INTRODUCTION

This is the sixth in a series of microdata tapes from Statistics Canada's Survey of Consumer Finances which contain income as well as personal and labour-related characteristics of individuals aged 15 and over. A limited number of characteristics of the individual's economic and census families are also included on the tape.

The universe on this tape is all individuals aged 15 and over. This is a broader universe than the published one (Catalogue No. 13-207) which is restricted to income recipients whose major source of income was not military pay and allowances. The variable "Publication Indicator" has been added to the file to identify these additional individuals. The variable "Presence of Earnings/Other Income" has been included on the tape to assist users in identifying the published sample of (a) income recipients (codes 1 and 2) (b) earners (code 1).

Users of this tape should be aware of the following points:

1. All distributions, estimated numbers and amounts, averages, etc. must be produced using weighted values and not sample counts. For a description of the weighting factor (in position 10-14 of each individual record) and its use see the item description "Final Universal Weight" and "Sample Design and Implications" in this documentation.
2. Any estimates or percentage distributions to be published or analysed from this data set should be based on a sample of at least 100 records. This is the policy followed in our publications and is based on the fact that data produced from smaller samples is unlikely to be reliable. The purchaser of this tape is invited to submit his final manuscript(s) to the manuscript review service offered by the Division. For further information on this procedure see "Procedures for Manuscript Review" of this documentation. In the text of such manuscripts the source should be described as follows: "The analysis done for this report is based on the Statistics Canada microdata tape "Individuals aged 15 and over, with and without income in 1987" which contains data collected in the 1988 Survey of Consumer Finances. All computations on this data base were done by (name of user organisation)." If this is the only source of data in the report, it is not necessary to source each table as well. However, if there are other sources, the tables should be individually sourced. In accordance with the development of standard referencing for machine-readable data files¹, we recommend the following wording be used in bibliographies:

¹ Dodd, Sue A. "Bibliographic references for numeric social science data files: suggested guidelines". American Society for Information Science. Journal. 30(2):77-82, March 1979.

INTRODUCTION (CONCLUDED)

Source: Statistics Canada. Individuals aged 15 and over, with and without income, 1987 [machine-readable data file]. 1989 Edition. Ottawa, Ontario: Household Surveys Division [producer and distributor]. One data file (87,837 logical records) and accompanying documentation.

3. The term "reference year" refers to 1987 wherever it appears in this documentation.
4. The term "survey year" refers to 1988 wherever it appears in this documentation.
5. The term "reference week" refers to the week of April 10 to 16, 1988, the week immediately preceding the two-week period when the Survey of Consumer Finances was conducted.

A considerable effort has been made to correct inconsistencies in the data. However, unusual situations or inconsistencies may still be present. Some of these are described in the relevant pages of the tape documentation and users are therefore advised to read over the documentation to be aware of these cases. In order to improve future issues of this data set we would appreciate hearing from users regarding any problems, suggestions or comments on the tape contents or documentation.

For further information contact the Income and Housing Surveys Section, Household Surveys Division, Statistics Canada, 5th Floor, Section D2, Jean Talon Building, Ottawa, Ontario, K1A 0T6, phone (613) 951-9775.

NOTES FOR USERS OF HISTORICAL SERIES OF SCF TAPES

1. From a methodological point of view, two important changes occurred beginning with the 1987 income file:
 - (i) The weighting factor is a 100% weight. On previous files, a 10% weight was used. The factor length increased to five bytes from three bytes. In addition, a new integrated weighting procedure is used for the first time on the 1987 income file. This single weighting procedure replaces the previous procedure of separate weighting programs for economic families, census families, individuals and households. The result is that the same weight is given to all individuals and family units within a household. Previously, individuals and families within sample households could have different weights.
 - (ii) The estimated numbers of individuals used to derive weights for the 1987 income file have been re-based to 1986 Census counts corresponding to the Labour Force Survey Coverage. This affects to some degree the comparability of estimates produced from earlier tapes. For further details see the section on "Weighting" in catalogue 13-207, "Income Distributions by Size in Canada, 1987".
2. Beginning with the 1987 income file, the income concept has been expanded to include the Federal Sales Tax Credit claimed at Income Tax time. This change has a slight effect on other variables such as Total Income and Income After Tax.
3. Beginning with the 1987 income file, the size of area variable (position 8) was based on 1986 Census population counts within 1981 boundaries. Previously, it was based on 1976 populations within 1971 boundaries (1981 and 1982 income files) and 1981 Census population within 1981 boundaries (1984 to 1986 income files). The procedure of recoding unique centres was somewhat revised beginning with the 1984 income file, to provide less distortion in size of area groupings (see "Area").
4. For the 1987 income file, households in rotation 5 of the Labour Force Survey were included as well as an augmented sample in Newfoundland and Prince Edward Island.

NOTES FOR USERS OF HISTORICAL SERIES OF SCF TAPES (CONCLUDED)

5. Beginning with the 1987 income file, following revision of the low income cut-offs on the basis of 1986 Family Expenditure data, the 1986 based low income code for the economic family is provided on the tape.
6. Beginning with the 1986 income file, individuals with major source of income "Military Pay and Allowances" have been included. Prior to the 1986 income file, they were excluded. For these individuals the variable "Publication Indicator" is 0.
7. Beginning with the 1985 income file, all dollar fields have been increased from 7 to 8 bytes.
8. On microdata files prior to the 1984 income file (1985 Survey of Consumer Finances), individuals with exceptionally high incomes, large income losses from self-employment or unusual characteristics were excluded from the file. Beginning with the 1984 income file records with these conditions have had selected characteristics zeroed-out rather than removing these records from the file. Variables which have been masked have been indicated on the record layout as "Special Individual". Control counts in the last pages of this documentation include these records.
9. Beginning with the 1984 income file, the Classification of Occupations based on the 1980 Standard Occupational Classification was used for the first time.

NOTE The following 5 variables apply to census family heads or wives (i.e. position 271 = 1 or 3). All other individuals will have zero codes in these fields.

Size	Position	Type	Variable Title and Codes
CENSUS FAMILY CHARACTERISTICS			
8	239-246	N	SPOUSE'S TOTAL INCOME SUBJECT TO TAX [Position 239 contains a '+' or '-' sign]
2	247-248	N	SPOUSE'S AGE
			15-79 Actual age
			80 Age 80 or more
2	249-250	N	NUMBER OF CHILDREN UNDER 7 YEARS OF AGE
2	251-252	N	NUMBER OF CHILDREN 7-17 YEARS OF AGE
2	253-254	N	NUMBER OF CHILDREN 18-24 YEARS OF AGE
INCOME ADJUSTMENT VARIABLES*			
8	255-262	N	FAMILY AND YOUTH ALLOWANCES
8	263-270	N	CHILD TAX CREDIT

* These variables require some explanation. Following historical procedures, Family and Youth Allowances are reported in the SCF by the person claiming the children for a tax exemption, usually the male parent; although in most cases the monthly cheque is payable to the female parent. This procedure has been followed to avoid having a large number of income recipients whose only source of income is Family Allowances. Similarly, the Child Tax Credit, although usually received by the wife, is reported by the father if the wife has no other sources of income. We are providing these values at the census family level on the census family head's and wife's records so that these values can be substituted for the amounts at the individual level in "Family and Youth Allowances" and "Child Tax Credit" if the user prefers to show these payments as the wife's. For additional details and a description of some unusual situations remaining on the data tape see "Sources of Individual's Income - Family and Youth Allowances and Child Tax Credit".

SEQUENCE NUMBER

Description

This variable is a unique five-digit number which identifies each individual on the file. The numbers begin with 00001 and increment by one for each new individual in the sample up to a maximum of 87462. Special Individuals have been numbered from 99001 to 99375.

STANDARD GEOGRAPHIC CODE

Description

This two digit code identifies the province and region in which the surveyed unit is located. The first digit of the code gives the regional location and the second digit identifies the province.

Code	Classification
00	Special Individual
10	Newfoundland
11	Prince Edward Island
12	Nova Scotia
13	New Brunswick
24	Quebec
35	Ontario
46	Manitoba
47	Saskatchewan
48	Alberta
59	British Columbia

AREA

Description

This variable indicates the population size of the area in which the surveyed unit is located. Population figures used to classify this variable were obtained from the 1986 Census and apply to the population covered by the Labour Force Survey within 1981 Census boundaries to conform with the sample design.

In five cases where urban centres are unique in a given area category for their province, they have been placed in another category. One centre, Halifax, has been moved down one category. St. John's, which was unique in the next lower category, was moved down two categories. Victoria and Fredericton were moved up one category. Brandon was moved up two categories.

Code	Description
1	Large urban centres with a population of 500,000 or more
2	Large urban centres with a population of 100,000 to 499,999
3	Minor urban centres with a population of 30,000 to 99,999
4	Other urban centres with a population under 30,000
5	Rural areas

NOTE: The following page gives the cities included under codes 1, 2 and 3.

