDED)

THE EFFECT OF LARGE VALUES IN THE SHELTER COST SURVEY

In any sample the averages and distributions can be affected by the presence and absence of extreme values. These are more likely to arise from highly positively skewed populations. The nature of the additions, renovations, alterations and repair data lends itself to such extreme values.

The level of detail in the SCS is there to act as building blocks to aggregates. The low frequency of reported expenditures for many of the subcomponents results in highly variable estimates. For this reason, the detail subcomponents are not on the file.

The group totals on the file are also influenced by large values. For the "Present Dwelling" fields, the highest ten for total "Additions" contributed 11%; for "Renovation" 8%; for "Replacements" 10%; 12% for "New Installations"; and 5% for "Repairs and Maintenance". These are all smaller than all their corresponding subcomponents. Similarly, the highest ten for the sum of "Additions, Renovations and New Installations" contribute 5% to its total and those for the sum of "Replacements and Repair and Maintenance" contributed 2% to its total.

In contrast to the improvements and repair questions, the highest 10 values for the five utility questions contributed between 0.8% and 3%.

HOUSEHOLD SEQUENCE NUMBER

Description

This variable is a unique five-digit number which identifies each household on the file. The numbers begin with 00001 and increment by one for each new household in the sample up to a maximum of 32997. Special Household Units have been numbered from 99001 to 99073.

STANDARD GEOGRAPHIC CODE

Description This two digit code identifies the province and region in which the surveyed unit is located. The first digit of the code gives the regional location and the second digit identifies the province. Note the "00" code for Special Household Units.

Code 1st digit	Classification	Code 2nd digit	Classification
0	Special Household Unit	0	Special Household Unit
1	Atlantic	0	Newfoundland
		1	Prince Edward Island
		2	Nova Scotia
2	Quebec	3	New Brunswick
3	Ontario	4	Quebec
4	Prairies	5	Ontario
		6	Manitoba
		7	Saskatchewan
5	British Columbia	8	Alberta
		9	British Columbia

AREA

Description

This variable indicates the population size of the area in which the surveyed unit is located. Population figures used to classify this variable were obtained from the 1986 Census and apply to the population covered by the Labour Force Survey within 1981 Census boundaries to conform with the sample design.

In five cases where urban centres are unique in a given area category for their province, they have been placed in another category. One centre, Halifax has been moved down one category. St. John's, which was unique in the next lower category, was moved down two categories. Victoria and Fredericton were moved up one category. Brandon was moved up two categories.

Code	Classification
1	Large urban centres with a population of 500,000 or more
2	Large urban centres with a population of 100,000 to 499,999
3	Minor urban centres with a population of 30,000 to 99,999
4	Other urban centres with a population under 30,000
5	Rural areas

NOTE: The following page gives the cities included under codes 1, 2 and 3.

AREA (CONCLUDED)

Code 1 - Population 500,000 or more

Québec-Lévis	Ottawa-Hull	Hamilton-Burlington	Calgary	Vancouver
Montréal	Toronto	Winnipeg-Brandon ¹	Edmonton	Victoria ²

Code 2 - Population 100,000 to 499,999

Moncton	St. Catharines-Niagara	Kitchener-Waterloo
Saint John	London	Sudbury
Fredericton ¹	Kingston	Thunder Bay
Chicoutimi-Jonquière	Oshawa	Regina
Trois-Rivières	Windsor	Saskatoon
Sherbrooke		

Code 3 - Population 30,000 to 99,999

Halifax ²	Saleberry de Valleyfield	Sarnia	Moose Jaw
Sydney-Glace Bay	St-Jean	Chatham	Prince Albert
Sydney Mines	St-Hyacinthe	Halton Hills	Medicine Hat
Saint John	Sorel	Newcastle	Lethbridge
Rimouski	Baie Comeau	St. Thomas	Red Deer
Shawinigan	Sept-Îles	Woodstock	Fort McMurray
Victoriaville	Cornwall	Guelph	Chilliwack
St-Jérôme	Peterborough	Barrie	Kelowna
Drummondville	Belleville-Trenton	Sault Ste-Marie	Kamloops
Granby	North Bay	Timmins	Namaimo
Joliette	Brantford	Matsqui-Mission City	Prince George

¹ The population of Brandon and Fredericton is actually 30,000 to 99,999.

² The population of Victoria and Halifax is actually 100,000 to 499,999.

FINAL UNIVERSAL WEIGHT

Description This is a five-digit variable which is computed to provide weights to inflate the sample to pre-determined household totals. The weight must be used to produce valid statistics from this tape.

However, all estimated numbers and aggregates obtained from this survey should be treated as only approximate. The reliability of the survey's estimates depends on the quality of independent household estimates used to determine the weights. Sampling errors are another factor in determining data quality. For further information on this see "Sources, Methods and Estimation Procedures" in Catalogue No. 64-202.

For information on the principle behind weighting and on the actual calculation of these weights see Catalogue No. 13-207 or Catalogue No. 64-202.

For information on the sample design, see the feature article published in **THE LABOUR FORCE, JANUARY 1985**, Catalogue No. 71-001.

For information on implications of the weights and sample design for data usage see "Sample Design and Implications" in this documentation.

MICRODATA FILE 1987 INCOME

HOUSEHOLD INCOME (1987), FACILITIES AND EQUIPMENT 1988, SHELTER COST (1987)

Description

REVISED (1991 CENSUS) WEIGHT

This microdata file contains a revised weight ("Revised 1991 census weight") in positions 10-14. The revision reflects the move to the 1991 census base, the adjustment of population estimates for net census undercoverage, and the inclusion of non-permanent residents. This weight replaces the one originally released on the file which was based on 1986 census population projections.

The "Weighted and Sample Counts for Income Variables" on pages 133 to 156 were originally included in this documentation for verification of outputs created from this file. The "sample count" values are not affected by the revision. The "weighted count"/"total weighted value" were derived from the original weights in position 10-14 and therefore are not comparable to weighted values obtained from the file. For verification of revised weighted values, a set of select estimates based on the revised weight are included on page 157.

HOUSEHOLD NUMBER OF PERSONS

Description This variable gives the actual number of persons in the household.

Source Household Record Docket, Form 03.

HOUSEHOLD NUMBER OF ADULTS

Description This variable gives the actual number of adults in the household. The head of the household is an adult, as well as heads of economic families within the household and any other member of the household who is married or has been married, and any single person 16 years of age or over.

Source Household Record Docket, Form 03.

HOUSEHOLD NUMBER OF PERSONS AGED 65 OR OVER

Description This variable gives the actual number of persons aged 65 years or more in the household.

Source Household Record Docket, Form 03.

HOUSEHOLD NUMBER OF CHILDREN

Description This series of variables gives the actual number of children in the household who belong in each of the categories listed below. In addition to the household head's own children, this includes grandchildren, brothers, sisters, guardianship children, and children of other families present in the household. Children age 16-24 are also counted as adults in the household (see Household Number of Adults). Any household members aged 15 who are heads of an economic family will not be included as children here but as adults in the household.

Categories

- (a) Under 7 years of Age
- (b) 7-15 Years of Age
- (c) 16-17 Years of Age
- (d) 18-24 Years of Age

Source Household Record Docket, Form 03.

NOTE: Counts of children 18 to 24 years of age includes married children, sons-in-law and daughters-in-law living with each economic family. Counts of children under 18 include never married children only.

HOUSEHOLD COMPOSITION

Description This variable gives the number and type of economic family units in the household. An economic family is defined as a group of individuals sharing a common dwelling unit and related by blood, marriage or adoption. An unattached individual is a person living by himself or rooming in a household where he is not related to other household members.

Code	Classification
1	One unattached individual
2	One economic family of two or more persons
3	Multi-unit household containing only unattached individuals
4	Multi-unit household containing at least one family of two or more persons

HOUSEHOLD DEPENDENCE ON FARM INCOME

Description The code for this variable gives the level of dependency of the household on net income from farm self-employment as a percentage of the household's total income.

Code	Classification
1	No farm income
2	Dependence under 40%
3	Dependence 40-49%
4	Dependence 50-59%
5	Dependence 60% or more

HOUSEHOLD/HEAD/WIFE
MAJOR SOURCE OF INCOME

Description This variable gives the largest source of income for the household, the head and the wife.

The absolute values in the categories shown below are compared to find out which is the largest. If the largest absolute value is common to more than one variable, then the lowest code is selected.

Code	Classification
1	No income
2	Wages and salaries
3	Net income from self-employment
4	Total government transfer payments
5	Total income from investment
6	Retirement pensions, superannuation and annuities
7	Other money income
8	Military Pay and Allowances

Source Income questionnaire, Form CF06.

NOTE: 1988 (1987 income) was the first year that the Federal Sales Tax Credit was included in Total Government Transfers prior to determination of Major Source of Income.

HOUSEHOLD NUMBER OF EARNERS

Description This variable gives the actual number of persons in the household who received income from wages, salaries, military pay and allowances, self-employment (farm and non-farm) and/or roomers and boarders.

Source Income Questionnaire, Form CF06.

HOUSEHOLD NUMBER OF PERSONS WITH INCOME

Description This variable gives the actual number of persons in the household who received income from any of the sources collected in the survey.

Source Income Questionnaire, Form CF06.

WAGES AND SALARIES

Description This variable gives the sum of amounts reported by all individuals in the household on account of wages and salaries from all types of civilian employment.

Included are gross cash wages and salaries received during the reference year from all jobs, before deductions for pension funds, hospital insurance, income taxes, Canada Savings Bonds, etc. Tips of such employees as waiters and porters, earnings of farm labourers, cleaning women, newspaper boys and baby-sitters as well as net commissions (gross commissions less expenses) of a salesperson who worked for only one company at a time and did not pay for his/her own office and staff are included here.

The value of taxable allowances and benefits provided by the employers, such as free lodging, bursaries, travelling expenses, etc. are not included.

The wages and salaries reported should amount to the "total earnings before deductions" as shown in box C of the T-4 slips less the value of "taxable allowances and benefits" shown in box K to Q plus tips and gratuities and casual earnings for which no T-4 slips were provided. This variable is always positive.

Source Income Questionnaire, Form CF06.

MILITARY PAY AND ALLOWANCES

<u>Description</u>	<p>This variable gives the sum of amounts reported by all individuals in the household on account of service as a regular member of the Armed Forces of Canada or as a member of a reserve unit, as well as payment to dependents of such servicemen. Special benefits paid upon discharge are also included.</p> <p>This variable is always positive.</p>
<u>Source</u>	<p>Income Questionnaire, Form CF06.</p>

NET INCOME FROM NON-FARM SELF-EMPLOYMENT

<u>Description</u>	<p>This variable gives the sum of amounts reported by all individuals in the household on account of various types of non-farm self-employment activities.</p> <p>Self-employment income is defined as that income received as a result of being a partner in, or sole owner of, an unincorporated business or professional practice. Only the individual's share of net income is included in the case of partnerships. A salesperson who has his/her own office or staff, or who works for more than one firm at a time, reports income under self-employment. Net income is calculated by deducting operating expenses (wages, rent, interest payments, etc.) and depreciation costs from the gross revenue of the business. Items of a capital nature (e.g. investment in new buildings) are excluded from expenses.</p> <p>Income received from businesses which have corporate status is reported as wages and salaries or as dividends (under investment income).</p> <p>This variable may be positive, indicating a business profit, or negative, indicating a loss.</p>
<u>Source</u>	Income Questionnaire, Form CF06.

