

AltaLIS is responsible for the distribution of several digital mapping datasets, including Base Features that are maintained by the Government of Alberta, to the private sector. Base Features is made up of several topographic themes that cover Alberta, and is a seamless GIS spatial database product to which other natural resource and land management information can be related.

Forest Management Agreement (FMA) Areas are one of several GeoAdministrative layers maintained within the Base Feature dataset. GeoAdministrative boundaries are land areas that have explicitly defined boundaries, established by legislation or by an agency to manage or administer land use.

The positional **accuracy** is dependant upon the various sources used for creation. See the 1:20000 Base Feature products for more detail. The information contained within this data set is a mapping representation only and is not an official definition of these boundaries. AltaLIS cannot provide technical support for this free layer, but updates will be posted as they are received.

The following information has been compiled to support this boundary file:

Layer Name: BF_FMA_POLYGON
Abstract: This layer contains polygon representation of the delineation of forest management agreements between the government of Alberta and companies to enable the companies to enter on forested land for the purpose of establishing growing and harvesting timber in a manner designed to provide a perpetual sustained yield.
Date Created: 2000 03 31
Date Currency: 2005 10 20
Last Date Modified: 2005 12 22
Completeness Report: All Forest Management Agreement Areas have been captured for the province. Excluded areas within Forest Management Agreement Areas have been mapped according to each individual area.
Compiled By: Resource Information Management Branch

Feature Metadata:

<u>Name</u>	<u>Description</u>
NAME	Name of the feature
SHAPE	Feature Identifier

Coordinate system type: Geographic
Projection: Cylindrical Equirectangular

Geodetic Datum: North American 1983
Reference Ellipsoid: GRS80

Longitude Of Origin: 0:00:00.000 (d:m:s)
Latitude Of Origin: 0:00:00.000 (d:m:s)
Standard parallel: 0:00:00.000 (d:m:s)

Horizontal storage unit: 1 deg
Vertical storage unit: 1 m
Storage center: Longitude: 0.000 deg
 Latitude: 0.000 deg
 Height: 0.00 m

False X: 0.00 m
False Y: 0.00 m