AREA (CONCLUDED)

Code 1 - Population 500,000 or more

Québec-Lévis Montréal	Ottawa Toronto	Hamilton-Burlington Winnipeg-Brandon ¹	Calgary Edmonton	Vancouver Victoria ²
--------------------------	-------------------	--	---------------------	------------------------------------

Code 2 - Population 100,000 to 499,999

Moncton	Hull	Kitchener-Waterloo
Saint John	St. Catharines-Niagara	Sudbury
Fredericton ¹	London	Thunder Bay
Chicoutimi-Jonquière	Kingston	Regina
Trois-Rivières	Oshawa	Saskatoon
Sherbrooke	Windsor	

Code 3 - Population 30,000 to 99,999

Halifax ²	St-Jean	Chatham	Prince Albert
Sydney-Glace Bay	St-Hyacinthe	Halton Hills	Medicine Hat
Sydney Mines	Sorel	Newcastle	Lethbridge
Rimouski	Baie Comeau	St. Thomas	Red Deer
Shawinigan	Sept-Îles	Woodstock	Fort McMurray
Victoriaville	Cornwall	Guelph	Chilliwack
St-Jérôme	Peterborough	Barrie	Kelowna
Drummondville	Belleville-Trenton	Sault Ste-Marie	Kamloops
Granby	North Bay	Timmins	Namaimo
Joliette	Brantford	Matsqui-Mission City	Prince George
Saleberry de Valleyfield	Sarnia	Moose Jaw	

¹ The population of Brandon and Fredericton is actually 30,000 to 99,999.

² The population of Victoria and Halifax is actually 100,000 to 499,999.

1	Included

FINAL UNIVERSAL WEIGHT

Description

This is a five-digit variable which is computed to provide weights to inflate the sample to pre-determined population totals. This weight must be used to produce valid statistics from this tape.

However, all estimated numbers and aggregates obtained from this survey should be treated as only approximate. As an illustration see the Reconciliation of **SCF** Income aggregates to National Accounts aggregates of this documentation. The reliability of the survey's estimates depends in part on the quality of independent population estimates used to determine the weights. Sampling errors are another factor in determining data quality. For further information see "Collection and Processing Procedures" in this documentation and Catalogue No. 13-207.

For information on the principle behind weighting and on the actual calculation of these weights see Catalogue No. 13-207.

For information on the sample design see the feature article in **The Labour Force, January 1985**, Catalogue No. 71-001.

For information on implications of the weights and sample design for data usage see "Sample Design and Implications" in this documentation.

MICRODATA FILE 1987 INCOME

INDIVIDUALS AGED 15 AND OVER, WITH AND WITHOUT INCOME

Description

REVISED (1991 CENSUS) WEIGHT

This microdata file contains a revised weight ("Revised 1991 census weight") in positions 10-14. The revision reflects the move to the 1991 census base, the adjustment of population estimates for net census undercoverage, and the inclusion of non-permanent residents. This weight replaces the one originally released on the file which was based on 1986 census population projections.

The "Weighted and Sample Counts for Income Variables" on pages 85 to 118 were originally included in this documentation for verification of outputs created from this file. The "sample count" values are not affected by the revision. The "weighted count"/"total weighted value" were derived from the original weights in position 10-14 and therefore are not comparable to weighted values obtained from the file. For verification of revised weighted values, a set of select estimates based on the revised weight are included on page 119.

WAGES AND SALARIES

<u>Description</u>	<p>This variable gives the sum of amounts reported as wages and salaries from civilian employment.</p> <p>Included are gross cash wages and salaries received during the reference year from all jobs, before deductions for pension funds, hospital insurance, income taxes, Canada Savings Bonds, etc. Tips of such employees as waiters and porters, earnings of farm labourers, cleaning women, newspaper boys and baby-sitters as well as net commissions (gross commissions less expenses) of a salesperson who worked for only one company at a time and did not pay for his/her own office and staff are included here.</p> <p>The value of taxable allowances and benefits provided by the employers, such as free lodging, bursaries, travelling expenses, etc. are not included.</p> <p>The wages and salaries reported should amount to the "total earnings before deductions" as shown in Box C of the T4 slips less the value of "taxable allowances and benefits" shown in box K to Q plus tips and gratuities and casual earnings for which no T-4 slips were provided.</p> <p>This variable is always positive.</p>
<u>Source</u>	Income Questionnaire, Form CF06.

MILITARY PAY AND ALLOWANCES

Description This variable gives the sum of amounts reported by all individuals on account of service as a regular member of the Armed Forces of Canada or as a member of a reserve unit, as well as payment to dependents of such servicemen. Special benefits paid upon discharge are also included.

This variable is always positive.

Source Income Questionnaire, Form CF06.

NET INCOME FROM NON-FARM SELF-EMPLOYMENT

<u>Description</u>	<p>This variable gives the sum of amounts reported by all individuals on account of various types of non-farm self-employment activities.</p> <p>Self-employment income is defined as that income received as a result of being a partner in, or sole owner of, an unincorporated business or professional practice. Only the individual's share of net income is included in the case of partnerships. A salesperson who has his/her own office or staff, or who works for more than one firm at a time, reports income under self-employment. Net income is calculated by deducting operating expenses (wages, rent, interest payments, etc.) and depreciation costs from the gross revenue of the business. Items of a capital nature (e.g. investment in new buildings) are excluded from expenses.</p> <p>Income received from businesses which have corporate status is reported as wages and salaries or as dividends (under investment income).</p> <p>This variable may be positive, indicating a business profit, or negative, indicating a loss.</p>
<u>Source</u>	Income Questionnaire, Form CF06.

NET INCOME FROM FARM SELF-EMPLOYMENT

Description

This variable gives the sum of amounts reported by all individuals on account of net income from farm self-employment.

Net income from farming is calculated by deduction operating expenses (wages, rent, interest payments, etc.) and depreciation costs from the gross revenue of the farm. Items of a capital nature (e.g. investment in new buildings) are excluded from expenses. Government supplementary payments are included in gross revenue. The value of income in kind is not included. In the case of partnerships, only the individual's share of net income is included.

Income from farms which have a corporate status is recorded as wages and salaries or dividends, not self-employment income.

This variable may be positive, indicating profits, or negative, indicating losses.

Source

Income Questionnaire, Form CF06.

NET INCOME FROM ROOMERS AND BOARDERS

Description This variable gives the sum of net income from roomers and boarders reported by the individual. Payments of room and board from relatives are not included.

 This variable is always positive.

Source Income Questionnaire, Form CF06.

TOTAL NET INCOME FROM SELF-EMPLOYMENT

Description This variables gives the sum of amounts reported by all individuals on account of net income from self-employment (both farm and non-farm) and net income from roomers and boarders. It equals the sum of the three previous variables.

This variable may be positive or negative.

Source Income Questionnaire, Form CF06.

TOTAL EARNINGS

Description This variable gives the sum of amounts reported on account of wages and salaries, military pay and allowances, net income from both farm and non-farm self-employment and net income from roomers and boarders.

This variable may be positive or negative.

Source Income Questionnaire, Form CF06.

TOTAL INCOME FROM INVESTMENT

Description This variable gives the sum of amounts reported by the individual on account of investment income.

This source of income includes interest received on bonds, deposits and savings certificates from Canadian or foreign sources, dividends received from Canadian and foreign corporate stocks, cash dividends received from insurance policies, net rental income from real estate and farms, interest received on loans and mortgages, regular income from an estate or trust fund and other investment income.

This variable may be positive or negative.

Source Income Questionnaire, Form CF06.

Note for the 1987 data tape:

For Canada Savings Bonds, Series S35, the amount of total interest received during the reference year as shown on the Ownership Certificate (T600) is included here, but not the principal.

FAMILY AND YOUTH ALLOWANCES

Description

This variable gives the amount received by the individual on account of Federal and Provincial family and youth allowances. The Provincial programme included is for Quebec.

The amount of family and youth allowances received is reported by the person who claimed a personal tax exemption for the child(ren) for whom the allowance was paid. If neither parent (or guardian) claimed an exemption for the child(ren), the person to whom the cheque was made out was to report the payments.

This variable is always positive.

Source

Income Questionnaire, Form CF06.

CHILD TAX CREDIT

<u>Description</u>	<p>This variable gives the amount of the Child Tax Credit as claimed on the T1 Schedule 10 (if a Child Tax Credit Prepayment was received) or on the T1-General or on the T1-Special Individual Income Tax Return (if a Prepayment was not received). This amount was to be reported on the survey questionnaire by the person who received the Family Allowance payment in December of the reference year (usually the female parent). If tax credits were this person's only source of income, the amount was transferred to the spouse. (Family Allowance payments, however, are reported by the person who claimed the children for a tax deduction.)</p> <p>It should be noted that the tax credit amount reported is for the <u>taxation</u> year (reference year). This amount may have been received in cash (in the survey year as well as during the reference year for any Prepayment amounts) or may have only resulted in a reduction in total income tax paid.</p> <p>This variable is always positive.</p>
<u>Source</u>	Income Questionnaire, Form CF06.

OLD AGE SECURITY, GUARANTEED INCOME SUPPLEMENT AND SPOUSE'S ALLOWANCE

Description

This variable gives the amount received by all individuals 65 years of age and over on account of Old Age Security Pensions and the Guaranteed Income Supplement as well as amounts of spouses' allowances received by eligible spouses age 60-65. Supplements from provincial governments are included in "Social Assistance and Provincial Income Supplements."