NET INCOME FROM FARM SELF-EMPLOYMENT

<u>Description</u>	<p>This variable gives the sum of amounts reported by all individuals in the household on account of net income from farm self-employment.</p> <p>Net income from farming is calculated by deducting operating expenses (wages, rent, interest payments, etc.) and depreciation costs from the gross revenue of the farm. Items of a capital nature (e.g. investment in new buildings) are excluded from expenses. Government supplementary payments are included in gross revenue. The value of income in kind is not included. In the case of partnerships, only the individual's share of net income is included.</p> <p>Income from farms which have a corporate status is recorded as wages and salaries or dividends, <u>not</u> self-employment income.</p> <p>This variable may be positive, indicating profits, or negative, indicating losses.</p>
<u>Source</u>	Income Questionnaire, Form CF06.

NET INCOME FROM ROOMERS AND BOARDERS

Description This variable gives the sum of net income from roomers and boarders reported by all individuals in the household. Payments of room and board from relatives are not included.

 This variable is always positive.

Source Income Questionnaire, Form CF06.

TOTAL NET INCOME FROM SELF-EMPLOYMENT

Description This variable gives the sum of amounts reported by all individuals in the household on account of net income from self-employment (both farm and non-farm) and net income from roomers and boarders. It equals the sum of the three previous variables.

This variable may be positive or negative.

Source Income Questionnaire, Form CF06.

TOTAL EARNINGS

Description

This variable gives the sum of amounts reported on account of wages and salaries, military pay and allowances, net income from both farm and non-farm self-employment and net income from roomers and boarders.

This variable is given separately on this tape for the household, primary economic family, head and spouse.

This variable may be positive or negative.

Source

Income Questionnaire, Form CF06.

TOTAL INVESTMENT INCOME

Description

This variable gives the sum of amounts reported by all individuals in the household on account of investment income.

This variable is given separately on this tape for the household and the primary economic family.

This source of income includes interest received on bonds, deposits and savings certificates from Canadian or foreign sources, dividends received from Canadian and foreign corporate stocks, cash dividends received from insurance policies, net rental income from real estate and farms, interest received on loans and mortgages, regular income from an estate or trust fund and other investment income.

This variable may be positive or negative.

Source

Income Questionnaire, Form CF06.

NOTE for the 1987 income file (1988 facilities and equipment):

For Canada Savings Bonds, Series S35, the amount of total interest received during the reference year as shown on the Ownership Certificate (T600) is included here, but not the principal.

FAMILY AND YOUTH ALLOWANCES

<u>Description</u>	<p>This variable gives the amount received by the household on account of Federal and Provincial family and youth allowances. The Provincial program included is for Quebec.</p> <p>The amount of family and youth allowances received is reported by the person who claimed a personal tax exemption for the child(ren) for whom the allowance was paid. If neither parent (or guardian) claimed an exemption for the child(ren), the person to whom the cheque was made out was to report the payments.</p> <p>Family allowances were assigned to some families because the amounts they reported did not fall within limits defined by the number and ages of children in the family at the time of the survey and the province of residence.</p> <p>This variable is always positive.</p>
<u>Source</u>	Income Questionnaire, Form CF06.

CHILD TAX CREDIT

Description This variable gives the amount of the Child Tax Credit as claimed on the T1 Schedule 10 (if a Child Tax Credit Prepayment was received) or on the T1-General or the T1-Special Individual Income Tax Return (if a Prepayment was not received). This amount was to be reported on the survey questionnaire by the person who received the Family Allowance payment in December of the reference year (usually the female parent). If tax credits were this person's only source of income, the amount was transferred to the spouse. (Family Allowance payments, however, are reported by the person who claimed the children for a tax deduction.)

It should be noted that the tax credit amount reported is for the reference year. This amount may have been received in cash (in the survey year as well as during the reference year for any Prepayment amounts) or may have only resulted in a reduction in total income tax paid.

This variable is always positive.

Source Income Questionnaire, Form CF06.

OLD AGE SECURITY, GUARANTEED INCOME SUPPLEMENT AND SPOUSE'S ALLOWANCE

Description

This variable gives the sum of amounts received by all individuals 65 years of age and over in the household on account of Old Age Security Pensions and the Guaranteed Income Supplement and the eligible spouses age 60-65 who received Spouses' Allowances. Supplements from provincial governments are included in "Social Assistance and Provincial Income Supplements".

This variable is always positive.

Source

Income Questionnaire, Form CF06.

CANADA/QUEBEC PENSION PLAN BENEFITS

<u>Description</u>	<p>This variable gives the sum of amounts reported by all individuals in the household as benefits received under the Canada/Quebec Pension Plan.</p> <p>This includes retirement pensions, survivor's benefits such as widow's pensions, disabled widower's pensions, orphan's benefits, and disability pensions with benefits for dependent children of disability pensioners. Lump sum death benefits received under these plans are not included.</p> <p>This variable is always positive.</p>
<u>Source</u>	Income Questionnaire, Form CF06.

UNEMPLOYMENT INSURANCE (UIC) BENEFITS

Description

This variable gives the sum of the amounts reported by all individuals in the household on account of the Unemployment Insurance scheme. This should equal the amount from the "Total Benefits" box of the T-4U Income Tax slip and includes benefits for sickness, maternity, work-sharing, retraining and retirement. Benefits paid to self-employed fishermen are also included.

This variable is always positive.

Source

Income Questionnaire, Form CF06.

SOCIAL ASSISTANCE AND PROVINCIAL INCOME SUPPLEMENTS

Description

This variable gives the sum of amounts reported by all individuals in the household as received for social assistance from provincial or municipal governments. Also included are payments received from provincial income supplement programs.

Benefits include assistance to needy mothers with dependent children, to the blind and disabled as well as other cash payments to any persons in need.

This variable is always positive.

Source

Income Questionnaire, Form CF06.

OTHER INCOME FROM GOVERNMENT SOURCES

Description

This variable gives the sum of amounts reported by all individuals on account of all other payments received from federal, provincial or municipal governments not reported in previous variable fields. It also includes refundable provincial tax credits and the federal Sale Tax Credit as claimed on Individual Income Tax Return Forms.

Examples of payments included are veteran's pensions, pensions to widows and dependents of veterans, civilian war allowances, worker's compensation, payments received from training programs sponsored by the federal and provincial governments, Quebec Work Assistance programs, Quebec Maternity Allowance, regular payments received from provincial automobile insurance plans and provincial grants for home ownership promotion, mortgage interest rate reduction and property improvement.

Refundable provincial tax credits included are the amounts claimed on the Individual Income Tax Returns under "Summary of Tax and Credits" for Ontario and Manitoba. Quebec's Real Estate Tax Refund as claimed on Schedule B and Quebec Allowance for Children Under 6 years of age are also included. These amounts may have been received in cash (probably in the survey year) or may have resulted in a reduction in total income tax payable.

This variable is always positive.

Source

Income Questionnaire, Form CF06.

NOTE:

1987 was the first year that federal Sales Tax Credit was included in Other Income From Government Services.

TOTAL GOVERNMENT TRANSFER PAYMENTS

Description This variable gives the sum of amounts received by all individuals on account of Family and Youth Allowances, Old Age Security pensions and Guaranteed Income Supplement, Canada/Quebec Pension Plan benefits, Unemployment Insurance, Child Tax Credit, Provincial Tax Credits and federal Sales Tax Credit, social assistance and other government transfer payments. It equals the sum of the seven variables preceding it on the record layout.

This variable is given separately on this tape for the household, primary economic family, head and spouse.

This variable will always be positive.

Source Income Questionnaire, Form CF06.

NOTE: 1987 was the first year that federal Sales Tax Credit was included in Total Government Transfer Payments.

TAXABLE GOVERNMENT TRANSFER PAYMENTS

Description

This variable gives the sum of amounts reported as receipts from government transfer programs which are taxable. This amount is calculated during the survey processing, not reported by individuals as the amounts reported on their Individual Tax Returns. This variable should be used with this in mind and any reports or publications derived from this tape using this variable should mention our reservations about its use.

The following amounts were included:

1. Family and Youth Allowances - all amounts;
2. Basic Old Age Security (OAS) - Amounts reported as OAS-GIS could be separated into the two components only by assuming that all amounts up to and including a value equal to the basic OAS amount for reference year were OAS for each recipient;
3. Canada/Quebec Pension Plan Benefits - all amounts;
4. Unemployment Insurance Benefits - all amounts;
5. Any other income from government sources - Respondents were requested to specify the source of these payments.

This variable is given separately on this tape for the household, head and spouse.

This variable is always positive.

Source

Income Questionnaire, Form CF06.

NON-TAXABLE GOVERNMENT TRANSFER PAYMENTS

Description

Non-taxable transfers is also calculated during the survey processing and is subject to the same types of errors as taxable transfers. The following amounts are included:

1. Guaranteed Income Supplement (GIS) - Amounts reported as OAS/GIS by any individual which are in excess of the basic OAS maximum value are assumed to be GIS and therefore non-taxable. This is not a strictly accurate procedure as payments received only part of the year may total less than the basic OAS maximum value but may, in fact, include GIS amounts.
2. Social Assistance and Provincial Income Supplements - all amounts.
3. Other Income from Government Sources - Respondents were asked to specify the source of these payments. The following sources were non-taxable:
 - (a) Veteran's pensions,
 - (b) Pensions to widows and dependents of veterans,
 - (c) Workers' Compensation,
 - (d) Naval Pension,
 - (e) Automobile Insurance Board of Quebec.
4. Child Tax Credit.
5. Provincial Tax Credits.
6. Federal Sales Tax Credit.

This variable is given separately on this tape for the household, head and spouse.

This variable is always positive.

Source

Income Questionnaire, Form CF06.

NOTE:

1987 was the first year that federal Sales Tax Credit was included in Non-Taxable Government Transfer Payments.

RETIREMENT PENSIONS, SUPERANNUATION AND ANNUITIES

Description

This variable gives the sum of amounts reported by all individuals in the household as the result of having been a member of a pension plan of one or more employers, except for pensions received from abroad which are included in Other Money Income (see next page).

Widows or other relatives of a deceased pensioner, who have pension rights under a pension plan or who become beneficiaries in cases guaranteed for a minimum period even if the pensioner dies, include this pension income here (unless it falls under the Canada or Quebec Pension Plan benefits). Also included are pensions of retired R.C.M.P. officers, armed forces personnel and civil servants, and annuity payments received from Canadian Government Annuities Fund, an insurance company or other sources whether or not it was this person who purchased the annuity originally. Pensions received from registered retirement savings plans in the form of a life annuity, a fixed term annuity, a registered retirement investment fund or an income-averaging annuity contract are also included.

Refunds of pension fund contributions because an employee has resigned, are not considered income, and therefore, are not included. Withdrawals from a pension plan or RRSP, or refunds of overcontributions as well as all lump sum benefits are not included. Severance pay is reported in "Other Money Income".

This variable is always positive.

Source

Income Questionnaire, Form CF06.

OTHER MONEY INCOME

Description This variable gives the sum of amounts reported by all individuals in the household on account of other money income not included in the previous variables.

Included in this amount are:

- (a) Money received for the care of children being cared for on behalf of the Children's Aid Society.
- (b) Income received from abroad in Canadian dollar equivalent, including pensions, severance pay and retirement allowances, but not including interest and dividends.
- (c) Non-refundable scholarships and bursaries.
- (d) Alimony.
- (e) Royalties on books, oil wells, etc.
- (f) Strike and sick pay from trade unions.
- (g) Payments from an income maintenance insurance plan or a guaranteed annual wage plan.

Excluded are:

- (a) Gambling gains and losses.
- (b) Money inherited during the year in a lump sum.
- (c) Capital gains or losses.
- (d) Receipts from the sale of property or personal belongings.
- (e) Income tax refunds.
- (f) Loans repaid to the respondent as lender.
- (g) Loans received.
- (h) Lump sum settlements of insurance policies.
- (i) Rebates received on property taxes or other taxes.
- (j) Refunds of pension contributions.
- (k) Income in kind.
- (l) Lump sum withdrawals from a Registered Retirement Savings Plan (RRSP).

