

AltaLIS is responsible for the distribution of several digital mapping datasets, including Base Features that are maintained by the Government of Alberta, to the private sector. Base Features is made up of several topographic themes that cover Alberta, and is a seamless GIS spatial database product to which other natural resource and land management information can be related.

Forest Recreation Areas are one of several GeoAdministrative layers maintained within the Base Feature dataset. GeoAdministrative boundaries are land areas that have explicitly defined boundaries, established by legislation or by an agency to manage or administer land use.

The positional **accuracy** is dependant upon the various sources used for creation. See the 1:20000 Base Feature products for more detail. The information contained within this data set is a mapping representation only and is not an official definition of these boundaries. AltaLIS cannot provide technical support for this free layer, but updates will be posted as they are received.

The following information has been compiled to support this boundary file:

Layer Name: BF_FOREST_REC_AREA_POLYGON

Abstract: This layer contains polygons that represent the location of Forest Recreation Areas within the Province of Alberta. Forest Recreation Areas are established under the authority of the Forest Act as land designated for recreation use. Geographic descriptions of the extents of Forest Recreation Areas are contained in the

Date Created: 2001 11 28

Date Currency: 2001 01 31

Feature Metadata:

<u>Name</u>	<u>Description</u>
NAME	Name of the feature
DOC_TYPE	The type of documentation that defines the location of boundaries
DOC_NAME	The name of the documentation that defines the location of boundaries
DOC_DATE	The date the documentation that defines the boundaries came into force
SHAPE	Feature Identifier

Coordinate system type: Geographic
Projection: Cylindrical Equiarectangular

Geodetic Datum: North American 1983
Reference Ellipsoid: GRS80

Longitude Of Origin: 0:00:00.000 (d:m:s)
Latitude Of Origin: 0:00:00.000 (d:m:s)
Standard parallel: 0:00:00.000 (d:m:s)