This variable is always positive.

Source

Income Questionnaire, Form CF06.

CANADA/QUEBEC PENSION PLAN BENEFITS

Description This variable gives the amount reported by the individual as benefits received under the Canada/Quebec Pension Plans.

This includes retirement pensions, survivor's benefits such as widow's pensions, disabled widower's pensions, orphan's benefits, and disability pensions with benefits for dependent children of disability pensioners. Lump sum death benefits received under these plans are not included.

This variable is always positive.

Source Income Questionnaire, Form CF06.

UNEMPLOYMENT INSURANCE (UIC) BENEFITS

Description This variable gives the sum of the amounts reported by the individual on account of the Unemployment Insurance scheme. This should equal the amount from the Box entitled, "Total Benefits" of the T-4U Income Tax slip and includes benefits for sickness, maternity, work-sharing, retraining and retirement. Benefits paid to self-employed fishermen are also included.

This variable is always positive.

Source Income Questionnaire, Form CF06.

SOCIAL ASSISTANCE AND PROVINCIAL INCOME SUPPLEMENTS

Description

This variable gives the amount reported by the individual as received for social assistance from provincial or municipal governments. Also included are payments received from provincial income supplement programs.

Benefits include assistance to needy mothers with dependent children, to the blind and disabled as well as other cash payments to any persons in need.

This variable is always positive.

Source

Income Questionnaire, Form CF06.

OTHER INCOME FROM GOVERNMENT SOURCES

Description

This variable gives the sum of amounts reported by all individuals on account of all other payments received from federal, provincial or municipal governments not reported in previous variable fields. It also includes refundable provincial tax credits and the federal Sales Tax Credit as claimed on Individual Income Tax Return Forms.

Examples of payments included are veteran's pensions, pensions to widows and dependents of veterans, civilian war allowances, worker's compensation, payments received from training programs sponsored by the federal and provincial governments, Quebec Work Assistance programs, Quebec Maternity Allowance, regular payments received from provincial automobile insurance plans and provincial grants for home ownership promotion, mortgage interest rate reduction and property improvement.

Refundable provincial tax credits included are the amounts claimed on the Individual Income Tax Returns under "Summary of Tax and Credits" for Ontario and Manitoba. Quebec's Real Estate Tax Refund as claimed on Schedule B and Quebec Allowance for Children Under 6 years of age are also included. These amounts may have been received in cash (probably during survey year) or may have resulted in a reduction in total income tax payable.

This variable is always positive.

Source

Income Questionnaire, Form CF06.

NOTE:

1987 was the first year that federal Sales Tax Credit was included in Other Income From Government Sources.

TOTAL GOVERNMENT TRANSFER PAYMENTS

Description This variable gives the sum of amounts received by all individuals on account of Family and Youth Allowances, Old Age Security pension and Guaranteed Income Supplement, Canada/Quebec Pension Plan benefits, Unemployment Insurance, Child Tax Credit, Provincial Tax Credits, Federal Sales Tax Credit, Social Assistance and Other Government Transfer Payments. It equals the sum of the seven variables preceding it on the record layout.

This variable will always be positive.

Source Income Questionnaire, Form CF06.

NOTE: 1987 was the first year that federal Sales Tax Credit was included in Total Government Transfer Payments.

TAXABLE GOVERNMENT TRANSFER PAYMENTS

Description

This variable gives the sum of amounts reported as receipts from government transfer programs which are taxable. This amount is calculated during the survey processing, not reported by individuals as the amounts reported on their Individual Tax Returns. This variable should be used with this in mind and any reports or publications derived from this tape using this variable should mention our reservations about its use. The following amounts were included:

1. Family and Youth Allowances - all amounts;
2. Basic Old Age Security (OAS) - Amounts reported as OAS-GIS could be separated into two components only by assuming that all amounts, up to and including a value equal to the basic OAS amount for reference year, were OAS for each recipient;
3. Canada/Quebec Pension Plan Benefits - all amounts;
4. Unemployment Insurance Benefits - all amounts;
5. Any other income from government sources - Respondents were requested to specify the source of these payments.

This variable is always positive.

Source

Income Questionnaire, Form CF06.

NON-TAXABLE GOVERNMENT TRANSFER PAYMENTS

<u>Description</u>	
	Non-taxable transfers is also calculated during the survey processing and is subject to the same types of errors as taxable transfers. The following amounts are included:
	1. Guaranteed Income Supplement (GIS) - Amounts reported as OAS/GIS by any individual which are in excess of the basic OAS maximum value are assumed to be GIS and therefore non-taxable. This is not a strictly accurate procedure as payments received only part of the year may total less than the basic OAS maximum value but may, in fact, include GIS amounts.
	2. Social Assistance and Provincial Income Supplements - all amounts.
	3. Other Income from Government Sources - Respondents were asked to specify the source of these payments. The following sources were non-taxable:
	(a) Veteran's pensions,
	(b) Pensions to widows and dependents of veterans,
	(c) Workers' Compensation,
	(d) Naval Pension,
	(e) Automobile Insurance Board of Quebec.
	4. Child Tax Credit.
	5. Provincial Tax Credits.
	6. Federal Sales Tax Credit.
	This variable is always positive.

Source Income Questionnaire, Form CF06.

NOTE: 1987 was the first year that federal Sales Tax Credit was included in Non-Taxable Government Transfer Payments.

RETIREMENT PENSIONS, SUPERANNUATION AND ANNUITIES

Description

This variable gives the amount reported by the individual as the result of having been a member of a pension plan of one or more employers, except for pensions received from abroad which are included in Other Money Income (see next page).

Widows or other relatives of a deceased pensioner, who have pension rights under a pension plan or who become beneficiaries in cases guaranteed for a minimum period even if the pensioner dies, include this pension income here (unless it falls under the Canada or Quebec Pension Plan benefits). Also included are pensions of retired R.C.M.P. officers, armed forces personnel and civil servants, and annuity payments received from Canadian Government Annuities Fund, an insurance company or other sources whether or not it was this person who purchased the annuity originally. Pensions received from registered retirement savings plans in the form of a life annuity, a fixed term annuity, a registered retirement investment fund or an income-averaging annuity contract are also included.

Refunds of pension fund contributions because an employee has resigned, are not considered income, and therefore, are not included. Withdrawals from a pension plan or RRSP, or refunds of overcontributions as well as all lump sum benefits are not included. Severance pay is reported in "Other Money Income".

This variable is always positive.

Source

Income Questionnaire, Form CF06.

OTHER MONEY INCOME

Description This variable gives the amount reported by the individual on account of other money income not included in the previous variables.

Included in this amount are:

- (a) Money received for the care of children being cared for on behalf of the Children's Aid Society.
- (b) Income received from abroad in Canadian dollar equivalent, including pensions, severance pay and retirement allowances, but not including interest and dividends.
- (c) Non-refundable scholarships and bursaries.
- (d) Alimony.
- (e) Royalties on books, oil wells, etc.
- (f) Strike and sick pay from trade unions.
- (g) Payments from an income maintenance insurance plan or a guaranteed annual wage plan.

Excluded are:

- (a) Gambling gains and losses.
- (b) Money inherited during the year in a lump sum.
- (c) Capital gains or losses.
- (d) Receipts from the sale of property or personal belongings.
- (e) Income tax refunds.
- (f) Loans repaid to the respondent as lender.
- (g) Loans received.
- (h) Lump sum settlements of insurance policies.
- (i) Rebates received on property taxes or other taxes.
- (j) Refunds of pension contributions.
- (k) Income in kind.
- (l) Lump sum withdrawals from a Registered Retirement Savings Plan (RRSP).

This variable is always positive.

Source Income Questionnaire, Form CF06.

TOTAL INCOME

Description This variable is the sum of receipts from the sources described on previous pages of this documentation and is equal to the sum of the following income items: Total Earnings, Total Investment Income, Total Government Transfer Payments, Retirement Pensions, Superannuation and Annuities and Other Money Income.

This variable may be positive, negative or zero.

Source Income Questionnaire, Form CF06.

NOTE: 1987 was the first year that the federal Sales Tax Credit was included in Total Income.

TOTAL INCOME TAX

Description This variable gives the total Federal and Provincial income tax payable by the individual for the calendar (or taxation) year that is the same as the reference year.

This variable is always positive.

Source Income Questionnaire, Form CF06.

INCOME AFTER TAX

Description This variable is calculated as 'Total Income' minus 'Total Income Tax' for each individual.
This variable may be positive or negative.

Source Income Questionnaire, Form CF06.

MAJOR SOURCE OF INCOME

Description

This variable identifies the largest source of the individual's total income.

The absolute values in the eight categories shown below are compared to find out which is the largest. If the largest absolute value is common to more than one variable, then the lowest code is selected.

Code	Classification
1	No income
2	Wages and salaries
3	Total net income from self-employment
4	Total government transfer payments
5	Total investment income
6	Retirement pensions, superannuation and annuities
7	Other money income
8	Military pay and allowances

Source

Income questionnaire, Form CF06.