This variable is always positive.

Source

Income Questionnaire, Form CF06.

MISCELLANEOUS INCOME

<u>Description</u>	<p>This variable gives the sum of amounts reported by all individuals in the primary economic family coming from "retirement pensions, superannuation and annuities" and/or "other money income", as described in the previous two variables.</p> <p>This variable is given on this tape for household primary economic family only.</p> <p>This variable is always positive.</p>
<u>Source</u>	<p>Income Questionnaire, Form CF06.</p>

TOTAL INCOME

Description This variable is given separately on this tape for the household, primary economic family, head and spouse. In each case it is the sum of receipts from the sources described on the preceding pages. The Total Income variable is equal to the sum of the following income items: Total Earnings, Total Investment Income, Total Government Transfer Payments, Retirement Pensions, Superannuation and Annuities and Other Money Income.

This variable may be positive, negative or zero.

Source Income Questionnaire, Form CF06.

NOTE: 1987 was the first year that federal Sales Tax Credit was included in Total Income.

TOTAL INCOME TAX

Description This variable gives the total Federal and Provincial income tax payable by all individuals in the household for the reference year. This is the sum of the amounts stated on each individual Income Tax Return for the household, i.e. income tax actually paid less refund due, or tax paid plus portion still owing.

This variable is always positive.

Source Income Questionnaire, Form CF06.

INCOME AFTER TAX

Description This variable is the sum of the calculated amounts of income after tax for all individuals in the household. Income after tax is calculated by the computer as 'Total Income' minus 'Total Income Tax' for each individual.

This variable is given separately on this tape for the household and the primary economic family.

This variable may be positive or negative.

Source Income Questionnaire, Form CF06.

TYPE OF DWELLING

Description This variable describes the type of dwelling in which the household members reside. A dwelling is a structurally separate set of living premises with a private entrance from outside the building or from a common hall or stairway. Institutions, hotels, large lodging houses and camps are not included.

A single detached dwelling contains only one dwelling unit and is completely separated by open space on all sides from any other structure.

A double consists of two self-contained dwelling units attached side by side which are separated by a common wall extending from ground to roof.

A row or terrace unit is in a row of three or more dwellings sharing common walls extending from ground to roof and in which there are no other dwellings either above or below. This includes garden homes and town houses. In addition, a single house attached to a non-residential structure (such as a store, church, etc.) but separated from it by a wall extending from ground to roof is coded as row or terrace.

A duplex is a structure originally designed or later converted to provide two self-contained dwelling units, one above the other, and adjoining no other structure. This includes basement apartments with only one dwelling above.

The classification "apartment or flat" includes each self-contained unit in an apartment block, triplex, double-duplex, or other combination of three or more dwellings under one roof (excluding rows) and each self-contained unit over or within a non-residential structure.

"Other" dwelling consists of mobile homes, trailers, tents and other units which are used as permanent residences and are capable of being moved on short notice.

TYPE OF DWELLING - (Concluded)

If the interviewer failed to complete this question the household was assigned the same type of dwelling as the nearest household in the same cluster.

Code	Classification
1	Single detached
2	Double
3	Row or terrace
4	Duplex
5	Apartment or flat
6	Other

Household Record Docket, Form 03.

CONDOMINIUM

Description This item indicates dwelling units in a registered condominium complex, such as an apartment or townhouse complex, in which each residential unit is owned outright by the individual owner with certain common elements, including land, owned in common with other owners. Single detached condominiums, a relatively new occurrence, are also included. Since 1980, only owner-occupied condominiums are included.

Code	Classification
0	Not a condominium
1	Condominium

Source HFE Schedule.

PERIOD BUILDING CONSTRUCTED

Description This variable gives the year or period in which the original building was constructed. It is not the year the building was converted to add new dwelling units, if such work was done.

Code	Classification
1	Before 1941
2	1941-1950
3	1951-1960
4	1961-1970
5	1971-1980
6	1981-1984
7	1985
8	1986
9	1987 or later

Source HFE Schedule.

TENURE

Description This variable gives the housing status of the household at the time of the Labour Force Survey in April.

Code	Classification
1	Owned with mortgage
2	Owned without mortgage
3	Rented for cash, other

The coding of this variable is derived from the Household Record Docket which asks simply if the dwelling is owned by a member of the household. It is assumed that this is the tenure of the first economic family listed on the questionnaire.

The "other" category includes cases where rent is paid in kind (by services or partly in cash and partly in kind or services), on a share-cropping basis, where it covers both living and business premises, or where the premises are rent free.

A dwelling is considered "owned" whether or not it has been fully paid for. Dwellings in multiple dwelling structures (e.g. apartment buildings) which are owned under a co-ownership arrangement are also "owned". People living in condominiums which are not yet registered are not coded as owners.

Source Household Record Docket, Form 03.

NUMBER OF ROOMS IN DWELLING

Description This variable indicates the total number of rooms in the dwelling which are used or suitable for living quarters, including kitchens, rooms occupied by servants, lodgers and members of lodging families, but excluding rooms used solely for business purposes, clothes closets, bathrooms and storage rooms. Summer kitchens, sunrooms, rooms in basements and attics are not included unless they are finished and suitable for living quarters throughout the year. Kitchenettes are included if they contain both cooking facilities and an installed sink or tub. Rooms divided by any means such as a wall unit, bookcase, screen, arch, etc., are counted as separate rooms if considered as such by the respondent.

Code	Classification
01-12	Actual number of rooms
13	Thirteen or more

Source HFE Schedule.

NUMBER OF BEDROOMS

Description This variable indicates the number of rooms in the dwelling which are designed and furnished as bedrooms and used as such, even though the use may be occasional. It does not include rooms which were designed originally as bedrooms but are furnished and used primarily for other purposes such as dining rooms, study rooms and bedsitting rooms. The dwelling may contain no bedrooms, as in the case of a bachelor apartment.

Code	Classification
0-6	Actual number of bedrooms
7	Seven or more

Source HFE Schedule.

TYPE OF PRINCIPAL HEATING EQUIPMENT

Description The code in this variable gives the type of heating equipment which is chiefly used to heat the dwelling in winter.

Code	Classification
1	Steam or hot water furnace
2	Forced hot air furnace (includes furnaces with a heat pump)
3	Other hot air furnace (includes gravity furnaces)
4	Heating stove (includes wood stoves)
5	Electric heating
6	Cookstove or other

Source HFE Schedule.

LENGTH OF TIME SINCE PRINCIPAL HEATING EQUIPMENT INSTALLED

Description This variable indicates how long ago the heating equipment described in the previous field was installed. If the original furnace has been converted to use a different fuel, the date of the conversion is coded.

Code	Classification
1	5 or less years
2	6 to 10 years
3	More than 10 years

Source HFE Schedule.

FUEL FOR PRINCIPAL HEATING EQUIPMENT

Description The principal winter fuel used in the heating equipment described on previous page is given here.

Code	Classification
1	Oil or other liquid fuel
2	Piped gas (includes natural gas)
3	Bottled gas (includes liquid propane)
4	Electricity
5	Wood
6	Other

Source HFE Schedule.

SPECIAL HEATING EQUIPMENT FEATURES

Description "Special features" refer to attachments that works in combination with the principal heating so that the dwelling is heated more economically. The special features must be a part of the central heating system, controlled automatically by a central control unit. Heating equipment which operates independently of the principal heating equipment is not included.

Code	Classification
0	None
1	Heat pump
2	Dual-Fuel system
3	Other (includes solar panels)

Source HFE Schedule.

SUPPLEMENTARY HEATING EQUIPMENT

Description This variable identifies the types of heating equipment used to supplement heat produced by the principal heating equipment. This equipment can be used to heat one or more rooms. The supplementary heating equipment is a separate piece of equipment and operates independently of the principal heating equipment. Dual-fuel furnaces and fireplaces are not included.

Code	Classification
0	None
1	Heating stove
2	Cookstove or range
3	Portable heater
4	Other

Source HFE Schedule.

FUEL FOR SUPPLEMENTARY HEATING EQUIPMENT

Description This variable indicates the fuel used in the supplementary heating equipment.

Code	Classification
0	Not applicable
1	Oil or other liquid fuel
2	Gas
3	Electricity
4	Wood
5	Other

Source HFE Schedule.

FUEL-BURNING FIREPLACE

Description This variable identifies the presence of a fuel-burning fireplace in the household. It's a fuel-burning fireplace if it can be used to burn wood, wood chips, coal, paper logs, gas, etc. If the fireplace contains electric logs (that stimulate burning wood logs) or an electric heater, "No" is coded.

Code	Classification
------	----------------

0	No
1	Yes

TYPE OF WATER SUPPLY

Description This variable indicates the type of water supply the dwelling receives. Piped water means water which can be turned on and off by means of a tap. Hot and cold water refers to dwellings with separate pipes for hot and cold water. Water from a hand pump located inside the dwelling is not piped running water, but water which is piped into a tank governed by a water pressure gauge (with no hand pump) is. If the interviewer did not complete this question, the household was assigned the same code as the nearest household in the same cluster.

Code	Classification
0	No piped running water
1	Hot and cold water piped inside
2	Cold water only piped inside

Source HFE Schedule.

FUEL FOR PIPED HOT WATER SUPPLY

Description This variable gives the type of fuel used for the piped hot water supply (i.e., code for type of Water Supply is 1).

Code	Classification
0	No piped hot water
1	Oil or other liquid fuel
2	Piped gas (includes natural gas)
3	Bottled gas (includes liquid propane)
4	Electricity
5	Wood or other

Source HFE Schedule.

BATHROOMS WITH INSTALLED BATHTUB OR SHOWER

Description This variable counts the number of rooms in the dwelling with an installed bathtub and/or shower. It is not necessary for the rooms to include a sink or toilet. Installed bath or shower facilities are operated from a piped water source and are controlled by a tap and drain.

Code	Classification
0	No installed bathtub or shower
1	One bathroom (exclusive use)
2	Two or more bathrooms (exclusive use)
3	Bath facilities shared with another household

Source HFE Schedule.

TOILET FACILITIES

Description This variable gives a count of the toilet facilities located within the dwelling and used exclusively by the members of this household.

Code	Classification
0	No flush toilet or chemical toilet inside dwelling
1	One flush toilet
2	Two flush toilets
3	Three or more flush toilets
4	Chemical or other type (humus, electric, etc.)
5	Toilet facilities shared with another household

Source HFE Schedule.

FUEL FOR PRINCIPAL COOKING EQUIPMENT

Description This variable gives the main fuel used in the range or stove on which the household does most of the cooking. "Other" includes combination electric/wood or electric/coal stoves.

Code	Classification
0	No cooking equipment
1	Oil or other liquid fuel
2	Piped gas (includes natural gas)
3	Bottled gas (includes liquid propane)
4	Electricity
5	Wood or other

Source HFE Schedule.

MICROWAVE OVEN

Description This variable indicates whether or not the household owns a microwave oven. Microwave ovens cook food using radiation, and must have time setting controls.

Code	Classification
0	No
1	Yes

Source HFE Schedule.

GAS BARBECUE

Description Gas barbecues are those which operate on bottled gas. For this item, they must be used on this property and not solely at a cottage.

Code	Classification
0	No
1	Yes

Source HFE Schedule.

NUMBER OF REFRIGERATORS

Description This item gives the number of refrigerators used by the household, and includes only those units operated by an electric motor, piped or bottled gas, kerosene, etc. If the household uses only an ice box, ice-house, spring house, well cooler, root cellar, open spring or other means of storing perishable food, "No electrical or mechanical refrigerator" is coded. This item does not refer to home freezers which are a separate item.

Code	Classification
0	No electrical or mechanical refrigerator
1-2	Actual number of refrigerators
3	Three or more

Source HFE Schedule.

