

# NATIONAL PARK BOUNDARY

*Digital Mapping for Alberta*

[www.Altalis.com](http://www.Altalis.com)

AltaLIS is responsible for the distribution of several digital mapping datasets, including Base Features that are maintained by the Government of Alberta, to the private sector. Base Features is made up of several topographic themes that cover Alberta, and is a seamless GIS spatial database product to which other natural resource and land management information can be related.

The **National Park Boundary** is one of several GeoAdministrative layers maintained within the Base Feature dataset. GeoAdministrative boundaries are land areas that have explicitly defined boundaries, established by legislation or by an agency to manage or administer land use.

The positional **accuracy** is dependant upon the various sources used for creation. See the 1:20000 Base Feature products for more detail. The information contained within this data set is a mapping representation only and is not an official definition of these boundaries. AltaLIS cannot provide technical support for this free layer, but updates will be posted as they are received.

The following information has been compiled to support this boundary file:

**Layer Name:** BF\_PROVINCIAL\_PARK\_POLYGON  
**Abstract** This layer contains polygons that represent the location of Provincial Parks within the Province of Alberta.  
**Date Created:** 2001 08 10  
**Date Currency:** 2001 06 15

## Feature Metadata:

<u>Name</u>	<u>Description</u>
NAME	Name of the feature
DOC_TYPE	The type of documentation that defines the location of boundaries
DOC_NAME	The name of the documentation that defines the location of boundaries
DOC_DATE	The date the documentation that defines the boundaries came into force
SHAPE	Feature Identifier

**Coordinate system type:** Geographic  
**Projection:** Cylindrical Equiarectangular

**Longitude Of Origin:** 0:00:00.000 (d:m:s)  
**Latitude Of Origin:** 0:00:00.000 (d:m:s)  
**Standard parallel:** 0:00:00.000 (d:m:s)

**False X:** 0.00 m  
**False Y:** 0.00 m

**Geodetic Datum:** North American 1983  
**Reference Ellipsoid:** GRS80

**Horizontal storage unit:** 1 deg  
**Vertical storage unit:** 1 m  
**Storage center:** Longitude: 0.000 deg  
Latitude: 0.000 deg  
Height: 0.00 m