NOTE:

1987 was the first year that the federal Sales Tax Credit was included in Total Government Transfer payments prior to determination of major source of income.

PROPORTION CONTRIBUTED BY THIS INDIVIDUAL TO FAMILY'S TOTAL EARNINGS

Description

The code in this variable indicates the proportion contributed by the individual to the family's total earnings. Total earnings is the sum of wages, salaries, military pay and allowances, net income from self-employment and net income from roomers and boarders.

This variable is coded according to the following procedure:

DECISION TABLE			
Code	Classification	Family Value	Individual Value
1	Family and individual have zero or negative value	"0" and under	"0" and under
2	76-100%	"0" and under More than "0"	"more than 0" "More than 0" and calculated proportion is equal or greater than .75
3	51-75%	More than "0"	"More than 0" and calculated proportion = .51 to .75
4	26-50%	More than "0"	"More than 0" and calculated proportion = .26 to .50
5	1-25%	More than "0"	"More than 0" and calculated proportion = .01 to .25
6	0%	More than "0"	"More than 0" and calculated proportion less than .01 "0 and under"

PROPORTION CONTRIBUTED BY THIS INDIVIDUAL TO FAMILY'S TOTAL INCOME

Description The code in this variable indicates the proportion contributed by the individual to the family's total income. Total income is income received from any of the sources collected in the survey and described on preceding pages of this documentation.

This variable is coded according to the following procedure:

DECISION TABLE			
Code	Classification	Family Value	Individual Value
1	Family and individual have zero or negative value	"0" and under	"0" and under
2	76-100%	"0" and under More than "0"	"More than 0" "More than 0" and calculated proportion is equal or greater than .75
3	51-75%	More than "0"	"More than 0" and calculated proportion = .51 to .75
4	26-50%	More than "0"	"More than 0" and calculated proportion = .26 to .50
5	1-25%	More than "0"	"More than 0" and calculated proportion = .01 to .25
6	0%	More than "0"	"More than 0" and calculated proportion less than .01 "0 and under"

PRESENCE OF EARNINGS/OTHER INCOME

Description

This variable has been included on the tape to assist users in identifying selected samples of earners and income recipients as published in Catalogues No. 13-207 and 13-217. Code 1 identifies earners. It is possible that Total Earnings (positions 61-68) will be zero for some earners if positive and negative sources of earnings cancel each other. Codes 1 and 2 together identify income recipients. Again, Total Income could be zero for similar reasons. Code 3 identifies individuals with no income (all sources = zero) who are excluded from our publications.

Code	Classification
1	Earnings present
2	No earnings but other income
3	No income

ECONOMIC FAMILY

TOTAL EARNINGS CODE

Description This variable gives the sum of amounts reported by all family members age 15 or over on account of wages and salaries, military pay and allowances, net income from both farm and non-farm self-employment and net income from roomers and boarders.

Source Income Questionnaire, Form CF06.

NOTE: This variable is coded as follows on the tape:

Code	Classification
01	Zero or negative
02	\$ 1 - \$ 9,999
03	10,000 - 14,999
04	15,000 - 19,999
05	20,000 - 24,999
06	25,000 - 29,999
07	30,000 - 34,999
08	35,000 - 39,999
09	40,000 - 49,999
10	50,000 - 59,999
11	60,000 and over

ECONOMIC FAMILY

TOTAL INCOME CODE

Description This variable gives the sum of amounts reported by all family members age 15 or over from the income sources described on previous pages of this documentation.

This variable may be positive, negative or zero.

Source Income Questionnaire, Form CF06.

NOTE: This variable is coded as follows on the tape:

Code	Classification
01	Zero or negative
02	\$ 1 - \$ 9,999
03	10,000 - 14,999
04	15,000 - 19,999
05	20,000 - 24,999
06	25,000 - 29,999
07	30,000 - 34,999
08	35,000 - 39,999
09	40,000 - 49,999
10	50,000 - 59,999
11	60,000 and over

ECONOMIC FAMILY

MAJOR SOURCE OF INCOME

Description

This variable gives the largest source of the economic family's total income.

The absolute values in the eight categories shown below are compared to find out which is the largest. If the largest absolute value is common to more than one variable, then the lowest code is selected.

Code	Classification
1	No income
2	Wages and salaries
3	Total net income from self-employment
4	Total government transfer payments
5	Total investment income
6	Retirement pensions, superannuation and annuities
7	Other money income
8	Military pay and allowances

Source

Income questionnaire, Form CF06.

NOTE:

1987 was the first year that the federal Sales Tax Credit was included in Total Government Transfer prior to determination of Major Source of Income.

ECONOMIC FAMILY

NUMBER OF EARNERS

Description This variable gives the actual number of persons in the family who received income from wages, salaries, military pay and allowances, self-employment or roomers and boarders.

Source Income Questionnaire, Form CF06.

NUMBER OF PERSONS WITH INCOME

Description This variable gives the actual number of persons in the family who received income from any of the sources collected in the survey and described on previous pages of this documentation.

Source Income Questionnaire, Form CF06.

NUMBER OF UNEMPLOYMENT INSURANCE RECIPIENTS

Description This variable gives the actual number of persons in the family who reported having received money from the federal unemployment insurance program.

Source Income Questionnaire, Form CF06.

ECONOMIC FAMILY

COMBINATION OF UNEMPLOYMENT INSURANCE RECIPIENTS

Description The code in this variable indicates whether any family member received unemployment insurance benefits during reference year, and whether or not the head was a UI recipient.

Code	Classification
1	Nobody
2	Includes head
3	Does not include head

Source Income Questionnaire, Form CF06.

ECONOMIC FAMILY

LOW INCOME CODE (1978 BASE)

Description

This code indicates whether or not the family unit falls below the 1978 base low income cut-off. These cut-offs were determined by adjusting the low income lines developed after analysis of 1978 Family Expenditure data for increasing prices, as reflected in the Consumer Price Index. These 1978 base low income limits reflect more recent consumption patterns of Canadian families. As the overall ratio spent on food, shelter and clothing had declined since 1969, families who on average spent 58.5% or more of their income on this type of goods and services were considered to be in straitened circumstances.

The cut-offs for 1987 economic family incomes are as follows:

Family Size	Size of Area of Residence				
	500,000 or more	100,000- 499,999	30,000- 99,999	Urban less than 30,000	Rural Areas
1	11,118	10,559	9,906	9,158	8,222
2	14,669	13,923	12,990	12,052	10,746
3	19,623	18,595	17,379	16,166	14,389
4	22,612	21,490	20,089	18,687	16,634
5	26,349	24,949	23,266	21,678	19,343
6	28,779	27,190	25,416	23,639	21,117
7 or more	31,676	29,994	28,032	26,069	23,266

For a more detailed discussion of the analysis underlying these revised cut-offs, a technical paper "Rebasing Low Income Cut-Offs to 1978" is available. For a general discussion of the history and interpretation of low income cut-offs see the Appendix in the 1980 issue of Catalogue No. 13-207.

Code	Classification
1	Below low income cut-off
2	Equal to or above low income cut-off

ECONOMIC FAMILY

LOW INCOME CODE (1986 BASE)

Description

This code indicates whether or not the family unit falls below the 1986 base low income cut-off. These cut-offs were determined by adjusting the low income lines developed after analysis of 1986 Family Expenditure data for increasing prices, as reflected in the Consumer Price Index. These 1986 base low income limits reflect more recent consumption patterns of Canadian families. As the overall ratio spent on food, shelter and clothing had declined since 1969, families who on average spent 56.2% or more of their income on this type of goods and services were considered to be in straitened circumstances.

The cut-offs for 1987 family incomes are as follows:

Family Size	Size of Area of Residence				
	500,000 or more	100,000- 499,999	30,000- 99,999	Urban less than 30,000	Rural Areas
1	12,366	10,861	10,610	9,672	8,418
2	16,762	14,723	14,383	13,111	11,412
3	21,306	18,713	18,281	16,665	14,505
4	24,531	21,545	21,047	19,187	16,700
5	26,802	23,540	22,996	20,964	18,246
6	29,092	25,551	24,962	22,755	19,805
7 or more	31,290	27,482	26,848	24,475	21,302

For a more detailed discussion of the analysis underlying these revised cut-offs, a technical paper "Rebasing Low Income Cut-Offs to 1986" is available. For a general discussion of the history and interpretation of low income cut-offs see the Appendix in the 1980 issue of Catalogue No. 13-207.

Code	Classification
1	Below low income cut-off
2	Equal to or above low income cut-off

NOTE: 1987 was the first year that the Low Income Code (1986 Base) was included on the microdata file.

HOUSEHOLD CHARACTERISTICS

NUMBER OF PERSONS WHO ARE NOT MEMBERS OF THIS ECONOMIC FAMILY UNIT

Description This variable indicates the actual number of persons in the household who are not related to this individual.

Source Household Record Docket, Form 03.

ECONOMIC FAMILY CHARACTERISTICS

NUMBER OF PERSONS

Description This variable gives the actual number of persons in the family.

Source Household Record Docket, Form 03.

CHARACTERISTICS

Description The code in this variable indicates the composition of the economic family.