HOME FREEZER

Description This variable indicates whether or not the household has a freezer within the dwelling premises or elsewhere within the boundaries of the property (owned or leased) on which the dwelling is situated. A home freezer is an individual piece of equipment and not part of a refrigeration unit such as the freezer compartment in a refrigerator.

Code	Classification
0	No
1	Yes

Source HFE Schedule.

WASHING MACHINE

Description This variable describes the type of machine which this household uses to wash clothes and which is located either inside this dwelling or is for the exclusive use of members of this household. Machines, coin-operated or not, located outside the dwelling and shared with other households are not included. If there is more than one washing machine in the household, the one that is used most is coded.

An automatic washer is fully automatic with wash and rinse cycles. Fully automatic apartment size washers are included here.

An electric wringer washer consists of a tub with an agitator to wash the clothes and an attached wringer.

All electric washers excluded from the above categories, (such as spin-dry non automatic washers and twin-tub spinner washers) are coded "other electric washer".

Code	Classification
0	No electric washing machine
1	Automatic washer
2	Electric wringer washer
3	Other electric washer

Source HFE Schedule.

CLOTHES DRYER

Description This variable describes the type of clothes dryer in this dwelling or which is for the exclusive use of the members of this household. Machines located outside this dwelling and which are jointly used with other households are not included.

Code	Classification
0	No clothes dryer
1	Electric dryer
2	Gas dryer

Source HFE Schedule.

AIR CONDITIONER

Description This variable indicates the type of air conditioner which the household uses. A central unit is designed to cool the air in the entire building and may be located either inside or outside this dwelling unit, e.g. in the basement of an apartment block. A window-type unit is installed in a window or through a wall in order to cool the air in a room.

Code	Classification
0	No air conditioner
1	Window type
2	Central unit

Source HFE Schedule.

AUTOMATIC DISHWASHER

Description This variable tells whether or not the household owns and uses an automatic dishwasher operated with a motor and controlled by cycles.

Code	Classification
0	None
1	Built-in model
2	Portable model

Source HFE Schedule.

NUMBER OF TELEPHONES

Description This variable gives the number of telephones, including extensions (not jacks) in the dwelling.

Code	Classification
0-4	Actual number of telephones
5	Five or more

Source HFE Schedule.

REASON FOR NO PHONE

Description This variable indicates why the household did not have a telephone. The categories were created by grouping similar comments made by the respondents.

Code	Classification
1	Doesn't want or need
2	Too expensive
3	Other
8	Not applicable (#telephones = 0)

Source HFE Schedule.

NUMBER OF TELEPHONE NUMBERS

Description This variable gives the number of different telephone numbers (lines), including business lines (not extension telephones) in the dwelling.

Code Classification

0-2 Actual Number

3 Three or more

Source HFE Schedule.

DOES THIS HOUSEHOLD HAVE A PRIVATE LINE OR A PARTY LINE

Description Private lines can be listed or unlisted. Party lines are where two or more telephone customers in different households share the same line (use the same circuit).

Code Classification

1 Private line

2 Party line

8 None

Source HFE Schedule.

HAS THIS HOUSEHOLD BEEN WITHOUT TELEPHONE SERVICE FOR 2 MONTHS OR MORE SINCE FEBRUARY 1, 1988

Description The variable "Without Telephone Service" means that the household has not had a telephone in "working order" for two or more months.

Code	Classification
1	Yes, without service
2	Not without service
8	Not applicable

Source HFE Schedule.

IS THERE TELEPHONE SERVICE IN THE VACATION HOME

Description This variable indicates if there has been a telephone in working order for at least one month in the last year (May 87 to May 88).

Code	Classification
0	No
1	Yes
8	Not applicable (no vacation home)

Source HFE Schedule.

DOES ANYONE IN THIS HOUSEHOLD OWN A VACATION HOME

Description A vacation home refers to a cottage, cabin, chalet or mobile home permanently located on a site and maintained mainly for personal use by members of the household. It excludes trailers or semi-permanent mobile homes. The vacation home may be located inside or outside of Canada to be counted for the 1988 Household Facilities and Equipment (1987 Income).

Code Classification

0 No
1 Yes

Source HFE Schedule.

IS THE VACATION HOME IN

Description This variable indicates the place of the vacation home. It excludes vacation homes that are partially owned as in "time sharing" agreements.

Code Classification

1 Ontario
2 Quebec
3 Other Province or Territory
4 Outside Canada
8 Not applicable

Source HFE Schedule.

NUMBER OF RADIOS

Description This variable gives the number of radios owned and presently in use by members of the household except those permanently installed in cars. Radios in combination units with record players, televisions or tape recorders are included.

Code	Classification
0-8	Actual number of radios
9	Nine or more

Source HFE Schedule.

NUMBER OF F.M. RADIOS

Description This variable indicates the number of radios included in the previous variable which have an F.M. band.

Code	Classification
0-8	Actual number
9	Nine or more

Source HFE Schedule.

TOTAL NUMBER OF T.V. SETS/COLOUR T.V. SETS/BLACK AND WHITE T.V. SETS

Description These three variables give the number of colour and black and white televisions owned or leased for the use of this household. These may be separate or combined with a radio, record player or tape recorder.

TOTAL T.V. SETS		COLOUR T.V. SETS		BLACK AND WHITE T.V. SETS	
Code	Classification	Code	Classification	Code	Classification
0-4	Actual number	0-3	Actual number	0-2	Actual number
5	Five or more	4	Four or more	3	Three or more

Source HFE Schedule.

CABLE TELEVISION

Description This variable indicates whether the dwelling is hooked-up for cable television service whether or not it is used. Cable television provides subscribers with additional television channels which are normally outside the local reception area of domestic television sets. This service is paid for on a yearly/monthly basis by subscribing householders or landlords who include this service as part of the rental agreement.

Code	Classification
0	No
1	Yes

Source HFE Schedule.

PAY TELEVISION

Description Pay television is a premium service available to cable television subscribers and utilizing a specific number of the extra channels available on cable with a converter. Such channels are obtained on payment of an additional fee and by connection of an additional de-scrambling device.

Code	Classification
0	No
1	Yes

Source HFE Schedule.

CABLE CONVERTER

Description A cable converter is used with cable television to permit a wider selection of channels than those available in the standard TV tuner. The converter may be built-in (on late model TV sets) or take the form of an add-on with a remote control channel selector. The selector may either be wired to the converter unit or will communicate with it through an infrared remote control.

Code	Classification
0	No
1	Yes

Source HFE Schedule.

VIDEO RECORDER

Description This variable indicates whether the household owns a video recorder (VCR). These are units which play video cassettes when attached to a television or monitor. They must be able to record and play back television broadcasts. Includes both BETA and VHS equipment. Excluded are video disk units which can play only pre-recorded disks.

Code	Classification
------	----------------

0	No
1	Yes

Source HFE Schedule.

CAMCORDER

Description This variable indicates whether or not the household owns a camcorder. A camcorder is used for video recording onto tape cassettes. The information can be played back immediately with a VCR or on the machine itself. Camcorders are like hand-held movie cameras except that they use video cassettes instead of film.

Code	Classification
------	----------------

0	No
1	Yes

Source HFE Schedule.

TURNTABLE OR RECORD PLAYER

Description This variable tells whether or not the household possesses a record player or turntable which may be a single unit, part of a component or part of a stereo unit or television combination.

Code	Classification
------	----------------

0	No
1	Yes

Source HFE Schedule.

CASSETTE RECORDER OR TAPE RECORDER

Description This variable indicates the presence of all types of machines designed to reproduce and/or to record sound. These may be individual machines, separate pieces of stereo equipment or installed in combination with a radio and/or television. It excludes tape machines permanently installed in automobiles.

Code	Classification
------	----------------

0	No
1	Yes

Source HFE Schedule.

COMPACT DISC PLAYER (CD PLAYER)

Description This variable indicates whether or not the household owns a compact disc (CD) player. A compact disc player is included if it is a separate unit, part of a component or built in (as in a receiver/cassette recorder/compact disc combination unit). Compact disc players play digitally-encoded audio discs about 5 inches in diameter. Video disc machines which only play digitally-encoded video discs are not included here.

Code	Classification
0	No
1	Yes

Source HFE Schedule.

HOME COMPUTER

Description A home computer must have a keyboard (i.e. be user-programmable) and be located in the dwelling. The system may include its own display screen or utilize the picture tube of the family TV set. Those systems which can only be used to play games or are used exclusively for business purposes are not included. Programmable hand calculators are also excluded.

Code	Classification
0	No
1	Yes

Source HFE Schedule.

SMOKE DETECTOR

Description Smoke detectors are designed to sound an alarm when smoke reveals the presence of fire. Includes only smoke detectors located inside the dwelling. Does not include those detectors installed in hallways of apartment buildings or row houses.

Code	Classification
------	----------------

0	No
1	Yes

Source HFE Schedule.

PORTABLE FIRE EXTINGUISHER

Description Portable fire extinguishers are devices containing chemicals such as carbon dioxide that can be sprayed on a fire to put it out. Include only fire extinguishers located inside the dwelling.

Do not include extinguishers located in hallways of apartment buildings or row houses. Do not include fire extinguishers stored in the garage or in a car.

Code	Classification
------	----------------

0	No
1	Yes

Source HFE Schedule.

NUMBER OF AUTOMOBILES

Description This variable gives the number of automobiles owned by members of the household excluding those used solely for business purposes. Cars owned or leased by a company, vans, recreational 4 x 4 trucks, dune buggies, panel and other trucks are excluded. Station wagons are included. These vehicles must have a current licence and be in working order.

Code	Classification
0-3	Actual number of automobiles
4	Four or more

Source HFE Schedule.

NUMBER OF VANS, TRUCKS

Description This variable is similar to the previous but refers to vans, jeeps, panel and other trucks, which are used primarily as passenger vehicles and not for business purposes. These vehicles must have a current licence and be in working order.

Code	Classification
0-3	Actual number of vans or trucks
4	Four or more

Source HFE Schedule.

REPAIRS NEEDED

Description This variable indicates the respondent's evaluation of the repairs the dwelling needs to restore it to its original condition. Desirable remodelling, additions, conversions, or energy improvements which would upgrade the dwelling over and above its original condition are not included.

Major repairs include serious deficiencies in the structural condition of the dwelling, as well as in the plumbing, electrical and heating systems. Examples include corroded pipes, damaged electrical wiring, sagging floors, bulging walls, damp walls and ceilings, crumbling foundation, etc.

Minor repairs include deficiencies in the surface or covering material of the dwelling and less serious deficiencies in the plumbing, electrical and heating systems. Examples include small cracks in interior walls and ceilings, broken light fixtures and switches, cracked or broken window panes, leaking sink, missing shingles or siding, peeling paint, etc.

Regular maintenance includes painting, fixing leaking faucets, clogged gutters or eaves troughs, etc.

Code	Classification
1	Major repairs
2	Minor repairs
3	Regular maintenance only

Source HFE Schedule.

YEAR HEAD MOVED INTO DWELLING

Description This item refers to the year the head of the household moved into the dwelling. The date of the actual move and not the date on which the accommodation was acquired either through purchase or a lease arrangement was to be considered. Thus, if the head of the household bought a house in July 1982 but did not move until March 1983, the 1983 circle would be marked.

If the head of the household moved from the upper floor to the first floor unit of a duplex any time since January 1983, this was considered a move. If the head of the household moved into his/her relative's house (e.g. at the time of marriage, etc.) since January 1983 and is now the head, this was also considered a move.

In cases where the dwelling was converted from single to multiple units this was not considered a "move", as the head of the household was still occupying a part of it.

Exception: In families where spouses moved in on different dates, the earliest move determined the applicable category for this item. For example: Mary K. moved into this apartment in July 1982. Her husband, Major Jack K., moved in during September 1983 after completing his latest tour of duty in Cyprus. In this case, the "before 1983" category would be coded.

