|------------------|--|---|--|--|
| FMTYP27          | Position: 42   | Character (2)   |  |  |
| Long Name:       | Economic family t  |   |  |  |
| Description:     | •  | ype. An economic family is composed of two or more persons living |  |  |
| -                | together who are related by blood, marriage, adoption or common-law.                               |   |  |  |
|                  | This variable is set   | using the major income earner in the economic family as the       |  |  |
|                  | reference person. To reduce the length of the category descriptions, the following terms are used: |   |  |  |
|                  | UNATTACHED INDIVIDUAL: While the definition of economic family does not                            |   |  |  |
|                  | include persons who do not live with a relative, such persons (called unattached                   |   |  |  |
|                  | individuals) are assigned an economic family id. If desired, data users can use this               |   |  |  |
|                  | variable to separate   | e unattached individuals from economic families.                  |  |  |
|                  |  | najor income earner in the economic family is aged 65 or over.    |  |  |
|                  |  | er living with the major income earner in the family, including   |  |  |
|                  |  | law and same-sex relationships.                                   |  |  |
|                  |  | LE: The major income earner and his/her spouse.                   |  |  |
|                  | RELATIVE: A person related to the major income earner by blood, marriage, adoption                 |   |  |  |
|                  | or common-law.   |   |  |  |
|                  | CHILDREN: The family includes at least one child (birth, adopted, step, or foster) of              |   |  |  |
|                  | the major income earner under age 18. Other relatives may also be in the family.                   |   |  |  |
|                  | Children of guardians are not considered "children" in this classification. In other               |   |  |  |
|                  | words, older relatives are not treated as de facto parents when there is no direct parent          |   |  |  |
|                  | identified.<br>LONE-PARENT FAMILY: Includes at least one child as defined above. Families          |   |  |  |
|                  | where the parent is 65 years or older are excluded.  |   |  |  |
|                  | OTHER RELATIVE: A person in the economic family who is not the major income                        |   |  |  |
|                  | earner nor his/her spouse or child under age 18. Children aged 18 or over are                      |   |  |  |
|                  | considered to be "o  | · · ·   |  |  |