Code	Classification
1	Unattached individual
2	Husband-wife only
3	Husband-wife family with single child(ren) only
4	Other husband-wife families
5	Lone parent family with single child(ren) of any age
6	All other families

Source Household Record Docket, Form 03.

ECONOMIC FAMILY CHARACTERISTICS

TENURE

Description

This variable gives the housing status of the economic family at the time of the Labour Force Survey in April, of the survey year.

Code	Classification
1	Owned with mortgage
2	Owned without mortgage
3	Rented
4	Other (secondary families in the household)

This coding is derived from a question which only asks if the dwelling is owned by a member of the household. If the dwelling is owned by a household member, it is assumed that it is owned by the first economic family listed on the questionnaire. If not owned by a household member, then the primary economic family is coded as renters. This assumes that the primary family cannot have a rent-free arrangement.

Secondary economic families are always code 4, which could mean rent-free accommodation, roomers, lodgers, employees or other miscellaneous arrangements. Dwellings owned or rented in partnership by two or more economic families are not identified so the secondary economic family is always coded "Other".

A dwelling is considered "owned" whether or not it has been fully paid for. Dwellings in multiple dwelling structures (e.g. apartment buildings) which are owned under a co-ownership arrangement are also coded "owned". People living in condominiums which are not yet registered are not coded as owners.

Household Record Docket, Form 03.

CENSUS FAMILY

SPOUSE'S TOTAL INCOME SUBJECT TO TAX

Description

For individuals who are heads or wives in a census family this variable indicates the amount of their spouse's income which is subject to income tax: (i.e. on the head's record this will be his wife's amount, if a wife is present; on the wife's record this will be the husband's amount) the census family relationship code identifies whether this is a head or wife. If there is no spouse present the field is 0. This amount is the calculated sum of the following components (not the amount stated on the Individual Tax Return):

- Wages and Salaries
- Military Pay and Allowances
- Net Income from Non-farm Self-employment
- Net Income from Farm Self-employment
- Net Income from Roomers and Boarders
- Interest
- Taxable Amount of Dividends (1.5 x actual dividends amount received)
- Other Investment Income
- Family Allowances
- Old Age Security Pension (amounts up to and including the basic OAS maximum for persons aged 65 and over)
- Canada/Quebec Pension Plan Benefits
- Unemployment Insurance Benefits
- Retirement Pensions
- Superannuation and Annuities
- Taxable Capital Gains and Losses
- Taxable Other Income from Government Sources
- Taxable Other Money Income

This variable may be either positive or negative.

Source

Income Questionnaire, Form CF06.

CENSUS FAMILY

SPOUSE'S AGE

Description

For individuals who are census family heads or wives the age in this variable is the actual age of their spouse (i.e., on the head's record the wife's age is given; on the wife's record the head's age is given). Heads and wives are identified by position 271 (see "Relationship to Head of Census Family").

Source

Household Record Docket, Form 03.

CENSUS FAMILY

NUMBER OF CHILDREN

Description

This series of variables gives the actual number of never-married children in the census family who belong in each of the age categories listed below. In addition to the family head's own children, this includes grandchildren, brothers, sisters and other guardianship children in the family. These variables are coded on the tape only for individuals who are heads or wives in census families. Individuals who are not heads or wives will be coded zero.

Variables

Code

Under 7 years of age

Actual number

7-17 years of age

Actual number

18-24 years of age

Actual number

Source

Household Record Docket, Form 03.

CENSUS FAMILY

FAMILY AND YOUTH ALLOWANCES

Description

This variable indicates the total payments received by the census family under the federal and Quebec programs. In almost all cases, these payments are reported by only one person in the family, either the head or wife whichever person claimed a personal tax exemption for the child(ren) in respect of whom the allowance was paid.

Tape users who would prefer to consider these payments as either the wife's (or the husband's) income in all cases may do so by using this amount instead of the value in Sources of Individual's Income - Family and Youth Allowances.

Users should realize that other variables may also require adjustment (e.g. Total Government Transfers, Total Income, Major Source of Income, Proportion Contributed to Family Income, etc.).

In census families both the head and wife may have reported Family Allowances.

Source

Income Questionnaire, Form CF06.

CENSUS FAMILY

CHILD TAX CREDIT

Description

This variable gives the amount of the Child Tax Credit received by this person's census family. In most cases, the recipient is the head or wife.

Tape users who would prefer to consider these payments as either the wife's (or the husband's) income in all cases may do so by using this amount instead of the value in Sources of Individual's Income - Child Tax Credit. Users should realize that other variables may also require adjustment (e.g. Total Government Transfers, Total Income, Major Source of Income, Proportion Contributed to Family Income, etc.).

Source

Income Questionnaire, Form CF06.

RELATIONSHIP TO HEAD OF CENSUS FAMILY

Description

For purposes of using the data in the preceding 5 variables which are given only on records of census family heads and wives, this variable identifies these heads and wives.

A census family consists of either a husband and wife (with or without children who have never married) or one parent with one or more children (who have never married), who are living together in the same dwelling. Once a son or daughter marries, he or she ceases to be a member of the parents' census family even if continuing to live under the same roof. A child who is living under the care of persons other than its own parents is considered a guardianship child (e.g. a grandchild not living with parents but with grandparents) and is a member of their census family. Foster children and wards of Children's Aid Society are treated as guardianship children. A guardianship child must be under 21 and not have married.

A person who is living alone, with unrelated individuals (as a lodger, employee or partner), or living with relatives but not in a husband-wife or parent-child relationship is a person not in family. If related to the household head, he (or she) may be a widowed parent, a sister or brother, aunt or uncle, a child who has been married and is living with parent or parents or another relative of the head of household.

The head of the census family is always the husband or parent. The head of a one-person census family is the person himself. The head must always be 15 years of age or over. Therefore, in rare cases where a person under 15 lives with non-relatives, this person is classified as a guardianship child in their census family.

Under Labour Force Survey procedures, members of the household are divided into economic families at the time of the interview. The method of selection of the head of each economic family is described on following pages.

CENSUS FAMILY RELATIONSHIP - [Concluded]

Description
[Conc.]

During the processing, census families are derived from the economic families according to the individual relationships to the head of each economic family. For the **Survey of Consumer Finances**, in cases of married couples where the female is coded head and the male is coded spouse, the relationships are switched so that, for historical comparability, males will always be heads in married couple situations. This relationship switch is not done for Labour Force Survey statistics.

Please note that the head of the family is not necessarily the major income recipient. In fact, the head may have received no income at all.

Code	Classification
1	Head of two parent family
2	Person not in family or head of lone-parent family
3	Wife of two parent family
4	All other individuals

Source

Household Record Card, Form F03.

RELATIONSHIP TO HEAD OF ECONOMIC FAMILY

Description

An economic family is defined as a group of individuals sharing a common dwelling unit who are related by blood, marriage or adoption. A person living alone or rooming in a household where he is not related to any other household members is called an "unattached individual" and is treated as an economic family unit by himself.

Under Revised Labour Force Survey procedures, members of the household are divided into economic families at the time of the interview. The head of each family is selected by the person interviewed with only the following restrictions:

If...

Then...

A family group consists of parent(s) and "single" children...

...The respondent selects either one of the parents as the head of the family
(or if the respondent is unable or unwilling):
 ...one of the parents is selected by the interviewer; whoever is the one mainly responsible for the maintenance of the family

A family group consisting of parent(s) and married, widowed, divorced or separated son/daughter or son/daughter-in-law...

...The respondent selects either one of the parents or the son/daughter or son/daughter-in-law
(or if the respondent is unable or unwilling):
 one of the parents or the son/daughter or son/daughter-in-law is selected by the interviewer, whoever is the one mainly responsible for the maintenance of the family

A family consists of brothers and/or sisters, and/or other group of related persons...

...The respondent selects one person as the head of the family
(or if the respondent is unable or unwilling):
 ...the head of the family is selected by the interviewer as whoever is either the eldest or the one mainly responsible for the maintenance of the family

 RELATIONSHIP TO HEAD OF ECONOMIC FAMILY - [Concluded]

Description
 (Conc'd)

During processing of the **Survey of Consumer Finances**, in cases of married couples where the female is coded head and the male is coded spouse, the relationships are switched so that, for historical comparability, males will always be heads in married couple situations. This relationship switch is not done for Labour Force Survey statistics.

The head of the family is therefore characterized as follows:

- (1) In families consisting of married couples with or without children, the husband is the head;
- (2) In single-parent families with unmarried children, the parent is the head;
- (3) In single-parent families with married children, the member who is mainly responsible for the maintenance of the family becomes the head;
- (4) In families where the relationships are other than husband-wife or parent-child, normally the eldest is considered the head.

Please note that the head of the family is not necessarily the major income recipient. In fact, the head may have received no income at all.

Codes	Classification
1	Head
2	Wife
3	Child or child-in-law
4	Other relative

Source

Household Record Card, Form F03.

INDIVIDUAL'S PERSONAL CHARACTERISTICS

Description

The following characteristics are determined at the time the individual enters the Labour Force Survey (from November of the reference year to March of the survey year).