Code	Classification
0	Not ascertained
1	Before 1983
2	1983
3	1984
4	1985
5	1986
6	1987
7	1988

Source HFE Schedule.

TENURE OF PREVIOUS DWELLING

Description This variable was to be coded owned or rented only if the household head or spouse (or former spouse) owned or rented the previous dwelling. If another household member was the owner or renter, "did not maintain own dwelling" was to be coded. This latter category, therefore was intended to indentify new, recently formed households. Examples which fall into this category include situations such as: head (and spouse) lived before with parents and/or with more distant relatives who owned or rented the dwelling; head lived as a roomer in a boarding house, or in a collective or a communal residence (army barracks, lumber camp, university residence) or as a resident of any type of institution.

A dwelling may have been rented even though no cash was paid. For example, the janitor of an apartment building whose apartment is supplied as part of his salary is considered to be renting the dwelling.

Code	Classification
1	Owned
2	Rented
3	Did not maintain own dwelling
8	Not aplicable (moved before 1983)
9	Not ascertained

Source HFE Schedule.

EVER HE/SHE OWNED AND OCCUPIED A DWELLING

Description This variable indicates if the head of the household and/or spouse have ever owned and occupied a dwelling previously. If he/she owned a dwelling but never lived in it, this variable is coded "No". Vacation property owned but occupied seasonally as well as residences owned outside Canada were to be excluded. Households coded "owned" for the previous variable (Owned or Rented Previous dwelling) are coded "Not applicable" here, as well as those whose head moved in before 1983.

Code	Classification
0	No
1	Yes
2	Did not know
8	Not applicable (moved before 1983 or owned previous dwelling)
9	Not ascertained

Source HFE Schedule.

HOUSEHOLD HEAD

Description A household is a person or group of persons occupying a dwelling unit. The head of the household is always the head of the primary economic family. In single unit households consisting of a married couple with or without children the husband is the head; for single-parent families with unmarried children the parent is the head; for single-parent families with married children, the member who is mainly responsible for the maintenance of the family becomes the head and in families where relationships are other than husband-wife or parent-child the eldest in the family is usually considered the head. An unattached individual living alone in a dwelling is the head of his/her own household. In multi-unit households, the head of the primary economic family unit becomes the head of the household (as opposed to the heads of units who are rooming, sharing the dwelling or residing there as employees-domestics).

Source Household Record Docket 03.

HEAD AND SPOUSE'S PERSONAL CHARACTERISTICS

Definition

The following characteristics are determined at the time the individual enters the Labour Force Survey (December of the reference year to March of the survey year).

The interviewers are instructed not to update "Age" if the respondent's birthday falls within the six month period he/she is in the Labour Force Survey. Other characteristics may be updated if the interviewer detects a change of status.

HEAD: MARITAL STATUS

Code	Classification
1	Single (never married)
2	Married or living common-law
3	Other

HEAD (SPOUSE): AGE

Code	Classification
00	No wife in the family
15-79	Actual age
80	Age 80 and over

HEAD: SEX

Code	Classification
1	Male
2	Female

Source

Household Record Docket, Form 03.

HEAD (SPOUSE): EDUCATION LEVEL

Description This variable gives the highest level of education completed by this individual at the time of his/her entry into the Labour Force Survey (December of the reference year to March of the survey year).

The coding of this variable is not consistent over all years for which income tapes are available. Since the 1975 tape the codes do not show definite breaks between completed and uncompleted secondary school education, and between some university and other post-secondary education.

If there is no spouse in the family, the entry under "spouse" will be 0.

Code	Classification
1	No schooling or elementary
2	9 or 10 years of elementary and secondary
3	11-13 years of elementary and secondary
4	Some post-secondary
5	Post-secondary certificate or diploma
6	University degree

Source Household Record Docket, Form 03.

HEAD (SPOUSE): MOTHER TONGUE

Description This variable gives the language which the individual first learned and still understands. If the person no longer understands the language first learned, then the next language he/she learned which is still understood is coded.

Code Classification

0	Special Unit
1	English
2	French
3	Other

Source Household Record Docket, Form 03.

HEAD (SPOUSE): CLASS OF WORKER (CURRENT OR LAST JOB)

Description

This variable gives the class of worker of this individual as of reference week. For persons who had a job in the reference week, this is the class of their current main job. For persons who were unemployed or not in the labour force in the reference week but had worked within five years prior to reference week, this is the class of their most recent position. Persons who have never worked or have not worked within five years prior to reference week are coded 4 and 5 respectively.

"Paid" includes any person who worked as an employee for an employer. This also includes persons who work for themselves in an incorporated business. Starting with the 1979 tape, an additional group have been included as paid workers. This group contains only the following types of workers:

- (i) Non live-in babysitters and persons who provide services in the parental home of the children for whom they provide care.
- (ii) Persons who do house-cleaning for a number of clients.
- (iii) Handymen, gardeners, and persons who do "odd jobs" who are directed to their various clients by an agency (or other third party) such as the Canada Employment Centres.

NOTE: For Labour Force Survey purposes the above three types of workers are considered as self-employed. This should be taken into account when comparing SCF and LFS estimates. Both LFS and SCF consider persons as "paid workers" when they are employees of an agency providing baby-sitting, house-cleaning, or minor repairs and maintenance services as well as all persons who live on the premises of the client for whom they work.

HEAD (SPOUSE): CLASS OF WORKER (CURRENT OR LAST JOB) (CONCLUDED)

Description
(conc'd)

"Self-employed" applies to individuals who work for themselves. These people may or may not have a business, farm or professional practice. Those who do, could have complete ownership or a partnership in the business. However, the business must be unincorporated. If the person is in the process of buying the business while operating it, this is considered ownership.

"Unpaid family worker" includes any person who worked on a farm or in a business owned or operated by a related member of the same household. The work done must contribute to the operation of a family farm or family business.

Code	Classification
1	Paid
2	Self-employed
3	Unpaid family worker
4	Never worked before
5	Last worked more than five years ago

Source

Labour Force Schedule, Form 05.

HEAD (SPOUSE): 1980 OCCUPATIONAL CLASSIFICATION [CURRENT OR LAST JOB] - 13-GROUPS AND 49-GROUPS

Description These variables give the occupational classification of the individual according to the Occupational Classification Manual, Census of Canada, 1980, Catalogue No. 12-565E. For persons who had a job in the reference week, this is their current main occupation. For persons who were unemployed or not in the labour force in the reference week but had worked in the last 5 years this is the occupation they had at their most recent job.

The classification of occupations based on the 1980 Standard Occupational Classification was used for the first time on the 1984 file. This set of standards replaces those previously used which were developed for the 1971 Census. The changes between the 1971 and 1980 occupation classification systems are mainly related to managerial occupations. Persons performing managerial functions in the agriculture, retail trade, accommodation, food and beverages, and insurance industries, who are paid workers, are classified as managers in the 1980 occupation classification. Previously, they were coded to occupations such as farmers, sales, service, etc. Changes in other occupations were very minor.

The complete list of codes on the tape is given on the record layout. The 3-digit 1980 Standard Occupational Classification codes are given in brackets as well as the breakdown of the major occupation (2-digit level) groups.

Code 99 "Not applicable" is given to some records on the 49-Groups variable for confidentiality reasons. These records are coded to the applicable occupation groups only on the 13-Groups variable.

Source Labour Force Schedule, Form 05.

NOTE: These detailed occupation categories are provided to give tape users flexibility in creating their own groups for analysis. Users are advised that some of the codes above with small sample sizes may not yield reliable estimates on their own.

HEAD (SPOUSE): LABOUR FORCE STATUS (REFERENCE WEEK)

Description

This variable gives the labour force status of the individual during the reference week. The definitions used for these categories are the same as for the Labour Force Survey. The labour force comprises the civilian non-institutional population age 15 and over who were employed or unemployed in the reference week.

The employed includes all persons who, during the reference week:

- (a) did any work for pay or profit
- (b) did any unpaid work which contributed directly to the operation of a farm, business or professional practice owned or operated by a related member of the same household
- (c) had a job but were not at work due to:
 - own illness or disability
 - personal or family responsibilities
 - bad weather
 - labour dispute
 - vacation
 - other reason not specified above (excludes persons on lay-off and persons whose job attachment was to a job due to start at a definite date in the future)

The unemployed includes those persons who during the reference week:

- (a) were without work, had actively looked for work in the past four weeks (ending with reference week), and were available for work.
- (b) had not actively looked for work in the past four weeks but had been on layoff for twenty six weeks or less and were available for work. Persons are classified as being on layoff only when they expect to return to the job from which they were laid off.
- (c) had not actively looked for work in the past four weeks but had a new job to start in four weeks or less from reference week, and were available for work.

HEAD (SPOUSE): LABOUR FORCE STATUS (REFERENCE WEEK) (CONCL.)

Description
(concl.)

Persons meeting the following criteria are regarded as available:

- (i) full-time students seeking part-time work who also met condition (ii) following. Full-time students looking for full-time work are classified as not available for work during the reference week.
- (ii) they reported that there was no reason why they could not take a job in reference week, or, if they could not take a job it was because of "own illness or disability" or "personal or family responsibilities" or "already had a job".

Those not in the labour force include all individuals 15 years of age and over (exclusive of institutional population) who are not classified as employed or unemployed. Members of the Armed Forces are coded not in the labour force.

Code	Classification
1	Employed
2	Unemployed
3	Not in the labour force

Source

Labour force Schedule, Form 05.

HEAD (SPOUSE): WEEKS WORKED IN REFERENCE YEAR

Description This variable gives the actual number of weeks in which the individual did any work during the reference year.

Included as weeks worked are:

- (a) the number of weeks in which the person did any work, either part-time or full-time;
- (b) the number of weeks the person had a job but was not at work due to holidays, vacation, illness, maternity leave, strike or lock-out;
- (c) the number of weeks a person was self-employed;
- (d) the number of weeks a person had a job but was absent with pay (e.g. for job-related training).

These are not necessarily complete weeks for which the individual was paid. School teachers under contract to teach the full school year during the reference year are coded 52 weeks even if they did not teach or did other work during the summer. Student nurses are not coded weeks worked as they are considered to be attending school.

If there is no wife, her entry will be 00.

Code	Classification
00	No weeks worked
01-52	Actual number of weeks worked

Source Household Record Docket, Form 03.

HEAD (SPOUSE): WORKED MOSTLY FULL-TIME OR PART-TIME IN REFERENCE YEAR

Description

This variable tells whether or not the individual worked during reference year and if he/she did work, was this work mostly full-time or part-time in terms of weekly hours. For pre-1977 years it was up to the respondents to decide if their work was full-time or part-time as no fixed number of hours were attached to the definition. Since 1977 full-time work is defined as 30 or more hours per week.

If there is no wife, her entry will be 0.

Code	Classification
1	Full-time
2	Part-time
3	Did no work in reference year

Source

Household Record Docket, Form 03.

HEAD: IMMIGRATION STATUS

Description This variable indicates if the individual was born in Canada (or born outside of Canada of Canadian parents who registered the child as Canadian), and, if not, it gives the period of years since which he/she has been residing in Canada. Persons born in Newfoundland prior to March 31, 1949 are coded Canadian born. For persons who immigrated to Canada more than once, the most recent year of immigration applies.

Because the survey only collects income received while in Canada, a complete picture is not given of the income situation of persons who immigrated to Canada during the reference year or during the survey year. For reference year, arrivals part-year income is collected but for survey year arrivals only small amounts of family allowances may be present if they have been transferred from another family member during the survey processing.

Code	Classification
1	Canadian born
2	Arrived before 1946
3	Arrived 1946-1955
4	Arrived 1956-1965
5	Arrived 1966-1970
6	Arrived 1971-1975
7	Arrived 1976-1980
8	Arrived 1981-Survey year

Source Household Record Docket, Form 03.

