### **Expenses on Dwellings Not Owned by Members of the Household**

*If a member of the household had expenses related to property owned by someone outside the household and if:*

- (a)** *it was used as a principal residence by a member of the household, then enter property taxes in Section I, Q.2 (total rent paid) and mark Section I, Q.6 as "2". Report any other applicable expenses in Sections I and J. For example: A relative who is not a household member owns the building but the household pays the property taxes and the rent is "free".*
- (b)** *it was not used for the household's principal residence or for business, then report these expenses in Section J, Q.2.2 (other accommodation). For example: A household has used a vacation home owned by a parent and spent money on repairs and utilities.*
- (c)** *it was used for farming or for other unincorporated business purposes, then deduct allowable expenses from gross income from self-employment when calculating net self-employment income. Report any capital costs to the household business in Section X, Q.1.5, page 63.*