The interviewers are instructed not to update Age if the respondent's birthday falls within the six month period he/she is in the Labour Force Survey. Other characteristics may be updated if the interviewer detects a change of status.

Code MARITAL STATUS

- 1 Single (never married)
- 2 Married or living common-law
- 3 Other

Code AGE

- 15-79 Actual age
- 80 Age 80 or more

Code SEX

- 1 Male
- 2 Female

Source

Household Record Docket, Form 03.

EDUCATION LEVEL

Description

This variable gives the highest level of education completed by this individual at the time of his/her entry into the Labour Force Survey (December of the reference year to March of the survey year).

Users should note that the codes do not show definite breaks between completed and uncompleted secondary school education, and between some university and other post-secondary education.

Code	Classification
1	No schooling or elementary
2	9 or 10 years of elementary and secondary
3	11 years of elementary and secondary
4	12 years of elementary and secondary
5	13 years of elementary and secondary
6	Some post-secondary
7	Post-secondary certificate or diploma
8	University degree

Source

Household Record Docket, Form 03.

ATTENDED SCHOOL IN REFERENCE WEEK

Description

This variable refers to attendance at any type of public or private educational establishment in the reference week. Only credit courses which are counted towards a degree, diploma or certificate are included. Personal interest courses are not included.

A person is considered to be attending a school, college or university if he or she received instruction during reference week or was engaged in other scholastic or academic activities such as doing research towards a degree, diploma or certificate. Employed persons receiving classroom training sponsored by their employer are considered as attending school only if the instruction is given at a public educational institution, such as a university or community college. They are also considered to be attending school:

1. If the person would have been attending school except that he or she was temporarily ill or disabled.
2. If the person is enrolled in school but is on a short vacation within the school year not exceeding 30 days.
3. If the person would have been attending school but did not because of a labour dispute such as a teachers' strike.

Full-time or part-time enrolment normally depends on the number of courses a person is enrolled in. This distinction differs from school to school.

Code	Classification
1	Yes - enrolled as a full-time student
2	Yes - enrolled as a part-time student
3	Did not attend school in reference week

Source

Labour Force Questionnaire, Form 05.

TYPE OF SCHOOL ATTENDED

Description The code in this variable indicates the type of educational institution attended during reference week.

Code	Classification
1	Primary and secondary
2	University
3	Community college, other
4	Did not attend school in reference week

Source Labour Force Questionnaire, Form 05.

IMMIGRATION STATUS

Description

This variable indicates if the individual was born in Canada (or born outside of Canada of Canadian parents who registered the child as Canadian), and, if not, it gives the period of years since which he/she has been residing in Canada. Persons born in Newfoundland prior to March 31, 1949 are coded Canadian born. For persons who immigrated to Canada more than once, the most recent year of immigration applies.

Because the survey only collects income received while in Canada, a complete picture is not given of the income situation of immigrants. For arrivals during reference year part-year income is collected but for arrivals during the survey year only small amounts of family allowances may be present if they have been transferred from another family member during the survey processing.

Code	Classification
1	Canadian born
2	Arrived before 1946
3	Arrived 1946-1955
4	Arrived 1956-1965
5	Arrived 1966-1970
6	Arrived 1971-1975
7	Arrived 1976-1980
8	Arrived 1981-Survey year

Source

Household Record Docket, Form 03.

MOTHER TONGUE

Description This variable gives the language which the individual first learned and still understands. If the person no longer understands the language first learned, then the next language he/she learned which is still understood is coded.

Code	Classification
0	Special Individuals
1	English
2	French
3	Other

Source Household Record Docket, Form 03.

TYPE OF HOUSEHOLD

Description The codes in the variable indicate the living arrangements of the individual in terms of their status as an unattached individual or family member and the presence of an unrelated family or individual(s).

Code	Classification
1	Unattached individual, living alone
2	Unattached individual, living with an unrelated family
3	Unattached individual, living only with other unattached individual(s)
4	Family member, no unrelated persons in the household
5	Family member, unrelated persons also present in the household

Source Household Record Docket, Form 03.

LABOUR FORCE STATUS (REFERENCE WEEK)

Description

This variable gives the labour force status of the individual during the reference week. The definitions used for these categories are the same as for the Labour Force Survey. The labour force comprises the civilian non-institutional population age 15 and over who were employed or unemployed in the reference week.

The employed includes all persons who, during the reference week:

- (a) did any work for pay or profit
- (b) did any unpaid work which contributed directly to the operation of a farm, business or professional practice owned or operated by a related member of the same household
- (c) had a job but were not at work due to:
 - own illness or disability
 - personal or family responsibilities
 - bad weather
 - labour dispute
 - vacation
 - other reason not specified above (excludes persons on lay-off and persons whose job attachment was to a job to start at a definite date in the future)

The unemployed includes those persons who during the reference week:

- (a) were without work, had actively looked for work in the past four weeks (ending with reference week), and were available for work.
- (b) had not actively looked for work in the past four weeks but had been on lay-off for twenty six weeks or less and were available for work. Persons are classified as being on lay-off only when they expect to return to the job from which they were laid off.
- (c) had not actively looked for work in the past four weeks but had a new job to start in four weeks or less from reference week, and were available for work.

LABOUR FORCE STATUS (REFERENCE WEEK) [CONCLUDED]

Description
(Conc'd)

Persons meeting the following criteria are regarded as available:

- (i) Full-time students seeking part-time work who also met condition (ii) below. Full-time students looking for full-time work are classified as not available for work during the reference week.
- (ii) They reported that there was no reason why they could not take a job in reference week, or, if they could not take a job it was because of "own illness or disability" or "personal or family responsibilities" or "already had a job".

Those not in the labour force include all individuals 15 years of age and over (exclusive of institutional population) who are not classified as employed or unemployed.

Code	Classification
1	Employed
2	Unemployed
3	Not in the labour force

Source

Labour Force Schedule, Form 05.

CLASS OF WORKER (CURRENT OR LAST JOB)

Description

This variable gives the class of worker of this individual as of reference week. For persons who had a job in the reference week, this is the class of their current main job. For persons who were unemployed or not in the labour force in the reference week but had worked within five years prior to reference week, this is the class of their most recent position. Persons who have never worked or have not worked within five years prior to reference week are coded 5 and 6 respectively.

"Paid" includes any person who worked as an employee for an employer. This also includes persons who work for themselves in an incorporated business. Starting with the 1979 tape, an additional group have been included as paid workers. This group contains only the following types of workers:

- (i) Non live-in babysitters and persons who provide services in the parental home of the children for whom they provide care.
- (ii) Persons who do house-cleaning for a number of clients.
- (iii) Handymen, gardeners, and persons who do "odd jobs" who are directed to their various clients by an agency (or other third party) such as the Canada Employment Centres.

NOTE: For Labour Force Survey purposes the above three types of workers are considered as self-employed. This should be taken into account when comparing SCF and LFS estimates. Both LFS and SCF consider persons as "paid workers" when they are employees of an agency providing baby-sitting, house-cleaning, or minor repairs and maintenance services as well as all persons who live on the premises of the client for whom they work.

CLASS OF WORKER (CURRENT OR LAST JOB) [CONCLUDED]

Description
(Conc'd)

"Self-employed" applies to individuals who work for themselves. These people may or may not have a business, farm or professional practice. Those who do, could have complete ownership or a partnership in the business. However the business must be unincorporated. If the person is in the process of buying the business while operating it, this is considered ownership.

"Unpaid family worker" includes any person who worked on a farm or in a business owned or operated by a related member of the same household. The work done must contribute to the operation of a family farm or family business.

Code	Classification
1	Paid, private sector
2	Paid, public sector
3	Self-employed
4	Unpaid family worker
5	Never worked before
6	Last worked more than five years ago

Source

Labour Force Schedule, Form 05.

1980 OCCUPATIONAL CLASSIFICATION [CURRENT OR LAST JOB] - 13-GROUPS AND 49-GROUPS

Description

These variables give the occupational classification of the individual according to the Occupational Classification Manual, Census of Canada, 1980, Catalogue No. 12-565E. For persons who had a job in the reference week, this is their current main occupation. For persons who were unemployed or not in the labour force in the reference week but had worked in the last 5 years this is the occupation they had at their most recent job.

The classification of occupations based on the 1980 Standard Occupational Classification was used for the first time on the 1984 file. This set of standards replaces those previously used which were developed for the 1971 Census. The changes between the 1971 and 1980 occupation classification systems are mainly related to managerial occupations. Persons performing managerial functions in the agriculture, retail trade, accommodation, food and beverages, and insurance industries, who are paid workers, are classified as managers in the 1980 occupation classification. Previously, they were coded to occupations such as farmers, sales, service, etc. Changes in other occupations were very minor.

The complete list of codes on the tape is given on the record layout. The 3-digit 1980 Standard Occupational Classification codes are given in brackets as well as the breakdown of the major occupation (2-digit level) groups.

Code 99 "Not applicable" is given to some records on the 49-Groups variable for confidentiality reasons. These records are coded to the applicable occupation groups only on the 13-Groups variable.

Source

Labour Force Schedule, Form 05.