PRIMARY ECONOMIC FAMILY

Description The primary economic family is the one whose head is also the head of the household. An economic family is a group of persons who are related by blood, marriage or adoption and share a common dwelling unit. A one-person economic family, referred to as an unattached individual, is a person living by him/herself or rooming in a household where he/she is not related to any other household member.

Source Household Record Docket, Form 03.

PRIMARY ECONOMIC FAMILY NUMBER OF PERSONS

Description This variable gives the actual number of persons in the economic family to which the head of the household belongs. The head of the household is also the head of this economic family.

Source Household Record Docket, Form 03.

PRIMARY ECONOMIC FAMILY NUMBER OF ADULTS

Description This variable gives the actual number of adults in the economic family to which the household head belongs. The head of the family (who is also the household head) is an adult, as well as any other member of the family who is married or has been married, and any single person 16 years of age or over.

Source Household Record Docket, Form 03.

PRIMARY ECONOMIC FAMILY NUMBER OF CHILDREN

Description This series of variables gives the actual number of children in each of the categories listed below who are in the economic family to which the household head belongs. In addition to the economic family head's own children, this includes grandchildren, brothers, sisters and other guardianship children in the economic family.

Categories

- (a) Under 7 years of age
- (b) 7-15 years of age
- (c) 16-17 years of age
- (d) 18-24 years of age

Source Household Record Docket, Form 03.

NOTE: Counts of children age 18-24 also includes married children, sons-in-law and daughters-in-law living with each economic family. Counts of children under 18 include only never married children.

PRIMARY ECONOMIC FAMILY CHARACTERISTICS

Description This variable gives the composition of the economic family to which the household head belongs. The head of the household is also the head of this economic family.

Any economic family consisting of only one individual is called an "unattached individual".

Code	Classification
01	Unattached individual
02	Husband-wife family
03	Husband-wife family with single children
04	Husband-wife family with married children and their immediate families if any
05	Husband-wife family with single and married children and their immediate families, if any
06	Husband-wife family, single and/or married children and their immediate families, and other relatives
07	Husband-wife family, with relatives other than own children
08	Male parent with single child(ren)
09	Female parent with single child(ren)
10	All other families

Source Household Record Docket, Form 03.

PRIMARY ECONOMIC FAMILY LIFE CYCLE

Description This variable gives the composition of the economic family to which the household head belongs by age of the economic family head and of the children. The household head is also the head of this economic family.

Code	Classification
1	Unattached individual, under 45.
2	Unattached individual, 45 years or over
3	Husband-wife family, head under 45, no children under 16
4	Husband-wife family, head under 45, with children under 16
5	Husband-wife family, head 45 years or over, no children under 16
6	Husband-wife family, head 45 years or over, with children under 16
7	Irregular family with no children under 16
8	Irregular family with children under 16

Source Income Questionnaire, Form CF06.

NUMBER OF EARNERS

Description This variable gives the actual number of persons in the economic family to which the household head belongs who received income from wages and salaries and/or self-employment.

Source Income Questionnaire, Form CF06.

NUMBER OF PERSONS WITH INCOME

Description This variable gives the actual number of persons in the economic family to which the household head belongs who received income from any of the sources collected in the survey.

Source Income Questionnaire, Form CF06.

PRIMARY ECONOMIC FAMILY: REVISED (1969) LOW INCOME CODE

DESCRIPTION This code indicates whether or not the family unit falls below the 1969 base low income cut-off. These cut-offs were determined by adjusting the low income lines developed after analysis of 1969 Family Expenditure Survey data for increasing prices, as reflected in the Consumer Price Index. These income limits were selected on the basis that families with incomes below these limits usually spent 62% or more of their income on food, shelter and clothing. These cut-offs are differentiated by size of area of residence and by family size.

The cut-offs for 1987 are as follows:

Family Size	Size of Area of Residence				
	500,000 or more	100,000- 499,999	30,000- 99,999	Urban less than 30,000	Rural Areas
1	9,052	8,474	8,229	7,568	6,577
2	13,120	12,286	11,930	10,971	9,545
3	16,741	15,679	15,219	14,006	12,177
4	19,911	18,644	18,096	16,653	14,477
5	22,256	20,836	20,232	18,619	16,188
6	24,432	22,876	22,213	20,437	17,768
7 or more	26,791	25,076	24,352	22,400	19,481

For a more detailed discussion of the analysis underlying these revised cut-offs, an unpublished paper "Revision of Low Income Cut-offs" is available.

Code	Classification
1	Below low income cut-off
2	Equal to or above low income cut-off

Note: These cut-offs are provided to give historical comparability with earlier data tapes which contain this version of the low income cut-offs.

PRIMARY ECONOMIC FAMILY: REVISED (1978) LOW INCOME CODE

Description

This code indicates whether or not the family unit falls below the 1978 base low income cut-off. These cut-offs were determined by adjusting the low income lines developed after analysis of 1978 Family Expenditure data for increasing prices, as reflected in the Consumer Price Index. These 1978 base low income limits reflect more recent consumption patterns of Canadian families. As the overall ratio spent on food, shelter and clothing had declined since 1969, families who on average spent 58.5% or more of their income on this type of goods and services were considered to be in straitened circumstances.

The economic family incomes cut-offs for 1987 are as follows:

Family Size	Size of Area of Residence				
	500,000 or more	100,000- 499,999	30,000- 99,999	Urban less than 30,000	Rural Areas
1	11,118	10,559	9,906	9,158	8,222
2	14,669	13,923	12,990	12,052	10,746
3	19,623	18,595	17,379	16,166	14,389
4	22,612	21,490	20,089	18,687	16,634
5	26,349	24,949	23,266	21,678	19,343
6	28,779	27,190	25,416	23,639	21,117
7 or more	31,676	29,994	28,032	26,069	23,266

For a more detailed discussion of the analysis underlying these revised cut-offs, a technical paper "Rebasing Low Income Cut-Offs to 1978" is available. For a general discussion of the history and interpretation of low income cut-offs see the Appendix in the 1980 issue of catalogue 13-207.

Code	Classification
1	Below low income cut-off
2	Equal to or above low income cut-off

PRIMARY ECONOMIC FAMILY REVISED (1986) LOW INCOME CODE

Description This code indicates whether or not the family unit falls below the 1986 base low income cut-off. These cut-offs were determined by adjusting the low income lines developed after analysis of 1986 Family Expenditure Survey data for increasing prices, as reflected in the Consumer Price Index. These income limits were selected on the basis that families with incomes below these limits usually spent 56.2% or more of their income on food, shelter and clothing. These cut-offs are differentiated by size of area of residence and by family size.

The cut-offs for 1987 family incomes are as follows:

Family Size	Size of Area of Residence				
	500,000 or more	100,000- 499,999	30,000- 99,999	Urban Areas under 30,000	Rural Areas
1	12,366	10,861	10,610	9,672	8,418
2	16,762	14,723	14,383	13,111	11,412
3	21,306	18,713	18,281	16,665	14,505
4	24,531	21,545	21,047	19,187	16,700
5	26,802	23,540	22,996	20,964	18,246
6	29,092	25,551	24,962	22,755	19,805
7 or more	31,290	27,482	26,848	24,475	21,302

For a more detailed discussion of the analysis underlying these revised cut-offs, see the Appendix in the 1987 issue of Catalogue 13-207.

Code	Classification
1	Below low income cut-off
2	Equal to or above low income cut-off

NOTE: 1987 was the first year that the Low Income Code (1986 Base) was included on the microdata files.

RENT DATA

The following rent information applies only to non-farm rented dwellings with type of dwelling code = 1-5. This means that the following types of rented dwellings have "not applicable" codes for this section of data:

1. farms
2. "other" dwellings (mainly mobile homes)
3. rented dwellings in locations defined as special areas according to the LFS sample design. These are principally remote areas.

Users of these data interested in doing rent to income studies should be aware of the following problem. The rent collected applies to April of the survey year. Multiplying by 12 to get an annual value requires certain assumptions which do not hold for all households. The household membership also refers to April of the survey year. The income data refers to the calendar year (reference year). As a result, any income for members present in the reference year who were not present in April of the survey year is not included in the household total. Similarly, unattached individuals renting in April may have been household members during the reference year with little or no income.

HEATING INCLUDED IN RENT

Description This variable indicates whether or not the rent paid for the dwelling in April of the survey year includes the supplying of heat for the household.

Code	Classification
1	Yes
2	No
8	Not applicable

Source Rent Schedule, Form 04.

RENT PAID FOR APRIL OF SURVEY YEAR

Description This variable gives the amount of rent paid in dollars for this dwelling for April. Code 000 is for subsidized dwellings with no rent or whose rent was not ascertained. Subsidized dwellings may also have rent values of \$1 to 1000.

Code	Classification
000	No rent or rent not ascertained (subsidized dwellings only)
001-999	Actual amount
1000	\$1000 or more
8888	Not applicable

Source Rent Schedule, Form 04.

RENT SUBSIDIZED

Description A rent is considered to be subsidized when the tenant pays less than the amount normally charged for the dwelling. Subsidization here is financial aid paid directly to the landlord of the dwelling. Financial aid which is paid to the tenant (even if it is meant to help with the rent) is not considered here as a subsidy.

Examples of subsidized rents are:

- Accommodation for which financial assistance is paid by federal, provincial or municipal government (for example, senior citizen's housing, low-income housing projects, co-operative housing projects, and so on).
- Rental accommodation provided by a company for its employees. Also included are PMQ's (Permanent Married Quarters) operated by the Canadian Armed Forces.
- Living quarters provided by the apartment owner for the superintendent, at less than the normal rent charged for the apartment, the balance being absorbed by the owner.
- Accommodation for which a relative of the tenant (someone related by blood, marriage or adoption), pays directly to the landlord.
- Accommodation for which a relative of the tenant owns the dwelling in which the tenant is renting and less than the normal rent or no rent is paid by the tenant.

Code	Classification
1	Yes, subsidized by government, employer or relatives
2	No
8	Not applicable

Source Rent Schedule, Form 04.

Note: Users of a series of HIFE microdata tapes should be aware of changes in the definition of subsidization. Since 1980 the above definition applies. For 1976, subsidies paid by relatives were not included. For 1972 and 1974 relatives were only included if they were the landlord.

RENT FOR COMBINED BUSINESS AND LIVING ACCOMMODATION

Description This variable indicates if a household uses part of the rental unit for a business operation (store, restaurant, beauty salon, doctor's office, speech therapist, etc.) and uses the remainder for living accommodation. The rent paid covers both the business and living quarters.

Code	Classification
1	Yes
2	No
8	Not applicable
9	Not ascertained

Source Rent Schedule, Form 04.

UTILITIES INCLUDED IN RENT
(Hot Water, Cold Water, Electricity)

Description This variable indicates whether the rent paid for April included payment for any of the above utilities.

Code	Classification
1	None included
2	Some included
3	All included
8	Not applicable
9	Not ascertained

Source Rent Schedule, Form 04.

APPLIANCES INCLUDED IN RENT
(Refrigerator, Stove, Dishwasher, Free Laundry)

Description This variable indicates how many, if any, of the above appliances are supplied by the landlord without additional charge.

Code	Classification
1	None
2	One appliance
3	Two appliances
4	Three or four appliances
8	Not applicable
9	Not ascertained

Source Rent Schedule, Form 04.

OTHER ITEMS INCLUDED IN RENT
(Cable TV, Pool, Sauna, Furniture, Parking)

Description This variable indicates how many, if any, of the above items are supplied by the landlord as part of the rent payment.