NOTE:

These detailed occupation categories are provided to give tape users flexibility in creating their own groups for analysis. Users are advised that some of the codes above with small sample sizes may not yield reliable estimates on their own.

INDUSTRY (CURRENT OR LAST JOB)

Description The codes in this variable indicate the industry in which the individual was working at the time of the survey or at their most recent job within the last five years if they are not currently employed.

The codes in the 1980 Standard Industrial Classification Manual have been grouped as follows to create this variable:

S.I.C. Codes	Code on Tape	Classification
011-023	01	Agriculture
031-092	02	Other primary
101-249	03	Manufacturing, non-durables
271-284	03	" "
361-399	03	" "
251-269	04	Manufacturing, durables
291-359	04	" "
401-449	05	Construction
451-499	06	Transportation, communication and other utilities
501-599	07	Wholesale trade
601-692	08	Retail trade
701-761	09	Finance, insurance and real estate
851-869	10	Community Service
961-969	10	" "
981	10	" "
911-922	11	Personal Service
971-979	11	" "
771-779	12	Business and miscellaneous services
982-999	12	" "
811-841	13	Public administration
-	14	Never worked and permanently unable to work
-	15	Last worked more than 5 years ago

TOTAL USUAL HOURS WORKED

Description

The codes in this variable indicate the usual hours which the individual works per week at all jobs. This may differ from the standard work week (such as stipulated in a collective agreement).

For people with varying hours, "usual hours" is the average number of hours worked per week in the previous three weeks including Reference week.

Variable hours applies to those whose work is characterized, for example, by seasonal swings in the number of hours worked per week (e.g. farmers, fishermen), irregular daily schedules (e.g. real estate agents, door-to-door salesmen) etc.

This procedure is also applied for those persons who usually work only certain periods in the month, e.g., they may only work one week each month, and for them this number of hours reflects a monthly average and distinguishes more effectively between full-time work and part-time work.

Code	Classification
00-64	Actual hours
65	65 or more hours

Source

Labour Force Schedule, Form 05.

REASON FOR WORKING LESS THAN 30 HOURS PER WEEK

Description

This variable applies to individuals whose usual weekly hours of work is less than thirty (see preceding variable), and gives their reason for working part-time only.

Code 1: Full-time Job Requiring Less than 30 Hours Per Week. This code applies when there is some legal, institutional or natural impediment which prevents the respondent from working more than 30 hours per week. Examples of occupations in this category would be airline flying staff or transport drivers who are bound by law to restrict themselves to working less than 30 hours per week. Another example would be teachers who are restricted from working more hours because pupils only attend classes half days.

This code also applies to people such as farmers and fishermen who are interviewed in the off-season and report that they worked an average of less than 30 hours in the previous three weeks.

Code 2: Personal or Family Responsibilities. This code applies whenever the reason for working less than 30 hours per week is because the respondent has some ongoing commitment or responsibility to either themselves or their family which does not permit them to hold a job requiring more than 30 hours of work per week.

Some of the reasons which may fall into this category would be: the respondent provides care and supervision for his/her children or looks after sick or invalid parents or other relatives.

Code 3: Going to School. This code applies when the respondent cannot take a job to last more than 30 hours per week because he/she is currently attending an educational institution either full-time or part-time.

REASON FOR WORKING LESS THAN 30 HOURS PER WEEK [CONCLUDED]

<u>Description</u> (Conc'd)	Code 4: <u>Could Only Find Part-time Work.</u> This code applies when a respondent indicates that he would have preferred full-time work (more than 30 hours) but was only able to find a job requiring less than 30 hours per week.
	Code 5: <u>Did Not Want Full-time Work.</u> This code applies when a respondent has indicated that he or she preferred to take a job which required less than 30 hours per week.
	Code 6: <u>Other.</u> This code applies whenever the respondent has a chronic health condition or a disability which prohibits him/her from working more than 30 hours per week. This code also applies if none of the codes 1-5 apply.
	Code 7: <u>Not applicable.</u> This individual is not employed, or if employed works 30 or more hours per week usually.
<u>Source</u>	Labour Force Schedule, Form 05.

JOB TENURE

Description

This variable provides the length of time which the individual has been employed by his/her current employer. The specific job may have changed during this time. This variable also applies to persons classified as unemployed due to lay-offs.

Code	Classification
1	Less than 7 months
2	7-12 months
3	1-5 years
4	6-10 years
5	11-20 years
6	Over 20 years
7	Not applicable

Source

Labour Force Schedule, Form 05.

REASON LEFT LAST JOB

Description

For individuals who were not employed in the reference week, but had worked sometime in the last 5 years this variable gives their reason for leaving their last job.

Code 1: Own Illness or Disability. Code 1 applies if a person left or lost a job as the result of his or her own illness or disability, or some health related reason. It also applies to those who were forced to retire because of ill health or some other disability.

It does not apply, however, if the respondent retired from his or her job at the normal retirement age (see code 5).

Code 2: Personal or Family Responsibilities. Code 2 applies if the person lost or left his job because of personal or family responsibilities, such as marriage, pregnancy, a long trip or vacation, a serious illness in the family, raising a family, etc.

Code 3: Going to School. Code 3 applies if the person has left his or her job in order to go back to school. A school can be any type of educational institution such as a high school, university, community college, or private institutions such as Secretarial colleges, hair-dressing schools, auto mechanic schools, etc. or if government sponsored retraining takes place in a school defined above.

Code 4: Lost Job or Laid Off Job (Paid Workers Only). This code applies for a paid worker whose employment ended involuntarily (for example, discharge for cause (fired), plant permanently shut down, company moved, reduction of staff, job came to an end). With the exception of seasonal job loss, the respondent must have no expectation of being recalled by his employer.

Code 4 also applies when the paid worker's job was of a specific time duration. This includes work on a contract nature where the job ended as soon as the contract was fulfilled, as may be the case for some professional athletes, musicians, consultants, and so on.

REASON LEFT LAST JOB [CONCLUDED]

- Code 5: Retired. Most jobs have a normal retirement age of, for example, 65 years. If the respondent left his job at the normal retirement age then Code 5 is used. If, however, the person retired before the normal retirement age for that job due to ill health or disability then Code 1 applies. For retirement for any other reason, such as qualifying for earlier retirement with lower pension (e.g. at age 55 rather than 65), being forced into early retirement by the employer, etc., Code 5 applies.
- Code 6: Other. This code applies if the individual left his/her job because of changing dwelling (for example, moved to another city or moved too far away to go to work at the old job from the new place of residence), because of job dissatisfaction, or other reasons not included in Codes 1-5 above.
- Code 7: Never Worked
- Code 8: Last Worked More Than Five Years Ago
- Code 9: Not applicable

Labour Force Schedule, Form 05.

ACTIVITY BEFORE STARTED LOOKING FOR WORK

Description The codes in this variable indicate the major activity of job seekers before they started looking for work. Codes 1-4 apply only to unemployed individuals who actively sought work in the preceding four weeks.

Codes	Classification
1	Working
2	Keeping house
3	Going to school
4	Other
5	Not applicable

Source Labour Force Schedule, Form 05.

DURATION OF UNEMPLOYMENT AS OF REFERENCE WEEK

Description

The codes in this variable give the continuous number of weeks which the individual has been without work and actively looking for work up to and including the end of Reference Week, but not counting weeks when that person also worked.

Note: For persons who started looking for work before their last job ended, only the number of weeks since their last job ended are included.

Codes 01-53 apply only to individuals who actively sought work in the four weeks preceding the survey.

Code	Classification
00-52	Actual weeks
53	53 or more weeks

Source

Labour Force Schedule, Form 05.

TYPE OF WORK SOUGHT

Indicate what the person has been looking for in terms of the job and whether the person has been looking for a job on a full-time basis. Full-time is defined as 30 hours or more per week. This section applies only to unemployed individuals who actively sought work in the four weeks

WEEKS WORKED IN REFERENCE YEAR

Description

This variable gives the actual number of weeks in which the individual did any work during reference year.

Included as weeks worked are:

- (a) The number of weeks in which the person did any work, either part-time or full-time;
- (b) The number of weeks the person had a job but was not at work due to holidays, vacation, illness, maternity leave, strike or lock-out;
- (c) The number of weeks a person was self-employed;
- (d) The number of weeks a person had a job but was absent with pay (e.g. for job-related training, etc.)

These are not necessarily complete weeks for which the individual was paid. School teachers under contract to teach the full school year during reference year are coded 52 weeks even if they did not teach or do other work during the summer. Student nurses are not coded weeks worked as they are considered to be attending school.

Code	Classification
00	No weeks worked
01-52	Actual number of weeks worked

Source

Household Record Docket, Form 03.

WORKED MOSTLY FULL-TIME OR PART-TIME IN REFERENCE YEAR

Description This variable tells whether or not the individual worked during reference year and if he/she did work, was this work mostly full-time or part-time in terms of weekly hours.

Code	Classification
1	Full-time
2	Part-time
3	Did not work last year

Source Household Record Docket, Form 03.

WORK ACTIVITY IN REFERENCE YEAR

Description This variable is created from the previous two items - "Weeks Worked" and "Worked Mostly Full-Time or Part-Time" as follows:

Code	Classification	<u>Method of Creation</u>	
		<u>Weeks Worked</u>	<u>Full or Part-Time</u>
1	Full-year full-time worker*	49-52	1
2	Other worker*	49-52	2
3	Did not work in reference year	or 01-48 00	1 or 2

*For pre-1982 years, the criteria was 50 weeks. The effect of this change is minimal.

Source Household Record Docket, Form 03.

WEEKS UNEMPLOYED IN REFERENCE YEAR

Description This variable gives the actual number of weeks during reference year in which the individual did no work but looked for work. Weeks in which the individual did any work, even for one hour only, but looked for work the rest of the week, are counted as weeks worked.

Code	Classification
00	None
01-52	Actual number of weeks

Source Household Record Docket, Form 03.

NOTE:

1. Weeks a person is on temporary layoff are included.
2. Weeks in which full-time students also looked for work are not counted.
3. Only the weeks in which the person was also available for work are included.

NUMBER OF STRETCHES OF UNEMPLOYMENT IN REFERENCE YEAR

Description

This variable indicates whether the preceding variable "weeks without work and looking for work" consisted of one, two, three or more continuous stretches during reference year. A "continuous stretch" is a period of time in which the respondent's only labour force activity was "without work and looking for work". If the individual had no weeks without work and looking for work during reference year, this variable is coded 'not applicable'.

Code	Classification
1	One stretch
2	Two stretches
3	Three or more stretches
4	Not applicable

MAIN ACTIVITY WHEN NEITHER WORKING NOR LOOKING FOR WORK IN REFERENCE YEAR

Description

This variable tells what the individual did mostly when neither working nor looking for work during reference year. If the total of weeks worked and weeks looking for work is 52 for the individual, then this variable is coded "not applicable".

Code	Classification
1	Permanently unable to work
2	Kept house
3	Went to school
4	Retired or voluntarily idle
5	Other
6	Not applicable.

Household Record Docket, Form 03.

SAMPLE DESIGN AND IMPLICATIONS - [CONCLUDED]

Since a multi-stage stratified clustered sample design was employed, standard error estimates based on the usual simple random formula generally underestimate the true standard errors. For an illustration of the differences, see the uncatalogued paper "An Investigation of Variance Estimation in Family Expenditure Surveys" and the attached bibliography. See also the standard errors of average incomes (which estimate the sampling error) published in Survey of Consumer Finance, Catalogues No. 13-207 and 13-208. Standard errors of percentage distributions for individuals and family units by size are published in Catalogue No. 13-207.

The information necessary to estimate the standard errors is not given on this file. Most regression programs are not capable of considering design effects, even if the relevant information were available. However, generalized programs such as SAS, BMDP and SPSS produce coefficients using weighted least squares. The standard errors calculated by SPSS are much too low because the sum of the weights is used for the degrees of freedom. This can be corrected by dividing the weight on each record by the sum of the weights and multiplying by the sample size. This transformation will produce standard errors equivalent to those produced by SAS and BMDP. Specific requests to produce standard errors of estimates can be handled on a cost-recoverable basis. If this procedure is not followed, we suggest that users of regression packages be generally conservative in interpreting measures of statistical significance from these packages - perhaps using a factor of 2-3 to inflate the standard errors produced, since the standard errors in these packages are generally of the simple random type.

For further information on sampling and non-sampling errors associated with the survey, see Catalogue No. 13-207.

COMPARISON OF SCF ESTIMATES TO ADJUSTED PERSONAL INCOME

INDIVIDUALS - 1987

This detailed reconciliation is given for the convenience of researchers and must not be released or published without prior approval from the Director, Household Surveys Division, Statistics Canada. For a general description of differences in concepts and coverage see Catalogue No. 13-207.

Item	SCF		SCF(1)	NA Adjusted
	NA	Adjusted		
	%		Estimates in Millions of Dollars	
1. Wages and Salaries	100.0		259,852	259,950
2. Military Pay and Allowances	50.2		1,576	3,138
3. Farm Income	92.1		4,320	4,690
4. Non-farm Income from Self-employment Including				
Net Income from Roomers and Boarders	89.9		17,602	19,572
Earnings	98.6		283,350	287,350
5. Interest, Dividends & Miscellaneous Investment Income	47.7		18,591	38,989
6. Government Transfers (Sum of 7 to 11)	75.5		39,841	52,800
7. A. Family Allowances	94.9		2,618	2,758
B. Child Tax Credits(*)	89.0		1,361	1,529
C. Sales Tax Credits(*)	110.0		329	299
8. Old Age Security and Guaranteed Income Supplement	95.8		12,582	13,128
9. Canada/Quebec Pension Benefits	87.6		7,667	8,757
10. Unemployment Insurance	74.9		7,744	10,335
11. Other Government Transfers(2)	47.1		7,540	15,994
12. TOTAL (Sum of 1 + 2 + 3 + 4 + 5 + 6)	90.1		341,782	379,139

1 SCF amounts include receipts for individuals whose major source of income is military pay.

2 SCF = Social Assistance and Provincial Income Supplement plus Other Income from Government Sources plus Provincial Tax Credits.

NA = Item 6 - (Item 7+8+9+10).

* These items were obtained from Revenue Canada rather than National Accounts.

PROCEDURES FOR MANUSCRIPT REVIEW

Because of the complexities inherent in data from household surveys, users of these data are advised to consult with the Household Surveys Division prior to publication of the data. A manuscript review service is provided by that Division to assist users. Users of microdata tapes are also advised prior to publishing their research to consult the relevant pages of the tape documentation provided regarding data reliability and the use of small samples.

The subscriber should file with Statistics Canada a copy of published research or other results based on the use of these microdata. The subscriber shall use the following form of accreditation in reference to the microdata:

"This analysis is based on the Statistics Canada microdata tape (Individuals aged 15 and over, with and without income, 1987) which contains data collected in the 1988 Survey of Consumer Finances. All computations on these microdata were done by (name of user organization) and the responsibility for the use and interpretation of these data is entirely that of the author(s)".

Manuscripts can be forwarded to: Director
Household Surveys Division
Statistics Canada
Jean Talon Building, 5th floor
Tunney's Pasture
Ottawa, Ontario
K1A 0T6

The user should distinguish clearly in the manuscript between data derived directly from the tape on the one hand and all added assumptions, adjustments and modifications introduced by him/her on the other. For example, true wage rates cannot be calculated from the data on the tape and the researcher must specify his assumptions (for which the survey does not provide direct evidence) that would make the averages calculated from the tape appropriate proxies for such a variable.

ESTIMATES OBTAINED FROM MICRODATA FILE

The following tables contain counts and aggregates obtained from this tape and are given for your use in checking computer output from the tape. On microdata files prior to the 1984 income file, individuals with exceptionally high incomes, large income losses from self-employment or unusual characteristics were excluded from the file. As of 1984, records with these conditions have had selected characteristics zeroed out rather than removing them from the file. Counts on the following pages include these records.

We suggest that users not release or analyse data based on a sample of less than 100 records. In fact, due to our procedure of income imputation we feel that a slightly larger minimal sample would be more appropriate. Users employing small samples may wish to consult the **Income and Housing Surveys Section**.

1988 SURVEY OF CONSUMER FINANCES

QUESTION CARD

ITEM 50 ON F03 - SUPPLEMENTARY QUESTIONS AND CODES

Ask every applicable supplementary question for each person 15 years of age or over and enter a code in every column from

I	I		O
S	S		A
A	B		J

NOTE - BE SURE TO ASK EVERY QUESTION EXACTLY AS WORDED

I	I	<p>IMMIGRATION STATUS Is ... Canadian born? If 'YES', code: 00 - Persons born in Canada (including Nfid.) or Canadian by birth. If 'NO' ask: Since when has ... been residing in Canada? 45 - Persons who immigrated to Canada before 1946. 46 to 88 - Persons who immigrated to Canada between 1946 and 1988. (Enter the last two digits to the actual year of arrival.)</p>
S	S	
A	B	

S	<p>STRETCHES OF UNEMPLOYMENT Enter 'O' if 'WU' is '00'; Otherwise, ask: Where those weeks all in one stretch? 1 - Yes - 1 stretch 2 - No - 2 stretches 3 - No - 3 or more stretches 0 - Not applicable</p>
U	
I	

M	<p>MOTHER TONGUE What is the language ... first learned in childhood and still understands? 1 - English 2 - French 0 - Other</p>
T	
C	

O	<p>OTHER ACTIVITY Enter 'O' if 'WW' + 'WU' = '52'; Otherwise, ask: What was ...'s main activity during the weeks when he/she was neither working nor looking for work? 1 - Permanently unable to work 2 - Kept house 3 - Went to school 4 - Retired or voluntarily idle 5 - Other (Specify in 'Notes' of the F03) 0 - Not applicable</p>
O	
J	

W	W	<p>WEEKS WORKED During 1987, in how many weeks did ... do any work at a job or business? (Include vacation, maternity leave, illness, strikes and lock-outs.) 00 to 52 - e.g. 9 weeks = '09'</p>
W	W	
D	E