Code	Classification
1	No extra items included
2	One item included
3	Two items included
4	Three or more items included
8	Not applicable
9	Not ascertained

SHELTER COST**RENTERS - EXPENSES FOR PRESENT DWELLING IN 1987****MONTHS RENTED**

Description This variable gives the actual number of months the household occupied this rented dwelling in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 14.

PRINCIPAL ACCOMMODATION EXPENSES (EXCLUDING RENT)

Description This variable gives the sum of the amounts reported for parking, electricity, other fuels for heating and cooking, water, repairs and maintenance and tenant's insurance. The expenses apply only to the months the household occupied the rented dwelling in 1987. Monthly rent is given in an earlier field.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 15.

PARKING

Description This variable gives the amount reported for parking at the place of residence. The expenses apply only to the months the household occupied the rented dwelling in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 15.

WATER, FUEL AND ELECTRICITY

Description This variable gives the total amount reported for electricity, other fuels for heating and cooking and water in the place of residence. The expenses apply only to the months the household occupied the rented dwelling in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 15.

ELECTRICITY

Description This variable gives the total amount reported for electricity in the place of residence. The expenses apply only to the months the household occupied the rented dwelling in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 15.

OTHER FUELS

Description This variable gives the total amount reported for other fuels for heating and cooking in the place of residence. The expenses apply only to the months the household occupied the rented dwelling in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 15.

WATER

Description This variable gives the total amount reported for water in the place of residence. The expenses apply only to the months the household occupied the rented dwelling in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 15.

OTHER EXPENSES

Description This variable gives the total amount reported for repairs and maintenance on the rented dwelling and tenant's insurance. The expenses apply only to the months the household occupied the rented dwelling in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 15.

REPAIRS AND MAINTENANCE

Description This variable gives the total amount reported for repairs and maintenance on the principal residence. The expenses apply only to the months the household occupied the rented dwelling in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 15.

TENANTS' INSURANCE

Description This variable gives the total amount reported for tenants' insurance. The expenses apply only to the months the household occupied the rented dwelling in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 15.

OWNERS - PRESENT DWELLING

Note homeowner expenses regarding present dwelling refer to:

- i) monthly payments on mortgages and loans at the time of the survey;
- ii) property taxes on the dwelling for 1987 whether paid on this household or a previous dwelling;
- iii) other operating expenses for the present dwelling for months owned and occupied in 1987 by the current household.

MORTGAGES AND OTHER LOANS AT THE TIME OF SURVEY**ALL MONTHLY PAYMENTS AT TIME OF SURVEY**

Description This variable gives the total amount reported for regular monthly payments on all mortgages and loans at the time of the survey used to pay for the present dwelling or for additions, renovations, repairs and maintenance to the dwelling.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, questions 21, 27, 33 and 38.

BALANCE OUTSTANDING AT TIME OF SURVEY

Description This variable gives the total amount outstanding on all mortgages and other loans at the time of the survey used to pay for the present dwelling or for additions, renovations, repairs and maintenance.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, questions 24, 30, 35 and 40.

PROPERTY TAXES INCLUDED IN PAYMENTS

Description This variable indicates whether property taxes are included in either the first or second mortgage payments on the principal residence at the time of the survey.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, questions 23 and 29.

PROPERTY TAXES - TOTAL FOR 1987

Description This variable gives the total amount of property taxes paid on the principal residence in 1987. This is the total tax paid on the property in 1987 even if not by this household.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 42.

MARKET VALUE OF DWELLING

Description This variable gives the value of the dwelling at the time of the survey. It is an estimate of the amount the household believes it would have received had it sold the dwelling at the time.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 43.

MONTHS OWNED AND OCCUPIED DWELLING IN 1987

Description This variable gives the number of months the dwelling was owned and occupied by a member of the household in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 44.

PRINCIPAL ACCOMMODATION EXPENSES FOR PRESENT DWELLING FOR MONTHS
OWNED AND OCCUPIED IN 1987
(EXCLUDES PROPERTY TAXES AND MORTGAGE PAYMENTS)

HOMEOWNERS' INSURANCE

RENOVATIONS OR ALTERATIONS: MATERIALS PURCHASED SEPARATELY

Description This variable gives the total amount reported for renovations or alterations to the previous dwellings or to the property in 1987. Included in this field are materials purchased separately. This question applies only to the months the household owned and occupied the previous dwellings in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 75.

NEW INSTALLIONS/ADDITIONS - EQUIPMENT NOT PREVIOUSLY EXISTING

Description This variable gives the total amount reported for new installations or additions of equipment which did not previously exist in the previous dwellings or on the property in 1987. Included in this field are contract and labour costs and materials purchased separately. This question applies only to the months the household owned and occupied the previous dwellings in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 77.

NEW INSTALLIONS/ADDITIONS: CONTRACTED OUT AND LABOUR COSTS

Description This variable gives the total amount reported for new installations or additions of equipment which did not previously exist in the previous dwellings or on the property in 1987. Included in this field are contract and labour costs. This question applies only to the months the household owned and occupied the previous dwellings in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, question 77.

NEW INSTALLIONS/ADDITIONS: MATERIALS PURCHASED SEPARATELY

Description This variable gives the total amount reported for new installations or additions of equipment which did not previously exist in the previous dwellings or on the property in 1987. Included in this field are materials purchased separately. This question applies only to the months the household owned and occupied the previous dwellings in 1987.

OWNERS AND RENTERS

SHARE OF EXPENSES CONTRIBUTED BY OTHERS

Description This variable gives the total percentage share of household expenditure that was shared by persons who were no longer members of the household but were members sometime in 1987.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, questions 17 and 59.

MEMBER OF INDIGENOUS GROUPS IN HOUSEHOLD

Description This variable indicates whether or not any member of the household was descendant from North American Indian, Metis or Inuit(Eskimo). One person households in the Atlantic Provinces with the member descendant from an indigenous group were considered 'Special Units' and the Standard Geographic code and Mother Tongue Code were both set to '0'.

Source 1987 Shelter Cost Survey Questionnaire, Form 08, questions 18 and 60.

NUMBER OF BOYS UNDER 5 YEARS OF AGE

Description This variable indicates the number of boys under 5 years of age that lived in the household at the time of the survey.

Source April 1988 Labour Force Survey, Household Record Docket, Form 03, questions 33 and 34.

NUMBER OF GIRLS UNDER 5 YEARS OF AGE

Description This variable indicates the number of girls under 5 years of age that lived in the household at the time of the survey.

Source April 1988 Labour Force Survey, Household Record Docket, Form 03, questions 33 and 34.

NUMBER OF NEVER MARRIED BOYS 5 TO 15 YEARS OF AGE

Description This variable indicates the number of never married boys 5 to 15 years of age that lived in the household at the time of the survey.

Source April 1988 Labour Force Survey, Household Record Docket, Form 03, questions 33 and 34.

NUMBER OF NEVER MARRIED GIRLS 5 TO 15 YEARS OF AGE

Description This variable indicates the number of never married girls 5 to 15 years of age that lived in the household at the time of the survey.

Source April 1988 Labour Force Survey, Household Record Docket, Form 03, questions 33 and 34.

SAMPLE DESIGN AND IMPLICATIONS

The HFE Survey was a supplement to the May 1988 LFS. The Shelter Cost Survey was a March 1988 supplement. The other three surveys were conducted simultaneously in April 1988. The sample employed for these surveys is the Labour Force Survey sample, which is a multi-stage stratified clustered probability sample.

Briefly, this sample is designed to represent approximately 98% of the population. Excluded population groups are:

1. Residents of the Yukon and Northwest Territories
2. Residents of Indian Reserves
3. Residents of military barracks
4. Inmates of institutions such as prisons, penitentiaries, jails, reformatories, mental hospitals, TB hospitals, sanatoria, orphanages and homes for the aged.

In addition, households living in collective-type dwellings such as hotels, large lodging houses, clubs, logging and construction camps are excluded from this file.

SAMPLE DESIGN AND IMPLICATIONS (CONCLUDED)

Because of varying sampling and response rates each record on the file has a weight attached to it. This weighting factor reflects the sample design and incorporates the inverse of the sampling ratio (which varies significantly by geographic area) and differential response rates for households, among other things. For further information on the weighting procedure see Catalogue No. 13-207, and "HIFE Final Household Weight" of this documentation.

The sample design and weighting procedure have important implications for data use. Each variable on the file must be multiplied by the weight in order to produce valid statistical estimates of population parameters such as means, medians, modes, estimated numbers and aggregates. However, the appropriateness of using these sample survey weights in regression analysis is another issue. A useful summary of this issue is presented in DuMouchel and Duncan (1983) "Using Sample Survey Weights in Multiple Regression Analysis of Stratified Samples". Journal of American Statistical Association Volume 78, December 1983, pp 535-543.

The information necessary to estimate the standard errors is not given on this file. Most regression programs are not capable of considering design effects, even if the relevant information were available. However, generalized programs such as SAS, BMDP and SPSS produce coefficients using weighted least squares. The standard errors calculated by SPSS are much too low because the sum of the weights is used for the degrees of freedom. This can be corrected by dividing the weight on each record by the sum of the weights and multiplying by the sample size. This transformation will produce standard errors equivalent to those produced by SAS and BMDP. Specific requests to produce standard errors of estimates can also be handled on a cost-recoverable basis.

Secondly, standard errors calculated for these data using the formula for data from simple random samples may be very misleading. Sampling errors calculated from this sample design are generally higher than those using the sample random formula. As an illustration of their magnitude, see the standard error symbols published in Catalogue No. 62-202, as well as the standard error of average incomes (which estimate the sampling error) published in Catalogue No. 13-567. For information on standard errors of more complex analytic statistics (i.e. regression estimates) see the uncatalogued paper "An Investigation of Variance Estimation in Family Expenditure Surveys" and associated bibliography.

For further information on sampling and non-sampling errors associated with the survey, see Catalogue Nos. 13-218, 64-202 and 13-207.

PROCEDURES FOR MANUSCRIPT REVIEW

Because of the complexities inherent in data from household surveys, users of these data are advised to consult with the Household Surveys Division prior to publication of the data. A manuscript review service is provided by the Division to assist users. Users of microdata tapes are also advised prior to publishing their research to consult the relevant pages of the tape documentation provided regarding data reliability and the use of small samples.

The subscriber should file with Statistics Canada a copy of published research or other results based on the use of these microdata. The subscriber shall use the following form of accreditation in reference to the microdata:

"This analysis is based on the Statistics Canada microdata tape (Household Income (1987), Facilities and Equipment, 1988, Shelter Cost, 1987) which contains data collected in the (Survey of Consumer Finances, 1988, Survey of Household Facilities and Equipment, 1988, Shelter Cost Survey, 1987). All computations on these microdata were done by (name of user organization) and the responsibility for the use and interpretation of these data is entirely that of the author(s)".

Manuscripts can be forwarded to: Director
Household Surveys Division
Statistics Canada
Jean Talon Building, 5th floor
Tunney's Pasture
Ottawa, Ontario
K1A 0T6

The user should distinguish clearly in the manuscript between data derived directly from the tape on the one hand and all added assumptions, adjustments and modifications introduced by him/her on the other. For example, true wage rates cannot be calculated from the data on the tape and the researcher must specify his assumptions (for which the survey does not provide direct evidence) that would make the averages calculated from the tape appropriate proxies for such a variable.

ESTIMATES OBTAINED FROM MICRODATA FILE

The following pages contain counts obtained from this tape and are given for your use in checking computer output from the tape. On microdata files prior to the 1984 household income file (1985 facilities and equipment), households with exceptionally high incomes, large income losses from self-employment or unusual characteristics were excluded from the file. As of 1984, records with these conditions have had selected characteristics zeroed out rather than removing them from the file. Counts on the following pages include these records.

We suggest that users not release or analyse data based on a sample of less than 100 records. In fact, due to our procedure of income imputation we feel that a slightly larger minimal sample would be more appropriate. Users employing small samples may wish to consult the **Income and Housing Surveys Section**.

1988 SURVEY OF CONSUMER FINANCES

QUESTION CARD

Item 50 on F03 - Family Composition Questions and Codes

The purpose of the next question(s) is to discover how many families have remained unchanged in their composition for all of 1987. By unchanged we mean that there have been no births, deaths, arrivals or departures in the family during 1987. It does not matter if the family has moved from one dwelling to another during the year, as long as the composition of the family (as stated on the F03, Item 36) was not affected in the process.

Ask the following questions exactly as worded for the head of each family and enter a code in columns

O	and	L
R		T
L		M

FOR FAMILIES OF SIZE 2 OR MORE:

ASK ONLY FOR THE HEAD

DURING 1987, DID ANY OTHER RELATIVES LIVE WITH ...'S FAMILY?

O
R
L

If "Yes" enter "1" and END.
 If "No" enter "2" and proceed to "LT."
 If "Not sure" or "Don't know" enter "3" and END.
 If refuses to answer, leave blank and END.

DID ALL MEMBERS OF ...'S FAMILY LIVE TOGETHER FOR ALL 12 MONTHS OF 1987?

L
T
M

If "Yes" enter "1".
 If "No" enter "2".
 If "Not sure" or "Don't know" enter "3".
 If refuses to answer, leave blank.

FOR FAMILIES OF SIZE ONE:

DURING 1987, DID ... LIVE WITH ANY RELATIVES?

O
R
L

If "Yes" enter "1".
 If "No" enter "2".
 If "Not sure" or "Don't know" enter "3".
 If refuses to answer, leave blank.

DEFINITIONS

50 L - ... LIVE WITH: To share a common dwelling as a "usual" family member for at least one month.

50 M - ... LIVE TOGETHER: To share a common dwelling as the "usual place of residence." A family still "lived together" when member(s) were temporarily absent during 1987, for example, away at school, on vacation, etc.

1988 SURVEY OF CONSUMER FINANCES

QUESTION CARD

ITEM 50 ON F03 - SUPPLEMENTARY QUESTIONS AND CODES

Ask every applicable supplementary question for each person 15 years of age or over and enter a code in every column from

I	I	to	O
S	S		A
A	B		J

NOTE - BE SURE TO ASK EVERY QUESTION EXACTLY AS WORDED

I	I	IMMIGRATION STATUS
S	S	
A	B	

Is ... Canadian born?
 If "YES", code:
 00 - Persons born in Canada (including Nfld.) or Canadian by birth.
 If "NO" ask:
 Since when has ... been residing in Canada?
 45 - Persons who immigrated to Canada before 1946.
 46 to 88 - Persons who immigrated to Canada between 1946 and 1988. (Enter the last two digits of the actual year of arrival.)

M	MOTHER TONGUE
T	
C	

What is the language ... first learned in childhood and still understands?
 1 - English
 2 - French
 0 - Other

W	W	WEEKS WORKED
W	W	
D	E	

During 1987, in how many weeks did ... do any work at a job or business? (Include vacation, maternity leave, illness, strikes and lock-outs.)
 00 to 52 - e.g., 9 weeks = '09'

F	FULL-TIME OR PART-TIME WORK
P	
F	

Enter '0' if 'WW' is '00'; Otherwise, ask:
 During those weeks, was the work mostly full-time or part-time?
 1 - Full-time
 2 - Part-time
 0 - Not applicable

W	W	WEEKS UNEMPLOYED
U	U	
G	H	

Enter '00' if 'WW' is '52'; Otherwise, ask:
 During 1987, in how many weeks was ... without work and looking for work? (Include temporary lay-offs)
 00 to 52 - e.g., 7 weeks = '07'

S	STRETCHES OF UNEMPLOYMENT
U	
I	

Enter '0' if 'WU' is '00'; Otherwise, ask:
 Were those weeks all in one stretch?
 1 - Yes - 1 stretch
 2 - No - 2 stretches
 3 - No - 3 or more stretches
 0 - Not applicable

O	OTHER ACTIVITY
A	
J	

Enter '0' if 'WW' + 'WU' = '52'; Otherwise, ask:
 What was ...'s main activity during the weeks when he/she was neither working nor looking for work?
 1 - Permanently unable to work
 2 - Kept house
 3 - Went to school
 4 - Retired or voluntarily idle
 5 - Other (Specify in 'Notes' of the F03)
 0 - Not applicable

INCOME CODE - ITEM 25 ON CF06

Determine the income code by:

- performing interviewer check procedure on completed CF06, or
- asking, "Did ... receive any income during 1987?"

INCOME CODES

- Definitely determined that no income was received
- Income received and some or all details supplied
- Definitely determined that income was received but no details were supplied
- Impossible to determine whether or not income was received

LABOUR FORCE SURVEY QUESTIONNAIRE

1 FORM NO 05

Serial no 2, Survey no 3, Assignment no 4, 5, 6, 7

10 LAST WEEK DID YOU WORK AT A JOB OR BUSINESS? (Regardless of the number of hours.)

30 LAST WEEK DID YOU HAVE A JOB OR BUSINESS AT WHICH HE/SHE DID NOT WORK?

50 HAS HE EVER WORKED AT A JOB OR BUSINESS?

11 DID YOU HAVE MORE THAN ONE JOB OR BUSINESS LAST WEEK?

31 LAST WEEK DID YOU HAVE A JOB TO START AT A DEFINITE DATE IN THE FUTURE?

51 WHEN DID YOU LAST WORK AT A JOB OR BUSINESS?

12 WAS THIS A RESULT OF CHANGING EMPLOYERS LAST WEEK?

32 COUNTING FROM THE END OF LAST WEEK, IN HOW MANY WEEKS WILL YOU START TO WORK AT HIS/HER NEW JOB?

52 INTERVIEWER CHECK ITEM

13 HOW MANY HOURS PER WEEK DOES USUALLY WORK AT HIS/HER:

33 WHY WAS HE ABSENT FROM WORK LAST WEEK?

53 DID HE USUALLY WORK 30 OR MORE HOURS PER WEEK?

14 WHAT IS THE REASON USUALLY WORKS LESS THAN 30 HOURS PER WEEK?

34 DID YOU HAVE MORE THAN ONE JOB OR BUSINESS LAST WEEK?

54 WHAT WAS THE MAIN REASON WHY HE LEFT THAT JOB?

15 LAST WEEK, HOW MANY HOURS OF OVERTIME OR EXTRA HOURS DID YOU WORK?

35 HOW MANY HOURS PER WEEK DOES HE USUALLY WORK AT HIS/HER:

55 INTERVIEWER CHECK ITEM

16 LAST WEEK, HOW MANY HOURS WAS AWAY FROM WORK FOR ANY REASON? (Holiday, vacation, illness, labour dispute, etc.)

36 WHAT IS THE REASON HE USUALLY WORKS LESS THAN 30 HOURS PER WEEK?

56 IN THE PAST 6 MONTHS, HAS HE LOOKED FOR WORK?

17 WHAT WAS THE MAIN REASON FOR BEING AWAY FROM WORK?

37 UP TO THE END OF LAST WEEK, HOW MANY WEEKS HAS HE BEEN CONTINUOUSLY ABSENT FROM WORK?

57 * IN THE PAST 4 WEEKS, WHAT HAS HE DONE TO FIND WORK? Mark all methods reported.

18 HOW MANY HOURS DID HE ACTUALLY WORK LAST WEEK AT HIS/HER:

38 IS HE GETTING ANY WAGES OR SALARY FROM HIS/HER EMPLOYER FOR ANY TIME OFF LAST WEEK?

* WHEN DID HE LAST ... LOOKED FOR WORK?

19 IN THE PAST 4 WEEKS, HAS HE LOOKED FOR ANOTHER JOB?

39 INTERVIEWER CHECK ITEM

* IN THE PAST 4 WEEKS, HAS HE LOOKED FOR ANOTHER JOB?

DESCRIPTION OF MAIN JOB OR BUSINESS

72 FOR WHOM DID YOU WORK? (Name of business, government dept. or agency, or person)

Checked with: PUBLIC EMPLOYMENT AGENCY, PRIVATE EMPLOYMENT AGENCY, UNION, EMPLOYERS DIRECTLY, FRIENDS OR RELATIVES, PLACED OR REFERRED ADS, LOOKED AT JOB ADS, OTHER SOURCE, NOTES

73 WHEN DID YOU START WORKING FOR THIS EMPLOYER?

58 UP TO THE END OF LAST WEEK, HOW MANY WEEKS HAS HE BEEN LOOKING FOR WORK? (Not counting weeks worked.)

74 WHAT KIND OF BUSINESS, INDUSTRY OR SERVICE WAS THIS? (Give full description: e.g. federal government, catering industry, forestry services.)

59 WHAT WAS HIS MAIN ACTIVITY BEFORE HE STARTED TO LOOK FOR WORK?

75A WHAT KIND OF WORK WAS HE DOING? (Give full description: e.g. office clerk, factory worker, forestry technician.)

60 IS HE LOOKING FOR A JOB TO LAST MORE THAN 6 MONTHS?

75B IN THIS WORK, WHAT WERE HIS MOST IMPORTANT ACTIVITIES OR DUTIES? (Give full description: e.g. filing documents, driving vegetables, retail salesman.)

61 IS HE LOOKING FOR A FULL-TIME OR PART-TIME JOB?

76 Class of worker

62 WHAT WAS THE MAIN REASON WHY HE DID NOT LOOK FOR WORK LAST WEEK?

77 Other job

63 WAS THERE ANY REASON WHY HE COULD NOT TAKE A JOB LAST WEEK?

NOTES

64 INTERVIEWER CHECK ITEM

EDUCATIONAL ACTIVITY SINCE LAST WEEK

80 LAST WEEK, WAS HE ATTENDING A SCHOOL, COLLEGE OR UNIVERSITY?

81 WAS HE ENROLLED AS A FULL-TIME OR A PART-TIME STUDENT?

81 WAS HE ENROLLED AS A FULL-TIME OR A PART-TIME STUDENT?

82 WHAT KIND OF SCHOOL WAS THIS?

90 HRD page-the No. of person providing the above information.

1988 HOUSEHOLD FACILITIES AND EQUIPMENT SURVEY

'Q' CARD

MUST BE USED WHEN ASKING ITEM 11

The purpose of Item 11 is to gauge the current condition of a dwelling. By asking this question, it will be possible to assess whether or not the condition of Canada's dwelling stock has improved, deteriorated or stayed the same.

IS THIS DWELLING IN NEED OF ANY REPAIRS? (Do not include desirable remodelling, additions, conversions or energy improvements)

11

- Yes, MAJOR REPAIRS are needed (to correct, for example, corroded pipes, damaged electrical wiring, sagging floors, bulging walls, damp walls and ceilings, crumbling foundation, rotting porches and steps)
- Yes, MINOR REPAIRS are needed (to correct, for example, small cracks in interior walls and ceilings, broken light fixtures and switches, leaking sink, cracked or broken window panes, some missing shingles or siding, some peeling paint)
- No, only REGULAR MAINTENANCE is needed (for example, painting, leaking faucets, clogged gutters or eavestroughs)

DEFINITIONS

IMPROVEMENT: Work that upgrades the dwelling over and above its original condition.

REPAIR: Work that restores the dwelling to its original condition.

MAJOR REPAIRS: Repairs to the more serious deficiencies in the structural condition of the dwelling, as well as in the plumbing, electrical and heating systems.

MINOR REPAIRS: Repairs to deficiencies in the surface or covering material of the dwelling and to less serious deficiencies in the plumbing, electrical and heating systems.

REGULAR MAINTENANCE: Where neither major nor minor repairs are needed e.g. fixing leaky faucets, cleaning clogged eavestroughs).

1987 SHELTER COST SURVEY
